"UNIDENTIFIED FLYING OBJECTS" - TUE 12 AUG 97 - POLICE REPORT

1. Sec(AS) has received yet another report of an "unidentified flying object" which was raised by a policeman.
2. I should be grateful if you would let me know if the report represents anything of air defence interest.

Section 40

Sec(AS)2a1

MB8245 Section 40

At 0100 hours Tuesday 12th August, 1997, I was travelling along the unclassified Corsham to Lacock road. I was in company with Section 40. We had reached a point just past the railway bridge, grid reference 894698, when an unidentified object flew past us in the same direction. I would estimate it's height at approximately 30 feet as it was just above the tree top level. The Police vehicle was travelling at 35-40mph and the object's estimated speed is 45-50mph.

Having passed us it then headed north east towards Chippenham. At this point it was joined by a second object which seemed to be following it. As they headed towards Chippenham their speed increased and were lost to sight of us within seconds.

The night was still and calm, visibility was very good and the Police Vehicle had it's windows down.

On seeing the objects the Police vehicle was turned left and the engine/radio switched off. At no point whilst in view of the objects could any noise be heard ie: rotor blades, engines, propellers.

I can only describe the object as triangular. It had two red lights on the rear, these were about 15 feet apart. The lights were angular but approximately the size of a saloon car's headlights. On the front was a white light but it didn't give off a beam of light like a search light would. The thickness/shape or any other features of them could not be made out as the brightness of the rear red lights restricted us from seeing it clearly. RAF Lyneham contacted but they had nothing flying at that time.

Reported to Police from Section 40 was a helicopter following her home from Taunton at 0010 hours that day. Wiltshire Police and Avon & Somerset Police were not using their helicopters.

I have spoken with her and all she can say is she was followed home however she didn't get any description of the object and only saw a white light. No noise heard and was unable to estimate how far away from her it was.

I hope this is of some use to you..

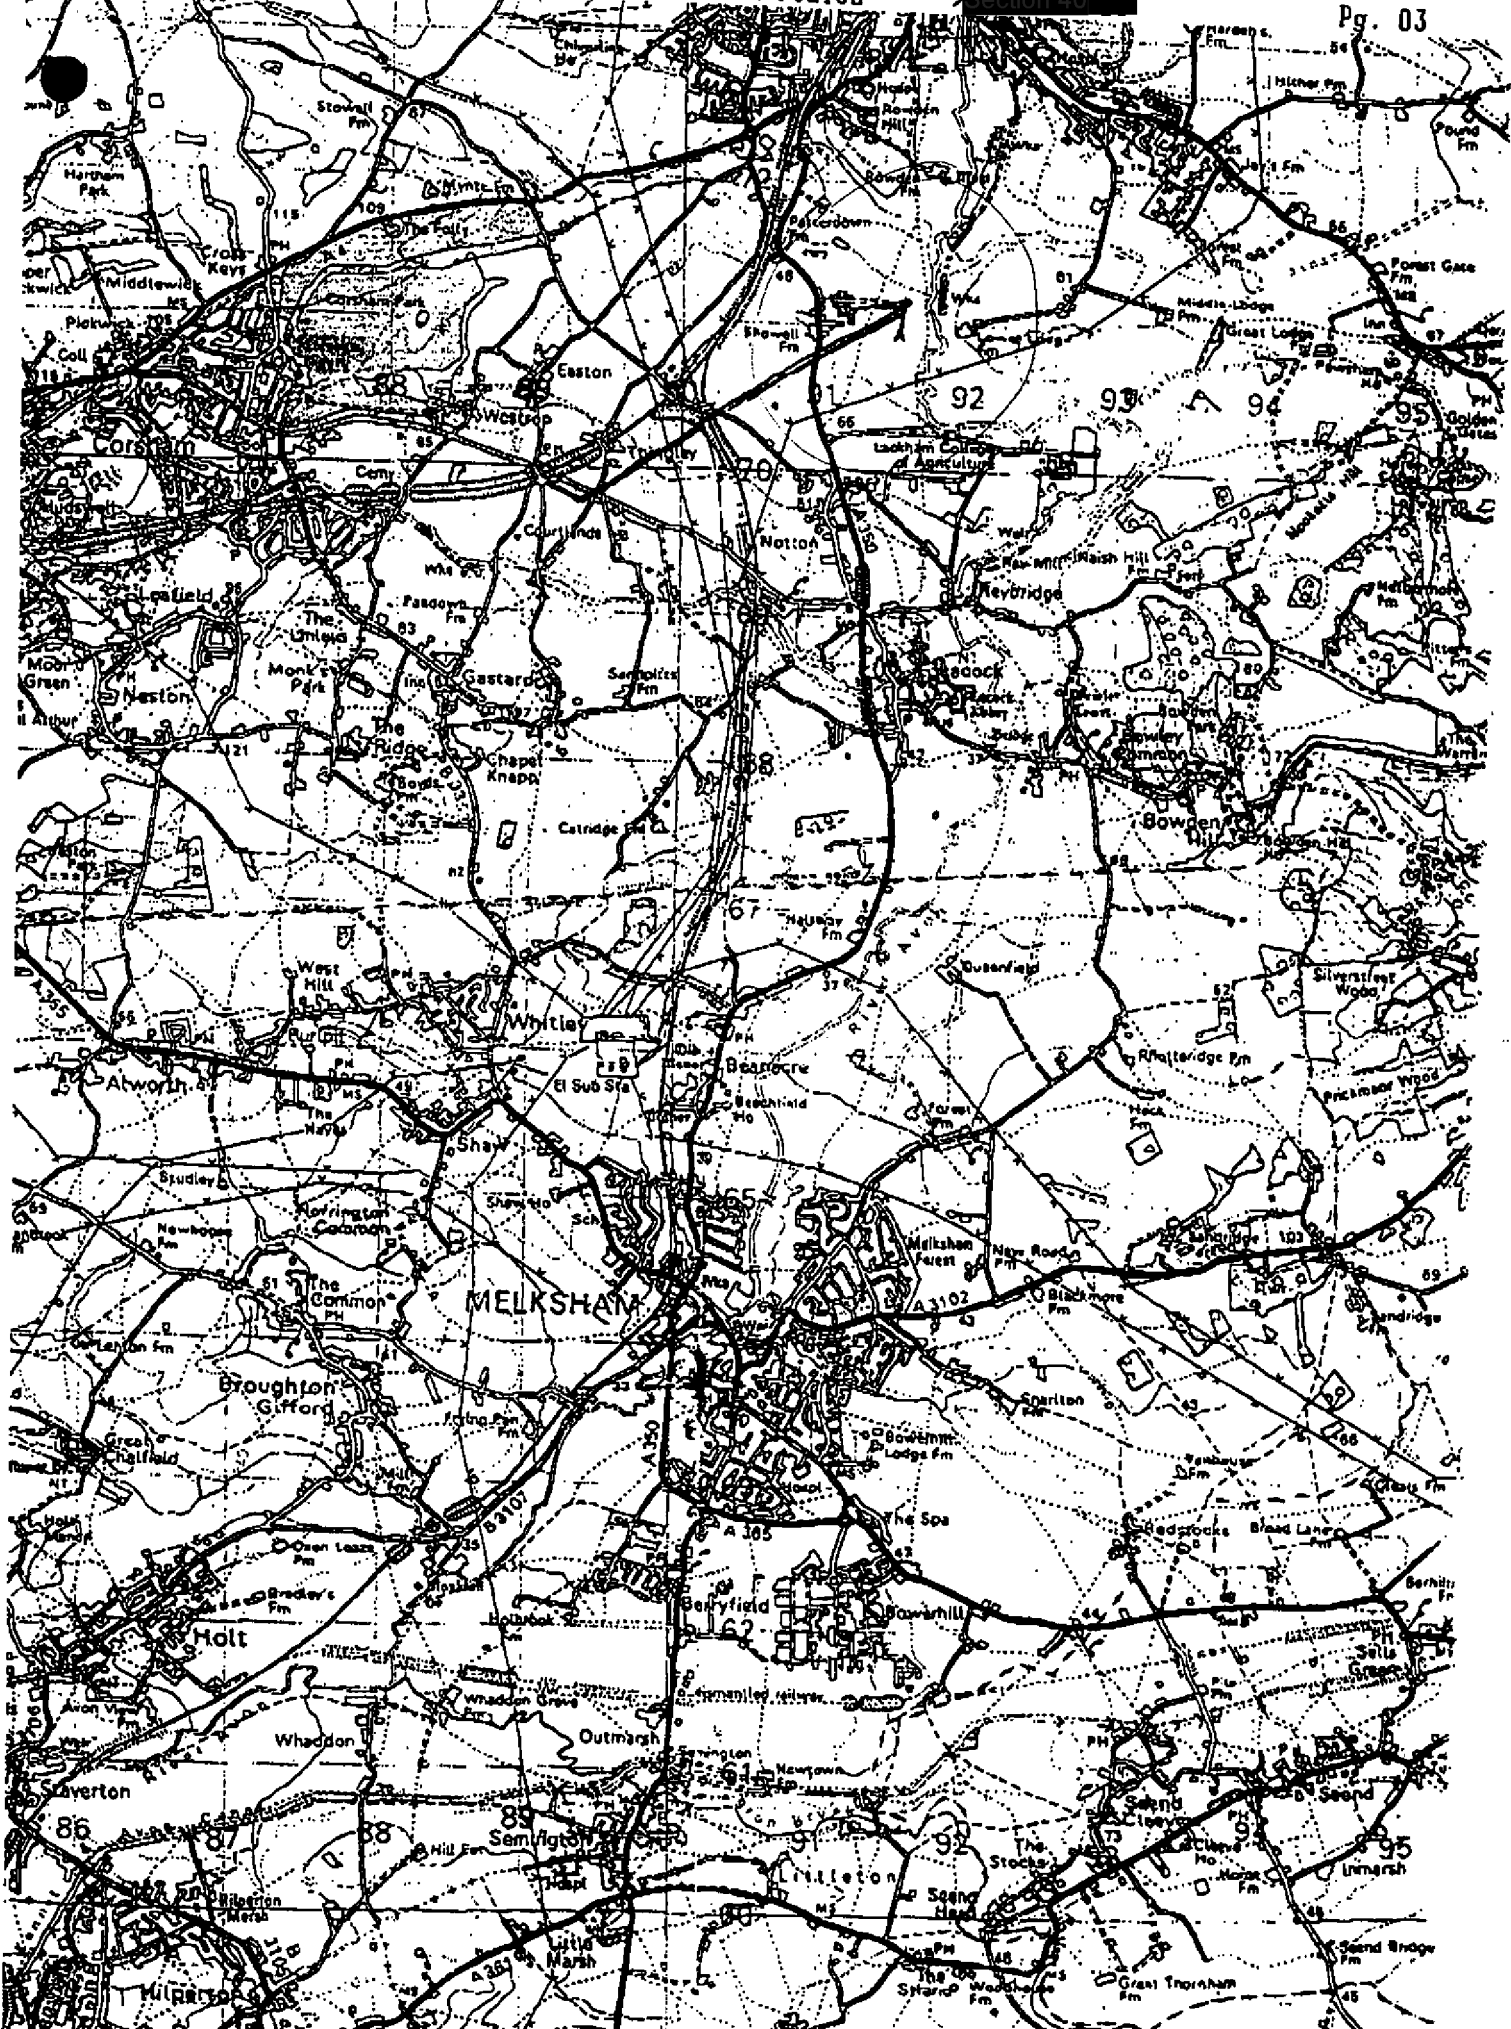

Regards.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, Time and Duration of Sighting	122120z Aug 97 for about 15 minutes
2. Description of Object (No of objects, size, shape, colour, brightness)	A white flash in the sky repeating every 5 or so minutes. Seen four times, each time getting brighter, last time like a very bright ball in the sky
3. Location (indoor/outdoor stationary/moving)	Outside
4. How observed (naked eye, binoculars, other optical device, still or moving)	Naked eyes
5. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	Not known
6. Angle of Sight (Estimated heights are unreliable)	High in sky
7. Distance (By reference to a known landmark)	Not known
8. Movements (Changes in 5,6 & 7 may be of more use than estimates of course and speed)	Seen above him and then to his left and then to his right
9. Met conditions during observations (Moving cloud, haze, mist, etc)	Not stated
10. Nearby objects (Telephone lines, high voltage lines reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or Radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	
11. To whom reported (Police,	

12. Name and Address of Informant
653 Chepstow Rd, Newport,
Gwent, NP9 9BY

Section 40

Name
Address

13. Background of informant that
may be volunteered

Never seen anything like it.

14. Other Witnesses

His sister was
watching also.

15. Date, Time of Receipt

122150z Aug 97

16. Any Unusual Meteorological
Conditions

17. Remarks

Seemed very concerned
over what he had seen
and felt he had to
report it to someone.

"UNIDENTIFIED" AIRCRAFT REPORT BY AER LINGUS CREW - 18 APR 97

1. As agreed in recent exchanges of correspondence concerning "UFO" policy, Sec(AS) is under remit to forward any "unidentified" aerial activity reports received by credible witnesses to you.

2. Attached please find a copy of a report (which we only received this week) of an unidentified aircraft made by the crew of an Aer Lingus flight from Dublin to Amsterdam on Friday 18 April. On the face of it this would appear to be a flight safety issue and one on which the CAA would have the lead.

3. As yet we have received no enquiries from members of the public about this matter, but should there be anything in this of particular interest to either of you then I should be grateful if you would keep Sec(AS) in the picture.

FLIGHT Section 40, Dub - AMS crossing at FL 370 and cleared direct to GULHO POSITION. When we both noticed an unusual contrail on our left-hand side NNR - also heading inwards GULHO. We asked ATC 13105 if this A/C was military as the tracks appeared as if rolls or unusual flying was being carried out in the crossing area at our level. We had no knowledge or indication of this A/C. We were in smooth conditions VMC. Wind was 310/30 [TIME 1026Z] Approaching GULHO we entered and felt the wake of the trail, and then the wake paralleled our track at FL 370, heading ± 100 DEG, TRACK 06/BLUFA, approx 20-30 yards to our right. Further information requests from ATC about the A/C which appeared to descend / turn and accelerate away from us. On approaching the Dutch Boundary it faded into the distance. I requested the Dutch had seen any A/C in their area which they had not. London ATC did not make contact and confirm that their military had no A/C in the area and we wish to investigate the incident with this report to be sent to MILITARY SUPERVISOR, DISTRESS & DIVERSION CELL, RAF

At 0100 hours Tuesday 12th August, 1997, I was travelling along the unclassified Corsham to Lacock road. I was in company with Section 40. We had reached a point just past the railway bridge, grid reference 894698, when an unidentified object flew past us in the same direction. I would estimate it's height at approximately 30 feet as it was just above the tree top level. The Police vehicle was travelling at 35-40mph and the object's estimated speed is 45-50mph.

Having passed us it then headed north east towards Chippenham. At this point it was joined by a second object which seemed to be following it. As they headed towards Chippenham their speed increased and were lost to sight of us within seconds.

The night was still and calm, visibility was very good and the Police Vehicle had it's windows down.

On seeing the objects the Police vehicle was turned left and the engine/radio switched off. At no point whilst in view of the objects could any noise be heard ie: rotor blades, engines, propellers.

I can only describe the object as triangular. It had two red lights on the rear, these were about 15 feet apart. The lights were angular but approximately the size of a saloon car's headlights. On the front was a white light but it didn't give off a beam of light like a search light would. The thickness/shape or any other features of them could not be made out as the brightness of the rear red lights restricted us from seeing it clearly. RAF Lyneham contacted but they had nothing flying at that time.

Reported to Police from Section 40 was a helicopter following her home from Taunton at 0010 hours that day. Wiltshire Police and Avon & Somerset Police were not using their helicopters.

I have spoken with her and all she can say is she was followed home however she didn't get any description of the object and only saw a white light. No noise heard and was unable to estimate how far away from her it was.

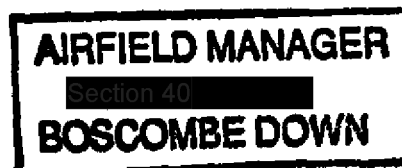

I hope this is of some use to you..

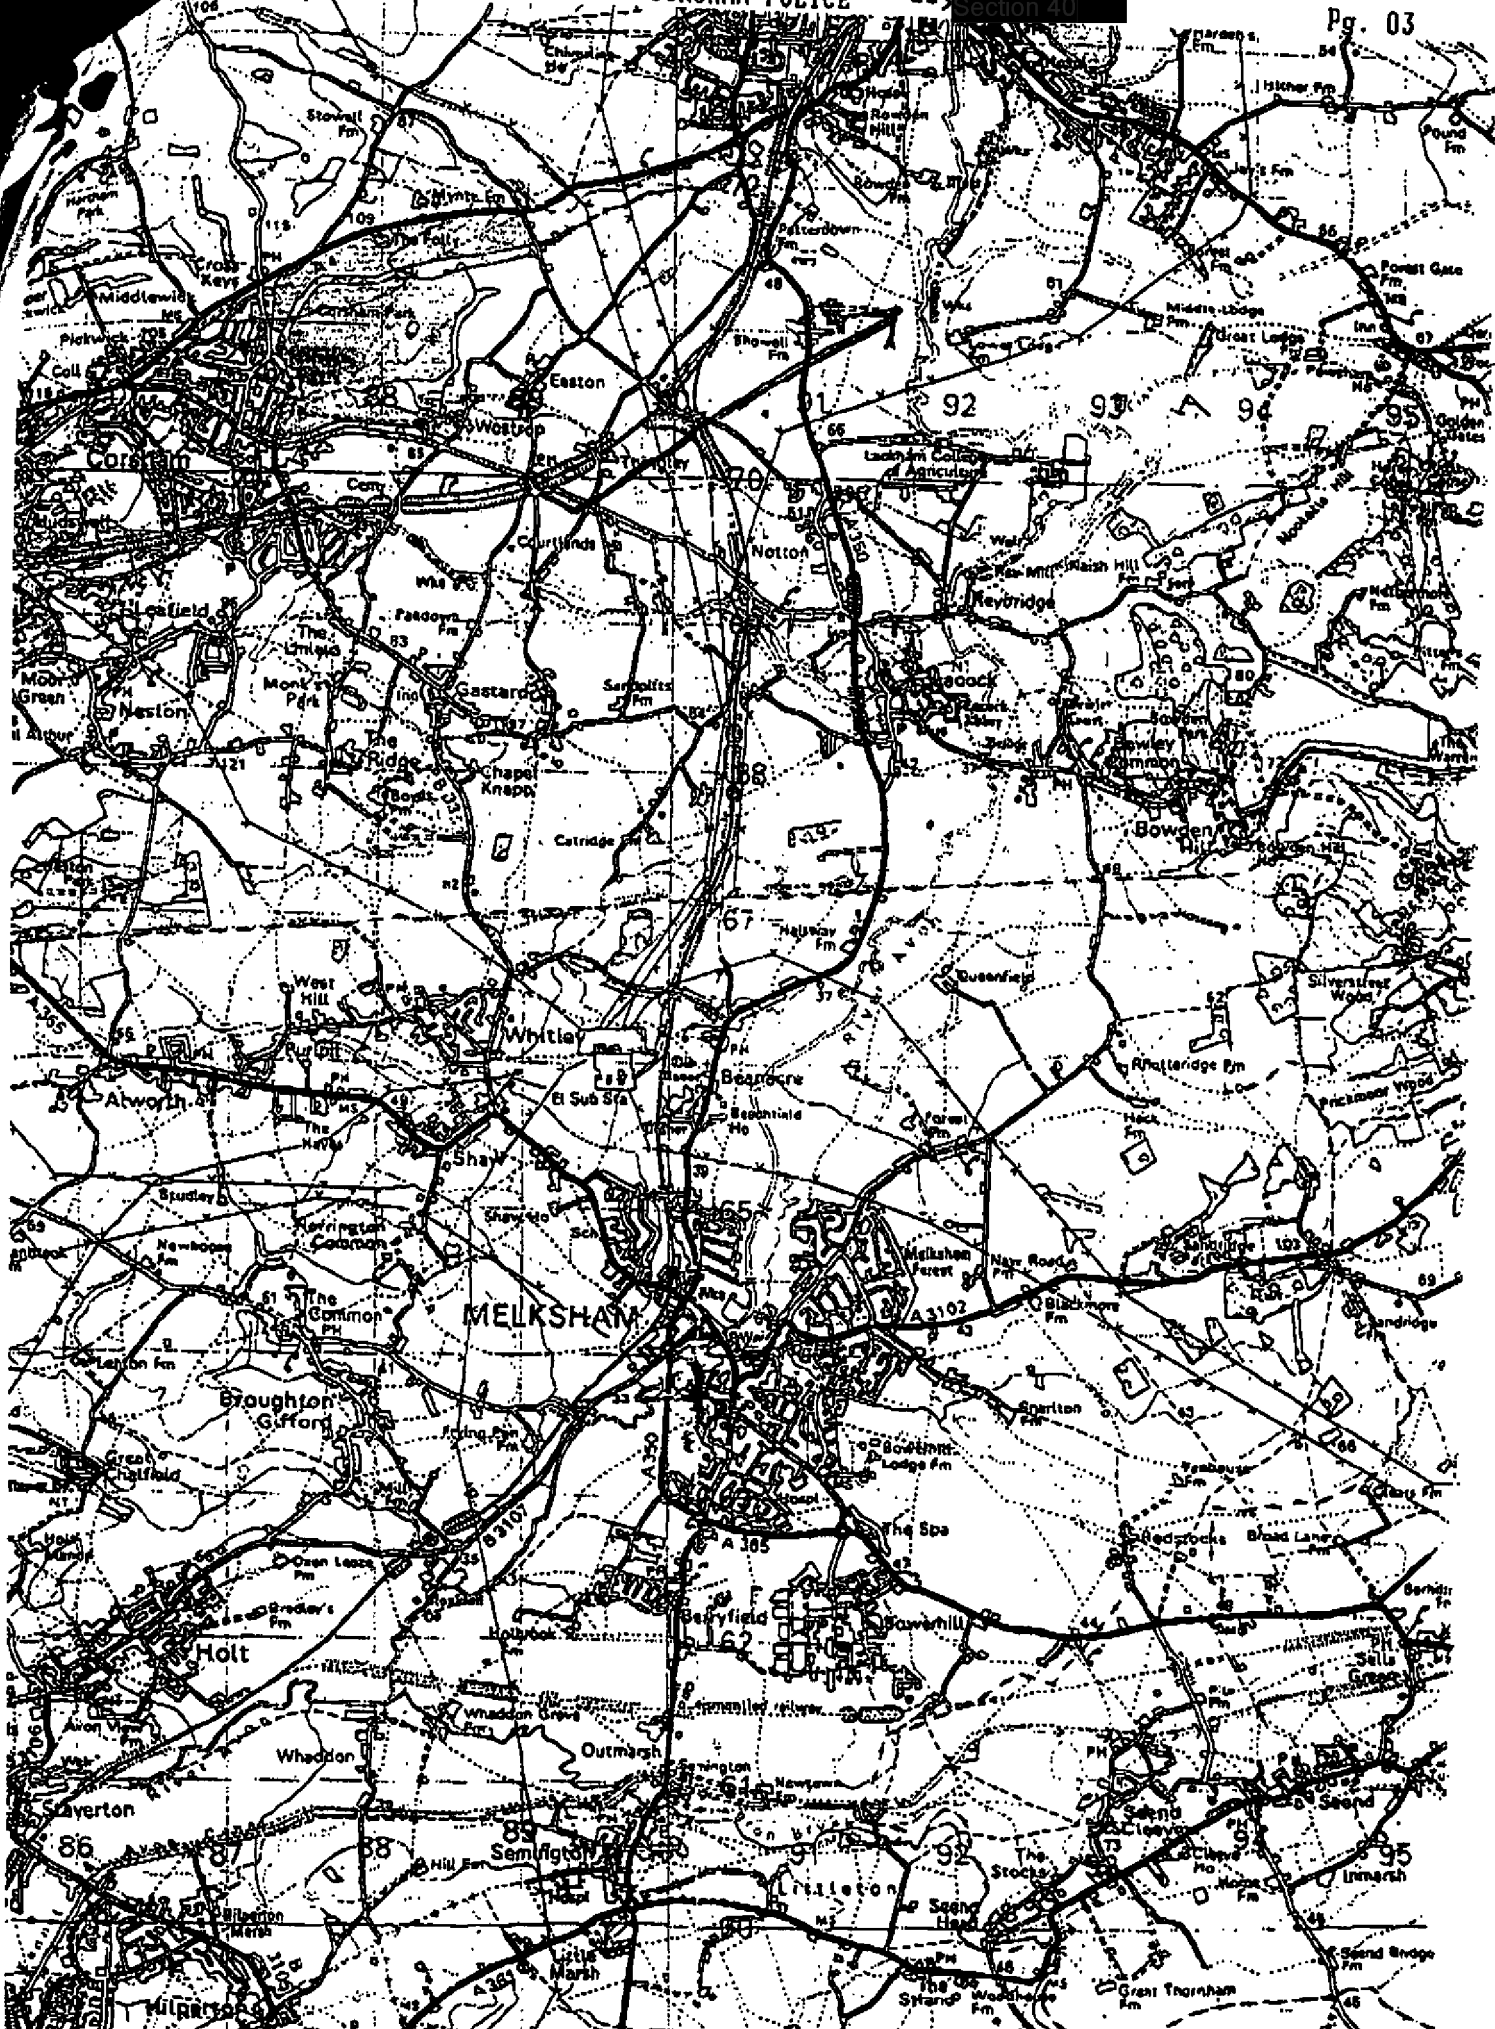

Regards.

"UNIDENTIFIED FLYING OBJECTS" - MULTIPLE WITNESS REPORTS - 25, 27
JUL AND 4 AUG 97

1. As agreed, Sec(AS) is under remit to forward any "unidentified flying object" reports we receive from multiple witnesses for examination by you.
2. Attached please find a report filed by a journalist with the Hull Daily Mail who says that he has the names of nine other witnesses.
3. From the description it would appear to be a dirigible with navigation lights. However, in view of the fact that the journalist will most likely follow this up for a story I should be grateful if you would let me know either way if the report represents anything of air defence interest.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

68/3
RAF

1. Date, time and duration of sighting.

091400Z Aug 97 FOR APPROX 15 mins.

2. Description of object.

25-30 Small Metallic objects

3. Exact position observed.

Above house. Southsea. Portsmouth

4. How observed.

Naked eye.

5. Direction in which object was first seen.

Not known

6. Angle of sight.

—

7. Distance.

Very high

8. Movements.

Moving fast

9. Meteorological conditions during observations.

Fine, clear weather.

10. Nearby objects.

N/A.

11. To whom reported.

Orderly Officer. RAF Odiham. FLT LT

12. Name, address and telephone number of informant.

Section 40

Southsea.

Section 40

13. Any background on the informant that may be volunteered.

— N.I.C. —

14. Other witnesses.

— NONE KNOWN —

15. a. Individual receiving the report.

Name: Section 40

Rank: SGT

b. Date/Time of receipt.

180920Z Aug 97.

16. Remarks.

Witness took photographs.

DOC's Actions:

1. The Duty Operations controller is to carry out the following:

a. Forward the completed proforma to:

ANNEX A TO
SOP 502

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, time & duration of sighting	7/10/97. 2145hrs duration 4 min.
2. Description of object (No of objects, size, shape, colour, brightness, noise)	2 objects, not seen together SILENT, BRIGHT LIGHT AT RANDOM INTERVALS No shape, light bigger than stars
3. Exact position of observer (Indoors/outdoors, stationary/moving)	At home address at back door
4. How observed (Naked eye, binoculars, other optical device, camera or recorder)	Naked eye.
5. Direction in which object first seen (A landmark may be more useful than a roughly estimated bearing)	River Humber. South to North.
6. Angle of sight (Estimated heights are unreliable)	30° from ground level.
7. Distance (By reference to a known landmark)	Impossible to say.
8. Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)	continued flight path but zig zagged in height
9. Met conditions during observations (Moving clouds, haze, mist etc)	Clear night.
10. Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	River Humber.

11. To whom reported (Police, military, press etc)	Police
12. Name & address of informant	Section 40 E. RIDING
13. Background of informant that may be volunteered	Mechanical engineer British Aerospace BROUGH.
14. Other witnesses	Section 40
15. Date and time of receipt	2202hrs 7/10/97
16. Any unusual meteorological conditions	None
17. Remarks	None Each object observed for 2 min

Received by SMS 221850Z Nov 97.

Section 40

Section 40

Time SAT 22 Nov 97 1832Z observed shadow of a delta winged aircraft more across stars. A/c had a light pink steady light on front and 2 light pink steady lights at back, one either side of delta wing. Estimated 300-400 kts moving just East of South East. Aircraft was silent estimated ~~3~~ between 3000-5000ft.

Person calling is an ex glider pilot, ex Air Training Corps F1 Lt and ex PC. No complaint as such but felt 'the military' should be told about the sighting.

(Radar)
SMS spoke with Exeter \approx 1855 and they were unaware of any aircraft in the area at the time.

SUBJECT : U.F.O. SIGHTING ON 13/11/97 AT BONESS
TEXT :

U.F.O. SIGHTING ON 13/11/97 AT BONESS, CENTRAL SCOTLAND

WITNESS DETAILS :-

Name : Section 40
Date of Birth: [Redacted]
Occupation : [Redacted]
Home Address : [Redacted]
Driving: [Redacted]

STATES :-

About 20.00 hours on 13th November 1997, I left my work at Sun Micro Systems and drove home to Bo'nness via the Champany. As I was driving along the road, alone in the car, I noticed two bright lights in the sky, close together. They were hovering above the hill at the back of the factory, near to the golf course. I thought it was a plane or helicopter and didn't think too much of it at this time.

As I was driving past the Champany junction, my eye kept catching the two bright lights. At times they seemed far away and others close up, about 300-400 yards high above the sky. I had the radio on low but couldn't hear any engine noise coming from the lights of this object in the sky. As I continued on the way to Bo'nness the object seemed to follow my car, still high on the hill area to the back (south) of Bo'nness.

As I passed Bo'nness Academy I saw the object swoop down from the hill across the Recreation Centre and thought it was going to land on the grass beside the Academy. There was an 'R' reg. red coloured car in front of me, which was driving really slowly, watching the object as well. It hovered just above the ground for a couple of seconds then rose straight up to about the height of a two storey house, then moved slowly over the main road. By this time I was panicking as I knew the object couldn't be a plane or helicopter. There was no sound coming from this object at all. I drove along Dean Road, as did the 'R' reg. car, at speed. I could see in

Dear Sir/Madam

Re: Report of a UFO Sighting -

Section 40

, Burslem, S-o-T, Staffs

I forward for your information details of a reported Unidentified Flying Object sighting by the above named on 29th March 1997, The details are as follows:

1. Three objects (lights) orange/red in colour with no distinctive shape about 500 yards apart of each other.
2. He was in the back garden of his address, Grid Ref. Section 40 facing the North West, when the objects in unison moved from left to right in a South to North direction at speed.
3. The objects were observed for 2-3 seconds with the naked eye.
4. The actual address is described as being above the old Town Hall in Burslem, Grid Reference 866-497.
5. Objects were observed at an angle of 65 to 75 Deg with the objects being just above what little cloud there was and as stated only moving from left to right.
6. Section 40 states it was a clear night with good visibility and the odd cloud patch.
7. No lights were illuminated from the Port Vale Ground, with no other possible explanations. The lights from Silverdale Colliery can not be seen and there are no major high buildings or radio mast or aerials within Section 40's line of sight.
8. Section 40 has not offered any of his background information when asked but has stated he does not partake in part-time astronomy but was merely looking for the Comet "Hale" Bop.

The person dealing with this correspondence is:

The informant [Section 40] requested from my officer a reply to this report and stated that it was his impression that sightings of this type would be filed away as "Top Secret". I have indeed written to him and advised him that the matter has been referred to yourselves.

Yours faithfully

[Section 40]
