**Subject:** Re: Laura and her man

I offer all the resources available at the FBI to research the history of Laura's gentleman. Of course I'm only going to be there another week so we'll have to move fast. What is of importance to you, convictions for ax-murdering, ex-girlfriends, mob connections, sexual deviancy, amount of debt? I'm glad you got a message today. I'm looking forward to meeting this guy and discussing my tissue expanding options, of course probably not as excited as Heidi. So is everyone planning on taking it calm tonight? I think I am up for getting a movie, preferably something light that doesn't require thinking. I think I need to run to the store real quickly tonight, can you think of anything we need for the weekend? Hope you both have a good day and good luck Laura with the message delivery. Just don't do the swingers mistake and continuously call to correct bad messages.
