Subject: Re: CIA-IR-I5

I assume the ! is a 1 (or a freudian slip) My Mexico surveillance project has been a work in progress that I started as a J-Track project, but put on hold awaiting a response from the agency. Has the CIA given any written response to our request? If not I will simply close-out the wrap-up memo since I already put a lot of work into it and add the information on the tapes. To: Irene Marr/ARRBcc: From: Michelle Combs/ARRB Date: 09/08/98 05:17:54 PM Subject: CIA-IR-I5 Could you please write up a memo for the record on the Mexico City surveillance information we received from CIA including a list of the tapes which are being processed. I can show you the format of the memo if you wish. I need the memo to go in the CIA Requests
