Subject: Re: running

Yes, let's run. I'm not sure what time I'll be able to get out of here, but we'll figure it out. And -- I'll just plan to drop Wren off at your house tomorrow so that the dogs can play. When I come to pick her up, I'll feed Barrett & let her out to go to the bathroom. Will that help? It will be good for Wren and for Barrett. I'll call you at home when I have a better sense of my timing for this evening. Don't you think phones are important when you do litigation? I sure do. This is frustrating. Are we running tonight? I am planning on it. Just give me the word via e-mail or my answering machine at home. Can I ask a favor? I am leaving tomorrow morning for Orlando Florida and Marie is getting back in the afternoon/evening. She plans to be home for a while, but since it is her birthday tomorrow, she is going to go out to dinner. Would you consider 1) maybe leaving Wren at my house tomorrow or 2) maybe running with Barrett and Wren or stopping by to visit with her. Don't worry if you can't, Kathy already said that she would come over if necessary. Hope your week is less crazy than last week. Hope you had a nice Easter
