 PMSubject: Re: configuration part 2I tried to login with the account below and the password was not  
 accepted, its been awhile so you might have changed it, can you send it to me again before weds.thanksif you  
 could copy me at CR9@umail.umd.edu that would help.Chet,I'd like to get this wrapped up today or by  
 tomorrow morning at the latestas I'm preparing to go on vacation tomorrow afternoon. Do you have access to  
 ftp? If so, I'll give you an address and account to access the eudora installation file you'll need. I have also  
 included the information you will need to install tcip for windows 95 and the information you'll need.I'm  
 assuming that you have an internet connection so I won't bother with the dial-up/modem procedures.ftp  
 address: hums1.cohums.ohio-state.edulogin name: ftpguestpassword: cohumsnavigate to the following  
 directoryadmin2\users\admin\ftpguest\disk1 and run setup.exeThe other information will be automatically  
 extracted from the other directoriesAfter you have the program installed in Windows 95, you will need to  
 set the following parameters in eudora-1. Under the tools/options menu setting, select Getting startedpop  
 account = kehall@pop.service.ohio-state.educonnection methodwinsockpersonal information return address:  
 hall.409@osu.eduhostsmtp: smtp.service.ohio-state.eduending mailsmtp server:  
 smtp.service.ohio-state.eduThe rest of the information isn't really necessary.TCP/IP information that you'll  
 need-Under Windows 95/Control Panel/Network/TCP/IP ADDRESSclick on "specify an ip  
 address"128.146.134.122subnet mask255.255.255.0DNS CONFIGURATIONclick on "enable dns"host  
 hall.409domainosu.edudns search order128.146.48.7128.146.1.7WINS  
 CONFIGURATIONclick on "disable"GATEWAYadd128.146.134.1Ignore "advanced" and "netbios" or any  
 other sections.Click on ok and system should ask you to reboot? go ahead and try it out.I will be leaving at  
 2:00pm tomorrow (11/21/97) for vacation. If you need help after that, you can try one of my staff listed below  
 or the university help system that also supports eudora.Good luck, Mike GarofanoHumanities Information
