Subject: It depends.

But probably yes. Am I just having a weird deja vu, or did we talk about this earlier this week? In any case, you should include in your memo to me a mention that a JFK assassination FOIA request is present in the file and state how many serials are involved. Then, when I go to designate records in my letter/memo to Carol, I will determine whether to designate all of the records or only some. To: Laura Denk/ARRBcc: From: Marie Fagnant/ARRB Date: 05/14/98 04:51:41 PM Subject: Do we consider FOIA requests on a subject which is an additional request to be assassination records if the request itself mentions the Kennedy assassination?
