recstat: PMSubject: Printer problem I checked your WP and your Notes and they both seem to be printing as auto
DeliveryPriority: select. I think someone may have sent a manual feed doc through before yours and caused the problem. In
DeliveryReport: any case, I tested them both and they work fine now. However, in the process I may have changed the view
ReturnReceipt: on your Notes. I hit escape as soon as I hit the wrong key so I don't think it changed but if it did, sorry.
