_____Subject: Forensic PathologistsAuthor: "Jeremy

Maio, two leading experts in forensic pathology, have graciously agreed to provide pro bono services and
advice on the enhanced autopsy photos. They have agreed to examine the photos and make a
recommendation as to whether there is sufficient additional information in the photos that would warrant the
convening of a panel of experts to examine the autopsy materials. Dr. Lee's schedule during the next two
months is very busy, but he has given us a tentative date in January and a backup date in February.
