CONSOLIDATED RESOLUTION MATRIX  
AFI 10-206, OPREP-3

SOURCE	TYPE	PAGE	PARA	LINE	COMMENT	RATIONALE	DECISION (A/R/M)
USAFE (703)	A	5	2.4	32-33	Re-institute verbiage from AFI10-206, para. 2.5.	Current 10-206 provides clarifying information on how correction reports are to be accomplished. Recommend adding explanatory remarks to show how corrections should appear in SKIWeb.	R-Those procedures are obsolete.
USAFE (703)	A	12	3.10.6.8	23	Remove reference to para. 3.3.8.	Stated reference does not exist.	A
USAFE (48)	S	21	Figure 6.1	18	DSCA example without the paragraph identification data (that is in the "( )" after the paragraph) provides data without explicitly saying what the purpose of each paragraph is for.	Add a heading for each DSCA paragraph that states what its purpose is... 1. SUPPORT / LOCATION / ASSISTANCE REQUESTED: DSCA/Fairborn, OH/Fire Department Support. 2. Estimated Duration of Military Support: actual time was 60 minutes. 3. Civil POC (Organization, title, name, contact info) and time of request: Fairborn Fire Department, Mr. John Doe, comm 937-555-2334, john.doe@ffd.gov; request @ 200030ZAug2007. etc.	R-Para 6.2.1-6.2.9 states
USAFE (48)	S	22	7	2	This item is not listed in paragraph 3.2	If Crescent Edge is not to be reported under asynchronous/synchronous reporting remove from OPREP-3 system and use as overall report category, similar to SITREP, DSCA and HURCON reporting.	R-Part of CJCSM 3150.03D
USAFE (48)	A	23	8.2.2	37	This last sentence does not completely make sense. The commander will not make a determination based on Figure 8.1, but provides report info.	Recommend: "The commander will make a determination if the incident meets OPREP-3 criteria using the applicable OPREP rule, Figure 8.1, and Table 8.1."	OBE
USAFE (48)	A	26	9.1	6	COMAFFOR is not in your glossary	Spell out acronym on first use and add to glossary.	OBE
USAFE (48)	A	26	Figure 9.1	17	CSF--what is this?	Spell out acronym on first use and add to glossary.	OBE
USAFE (704)	A	38	n/a	n/a	There are two Rule 3F's on the page. All subsequent rule numbers must be adjusted	Will cause confusion in transmission of the OPREPs.	A
USAFE/IG		9	Table 3.1	5	Table lists the Beeline timing criteria as 1 Hour after the incident. Unless it's changed, this criteria is for Pinnacles only.	May cause controllers to miss timing constraints.	R-Change
USAFE/IG	Typo	12	3.10.6.5	5, 6	"will be provided" stated twice in same sentence		A
USAFE/IG	N/A	N/A	N/A	N/A	Are there no report serial numbers any more? How do HHQ and CPs track what reports need to be closed out?	Having a report tracking system (serial numbers) will aid HHQ and units with tracking reports.	R-No question asked

USAFE/IG	N/A	N/A	Atch 3, Table A3.1	N/A	This list looks like it is based off of the old MEA list and not the new "Affected Areas" list that Skiweb uses. C2 CIF-10-010D has a paragraph (1.6) that has a list of addresses (affected areas listing) that CPs will use when they report in SkiWeb. No where in this AFI does it have this list.	Could be wrong but it could be confusing when trying to figure out who the affected areas are in Skiweb.	R-MEA list is for contact only at this point in time.
USAFE (39)	A	2	1.1.2	26	change to lower case 's' and 'u' on separated units		R

USAFE (702)	Admin	5	2.5	35-36	Paragraph states, "All received/transmitted AF OPREP-3 reports will be stored..." <b>Recommend rewording this paragraph to prevent confusion.</b>	MAJCOMs forward OPREPs to their units via SIPR email. The way this paragraph is worded does not specify AFSWC/MAJCOMs will store received reports and units will store reports they transmit	R
USAFE (702)	Admin	9	3.6.	40	Between Initial and Initial/Final there needs to be a comma.	To prevent confusion when reading.	
USAFE (702)	Admin	12	3.10.6.5.	5-6	Remove second "will be provided".	The words "will be provided" are typed twice.	A
USAFE (702)	Admin	20	6.2.	23	There is a "(" at the end of the line with nothing else after.	"(" Is not needed.	A
USAFE (702)	Admin	44	Rule 11A		Rule 11A falls under the section "OPREP-3B Crescent Edge". Recommend changing this to "OPREP-3B/P Crescent Edge."	Chapter 7, paragraph 7.1. states, "The flag words BEELINE and PINNACLE are used to reference the SAP management level to be contacted." Doesn't this imply that the report could be an OPREP-3B or P?	M
AFSOC/A3OP	A	2	1.1	2	(starting with second line) Change to read "...CSAF and intermediate commanders and their key staffs with the information necessary to make timely operational decisions. OPREP-3 damage cost estimates are initial <i>raw estimates</i> intended to help determine OPREP-3 reporting rule number/dollar threshold categories only (not as an official cost estimate). If incident damage is <i>suspected</i> to meet or exceed the OPREP-3 reporting dollar threshold baseline (raw estimate) an OPREP-3 is required. <b>Do not</b> delay reporting to obtain further/more accurate estimates unless information is significant to <i>severity</i> (OPREP-3 cost estimates should not include external costs such as shipping, man-hours, MRT costs, etc.). When incident significance and urgency no longer exist, OPREP-3 reporting should be suspended. Precise incident info will be made available via other channels (i.e., safety) within the respective (non-OPREP-3) report timeline.	Standardizes the way cost estimates are used in the OPREP-3 reporting process. Helps ensure reports are submitted without delay that may otherwise be caused while awaiting further/more accurate info. AMC/A3OC (MSgt Harrill) DSN 779-3245	M	3	1.3.3 - 1.3.3.1	19-23	These two paragraphs are contradictory. Para 1.3.3. states: "Tenant commanders assigned to a different MAJCOM other than the host retain the responsibility to report items affecting their assets." Para 1.3.3.1 states : "The tenant commander retains approval/release authority for MAJCOM level reports involving their assets if the unit has a C2 function." In short, the first paragraph says that an AMCC can submit PINNACLES, BEELINES and HOMELINES and the second paragraph says that an AMCC can only submit HOMELINES. To deconflict the paragraphs, A3OC recommends rewriting para 1.3.3.1 to state: "Tenant unit commanders do not have approval/release authority for reports higher than MAJCOM level (HOMELINE). However, all reports regarding tenant assets will be coordinated with the respective tenant commander prior to submission."	Suggested verbiage clarifies release/approval authority for host and tenant commanders.	M
AMC/A3OC (MSgt Harrill) DSN 779-3245	M	3	1.4.1	39	Recommend having squadron commanders and First Sergeants briefed quarterly at a recurring leadership forum (e.g., "Wing Stand-Up", First Sergeants Council, etc.).	While having all squadron commanders and First Sergeants trained is necessary, having the requirement to have them trained within 30 days is unrealistic. CP Managers and Reports NCOs would have an opportunity to provide training in an environment where maximum leadership participation is most likely to occur. Furthermore, the CP/AMCC would not have to endure the challenge of securing appointment times on the schedules of multiple Commander's/First Sergeants.	R

Reports including REPOL, MEDREP, CIRVIS are reports owned by Logistics, Medical, and NORTHCOM respectively and do not involve 1C3 action or CJCS or CSAF notification. CIRVIS in particular is no longer required.	The valid reporting processes need to be absorbed by their functional areas (Logistics and Medical). CIRVIS no longer exists.	A
A30-AOA		2	1.2.2.2.	48	Remove: "Distribute data in usable form to requesting Air Staff offices."	Watch will NOT distribute data based on a request for a staff office. There must be a valid requirement and need to know. If left as written, it means the watch would have to provide data to those that simply request it.	M
A30-AOA		5	1.2.3.1.	4	Reword "Develop instructions to ensure timely and accurate AF OPREP-3 reporting." to read: "Develop instructions to ensure AF OPREP-3s are reported within established timelines IAW Table 3.1."	Puts the requirement on the MAJCOM and the commanders instead of the CP. Accuracy is a given in reporting. Don't need to tell a commander to give good info.	A

A3O-AOA		5	1.3.1.		Reword: "Ensure timely and accurate reporting for all events/incidents that meet Chairman, Joint Chiefs of Staff 10 (CJCS) and CSAF....." to read: "Ensure all events/incidents that meet Chairman, Joint Chiefs of Staff 10 (CJCS) and CSAF are reported within established timelines IAW Table 3.1....."	Changes ensure commanders are responsible for the time and information in authoritative language. "Timely" is an ambiguous term.	A
A3O-AOA		4	1.4.7.	18	Remove "IAW MAJCOM PROCEDURES"	Paragraph is a stand alone direction. IAW MAJCOM procedures is an unneeded statement. MAJCOMS will supplement with how they want it. AF instruction only needs to direct the requirement.	A
A3O-AOA		4	1.4.8.	21	Move this paragraph to the MAJCOM section 1.2.3.	Wings should be supplementing MAJCOM policy on local procedures. This would not require AF level approval for a wing supplement. Should be going to MAJCOM for approval. Only MAJCOM supplements should need AF approval.	M
A3O-AOA		5	2.1.1.	8	Change to read: "Classify AF OPREP-3 reports according to content. Reports containing the following will be classified a minimum of SECRET:"	Ensures controllers are looking at information going into a report and not relying on a brief list to classify reports.	M

A3O-AOA		9	3.5.1.1.	21	Add: "Exercise Voice Reports will be posted in the AF.EXERCISE Room."	Separates real world and exercise information. At no time will exercise information be allowed in the AF.WATCH Room.	A

A30-AOA	!!!!!!	9	3.6.	36	Add: "Units will not submit an Asynchronous report until AFSWC acknowledges the Jabber report."	The watch must respond to an input within 5-minutes. Units are double tapping the reports now. The watch needs time to gear up for the report and ask specific questions needed to be answered in the record copy. If we do not have that time, reports are going to be sent missing information and AF Principals could be caught off guard from Joint Staff.	M

		10	3.9.4	48	Remove this paragraph.	OPREPS cannot violate HIPPA because they do not include personal identifiable information. If controllers have to screen information on serious injuries and death the report will never make it in the time allotted. The statement is not required.	M
A30-AOA		11	3.10.1 - 3.10.3.		These paragraphs don't mention Jabber. "Final reports will be entered in to SKIWeb." this states that a final report does not need to be voiced.	When stating how to submit an initial, a follow up and a final there is no mention that the report must be voiced first. A3O-AOA		23	8.2.1. and 8.2.2.		Remove these paragraphs.	Don't need to tell wings that if another unit discovers the incident first they will report it. This is already stated in early paragraph (first CP with knowledge). Also, if the 24th has an incident and is aware, why would a wing submit a CS OPREP. They would submit a mission impact report. 24AF would submit the CS report.	OBE
A3O-AOA		26	Ch 9		Remove Chapter.	This should be covered in a 31 series AFI not this one. If there is a rule that applies, add it and CP will submit OPREP. No need for so much detail on a NON-OPREP report.	OBE
A3O-AOA		37			Rule 3A - Change "Higher Headquarter" to "CSAF"	MAJCOM Interests would be a CCIR and would not be covered in this AFI.	OBE

Rule 5I titled Telecommunicatino Outage.	
A3O-AOA		41			"Death of NON AF Active Duty" when there is no Service representation available.	Joint Basing has enabled CPs to submit reports to AFSWC on other service deaths. There is a service component available at these bases. This rule limits the joint reporting and does not enable future joint reporting efforts. If there is one CP on a joint base, then we need to allow that reporting. Remove "when there is no Service representation available."	
A3O-AOA		41			Rule 7E: Add "NOTE: Do not submit an OPREP for Illness or Natural Cause Deaths.	If using the civilian death rule, we do not need to know about the 75 year old that has died of cancer. VIP would be a different rule.	
A3O-AOA		46			MEA List is not required to be here.	MEA List is not required if there is an address group available. If the units are going to use a specific address on the SIPR there is no need for this in the AFL.
