Subject: Re: Update

Thanks Carrie. Kevin and I talked about your informant yesterday afternoon and agreed that we would go along with Carol's request to present it at the May meeting, and not the April meeting. On my calendar, I have noted that we will review the documents with whatever evidence Carol gives to us at the beginning of May. As for the addl requests -- We have finished our work on #22 -- the FBI will process the documents and provide documentation on one volume that we requested that they didn't have. #29 looks good and finished from your perspective. When you come in tomorrow, visit with me about #40. I have some questions about whether the Chicago field office really looked for the file that we want them to find. And finally, have fun working on Dean. Keep me updated on the HSCA subject files that the Bureau is making available to you for review and negotiation. Carol and LuAnn told me that they were experiencing a bit of a shortage and I would like to do whatever we need to do to keep up the pace. Thanks, Laura

Subject: Update
I have brought back the informant file that I have been working on. It is now in my Scif space and contains notes on the content of the informant files I reviewed. There are also copies of several documents that may be assassination documents if you are interested in looking at them. Kevin and I talked to Carol the other day about this informant. The FBI field office will be conducting research and she believes she can have everything ready for the May Board meeting. If you have any questions just ask. Also my page count may be low this week. I wanted to get this thing wrapped up and spent two days reviewing files. Laura, I wanted to check in with you about additional requests. I believe #40, Kutner and #29, Cuban Intelligence should be complete now. Do I need to do anything for #22, Masen or is it finished. Also I am now working on #50, Dean.
