Subject: Re: jfk assaination

The Assassination Records Review Board was established to oversee the identification, review, and release of still-classified documents that relate to the assassination of President Kennedy. Once the Review Board releases the documents to the public, the documents are then housed in the JFK Collection at the National Archives. The Review Board was not established to reinvestigate the assassination. We do not draw any conclusions from the documents we release. I can, however, send you information about the work of the Assassination Records Review Board. If you are interested, please e-mail me your home address. Sincerely, Eileen A. Sullivan
Press and Public Affairs Officer
