REF: FOIA Case F-2017-00164 Appeal  
Appeal Control Number 188

Dear Mr. Greenewald:

This is in response to your on-line submission by which, pursuant to the Freedom of Information Act (FOIA), you are appealing the NRO's denial-in-full response to your 13 September 2017 request for a copy of the "NRO GEOINT Capabilities on IntelDocs, as referenced on the NRO Intellipedia page..."

As the Appellate Authority, and after a complete review of your request, I have determined that the document you requested includes some segregable, releasable information. Therefore, in response to your appeal, we are releasing the document to you in part.

Information withheld from release is denied pursuant to FOIA exemptions (b)(1), as properly classified information under Executive Order 13526, Sections 1.4(c) and 1.4(g); and (b)(3), which is the basis for withholding information exempt from disclosure by statute. The relevant withholding statute is 10 U.S.C. § 424, which provides (except as required by the President or for information provided to Congress), that no provision of law shall be construed to require the disclosure of the organization or any function of the NRO; the number of persons employed by or assigned or detailed to the NRO; or the name or official title, occupational series, grade, or salary of any such person.

You are advised that you are entitled to a judicial review of this determination in a United States District Court in accordance with 5 U.S.C. § 552, as amended.

As part of the 2007 FOIA amendments, the Office of Government Information Services (OGIS) was created to offer mediation services to resolve disputes between FOIA (not Privacy Act) requesters and Federal agencies as a non-exclusive alternative to litigation. Using OGIS services

does not affect your right to pursue litigation. You may contact OGIS in any of the following ways:
