**Subject:** Re: fast track

In early talks about fast track and again at the no-name meeting on Wednesday doug insisted we would be using regular review track for Military documents.Can you check with him and I will modify the macro Monday night if we want to proceed.What other Agencies might benifit from moving to fast track?

**Subject:** Fast track  
I thought the set all fields was something that the fast track was designed to do automatically each night. Is that a macro that I need to run at the end of each day? We have an Army document in the fast track. Can you make it so fast track will look in the Army source database for its information?
