**Subject:** Zapruder Camera  
Rollie, I am glad to hear you received your "Zapruder type" Bell and Howell camera safely from us in the mail. Rollie, I am quite embarrassed that after all the work you put into writing a test plan for the Dallas camera test, that it came to naught. However, what happened could have happened to anyone unfamiliar with 8 mm cameras, which only proves that I was correct when I recommended to our leadership that we send YOU to Dallas to do the tests. I am very sorry my advice was not heeded. I hope you still intend to replicate the sun angle and geometry of Zapruder's "event" in a lab. I think it is very important to do that. Please let me know--you can send me another e-mail if you want. I will be on leave from December 15-27. I will be incommunicado here at work from December 10-12. Good Luck in wrapping up all of the important work you are doing for us. We will show appropriate appreciation to you after your work is completed!  
**Body:** To: Douglas\_Horne @ jfk-arrb.gov cc: [REDACTED] bcc: Douglas Horne/ARRB) From: zavadarc @ netacc.net @ INTERNET @ INTERLIANT Date: 12/03/97 09:17:49 PM CET Subject: Camera Return Doug; Camera arrived safely by FedEx this afternoon. Called your home number about 1930hrs to report that I found no fault with the camera --except that it was completely unwound! I wound it and it completed the test roll without a problem. Rollie
