If you have the numbers handy, we can look at the databases to see what happened, and what needs to be done.

PMSubject: Changes in document "status" In reviewing the redacted copies of NSA records, I noticed several changes in the status of three documents. These documents appear in Review Track Archive as being "postponed in part," however, the NSA has now agreed to release the documents in full. My question is: do we need to "re-notice" the documents, or make any other changes? Thanks, ML
