**Subject:** Lesnick

There isn't much information on Lesnick in the sources I checked. Max Lesnick the author of the Editor of the "replica" was involved with anti-Castro activities in Miami. His position in Miami interacted with Masferrar, Veciana, and other individuals involved in anti-Castro activities. We are interested in declaring two paragraphs of the five page document Not Believed Relevant. The two paragraphs occur at the top of page four. This document is from 1974 and is found in Volume 2 of Lesnick's see reference. No rifs have been created for this document by the FBI. The two NBR paragraphs have been referred to CIA who has continued to redact the two paragraphs. I am going to run back to the FBI and look over his file quickly to determine if there is anything else of value. I will call you with the document number because it is too faded on my copy.

**Body:** Sorry this is so last minute.
