**Subject:** Re: JFK Library Information in Response to "Re: Agency Heads" Memo  
THANKS TO JEREMY GUNN/ARRBCC:ELIOTT.MITCHELL Samoluk/ARRBDate:10/08/97 08:32:08 FIVE  
Library Information in Response to "Re: Agency Heads" MemoJeremy:My response:1. Number of  
assassination records from JFK Library at ARRB awaiting ARRB staff review: 103 Quality of the estimate:  
accurate2. Number of records that have been identified as "assassination records" that are not yet at ARRB  
but that are being processed by JFK Library before being forwarded to ARRB: Under 100 Quality of estimate:  
reasonably confident estimate3. Additional information on 1.:These are records in the SCIF that were  
received from the JFK Library and are awaiting action. They have not been reviewed in detail because they  
have been caught in the transition involving my responsibilities and Michelle's. As previously reported in JFKL  
status memos, this group of documents includes documents that have not been reviewed by the relevant  
agencies yet. I told the Library that the Board would seek to expedite the review and release through us  
working with these agencies. In other instances, there are redactions taken long ago, but it is likely that they  
can now be opened. Again, our contacts with the relevant agencies will hopefully help to expedite the review  
and release of records. I have to devote time to these documents and intend to seek Michelle's counsel on  
them.Additional information on 2.: This estimate is based on what Library staffers have told me. The Library is  
still working through their problems with the disk. Thus, they cannot give an exact number on what remains  
to be reviewed. Their goal is to have their data updated by October 15 and they say that goal will be met.Tom

From:Jeremy Gunn/ARRB Date:10/06/97 08:42:36 AMSubject:Agency HeadsCongratulations! Each of  
you is responsible for one or more agencies. I would like to collect your best reasonable estimate of the  
number of assassination records from your agencies that are awaiting Board Review. By this I mean to include  
only records that have already been identified as "assassination records" and are being processed either by  
the agency or are here in our offices awaiting action. (I am not asking for estimates on "requests for additional  
information and records" that we have made to the agencies nor am I asking for estimates on the numbers of  
assassination records that ultimately may be found at agencies.) With the exception of CIA proper and FBI  
proper, would you please provide your best estimate of the following as well as your candid assessment of the  
quality of your estimate (e.g., "accurate," "reasonably confident estimate," "just a guess"):1. Number of  
assassination records from your agency at ARRB awaiting ARRB staff review \_\_\_\_\_. Quality of the estimate  
\_\_\_\_\_.2. Number of records that have been identified as "assassination records" that are not yet
