Subject: Re: Medical info request

Dear Mr. Sawa: Thanks for writing. Unfortunately I will not be able to provide you with a reduced rate -- we are handling a lot of orders and need to recover at least some of the copying costs. I apologize, and I would like to have helped you in some way. Perhaps I could send you the staff memo that accompanies the deposition transcripts. But if you do decide to order the materials (some items are deposition transcripts, and the \$96 item is exhibits only) you need to do so on or before this Friday. Let me know how/if you would like to proceed. Eileen

 Dear Eileen, We corresponded a few months ago when I wrote and asked if you could send me some brochures for the JFK class I'm teaching, and you graciously sent me a bunch to hand out to people. In that same vein, I'm wondering if there is any way I could get a copy of the \$95 packet of medical documents that the Board released last week, either at a reduced rate, or some type of second-hand copy. I want to concentrate in my class on the Board's progress in the medical arena, and to that end, I have it planned to show the students as much medical information as I can gather. First, I realize you are working furiously to wind things down in time for the October Board shutdown, and second, I hate to ask for anything for free; were it not for an educational reason, I would not do so. I would appreciate a reply at your earliest convenience. Thank you, James P. Sawa JSawa@aol.com
