# Pilot tells of UFO then vanishes

By LINDSAY MURDOCH

Valentich in Air training corps uniform.

A pilot reported an unidentified flying object hovering over him seconds before his plane disappeared over Bass Strait at the weekend.

In a dramatic conversation with a Melbourne air base the pilot told of a long object with green lights which "seems to be playing some sort of game".

Seconds later the plane's engine began spluttering, there was a metallic sound, and communication was cut.

Department of Transport officials were last night investigating the mysterious disappearance of pilot Frederick Paul Valentich, 20, and the single-engined Cessna.

Valentich's last words to Melbourne Flight Service concerned the "unknown aircraft hovering on top of me".

Officials described the six-minute

conversation about the UFO as "quite extraordinary".

Valentich, an instructor with the Air Training Corp, was on a flight from Moorabbin to King Island to pick up crayfish.

At precisely 7.13 pm on Saturday, between Cape Otway and King Island, he and the plane were lost.

An RAAF Orion sighted an oil slick late yesterday and dropped a beacon.

A fishing boat was heading to it late last night. Samples will be taken to establish if the oil is from the plane.

Weather conditions were perfect on Saturday evening. It was a clear night and there was little wind.

Department of Transport officials working at Flight Service said there was a "sort of metallic sound" over the radio before communication was lost.

A spokesman said last night it

was possible Valentich was flying the plane upside down and crashed.

"He may have become disoriented and confused by reflection from the Cape Otway and King Island lighthouses," the spokesman said.

"The lighthouses may have reflected off particles of cloud."

Officials believe it is the first incident of its kind reported in Victoria.

Valentich got his pilots licence two years ago.

He had a night flying licence and intended sitting for his commercial pilot's licence.

Mr. Guido Valentich said last night that his son believed in UFOs.

"Frederick read about them and I know he believed they existed," Mr. Valentich said from the family's neat brick home in Avern Avenue, Avondale Heights.

"He'd never seen one before. But

he became interested in them when he started flying."

Mr. Valentich said Frederick was a voluntary instructor with the Air Training Corp in West Melbourne.

"He had no trade and wanted to become a commercial pilot," Mr. Valentich said.

"He has flown to King Island three or four times before. He was wanting to increase the time he has flown at night."

"A couple of weeks ago he flew to Echuca to get in four hours of night flying."

"He would do anything to get the money to be able to fly... he worked as a shop assistant in Moonee Ponds and even got a job in the foundry at GMH."

"All he wanted to do since he was 12 was to fly. It was his whole life."

Mr. Valentich said his family had not given up hope that Frederick was alive.

## What the pilot said

This is the conversation Frederick Paul Valentich had with Melbourne Flight Service before he vanished:

**7 pm** — Valentich reports flying over Cape Otway, proceeding to King Island.

**7.06 pm** — Valentich asks Melbourne flight service if there are any aircraft flying below 5000 feet in the area.

Flight Service: "No known traffic."

Valentich: "Seems to be a large aircraft below 5000 feet."

Flight Service: "What type?"

Valentich: "I cannot confirm. It has four bright lights. They appear to be landing lights. The aircraft just passed over me about 1000 feet above."

Flight Service: "Is large aircraft confirmed?"

Valentich: "Affirmative. At the speed it is travelling. Are there any RAAF aircraft in the vicinity?"

Flight Service: "Negative."

**7.08 pm** — Valentich: "It is approaching from due east towards me... It seems to be playing some sort of game. It's flying at a speed I cannot estimate."

Flight Service: "What is your altitude?"

Valentich: "4500 feet."

Flight Service: "Confirm you can't identify aircraft."

Valentich: "Affirmative."

**7.09 pm** — Valentich: "It's not an aircraft..." (break in transmission).

Flight Service: "Can you describe aircraft?"

Valentich: "It is flying past. It is a long shape. I can't identify more than that. Coming for me now."

Flight Service: "How large is it?"

Valentich: "It seems to be stationary. I'm orbiting and the thing is on top of me also. It

has four bright lights. They appear to be landing lights. The aircraft just passed over me about 1000 feet above."

Flight Service: "Is large aircraft confirmed?"

Valentich: "Affirmative. At the speed it is travelling. Are there any RAAF aircraft in the vicinity?"

Flight Service: "Negative."

7.08 pm — Valentich: "It is approaching from due east towards me . . . It seems to be playing some sort of game. It's flying at a speed I cannot estimate."

Flight Service: "What is your altitude?"

Valentich: "4500 feet."

Flight Service: "Confirm you can't identify aircraft."

Valentich: "Affirmative."

7.09 pm — Valentich: "It's not an aircraft . . ." (break in transmission).

Flight Service: "Can you describe aircraft?"

Valentich: "It is flying past. It is a long shape. I can't identify more than that. Coming for me now."

Flight Service: "How large is it?"

Valentich: "It seems to be stationary. I'm orbiting and the thing is orbiting on top of me also. It has a green light and sort of metallic light on the outside."

Valentich then reported that the object had vanished.

Flight Service: "Confirm it has vanished."

Valentich: "Affirmative, affirmative. Do you know what kind of aircraft I've got? Is it military?"

Flight Service: "No. No military traffic in the area."

7.12 pm — Valentich: "Engine is rough-idling and coughing."

Flight Service: "What are your intentions?"

Valentich: "Proceed to King Island. Unknown aircraft hovering on top of me."

Flight Service acknowledges and reports a sort of metallic noise over the radio before communication lost.

# UFO CALL: PILOT LOST AT SEA

• A single-engine Cessna 182.

By GEOFF WILKINSON and MICHAEL DAWES

**A YOUNG pilot and his plane vanished over Bass Strait on Saturday night, minutes after he reported a mystery craft near him.**

**His parents said last night they believed he could have been taken by a UFO.**

A big air and sea search between King Island and the Victorian coast yesterday failed to find any trace of Frederick Valentich or the plane.

A RAAF Orion spotted an oil slick about 25 km north of King Island, but some searchers said they believed it was too big to have come from the plane.

The radio of Valentich's single-engine Cessna 182 cut out at 7.12 p.m. on Saturday, seconds after Valentich told air traffic controllers that a large object hovering above him was "not an aircraft."

Four minutes earlier, Valentich, 20, radioed that the mystery craft was flying towards him and "seems to be playing some sort of game . . . flying at a speed I cannot estimate."

Mr Valentich said: "It's not an aircraft, it's . . . before his radio transmission broke briefly."

Asked by air traffic controllers to describe the object, he said it was a long shape. "It has a green light and a sort of metallic light on the outside."

He said he was orbiting,

• Frederick Valentich

"and the thing is orbiting on top of me."

Two minutes later he said his engine was "rough idling and coughing."

He added: "Unknown aircraft is hovering on top of me. It is not an aircraft."

The Melbourne flight service heard a long metallic noise, then silence.

A Transport Department expert said last night he believed Frederick may have accidentally turned the plane upside

down or into a steep bank after becoming disorientated in the dark.

But Mr Guido Valentich, of Arvern Av., Avondale Heights, said he did not believe the theory. He accused the Transport Department of "trying to cover up so people won't get alarmed."

A department spokesman said last night that if the plane had "inverted," the pilot could have seen light from the Cape Otway and King Island lighthouses reflected on cloud patches above him.

The spokesman said conditions in the area when the plane vanished at about 4500 ft. were perfect, and the pilot should have had almost unlimited vision.

Mr Valentich said Frederick had done most of his training for his unrestricted private pilot's licence in the same Southern Air Services Cessna he was flying on Saturday night.

"He has done aerobatic training, too, and we do not think it is possible that he would not know he was flying upside down," Mr Valentich said.

"I don't know what to think . . . it's a mystery, but I believe a UFO is a real possibility."

"We live in hope until they find something."

Frederick, the eldest of four children, had planned to fly to King Island and bring back some crayfish later on Saturday night.

# A PLACE IN THE

SO what happened to the little Cessna which disappeared over Bass Strait on Saturday night?

Was the object reported on his radio by missing pilot Frederick Valentich really a UFO?

Just how credible is his description of the mystery craft: "It has a green light and a sort of metallic light on the outside"?

As far as I can see, the fact that there is life on earth can only lead to the belief that it exists in other solar systems as well.

I learned that from Buck Rogers years ago.

All those planets flashing around, all those stars as bright and brighter than our sun — why should we be unique?

I find it difficult to be too sceptical about the Bass Strait reports, then. Particularly when Paul Norman tells me the encounter of the kind reported to Melbourne control on Saturday night by pilot Valentich fits a general pattern of what he calls UFO activity.

Paul Norman, of St. Kilda, is Australian representative of UFO Research, the largest investigator and reporter of UFO sightings in the southern hemisphere. He's travelled Australia talking to people who have spotted what they believed to be UFOs and right now he's not on the trail of events over Bass Strait on Saturday night.

"So far we don't know much more than has already been reported in your newspapers," Paul says. "But it is certainly following the same pattern of incidents worldwide where aircraft have disappeared."

The craft, complete with green lights, is familiar to UFO investigators.

Several years ago in the U.S. an inter-

ceptor plane disappeared in circumstances very similar to those of Saturday night.

★

AND Mr Norman played me the tape of an interview with the pilot of a U.S. Army helicopter given the green light, silver cigar treatment over Ohio in 1973.

The pilot, Major Larry Coin, spotted what he thought was a red light on the horizon while flying to Cleveland at almost 1700 ft.

Suddenly it zoomed up at his helicopter on a collision course, but just as he and his crew of four were bracing themselves for the impact, the UFO stopped directly in front of them.

As it did a bright blue spotlight shone directly on the helicopter, and the 20-metre long, 6-metre wide UFO glowed green.

"It began to move away from us, and I looked at my altimeter which was showing 3500 ft," said Major Coin.

"We had gone from 1700 ft. to 3500 ft. in a matter of seconds without knowing it."

After severe turbulence and a heavy jolt he got control of the aircraft again and was able to descend.

The suggestion, says Paul Norman, is that the helicopter was under the influence of a powerful gravitational pull. He also suggests that the engine "rough idling and coughing" radioed by Mr Valentich before his disappearance was consistent with what happens when

UFOs are cruising around.

TV sets go funny, radios crackle, dogs bark — electrical systems in cars splutter and cough.

★

MRS MOLLY INGE, of Kew, has a UFO story as well.

As a member of the Australia-USSR Society she has spent much of the past 12 years visiting Soviet ships in Port Melbourne. She helps arrange football matches and other outings for Russian seamen who know her as "Aunty Molly."

Recently she was on board a Soviet cargo ship and talk was of UFOs.

While off the coast of Spain on the way to Australia, the crew spotted a large, metallic object about one-third the size of a full moon.

One day about 8 p.m. nearly 50 seamen watched it both with the naked eye and with binoculars for about 50 minutes. And they showed Mrs Inge photos they took and drawings they made of it.

Americans apparently fear the prospects of other forms of life in space, says Mrs Inge, and try to suppress news of UFO sightings.

Russians, however, believe that if these objects are from places more advanced than ours they are here to help rather than harm us.

"The higher you get in scientific knowledge," she says, "the higher your humanitarian understanding."

# MYSTERY DEEPENS ON PILOT

**HOPES of finding missing Melbourne pilot Frederick Valentich alive dwindled yesterday after a big search found no trace of him or his plane.**

His parents were still hopeful last night that he would be found safe, though he has not been heard from since he vanished on Saturday night after reporting strange lights flying near him.

"We still have a hope," his father, Mr Guido Valentich, said at his Avondale Heights home. "He may have crashed and be hurt, or something else may have happened."

Frederick Valentich, 20, vanished over Bass Strait while flying his single-engine Cessna 182 to King Island.

He told a friend before taking off from Moorabbin: "I'll see you over the weekend, and I'll drop in a crayfish."

A big sea and air search has been carried out in the past 48 hours in Bass Strait.

Mr Valentich's radio cut out at 7.12 p.m. on Saturday, soon after he told air traffic controllers that a large object hovering above him was "not an aircraft."

Mr Valentich said: "It's not an aircraft it's . . ." before his radio transmission broke briefly.

Soon afterwards he said the object had a green light and a type of metallic light on the outside.

He said he was orbiting "and the thing is orbiting on top of me."

Two minutes later he said: "Unknown aircraft is hovering on top of me. It is not an aircraft."

By PETER ROBINSON

A long metallic noise followed, then silence.

Department of Transport officials said Mr Valentich stayed calm while reporting the object.

Some officials believe he may have been flying upside down without realising it and became confused by a reflection of lights.

However, aviation sources said last night the Cessna 182 would have been able to fly for only 50 seconds upside-down because its fuel tanks were in the wings and relied on gravity to feed the motor.

Mr Valentich's radio messages about the lights lasted six minutes.

A fishing boat picked up samples of an oil slick late yesterday 40 km north-north-east of Cape Wickham, King Island's most northern point.

Last night the sample was being brought back to Melbourne to be tested today to see if it came from a plane.

A RAAF Orion, a Cessna 150 and a Nomad were also used in the search.

Several fruit boxes and

bags were found floating 4 km from the oil slick.

Mr Valentich is believed to have taken a container with him in the plane to bring back crayfish from King Island, but searchers said last night they did not believe the fruit boxes and bags found were from the plane.

Department of Transport officials have estimated that the plane would have crashed in the same area as the oil slick.

# I'd rather it was UFO than plane crash, says missing pilot's father

By CHRISTINE MORRIS  
and DAMIEN MURPHY

The father of missing pilot Frederick Valentich said yesterday he hoped an unidentified flying object had been involved in his son's disappearance.

"I would rather that than them finding wreckage of the plane," he said.

The second day of the land and sea search failed to find any trace of the 182 Cessna yesterday.

Mr. Guido Valentich said he was forced to believe that something unusual had happened to his son.

"The fact that they have found no trace of him really verifies the fact

that UFOs could have been there," he said.

He said his belief in UFOs had been reinforced and that he still held hope for his son.

"I never believed in UFOs as strongly as my son. Frederick used to study them as a hobby using information he received from the air force," he said.

"He was not the type of person who would make up stories, everything had to be very correct and positive for him."

Mr. Valentich said his son had often flown a Cessna and had made three previous visits to King Island.

A Department of Transport spokesman said a search of Bass Strait by an RAAF Orion had failed to find any sign of the plane's wreckage.

The spokesman said the possibility of UFOs would later be investigated by the Air Safety Investigation Branch.

"Our first consideration is to find the missing pilot and plane," he said.

Oil taken from a slick near the possible "ditching point" of the plane will be brought to Melbourne today to be tested.

A maritime version of a Nomad will continue the search around the north end of King Island.

Hundreds of sightings of UFOs were reported yesterday from Geelong, Frankston, Cape Otway and Brighton.

Some people described the object as brilliantly lit, oblong in shape and moving very quickly across the sky.

Other said they saw unusual flashes

of light, which remained in the sky for several seconds.

An RAAF spokesman said they had received 11 reports of sightings in the past four days, but would investigate recent reports at a later stage.

Residents of King Island have also reported sightings of strange bright and trailing lights in the past six weeks.

Meanwhile, at Queenscliff, on Victoria's southern tip, a woman motorist said she saw what appeared to be a ferris wheel spinning in the sky less than two hours after the plane disappeared on Saturday night.

Mrs. Barbara Bishop, of Learmonth Street, Queenscliff, said she saw "something unusual" in the western sky

What is going on in the sky — 11.

Mr. Guido Valentich holds a photograph of his son, Frederick, at his home in Avondale Heights last night.

ple described the object as oblong in shape and moving quickly across the sky. they saw unusual flashes

appeared on Saturday night. Mrs. Barbara Bishop, of Learmonth Street, Queenscliff, said she saw "something unusual" in the western sky. What is going on in the sky — 11.

Bank manager Mr. Col Morgan says he saw this star-shaped glowing object hovering over the Melbourne-Geelong Road on Saturday night.

He and his wife were driving to Geelong. The object appeared as they were passing through Brooklyn at 7.10 pm.

Mr. Morgan, manager of the City West branch of the State Savings Bank, said: "It was just hovering in a position in line with the centre of the car wind-screen."

Dispelling thoughts that it was

an aircraft, the couple studied it with interest, noticing its slow pace and green flickering lights at one end.

It was only when they reached Geelong that the object disappeared from view, and it was not until yesterday that they realised the Unidentified Flying Object could be connected to the missing plane.

Mr. Morgan described the object as a solid mass of light, almost the color of a star.

His wife said the object could not have been an aircraft because of its exceptionally vivid projections of light and green flashing lights on the left side.

Telephone No. (home) 874 7285 (Business) \_\_\_\_\_

2. a. Exact location of observer VIEWED FIRST FROM PATIO  
THEN FROM ROOF OF MY HOUSE

b. Observer's familiarity with the location \_\_\_\_\_

3. Start of observation: Date 22/10/78 Time 8.25 pm

End of observation: Date 22/10/78 Time 8.50 am/pm

4. Accuracy of date Correct Time correct

5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. CLEAR STILL EVENING

VISIBILITY EXCELLENT

6. a. In what direction was the sighting first observed? NORTH WEST

b. At what angle to the horizon?

7. a. In what direction was the sighting last observed? \_\_\_\_\_

8. Estimate of distance and/or altitude from observer TEN TO TWENTY  
MILES 2,000 to 3,000 feet (APPROX)

9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? VISUALLY

AIDS:- BINOCULARS

10. Describe the object(s)/light(s) as follows :

- a. number One
- b. colour White-orange-green
- c. size 20 times bigger than average star
- d. shape Circular then double circular
- e. brightness (relative to full ~~sun~~/star) 20 times
- f. movement/direction of travel Western Northerly direction
- g. sound Noise
- h. speed Very fast
- i. method of propulsion Dont know
- j. manner of disappearance Into horizon

11.

- a. Narrative description of the sighting and any unusual features or additional comments First observed  
FROM PATIO OF HOUSE MOVING SOUTHERLY  
DIRECTION THEN LATER OBSERVED STATIONARY  
UP TO FIVE MINUTES / THEN MOVED  
VERY QUICKLY TO NORTH WEST AND  
REMAINED STATIONARY AGAIN FOR  
2-3 MINUTES THEN ACCELERATED  
NORTH.  
FOR VERY BRIGHT LIGHTS WHEN  
STATIONARY. (SEEMED TO BE TWO  
BRIGHT LIGHTS TOGETHER) BEFORE  
MOVING LIGHTS DIMMED THEN SEEMED  
TO BE TOUCH OF GREEN AND ORANGE  
AND THEN DISSAPEARED INTO HORIZON

/b. Diagram

b. Diagram or sketch of sighting (if possible)

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? \_\_\_\_\_

Nil

13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)

MOTHER FATHER OLDER BROTHER AND  
ADULT FAMILY FRIEND

14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances. \_\_\_\_\_

Nil

Date 31/10/78

# REPORT OF UNUSUAL AERIAL SIGHTINGS

## Part 1 - Report by Observer

1. Name of Observer CAROL GIBBS Age         
 Address 38 Templestone Rd. Bulheer  
VICTORIA. State        Post Code         
 Occupation Home Duties  
 Telephone No. (home) 8509025 (Business)       

2. a. Exact location of observer Cheshunt. NEAR EAST VICTORIA.  
35 M. hrs. STA East Wanganutta + 40 Miles Due North MANSFIELD.  
 b. Observer's familiarity with the location 25 years knowledge of area.

3. Start of observation: Date Friday 20-10-78 Time 10-45 PM - 11-45 PM

2nd observation  
 End of observation: Date Saturday 21-10-78 Time 8-30 PM - 9-30 PM

4. Accuracy of date Certain Time checked.

5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. Very Clear. STARRY NIGHT. MOON NOT YET VISIBLE OVER LOW MOUNTAINS

6. a. In what direction was the sighting first observed? DUE EAST. ALMOST EXACT LINE OF RISING SUN  
 b. At what angle to the horizon?

7. a. In what direction was the sighting last observed? APPROX. 85° ABOVE WITH SLIGHT VARIATION AS IF CIRCLING.

8. Estimate of distance and/or altitude from observer DIFFICULT TO ASSESS

NO SHAPE DEFINED EXCEPT AT TIMES 4 SEPARATE LIGHTS WERE VISIBLE IN A SQUARE

9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? NAKED EYE + KNOWLEDGE OF

ANGLE OF SUNRISE.

10.

Describe the object(s)/light(s) as follows :

- a. number one only
- b. colour lights Red Sheets of light. Green sheets of light. white lights  
FLASHING BUT NOT IN SHEETS Sometimes 4 connects it with separate lights
- c. size Not possible to assess which did not FLASH or BLINK.
- d. shape Not Possible To describe.
- e. brightness (relative to full moon/star) 2-3 Times The intensity of  
A BRIGHT STAR.
- f. movement/direction of travel Circling motion as light appeared.  
To move in southerly direction & return to original position.
- g. sound None.
- h. speed Slow in Relation To Surrounding objects (Meaning objects  
AROUND US. Trees
- i. method of propulsion Not Visible etc.  
Not the object.
- j. manner of disappearance Did NOT watch long enough.

11.

- a. Narrative description of the sighting and any unusual features or additional comments Four of us watched the object.

The Brightness of the lights caught our attention first. White  
Then on watching we saw Red sheets of light surround the Red  
original white light then followed a green sheet of light Green  
clearly similar. Then the white light reappeared and as if White  
it was turning around or even. 4 definite white lights 4 White  
became visible. The object appeared to move to the right  
and return to the left with the lights changing through the  
above sequence as described. we checked this by watching  
it pass <sup>ACROSS</sup> through the limbs of a tree standing at the front of  
the house. The following night we looked for it again  
but the position had changed to something like 30° south of  
the previous position and we saw it again 8.30 P.M. it did  
exactly the same thing as described on Friday night. we again  
watched it for about an hour.

we mentioned our experience to the local shopkeeper and  
 some people staying at a property owned by Mr. Ron Mikhon  
 but we don't know if they looked for it on Saturday night.

b. Diagram or sketch of sighting (if possible)

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? \_\_\_\_\_

No

13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)

William Gibbs 38 Temple Tower Rd Bulkeel Vic  
Jane Hanley } 5 Verbena ST  
MURRAY Hanley } Temple Tower (8461610)

14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances. \_\_\_\_\_

No

This sighting attributed to the reported image of star SIRIUS, low on the Eastern horizon at said time and date

2. a. Exact location of observer MOTORING - BEACH RD  
SANDRINGHAM  
 b. Observer's familiarity with the location WELL ACQUAINTED
3. Start of observation: Date 23.10.78 Time 1902 hrs am/pm  
 End of observation: Date 23.10.78 Time 1905 hrs am/pm
4. Accuracy of date MON. 23rd OCT 1978 Time 7.02 (Registered by car clock)
5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. HEAVY CLOUD - LIGHT TO MODERATE  
WIND - VISIBILITY EXCELLENT - NO RAIN
6. a. In what direction was the sighting first observed? N.N.E. (approx)  
 b. At what angle to the horizon?  

7. a. In what direction was the sighting last observed? UNCHANGED  

8. Estimate of distance and/or altitude from observer 5-6 miles  
1500 - 2000 ft
9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? PURELY ESTIMATED BY  
KNOWLEDGE OF AREA.

10.

Describe the object(s)/light(s) as follows :

- a. number ONE  
b. colour METALLIC GREY/SILVER  
c. size LARGE - (MAYBE 30')  
d. shape FLAT OVAL (CIGAR)  
e. brightness (relative to full moon/star) VERY BRIGHT  
f. movement/direction of travel APPARENTLY STATIONARY

- g. sound NONE (TOO FAR AWAY?)  
h. speed UNOBSERVED (see explanation)  
i. method of propulsion UNKNOWN  
j. manner of disappearance SUDDEN

11.

- a. Narrative description of the sighting and any unusual features or additional comments

I WAS DRIVING TOWARD MELBOURNE ON  
THE BEACH ROAD WHEN MY ATTENTION  
WAS DISTRACTED BY A BRIGHT OBJECT  
IN THE SKY. AS THERE WERE NO  
FLASHING LIGHTS TO INDICATE IT WAS  
A CONVENTIONAL CRAFT, I SLOWED MY  
SPEED IN ORDER TO OBSERVE MORE  
THOROUGHLY. THE OBJECT APPEARED TO  
HAVE TWO SHAFTS OF LIGHT BEING  
EMITTED SKYWARDS - ONE AT EACH  
END. ITS DISAPPEARANCE WAS AT  
INESTIMABLE SPEED INTO THE DARK  
CLOUD ABOVE.

b. Observer's familiarity with the location Brothers
3. Start of observation: Date 21/10/78 Time 8.00 am/pm  
End of observation: Date 21/10/78 Time 8.35 am/pm
4. Accuracy of date Saturday Eve Time \_\_\_\_\_
5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. Warm, Clear, Starry
6. a. In what direction was the sighting first observed? North (Approx)  
b. At what angle to the horizon?
- 
7. a. In what direction was the sighting last observed? as Above
- 
8. Estimate of distance and/or altitude from observer Miles away  
a very high up as we were on a hill
9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? No, just by  
eyesight

10. Describe the object(s)/light(s) as follows :

- a. number Seemed like 1 light but flashing
- b. colour Yellow, Blue, Pink very pale
- c. size ?
- d. shape To Far away to see <sup>a</sup> shape  
Seemed to have a trail of light
- e. brightness (relative to ~~full moon~~/star) only a lot brighter
- f. movement/direction of travel moved to the west  
very quick then back but intermittent
- g. sound no sound
- h. speed very fast
- i. method of propulsion ?
- j. manner of disappearance Did not disappear

11. a. Narrative description of the sighting and any unusual features or additional comments On Sat. eve 21/10/78

my Mother, Daughter & I were visiting  
my brother, We arrived 7.55 but He  
was not home. My Mother & Daughter  
got out of the car to wait and about  
5 minutes later they asked me to  
look at this thing in the sky. I watched  
for approx. 2 minutes and thought it was  
just a bright star then it moved to  
the west very fast, then a pause and  
back to the east also it moved up  
& down as if it was trying to stay  
In the One place or hover. It never  
really moved very far in the time we  
were watching it from a tree <sup>at which</sup>  
we were trying to gauge how far it did move  
My Brother arrived home and we went  
inside. We told him to come out & look  
but he just said it was rubbish, so we  
did not see it disappear.

P.S. Mum & my daughter said they could  
see a thin light or tail.

- b. Diagram or sketch of sighting (if possible)

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? NO

CENTER FOR UFO STUDIES  
P.O. BOX 11 - NORTHFIELD, ILLINOIS 60093

J. ALLEN HYNEK  
DIRECTOR

October 23, 1978

Director  
Flight Service Control  
Melbourne Airport  
Melbourne, Australia

Dear sir:

As a scientific consultant to the Center for UFO Studies in the United States, I am investigating sightings of anomalous aerial phenomena by pilots. Recently I read a news article of such a sighting by a Mr. Frederick Valentich flying a Cessna 182. According to the UPI dispatch he reported seeing something very abnormal and then was lost contact with by ground radio. I am writing to you for your kind assistance in this matter. Would you be so kind as to try to complete the enclosed report form or pass it on to someone who is in a position to complete the details? Your assistance is very much appreciated by those of us who are only concerned with trying to discover the true nature of the phenomenon involved. You will receive no publicity since all our records are kept confidential.

I would be particularly interested in the weather in the region within about a 150 mile radius of Melbourne on October 21, 1978 up to an altitude of 7,500 feet. Were any voice tapes maintained? If so could a copy be forwarded for research purposes only? Finally, I would very much like to correspond with Mr. Valentich Sr. Could you provide me with his address?

On behalf of the Center for UFO Studies let me thank you in advance for any assistance you may provide. I will be pleased to send you a copy of any report that may be prepared on this case.

Very sincerely,

Richard F. Haines, Ph.D.  
Research Consultant

Please use the following address in any correspondence to save time:

325 Langton Avenue

## Part I. DETAILS OF THE ANOMALOUS PHENOMENON:

1. Please describe what you witnessed. Be as complete as possible (use opposite side of page if necessary).

2. Now draw a sketch of what you saw. If you were able to see it from two or more different angles simply draw what you saw and label each sketch (A), (B), etc. to indicate the order in which you saw it. Also, draw an arrow pointing gravitationally upward and aircraft windshield struts (frames, etc.).

If the Earth's horizon was visible draw it in also.

Finally, draw magnetic compass heading tick marks across the bottom of the box and label several-according to your heading-related to your sketch.

3. Did the object (phenomenon) appear to move relative to your aircraft's window frame(s) during your sighting? (check one)

SKETCH OF OBJECT OR PHENOMENON

☐ No ☐ Unsure ☐ Yes

If "yes" please use a dashed line to indicate this apparent motion in the box to the right. Mark an "a" at the location object was first seen, a "b", "c", etc. for subsequent locations. Be sure to include aircraft window frame(s) if present to allow angular estimates to be made. For uneven, jerky motion try to place the "a", "b", etc. at one-second intervals.

SKETCH OF OBJECT'S APPARENT MOTION

4. Did the object (phenomenon) appear to move relative to any stable background detail during your sighting? (check one)

☐ No ☐ Unsure ☐ Yes

(Continue narrative here)

4.1 If the object appeared to move please estimate its apparent angular velocity. \_\_\_\_\_ Deg/Sec. Motion seen in relation to: \_\_\_\_\_

4.2 Did the object move behind in front of (circle) anything? ☐ No ☐ Unsure ☐ Yes

4.3 Did the object (phenomenon) appear (check) ☐ Solid ☐ Transparent ☐ Couldn't tell

4.4 Did you observe the object through (check) \_\_\_\_\_  
☐ Binoculars  
☐ Telescope  
☐ Camera viewfinder  
☐ Other: \_\_\_\_\_

4.5 About how large did the object appear as compared with one of the following items held at arm's length? [Note: The equivalent visual angles are based upon an average arm-reach distance of 26"]. \_\_\_\_\_  
(If object changed size during the sighting just place a "1", "2", "3", etc. in the boxes to represent the order in which the size change occurred).

	Equiv. Visual Angle
<input type="checkbox"/> Head of pin	[0° 4.1'] (Assume .031")
<input type="checkbox"/> Pea	[0° 8.2'] (Assume .062")
<input type="checkbox"/> Dime	[1° 31']
<input type="checkbox"/> Nickle	[1° 47']
<input type="checkbox"/> Quarter	[2° 3.9']
<input type="checkbox"/> Half-dollar	[2° 37']
<input type="checkbox"/> Baseball	[6° 17']
<input type="checkbox"/> Grapefruit	[10° 53'] (Assume 5" diam)
<input type="checkbox"/> Basketball	[20° 10']
<input type="checkbox"/> Other: _____	

4.6 How certain are you of your answer to question 4.5? (check one) \_\_\_\_\_  
☐ Very sure  
☐ Fairly certain  
☐ Not very sure  
☐ Uncertain (only a guess)

4.7 Did the object (phenomenon)? (check all that are appropriate)

(a) Change shape	<input type="checkbox"/> No	<input type="checkbox"/> Don't know	<input type="checkbox"/> Yes
(b) Flicker, throb, pulse	<input type="checkbox"/> No	<input type="checkbox"/> Don't know	<input type="checkbox"/> Yes
(c) Break up into parts or explode	<input type="checkbox"/> No	<input type="checkbox"/> Don't know	<input type="checkbox"/> Yes
(d) Suddenly accelerate	<input type="checkbox"/> No	<input type="checkbox"/> Don't know	<input type="checkbox"/> Yes
(e) Give off smoke, vapor, trail	<input type="checkbox"/> No	<input type="checkbox"/> Don't know	<input type="checkbox"/> Yes
(f) Appear to stand still whole time	<input type="checkbox"/> No	<input type="checkbox"/> Don't know	<input type="checkbox"/> Yes
(g) Change color(s)	<input type="checkbox"/> No	<input type="checkbox"/> Don't know	<input type="checkbox"/> Yes
(h) Appear on your aircraft's radar	<input type="checkbox"/> No	<input type="checkbox"/> Don't know	<input type="checkbox"/> Yes (If "yes" elaborate)
(i) Appear on any ground radar	<input type="checkbox"/> No	<input type="checkbox"/> Don't know	<input type="checkbox"/> Yes (If "yes" please elaborate here: _____)

4.8 Did you experience any buffetting which you think was caused by the encounter? ☐ No ☐ Possibly ☐ Yes (If "yes" elaborate) \_\_\_\_\_

5. How did the object first become noticed?  
(check all appropriate boxes)

- ☐ It was already present and I happened to look at it.  
☐ Someone else saw it first: [ Give name: \_\_\_\_\_ ]  
☐ It suddenly appeared at or near where I was looking.  
☐ It gradually faded into sight where I was looking.  
☐ Other (specify): \_\_\_\_\_

6. How did the object disappear? (check all appropriate boxes)

- ☐ I looked away and when I looked back it was gone.  
☐ It suddenly disappeared from sight for no reason, i. e., it didn't pass behind a cloud, etc.  
☐ It gradually faded from sight without changing size.  
☐ It faded from sight by becoming smaller and smaller.  
☐ It faded from sight (apparently) by travelling away.  
☐ Other (specify): \_\_\_\_\_

7. What distinguishable detail(s) did you see on or nearby the object? (check all appropriate boxes)

- ☐ None  
☐ Sharply defined edge(s)  
☐ Fuzzy edge(s)  
☐ Darker porthole-like areas: [ Shape was \_\_\_\_\_ ]  
☐ Lighter intensity portholes: [ Shape was \_\_\_\_\_ ]  
☐ Seam(s), rivets, etc.  
☐ Markings  
☐ Atmospheric effect(s): [ Describe \_\_\_\_\_ ]

8. Did you notice anything unusual happen in the cockpit just before, during, or just after the sighting? (check one)

☐ No ☐ Unsure ☐ Yes

If "yes" describe as fully as you can.

9. What do you think made the object visible? (check all appropriate boxes)

- ☐ It reflected ambient light (sun; moon) (circle)  
☐ It emitted its own light (If checked elaborate on colors, brightnesses, etc. seen) \_\_\_\_\_

10. Where was the Sun Moon (circle) during the sighting?

- ☐ At \_\_\_\_\_ degrees elevation above horizon, and at \_\_\_\_\_ degrees bearing relative to aircraft heading to Right Left (circle one).

11. If you experienced any physiological sensations during the sighting check all appropriate boxes to the right.

- ☐ Eye strain due to very high brightness \_\_\_\_\_  
☐ Eye strain for any other reasons: [ Explain \_\_\_\_\_ ]  
☐ Tingling sensation(s): [ Body location \_\_\_\_\_ ]  
☐ Mild pain: [ Body location \_\_\_\_\_ ]  
☐ Intense, acute pain: [ Body location \_\_\_\_\_ ]  
☐ Heat \_\_\_\_\_  
☐ Odor(s): [ Describe \_\_\_\_\_ ]  
☐ Tastes: [ Describe \_\_\_\_\_ ]  
☐ Sounds: [ Describe \_\_\_\_\_ ]  
☐ Other [ \_\_\_\_\_ ]

If you experienced any non-normal sensations within 24 hrs after the sighting please place an X at the right of the appropriate line(s) provided.

12. What do you think the object (phenomenon) was? Be as precise as possible including whatever supporting facts you desire.

13. Have you ever seen anything while flying or on the ground that you thought was an unidentified flying object prior to this?

☐ No ☐ Unsure ☐ Yes (If "yes" please give details: \_\_\_\_\_)

Part II. AIRCRAFT FLIGHT DETAILS: (Spatial)

14. Where did you take off from? Airport Name (Initials): \_\_\_\_\_  
 Lat. \_\_\_\_\_° \_\_\_\_\_' \_\_\_\_\_" N S; Long. \_\_\_\_\_° \_\_\_\_\_' \_\_\_\_\_" E W (if known)

15. What was your intended final destination? \_\_\_\_\_  
 Lat. \_\_\_\_\_° \_\_\_\_\_' \_\_\_\_\_" N S; Long. \_\_\_\_\_° \_\_\_\_\_' \_\_\_\_\_" E W (if known)

16. Sighting location. Where were you when you first sighted the object? Be as precise as possible. \_\_\_\_\_  
 \_\_\_\_\_

(If appropriate, specify)

Lat. \_\_\_\_\_° \_\_\_\_\_' \_\_\_\_\_" N S;  
 Long. \_\_\_\_\_° \_\_\_\_\_' \_\_\_\_\_" E W

From \_\_\_\_\_ VOR \_\_\_\_\_ RADIAL \_\_\_\_\_ DME

Elaborate if necessary: \_\_\_\_\_

17. Check box to indicate where you were during the sighting. \_\_\_\_\_

- ☐ Taxi to takeoff  
☐ During takeoff  
☐ Climb to cruise altitude at [ \_\_\_\_\_ ft/min]  
☐ At cruise altitude of [ \_\_\_\_\_ ft]  
☐ Descending for approach to land at [ \_\_\_\_\_ ft/min]  
☐ Final approach (i.e., within outer marker)  
☐ Landing or rollout  
☐ Other: [Specify \_\_\_\_\_]

18. Check all appropriate boxes to indicate what you did as a direct response of sighting the object (phenomenon). \_\_\_\_\_

- ☐ Nothing that was not already planned  
☐ Changed heading by turning right left (circle)  
☐ Changed altitude by climbing descending (circle)  
☐ Took immediate evasive action [Describe \_\_\_\_\_]

(Please elaborate on all items on the opposite side if necessary)

- ☐ Turned my landing lights on off (circle)  
☐ Used my radio to contact: [Specify whom \_\_\_\_\_]

- ☐ Changed my power setting  
☐ Pointed it out to [Specify name(s) \_\_\_\_\_]

- ☐ Attempted to follow chase (circle) it for the following reason(s): [ \_\_\_\_\_]

- ☐ Other: \_\_\_\_\_

19. Please use this space to add any other details/observations/facts that are related to the geographic/spatial location of your sighting. \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

Part III. AIRCRAFT FLIGHT DETAILS: (Temporal)

20. When did you takeoff? \_\_\_\_\_ (\_\_\_\_\_ AM PM (local) [GMT \_\_\_\_\_ Z])

☐ Daylight savings  
☐ Standard time

21. When did you plan to land (scheduled)? \_\_\_\_\_ (\_\_\_\_\_ AM PM (local) [GMT \_\_\_\_\_ Z])

Time zone (if different from above)

22. When did you first see the object (phenomenon)? \_\_\_\_\_ (\_\_\_\_\_ AM PM (local) [GMT \_\_\_\_\_ Z])

# SIGHTING DATE \_\_\_\_\_

23. When did you last see the object (phenomenon)?

AM

PM (local) [GMT \_\_\_\_\_ Z]

(Calculated total sighting duration)

[ \_\_\_\_\_ sec. ] Comments: \_\_\_\_\_

24. What did you look at (or do) to determine the above times?

- ☐ Looked at my wristwatch: [Est. accuracy to \_\_\_\_\_]
- ☐ Looked at cockpit clock: [Est. accuracy to \_\_\_\_\_]
- ☐ Radioed to crewmember for time
- ☐ Radioed to ground for time: [Info. rec'd. from \_\_\_\_\_]
- ☐ I did not determine initial final (circle) time(s)
- ☐ Other: \_\_\_\_\_

25. Did you have any indication (real or imaginary) of a loss of time, i.e., a period for which you cannot account?

- ☐ Possibly yes
- ☐ Definitely yes: [Elaborate \_\_\_\_\_]
- ☐ Unsure but probably no
- ☐ Definitely no

26. Did you land at your pre-planned or scheduled time?

- ☐ Yes (within normal tolerance limits)
- ☐ No: [Please explain why \_\_\_\_\_]

27. Use this space to add any other details/observations/facts that are related to the timing of your sighting.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

## Part IV. SIGHTING AIRCRAFT DETAILS:

28. Type of aircraft (check)

- ☐ Single engine
- ☐ Multi engine [no. \_\_\_\_\_]
- ☐ Propeller
- ☐ Jet
- ☐ Rocket
- ☐ Glider
- ☐ Balloon

29. Model name/number/airframe mfr.

\_\_\_\_\_

30. Aircraft registration number.

\_\_\_\_\_

31. Airline name (if appropriate).

\_\_\_\_\_

32. Scheduled flight number.

\_\_\_\_\_

33. Object (phenomenon) was seen through the following window(s).

\_\_\_\_\_  
\_\_\_\_\_

34. Describe as precisely as you can the apparent clarity/scratches/etc. of these windows.

\_\_\_\_\_  
\_\_\_\_\_

35. About how familiar were you with this particular aircraft and its "peculiarities" of flight control?

- ☐ Very familiar: [I had about \_\_\_\_\_ hrs. flt. time]
- ☐ Reasonably familiar: [Comments \_\_\_\_\_]

36. Use this space to add any other pertinent details about the aircraft in which you were located during this sighting.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

37. What was your indicated airspeed?

\_\_\_\_\_ ☐ mph ☐ knots (check one)

38. What was your ground speed (if known)?

\_\_\_\_\_ ☐ mph ☐ knots (check one)

# REPORT OF UNUSUAL AERIAL SIGHTINGS

## Part 1 - Report by Observer

1. Name of Observer Mr B HARDIMAN Age 36  
 Address 8 CASTLETON RD  
VIEW BANK State VIC Post Code 3084  
 Occupation TEACHER  
 Telephone No. (home) 959 2031 (Business) 359 1166

2. a. Exact location of observer ON THE GREAT OCEAN ROAD

b. Observer's familiarity with the location POOR

3. Start of observation: Date 21.10.78 Time AFTER 7.00 am/pm  
 End of observation: Date 21.10.78 Time BEFORE 7.10 am/pm

4. Accuracy of date ✓ Time ✓

5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. CLEAR, STILL, JUST AFTER SUNSET, SOME PATCHES OF SEA MIST

6. a. In what direction was the sighting first observed? \_\_\_\_\_

b. At what angle to the horizon?

AS THE ROAD WAS FULL OF

BENDS I CAN ONLY GIVE THE DIRECTION OF BOTH FIRST & FINAL SIGHTINGS AS OUT TO SEA.

a. In what direction was the sighting last observed? \_\_\_\_\_

WE HAD NO CLEAR VIEW OF THE HORIZON DUE TO THE APPROACHING NIGHT. HOWEVER THE LIGHT ROSE FROM CLOSE TO THE SEA. AT FIRST SIGHTING & AT LAST SIGHTING WAS AT A CONSTANT HEIGHT BUT AT A LOWER ANGLE THAN YOU WOULD NORMALLY EXPECT AN AIRPLANE TO BE SIGHTED

8. Estimate of distance and/or altitude from observer \_\_\_\_\_

9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? BY EYESIGHT

WITH NO EQUIPMENT OR AIDS.

/ 10. Describe

10.

Describe the object(s)/light(s) as follows :

- a. number ONE
- b. colour MY WIFE SAW A BRIGHT WHITE LIGHT WITH COLOURED RAYS  
I SAW A BRIGHT LIGHT WHICH SEEMED TO BE GREENHUED.
- c. size ABOUT THE SIZE OF VENUS.
- d. shape ROUND
- e. brightness (relative to full moon/star) FULL MOON.
- f. movement/direction of travel NOT PARALLEL TO COAST  
COULD NOT TELL IF MOVING TOWARDS OR AWAY FROM COAST.
- g. sound NONE.
- h. speed UNKNOWN
- i. method of propulsion UNKNOWN
- j. manner of disappearance WE STOPPED WATCHING.

11.

- a. Narrative description of the sighting and any unusual features or additional comments

I WAS DRIVING ALONG THE GREAT OCEAN  
RD BETWEEN WYE RIVER & LORNE. WE  
LEFT WYE RIVER ABOUT 6.55 PM & ARRIVED  
AT LORNE AFTER 7.10 PM. MY WIFE BROUGHT  
TO MY ATTENTION A LIGHT OUT TO SEA  
WHICH SHE DESCRIBED AS A FLARE BECAUSE  
IT SEEMED <sup>TO RISE &</sup> THEN DIP TOWARDS THE SEA BUT LATER  
<sup>^ AGAIN</sup> IT THEN ROSE. BECAUSE OF THE NATURE OF THE  
ROAD I WAS UNABLE TO LOOK FOR  
30 SECS TO ONE MINUTE. AT THAT TIME THE  
LIGHT SEEMED TO BE STADY IN THE SKY  
AND I SAID I THOUGHT IT WAS AN AEROPLANE  
& WE STOPPED WATCHING. AT THE TIME THIS  
EXPLANATION DID NOT COMPLETELY SATISFY  
US. BUT WE SAID WHAT ELSE COULD IT BE.

/b. Diagram

b. Diagram or sketch of sighting (if possible)

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? \_\_\_\_\_

NO

13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)

Mrs B. HARDMAN

8 CASTLETON RD

VIEW BANK 3084

14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances. \_\_\_\_\_

NO

Date 2011.78

Signature

B. Hardi

INITIAL UNUSUAL AERIAL SIGHTING REPORT

1. Name of Observer : B. HARDIMAN
2. Address of Observer : 8 CASTLETON ROAD  
VIEW BANK 3084
3. Date and time of start of observation :  
21 OCT 78 7 PM TO 7-10 PM
4. Duration of observation : 5 MINS THEN LOST CONTACT
5. Observer's location at time of sighting :  
JUST WEST OF LORNE ON GREAT OCEAN ROAD
6. Brief description of object(s) : RED AND GREEN  
LIGHTS
7. Object's bearing when first observed :  
SOUTH-EAST TENDING TO SOUTH
8. Direction of travel : HEADING NORTH
9. Speed : NO IDEA
10. Angle of elevation : LOW IN SKY MOVING UP AND DOWN
11. Object's bearing when last observed : LOST SIGHT  
IT DIDN'T CROSS THE COAST
12. AFTER THE COUPLE DECIDED THAT  
IT COULD HAVE BEEN AN ACFT, THEY  
DISREGARDED IT.
13. APPROX 30 MIN LATER. ANOTHER  
SIGHTING. MEMBERS OF THE CAR CANNOT  
BE SURE WHETHER THE TWO SIGHTINGS  
WERE THE SAME.

Details of full report passed to  
DOT investigator in connection with  
\* VALENTIA disappearance.

# REPORT OF UNUSUAL AERIAL SIGHTINGS

## Part 1 - Report by Observer

1. Name of Observer Dianne Russell and family Age 13  
 Address 7 Ruth Street East Dorraster  
 State Vic Post Code 3109  
 Occupation Gra to Donvale High School  
 Telephone No. (home) 942-2031 (Business) -
2. a. Exact location of observer Back of house and out the front of house  
 b. Observer's familiarity with the location \_\_\_\_\_
3. Start of observation: Date 21/10/78 Time 7.30 am/pm pm  
 End of observation: Date 21/10/78 Time 1/4 past 9 am/pm pm
4. Accuracy of date 21<sup>st</sup> October Time 7.30 to 1/4 past 9
5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. No clouds just a few. Very clear a few small stars.
6. a. In what direction was the sighting first observed? 5° South East  
 b. At what angle to the horizon? 45°  

7. a. In what direction was the sighting last observed? East.  

8. Estimate of distance and/or altitude from observer It was on a 45° angle from us.
9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? No equipment were used we watched out the backyard.

/ 10. Describe

10.

Describe the object(s)/light(s) as follows :

- a. number 1 one
- b. colour White or Metallic color
- c. size 2 or 3 times the size of a star
- d. shape round sometimes we thought it looked big
- e. brightness (relative to full moon/star) To a very very bright star
- f. movement/direction of travel it did ~~not~~ move  
for awhile and then it moved to the south
- g. sound There was no sound at all
- h. speed We did not see it move we came out and it
- i. method of propulsion we did not see it move we came out and it
- j. manner of disappearance It just faded.  
had moved.

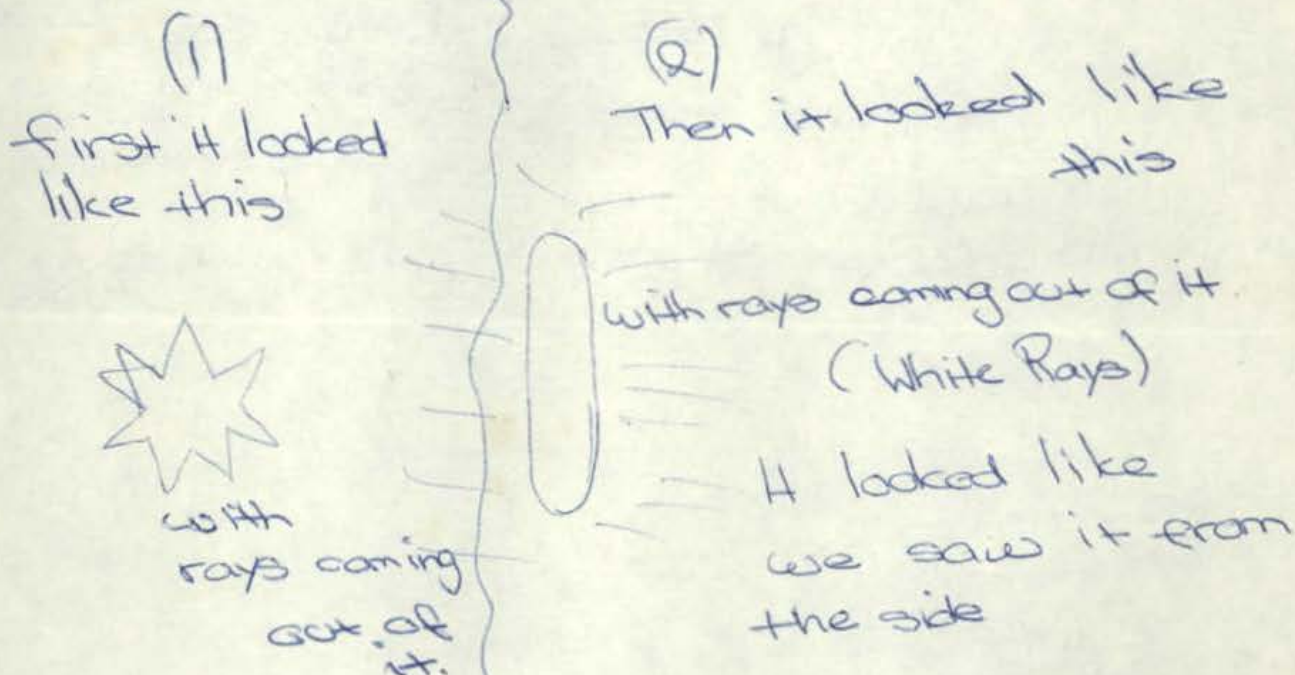

11.

- a. Narrative description of the sighting and any unusual features or additional comments It was a  
round metallic shape and it would  
go small and stay that way for  
awhile then it would go really  
big and very very bright it was  
2 or 3 times bigger the size of  
an ordinary star. We watched it  
for a while then went for the  
phone to ring you. As we did Dad  
went outside again and it had  
moved to the level of Next doors  
roof and we could hardly see it.  
Then when we went for a walk  
and came back it was gone.

/b. Diagram

b. Diagram or sketch of sighting (if possible)

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? No  
we have no photographs. We just  
were so interested in it we didn't think
13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)  
Mum and Dad My brother and his wife  
and my cousin and I.
14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances. No. I have  
seen other things but have not reported  
them because they could have been a  
plane or satellite but this one we could not  
put down to so I rang you because  
it flashed sort of as it went in and out  
but there was no noise

Date 31/10/18

Signature

Diane Russell

~~turn over~~

I see you are interested in my report.

We thought it very strange about the plane that has disappeared and it was the same time and same night as it disappeared. and the same place or way.

INITIAL UNUSUAL AERIAL SIGHTING REPORT

1. Name of Observer : DIANE RUSSELL
2. Address of Observer : 7 RUTH ST  
EAST DONCASTER
3. Date and time of start of observation :  
1930 HRS 21 OCT 78
4. Duration of observation : continuing
5. Observer's location at time of sighting :  
AS ABOVE
6. Brief description of object(s) :  
BRIGHT STAR - FADING TO A SMALL CIRCLE
7. Object's bearing when first observed :  
SOUTH WEST
8. Direction of travel : STATIONARY
9. Speed : .....
10. Angle of elevation : 45°
11. Object's bearing when last observed :  
Reversing elevation

12. Wishes to fill in a formal report.

13. All the Russell family sighted the object

Venus set at about 2115 hrs. on

21 Oct. RB.

# REPORT OF UNUSUAL AERIAL SIGHTINGS

## Part 1 - Report by Observer

1. Name of Observer ROBERT BRATETICH Age 22  
 Address 5 PERCY ST. ARAHRAN  
 State VIC Post Code 3181  
 Occupation SHOP MANAGER  
 Telephone No. (home) \_\_\_\_\_ (Business) 309 5825
2. a. Exact location of observer I WAS A PASSENGER IN A TAXI  
DRIVING ALONG THE TULLAMARINE FREEWAY HEADING TOWARDS  
THE CITY. I WAS PASSING AIRPORT WEST SHOPPING CENTRE  
 b. Observer's familiarity with the location I USED TO WORK THERE (1 YEAR)  
21ST OCTOBER I ALSO LIVED IN EAST KEILOR
3. Start of observation: Date 21ST OCTOBER Time APPROX 1:30 am/pm  
 End of observation: Date 21ST OCT Time \_\_\_\_\_ am/pm
4. Accuracy of date THIS IS APPROXIMATE Time OBSERVATION WOULD HAVE LASTED  
ABOUT 30 SECONDS
5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. THE WEATHER WAS EXTREMELY FINE.  
HARDLY ANY CLOUD, WIND AND VISIBILITY WAS PERFECT
6. a. In what direction was the sighting first observed? ON THE RIGHT AHEAD  
 b. At what angle to the horizon? 
7. a. In what direction was the sighting last observed? ON THE RIGHT BEHIND  

8. Estimate of distance and/or altitude from observer IT APPEARED TO HOVER  
ABOVE THE SHOPPING CENTRE (APPROX 500 YDS AWAY) AND ABOUT 300 FEET HIGH  
IT COULDN'T HAVE BEEN TOO HIGH BECAUSE I COULD SEE FROM INSIDE THE CAR.
9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? BY MEMORY, I DID NOT DIRECT  
THE TAXI DRIVERS ATTENTION TO IT AT THE TIME. THEREFORE DID NOT  
HAVE A SECOND OPINION. NO AIDS WERE USED

/ 10. Describe

10. Describe the object(s)/light(s) as follows :

- a. number ONE
- b. colour METALIC, SHINY LIKE ALUMINIUM
- c. size IT LOOKED ABOUT 10 TO 12 FEET AT ITS WIDEST POINT
- d. shape LIKE A FLATTEN OVAL BALL  DEFINATELY 3 DIMENSION  
NO LIGHTS OR PROUDING OBJECTS OR WINDOWS
- e. brightness (relative to full moon/star) IT WAS REFLECTING THE SUN  
AND WAS VERY BRIGHT
- f. movement/direction of travel IT WAS STILL. IT DIDN'T  
MOVE FOR THE WHOLE TIME I OBSERVED IT. AND IT DIDN'T DIMINISH IN  
SIZE AS IF IT WAS FLYING AWAY FROM ME
- g. sound I WAS IN THE TAXI I DIDN'T HEAR ANY NOISE
- h. speed IT DIDN'T MOVE DURING OBSERVATION
- i. method of propulsion I DON'T KNOW
- j. manner of disappearance I TOOK MY EYES OFF IT AND WHEN I LOOKED  
AGAIN IT WASN'T THERE

11.

- a. Narrative description of the sighting and any unusual features or additional comments I HAD FINISHED WORK ON THE SATURDAY  
AND HAD TAKEN A TAXI TO VISIT MY PARENTS IN EAST KEIHOR.  
I WAS SITTING IN THE FRONT PASSENGER SEAT AND AS WE WERE  
APPROACHING WESTFIELD SHOPPING CENTRE, I OBSERVED ABOVE IT A SHINY  
OBJECT. AS WE DROVE CLOSER I REALISED IT WASN'T  
A PLANE AND IT WASN'T MOVING. IT APPEARED QUITE CLOSE  
AND SHARP ON THE BACKGROUND. AS WE MOVED ON FURTHER  
ON THE FREEWAY THE LINE OF VISION WAS GETTING  
OBSTRUCTED BY THE CAR ETC BECAUSE IT WAS THEN BEHIND  
US. I THEN TOOK MY EYES OFF THE OBJECT FOR A FEW  
SECONDS AND LOOKED BACK AND I COULDN'T SEE  
IT AGAIN.

/b. Diagram

- b. Diagram or sketch of sighting (if possible)

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? NO
13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)  
NONE
14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances. NO

Possibly 'UFO' - type - EILSON  
near WESTFIELD SHOPPING CENTRE

Date 8/11/78 Signature R Bratcher

INITIAL UNUSUAL AERIAL SIGHTING REPORT

3095825

1. Name of Observer : ROBERT BRATETICH
2. Address of Observer : 5 PERCY STREET  
PRATIKAN
3. Date and time of start of observation :  
13:30 21 OCT 78
4. Duration of observation : 1 min
5. Observer's location at time of sighting :  
TULLAMARINE FREEWAY WESTERFIELD SHOPPING
6. Brief description of object(s) : LOOKED SHINY  
DISC
7. Object's bearing when first observed :  
STATIONARY
8. Direction of travel : .....
9. Speed : .....
10. Angle of elevation : .....
11. Object's bearing when last observed : .....

Balloons have recently been  
in use tethered above shopping centres  
& sports complexes, e.g. Kooronga, for  
publicity purposes. RB

REPORT OF UNUSUAL AERIAL SIGHTINGS

Part 1 - Report by Observer

1. Name of Observer H+K Cameron Age 51+55 years  
Address 21 The Bend Garden City  
Melbourne State Vic Post Code 3207  
Occupation Housewife - Driver  
Telephone No. (home) 6451428 (Business) \_\_\_\_\_
2. a. Exact location of observer Home Address  
Front Garden
- b. Observer's familiarity with the location resident 37 years
3. Start of observation: Date 20<sup>th</sup> Oct Time about 8-25 am/pm pm  
End of observation: Date 20<sup>th</sup> Oct Time about 8-34 am/pm pm
4. Accuracy of date 20-10-78 Time 8-25 pm
5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. \_\_\_\_\_

Good

6. a. In what direction was the sighting first observed? coming from Bay heading toward City  
b. At what angle to the horizon?

7. a. In what direction was the sighting last observed? Downwards City of Melb

8. Estimate of distance and/or altitude from observer high as a Satellite,  
with a Blashing White light underneath
9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? by observing a  
Satellite a few years ago; and no aids used  
Blashing light caught eye / 10. Describe  
was too high for plane or Helicopter

Pilot Officer,  
P. Bale,  
R.A.A.F.

Victoria Barracks. Melbourne

Dear Sir

at 11 P.M. on November 3rd - (Friday) 1978, a craft brilliantly lighted in white - passed my home. It came from the direction of Mt. Donna Buang N.E. from my home, which faces north. It was circular in shape and studded with light. It came in at some speed dropped height - as it neared Mt. Little Joe - it went straight west until out of my sight.

Mt. Little Joe would be a wonderful sighting point.

Must mention that although it was practically eye level and just short distance from me - I did not hear a sound. My home is on a hillside and has a tower which gives an advantage in this narrow valley. As I explained I live alone - but report these bewildering happenings to the young woman - who helps my housekeeping.

As it concerns Australia it is immediate  
to me. I am settling down from my fear - and have  
been thinking about the purpose - it came to me that  
perhaps they are an internal movement and carry things.  
My opinion, respectfully for your consideration.

Faithfully,

(M) Trela Campbell

# REPORT OF UNUSUAL AERIAL SIGHTINGS

## Part 1 - Report by Observer

1. Name of Observer Margaret McGANN Age 37  
 Address 8 SHIBOR DRV. E. VERMONT.  
 State Vic Post Code 3133  
 Occupation Home DUTIES  
 Telephone No. (home) 873 2667 (Business) —
2. a. Exact location of observer PORT CAMPBELL  
CARRIVAN Park  
 b. Observer's familiarity with the location Good
3. Start of observation: Date 8<sup>th</sup> JAN Time 1 AM am/pm  
 End of observation: Date " Time UNDER 5 HRS am/pm
4. Accuracy of date SUN 8<sup>th</sup> JAN 1978 Time 1 AM
5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. (NO CLOUD) (NO WIND)  
EXCELLENT visibility
6. a. In what direction was the sighting first observed? N.W.  
 b. At what angle to the horizon?  

7. a. In what direction was the sighting last observed? N.W.  

8. Estimate of distance and/or altitude from observer DISTANCE APPROX 400m.  
ALTITUDE UNKNOWN
9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? ASSESSMENT FROM MEMORY  
NO AIDS OR EQUIPMENT USED.

10. Describe the object(s)/light(s) as follows :

- a. number ONE
- b. colour LIKE FLUORESCENT LIGHT.
- c. size APPROX 4 TO 6 TIMES EVENING STAR
- d. shape ROUND (AT FIRST) THEN UMBRELLA SHAPE
- e. brightness (relative to full moon/star) NO COMPARISON (MUCH BRIGHTER)
- f. movement/direction of travel STRAIGHT DOWN.
- g. sound SIMILAR TO HIGH SPEED MORSE ON SHORT WAVE RADIO  
(APPROX 10 MHz)
- h. speed FAST. FALTERED VERY SLOW.
- i. method of propulsion CONTROLLED DESCENT
- j. manner of disappearance VANISHED

11.

- a. Narrative description of the sighting and any unusual features or additional comments The object appeared as a bright light dropping vertically and at a rapid rate. The brightness became more intense as the light descended. And appeared to be free falling. Then came under control + slowed dramatically, the light then spread out as if illuminating the surrounding area. It was so bright that the trees were lit up and clearly visible. The light then vanished as if switched off.  
The sea appeared to become very rough for about two minutes, approx 10 mins before the light was first seen

/b. Diagram

b. Diagram or sketch of sighting (if possible)

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? \_\_\_\_\_

NOT That we could find

13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)

MRS R. SULLIVAN

Guido Valentich,

Dear Sir,

Westernport Rd  
Ripplebrook 3818  
Via Drouin  
Victoria

Sunday 29.10.78

I have noticed in the news papers much Speculation + rumour about what happened to your Son. Possibly we will never know the real truth. And professional Government Propaganda can destroy the real truth. (For example the money sent to Darwin after Cyclone Tracey never got there, disappeared, missing, Land deals, UFOs etc covered up professional

Late Saturday afternoon 21.10.78 I called at Les Parkers, Westernport Ripplebrook + Allan Parker + I went shooting near our own residences till dark. We decided to go home have quick tea + go spotlighting. Allan Parker arrived while I was eating my tea + I reckon it must have been between 8 + 9 o'clock (PM) 21.10.78 that I was down our shed assembling spotlights etc.

My Wife was up the track in the headlights + we yelled out to her what the hell are you doing. She had a bright light in the sky beyond + south of the Crib Point Gas flame. Allan went on up the track + watched it while I fiddled about + pumped 10 or 12 gallons of fuel into the car + then I drove up the track for a look. Allan claimed it had moved slightly so I guess I watched it for about 10 minutes + by taking a bearing on lights on the ground it did move slightly south + did lose altitude again very slowly. It was a clear night + every Star could be seen it was not a star possibly it could have been a Helicopter Hovering at great distance the light was orange to red (like a distant car tail light) + I am certain If I had been on Mt Baw Baw it would of been bright enough to see it from there. We saw only a light. It was south of Crib Point flame, low over the horizon + would of in my opinion been in line with Lang Lang Jetty on the bottom end (South end) of French Island. It appeared to be well out <sup>over</sup> the sea + many miles further out than the land.

We watched it for a while + Allan was impressed as until then I don't believe he believed in lights in the sky etc  
We moved off the property situated 6 miles south of Drouin on

(2)

the corner of Westernport Rd + Costers road + went down Costers Rd to Modella. Allan ~~watched out~~ <sup>we went away speaking</sup> the car window to see if he could still see it ~~it~~ I told him about the lights I had seen. About the Royal Australian Airforce UFO man who talks to you to find out what you know then point blank in a indirect fashion says you are an idiot. I told him about being invited to Bill Frews of Meerlieu for supper after tea + seeing lights in the sky + we went looking for it at Hollands Landing (20 miles South of Bairnsdale) + got back so late we didn't go to Frews. When we told Bill next day he didn't laugh. He said most folks round there believed in them. Since then I have spoken to many people some had ignition failure with Gasoline engines, when a light hovered above + buzzed them. The sweat ran out on their necks + their foot hard down on the accelerator did nothing. One guy at Bairnsdale Airport saw a solid object as large as a big plane hovering above a (foot ball ground) or local reserve (from Memory). He told me it had no wings made a slight low pitch whistling or hissing noise + when it started to move it vanished without noise to just a speck in the sky. It hovered there a while + then vanished. He new of peole who had had a noiseless something shine a hollow beamed searchlight down on them while they were in their car with the ignition dead + these people feel that the unknown silent thing did a computer read out on their brain impulses (or stole records from their memory). Another Guy was led through s bends at up to 115 mph in his car by an unknown light hovering above the car. The s bends were done with out sensation of Inertia (or Syntritical force) + latter, days later he went back to try it all over again in the same car 75 mph was his maximum. People here in Ripplebrook their must be about 50% Belivers. At Meerlieu not far from the RAAF Base I believe the percentage may be higher. Not many people bother to talk about percular things that they have seen because of publicity ridicule. In the case of your Son if they wanted him they would take him. (In my opinion) + I have seen more of these lights than I am talking of here, who ever controls them is as advanced in technology as we are advanced over a dog.

People like to argue ( + even my own brother doesn't believe in these things ) that we have no proof that UFOs exist + no one has one in a museum etc.

I guess penguins + seals have never captured a ocean liner or a Concord Plane + taken it to their museum either but thousands of tons of ships + 100s of tons of planes fly. **HOW TRUE!**

Imagine how smart we will be when we can reverse gravity + reverse the pull of the poles.

Imagine 100 yrs ago some one talking about takeing a picture, converting it to a radio signal, sending it at the speed of light, + reconstructing it into the visible mode again in a TV set. The man who talked like that 100 yrs ago would of been ridiculed.

One day they will be able to break us down to particles + beam us to another planet + reconstruct us.

I shone a 500 000 Candle power searchlight at one of these lights in the sky at Meentien ( $\frac{1}{4}$  Miler east of the School) + we saw it land near Hollands landing. We got there and found nothing except 3 fellows in a Caravan we asked them if they saw anything + 2 of them said we had been drinking. The third was desperate to talk to us, he had had the light above his truck cold sweat both feet on the accelerator ignition failure etc all this while his mates stood by + ridiculed him. He told us

Going back to beaming particles + reconstructing them.

This 500 000 searchlight shows a pencil beam covering approx 4" at 30 ft. By takeing a magnifying glass + walking 75 or 80 feet down the beam holding the magnifying glass in the beam it collects the rays of light + will burn wood where the pin point reflected beam focuses. Possibly your Son is <sup>on</sup> some other Planet + may be alive + well.

Yours Truly

(Please do not give this information to the press) Clive Dawood Clive Downie

Without going to any trouble we have talked to people in the Outback in Overseas Countries etc + its UFOs are real. Especially in Country areas it is more prevalent + with no man made noises lights + silent things gliding around the sky attract attention. Aircraft with simulated noises in day time are true in my opinion too.

SUMMARY OF UAS SIGHTINGS FOR THE PERIOD 18-23 OCT 78

<u>DATE</u>	<u>TIME</u>	<u>AREA</u>	<u>DURATION</u>	<u>DESCRIPTION</u>
18 Oct 78	1900	SOUTH BLACKBURN	1 hr	Circular light, disc shaped, bright then dull cycling - stationary.
20 Oct 78	1445	ALEXANDRA	5 min	Silver Zeppelin-like object moving slower than a jet aircraft.
20 Oct 78	1900	PORT MELBOURNE	4 min	Starlike object with white flashing light - moving very fast.
<i>VALENTICH 1913 hrs SAT 21 OCT.</i>				
21 Oct 78	1330	TULLAMARINE	1 min	Shiny disc - stationary
21 Oct 78	1900	VIEW BANK	5 min	<i>COPY TO DDT INVESTIGATOR</i> Red and green lights moving north
21 Oct 78	1930	EAST DONCASTER	Cont	Bright star, fading to small circle - stationary
21 Oct 78	1930	20k NE GEELONG	2 sec	Concentric rings of varying colours - stationary
21 Oct 78	2000	FLEMINGTON	10 min	Steady light circling in clouds
21 Oct 78	2100	FRANKSTON	3 sec	Green round light
21 Oct 78	2155	MORNINGTON	10 min	2 bright lights travelling over bay faster than light aircraft
21 Oct 78	2300	MEERIM EAST	3 min	Bright light, no colour
22 Oct 78	1100	MITCHAM	10 min	Orange light, much slower than aircraft
22 Oct 78	1900	HEATHCOTE	10 sec	Flashing green light, very bright, round moving at aircraft speed
22 Oct 78	2000	BALLARAT	15 min	Star like object, green and red lights flashing, size of aircraft
22 Oct 78	2230	MRYTFORD	20 min	Coloured flashing lights, not a star or aircraft
23 Oct 78	1910	BLACKROCK	3 min	Cigar shaped object, silver coloured, very bright shafts of light at both ends.
23 Oct 78	2010	HARKAWAY	20 min	Very bright light semi-circular with bright orange light
<i>PART 1 date is 21 OCT.</i>				
23 Oct 78	2010	GREENSBOROUGH	10 min	Flashing light hovering in a circular pattern.
23 Oct 78	2015	ROBINVALE	30 min	Stationary bright lights
23 Oct 78	2100	FRANKSTON	5 min	Red coloured triangular shaped object
23 Oct 78	2245	DONCASTER	30 min	Large starlike object with bright lights - changing colours.

### UNUSUAL AERIAL SIGHTING REPORTS

1. During working hours, the Defence Centre switch operator will connect callers who want to report an unusual aerial sighting (UAS) to the Ops Room or, if the caller is identified as a reporter, to the Public Relations staff.

#### Procedure

2. Ask for the caller's name, address and telephone number and record these clearly on the UAS report form.
3. Tell the caller that you will pass on these details to the section concerned and that someone from the section will return the call as soon as possible.
4. If the caller will not be available for a return phone call, note down brief details of the sighting and tell the caller that he/she will be sent a questionnaire to complete.
5. If you become aware that the caller is from the media, note this on the report form.
6. Notify the Intelligence section on Ext. 3777/3779 that a UAS report has been made.

Note : Do not give the Intelligence section telephone number to members of the public/media.

*Duty Officer X 3767*

Apartment 14,  
2451 First Avenue,  
San Diego, California, 92101,  
November 1<sup>st</sup>, 1978.

Airport and Government Officials,  
Melbourne, Australia Airport,  
Airport Control Tower,  
Melbourne, Australia.

Dear Officials:

With frightening interest, I read a few days ago the U.P.L. news account of the small plane which was unmistakably destroyed near King Island by a (so-called) U.F.O.

I especially noted in the news account that radio communication between the Melbourne Control Tower and the pilot of the light plane was intermittently interrupted by the presence of the (so-called) U.F.O. and that the light plane's engine began to choke (and stop) according to the final words of the pilot to the control tower just before radio communication totally ceased and the plane forever disappeared — (into the ocean).

I know from first hand knowledge that a very similar occurrence took place in Western Canada in the late 1960's

in which radio telephone communication was interrupted by a hovering (so-called) U.F.O. and in which an automobile motor was stopped by a similar device that crossed the highway in front of it.

False accounts that have been published over the years about outer-space vehicles & peculiar beings were purposely published to camouflage the actual truth (and for no other reason) by a secret group of people involved in this insidious activity.

Sometime ago, I came across the following information: Near the close of W.W.II. some intelligence group stole from the Germans highly developed blue-prints on how to manufacture & operate aerial vehicles by "ion propulsion" which means it can take from the atmosphere of earth the electrical charges (electrons, protons, neutrons) and convert these electrical charges into power to propel the various shaped aerial vehicles through the air and it, also, now operates in conjunction with the lethal laser beam because it can provide instantaneous ~~unlimited~~ unlimited electrical power to activate the attached laser beam parts thus giving it the power to destroy anyone or anything - planes, tanks, etc., etc. The (so-called) UFO can operate anywhere on earth by remote control with excellent maneuver-

ability at fantastic speeds from point zero. Also, I think, it can operate underwater & hide under water.

A personal friend of mine was destroyed by one of these damnable things in (late 1960's) Western Canada on an isolated country road one late afternoon when his truck was set afire & he was burned - (trapped-) in the cab - chared so you could not recognize him. The (so-called) U.F.O. evidently set his truck <sup>afire</sup> with the laser beam igniting his gas tank that was near the truck cab. He did not turn over by accident.

A direct source of information recently provided me with the fact that the U.S.A. is & has been for some time working on a greatly secret project called the "Snake Project" that is somehow connected with the (so-called) U.F.O. = Ion propulsion - laser beam aerial vehicle. It is my understanding that an international group is involved with this Snake Project. Gort.

Please excuse my rapid writing. Sincerely,

Everett E. Hinch, Apt. 14,  
2451 First Avenue  
San Diego, California, 92101.  
U.S.A.

2

TO WHOM IT MAY CONCERN

I have written many things re my Mining Leases  $\frac{96}{68}$ M 80ac. and  $\frac{95}{70}$ \* 80ac. and  $\frac{104}{71}$ M 40ac. I have written all I can, enough to prove that what I write is correct.

That land was taken up by the Late Mr. S. Cox, under Occupation Licence. I even expect to do work, including the Dattum Charts for which I have copies of Dattum Chart, Occupation Licence. The Director of Mines tells me a bare faced lie - has even truly worked things against me, for himself and for others who may be in the swindle. I say now they instructed the Surveyor to run the lines from the Marking Peg to say go North East I knew that this Cox land was Crown Land and that line would take me down a good thousand feet or more, make it easier to mine. Victimisation is not the word for it. Why didn't the Director of Mines tell me that I was not wanted and to keep out? Why didn't he get that agreement that my wife and I signed back to me - that is a real dirty trick.

I was compelled to do just what he told me to do. He reminds me of a shepherd - he gets a little lamb in his arms and carries it and all the flock follows. I have taken this so called land up more than once and makes it much harder to get a company in to work it.

I am waiting for a copy of the latest copy of the Act that covers Uranium, also a report of the planes that were sent over my camp. The Mines cannot tell me that this is justice, I call it one Law for me another for others.

Now I write on another phase of the theme of the matter. Some time now before I left to come up to Mareeba, Nth. Queensland, I saw an object in the sky which stayed there without moving with bright lights and did not seem to move, it seemed to be well in the skyline for two or three weeks, after that two or three weeks it came over the camp. The noise had great power, if I knew as much as I do now I would have got out of the camp and had a good look at it. Next morning I saw the same thing with the same shape with the lights around it as it seemed to be well up in the sky over the land in the place that could be where that pilot and plane was caught up and taken away. Instead of being there next morning it was the other side of the camp and seemed to be above Mr Victors.

When I went into Scotsdale I reported this to 7SD, Scotsdale wireless station, not taking a lot of notice of it and did not give it another thought. One day lately I was tuned into 2SM North Sydney at once being from that part of the sea Bass Strait where I had seen it about Scotsdale, seems to me to be between Birdport and Mt. Horrock, that looking from Malthinnia Plains and from my camp.

2SM Sydney my story and they said aren't you afraid of them laughing at you when we tape the story? I said I have seen this and I have heard the sound and seen the object in two places.

Now after that pilot and the plane has been taken from the same area of where that object was. The pilot reported that some oblong object was following him and it was not an air liner, then after that no sound. Where has he gone? I don't ask that of those who think they know and don't like not knowing. It could so happen that these people are testing which has rich gold and uranium. If we can find minerals with our planes they for sure can too. They may use a fuel which is to the standard of uranium. If we don't know maybe they are doing the testing to get that stuff for themselves. They have a big advantage over us, the element of surprise is the basis of success. If the Mines Department cannot read a Chart who can? I used to do a lot of that work and I'm not asking for a job.

Some time ago in a town called Ayr, near Home Hill, I was getting steel work down and we were talking and he said my boss was then making an air plane and she started to move. He got excited and jumped about. He said she'll fly. He said they flew the boss to the mad house. They said fancy putting a thing that big into the sky. They said he's mad, we will keep him there. I often think of this man, many times I have been told that you can't do that, including cane cleaners, cane harvesters, cane loaders and gas purifiers, etc. etc. etc. I was the first one to make a cane harvester in Tully, Nth. Queensland. I believe the inspiration is given to me to write this story through the pilot of that plane.

I was offered a partnership on this work some years ago. I am at all times willing to help in this matter re this object, such as showing where I saw this object. I say we must get together and do something and must make sure we can read a Chart and not depend on those who cannot do so, such as the Mines Department. I say we can get ready in time and give others a bit of a chance.

I believe that most of these reports are of the worst degree of subterfuge. It must be remembered that those in control of a thing of that size which can stay up in the sky in one place for say three or four weeks and also move about the sky for some time and shift to a different spot, must be very advanced in comparison to our time. Then after about two years or more pick up a plane and its pilot and no more is seen of the pilot, the plane or the thing that took them away. "Where to? How would they get food? How do they get fuel to run the thing? How far do they come from? Are they testing that area to find a good way to get minerals?

I think that at present we have nothing, can do nothing and know nothing. Remember at present we know very little about outer space people, that much we might be able to talk about it this having their machine ready to strike. Remember if uranium is there and space people want it for their use, so far we have not put the distance field glasson them. Instead of you people taking this uranium from me the space people may be taking it from the Mines Department in our country. Why not send our gear out and try to pick up the forerunners? They will have to be lashed with plenty of food and year and warm weather.

In about early 1970 the ABC came up from Hobart to take a TV film and showed quite a lot of country and it was shown throughout Australia. Rich mineral has been found but no help has been given by the Mines Department.

*Gerald F. Cotton*

(Gerald F. Cotton)

4/34 Alia St.

LAKEEMBA.

THIS IS A REPORT OF A U.F.O. SIGHTING BY MY WIFE AND SELF AT 7.40 pm. ON SATURDAY THE 21st. OF OCT. 1978 AT VALLEY VIEW S.A. IN THE S.S.E. SKY AT A 35 DEGREE ANGLE.

On the above mentioned evening I stepped outside to call our cat who my wife was concerned about as it had shunned her due to the fact that we had strange kittens in the house. After no response from the cat I pondered and gazed in the sky, when I saw what I took to be a large plane approaching from an S.S.E. direction. The plane appeared to be quite near with what I took to be it's landing lights on and coloured lights at both sides. I thought this an unusual direction for such an approaching heavy plane as if it continued it meant that it would have to cross the flight path of the major air liners heading for the ADELAIDE AIRPORT. My curiosity aroused I decide to wait and view this plane which I estimated would be directly over head in approximately three minutes or there abouts. To my amazement this did not occur as it came no closer after having waited a period of some seven minutes or more.

My wife came to see what I was doing outside so long and said to me, "What on earth are you looking at in the sky", to which I replied "Well look at that and tell me what you think it is". Her reply was "It's not a star for it is too big." I then asked "Well what do you think it could be," to which she replied "It's a rocket (MEANING THE FIREWORK TYPE) as you can see the coloured lights coming from it. I then said to her "If that is the case how could it stay in the sky so long," for I have been watching it for between seven to ten minutes. She then said "No your right it can't be," as the two of stood gazing in amazement at this large white yellow light and by now an assortment of colours flashing at the two sides.

Having got my binoculars from within the house I focused this object, but found my hands unsteady, so I rested them on a small statuette on the patio, when I was able to finely focus absolutely clear onto this unexplainable object. What I saw was a large triangular yellow white light (AS SHOWN IN THE ATTACHED DIAGRAM) laying on it's side with one side of the triangle in a vertical postion. Within this triangle flashing from points A,B,C, and D, (AS ILLUSTRATED IN DIAGRAM) were iridescent lights. I can only positively remember three of the colours which where blue, blue green, and orange, but feel sure there were also others. My wife watched it for near enough ten minutes, and myself for a total of roughly fourty five minutes before losing sight of it behind a large gum tree two gardens away. During the last stages of viewing this assortment of colours it transformed into a V shape still on it's side with the top half appearing to be the reflection of the lower portion, as one might view a boat sitting on the surface of the water.

I reported this matter to EDINBURGH AIRPORT at 5.45pm. Monday the 23rd. of October, and was told by a girl that this information would be passed onto the U.F.O. INVESTIGATIONS OFFICER in the morning. By now I was aware that I had seen word for word exactly as the missing Melbourne pilot had described. I rang again EDINBURGH AIRPORT the following day October 24th. and spoke to an officer who told me he would try either to see me at my place of work or at my home in the evening. As by the following day October 25th. he had not made the effort to interview me, I again phoned and told him of my concern pleading for him to heed this information which I felt so vital in the case of the missing pilot. After confirming my statement with my wife over the phone, this officer subsequently visited my home and took a signed statement from me along with a diagram of the three stages that this moving light had taken.

I have no doubt in my mind that whatsoever I witnessed was exactly as the young pilot described who has gone missing, and was said to be flying upside down at the time on the 21st. of October.

I am prepared to swear on oath or submit myself to any lie detector test to substantiate this my statement.

62 61

Subject:

Comment on Report at Forio 62.

A careful report made in good faith by an intelligent member of the public. However, the evidence of an object at typical aircraft speed and size observed close to the sun suggests to me that he actually sighted a normal aircraft. The sunlight, reflected by some of the plane's surfaces, would alter its apparent shape quite considerably.

Mellorine 3004

Dear Sir,  
I enclose herewith the former report  
of V.C.O. together with my own  
personal report which will give further details  
as to the fighting and circumstances surrounding  
it.

I believe the report to be true in  
every detail and as accurate as possible. It  
was made out quite fresh in my mind at the  
request of your department, because I wanted a  
record of it. The file is numbered a copy  
and Mr. Walker, the father of the poor boy  
in fact, shall necessarily receive a copy.

I think this fighting is very different  
of the existence of that flying object but how  
having seen a picture of it at a recent  
dread question of the subject for me  
consequently I would appreciate any  
information you can give on the subject and  
on this fighting in particular.

I think I have covered everything in  
my report. However if there is anything of  
which I have not covered the case of possible  
interest in only too pleased to provide further  
information.

Yours faithfully,  
J. J. Filling

# REPORT OF UNUSUAL AERIAL SIGHTINGS

## Part 1 - Report by Observer

1. Name of Observer F.N. Jolly Age 50  
Address 54 HANBY ST. BRICATON  
Vic. State            Post Code 3186  
Occupation MASTER MARINER - PORT PHILLIP SEA PILOT  
Telephone No. (home) 92 7278 (Business) 3975271
2. a. Exact location of observer IN THE BACK YARD OF MY HOME AT THE ABOVE ADDRESS  
b. Observer's familiarity with the location 7 YEARS
3. Start of observation: Date 12/11/78 Time 1442 am/pm  
End of observation: Date 12/11/78 Time 1443 am/pm
4. Accuracy of date WITHIN 1 MINUTE Time
5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. FINE & VERY CLEAR WIND SKY 15/20 KTS  
NO HIGH CLOUD. PASSING LIGHT LOW CLOUD (30 KTS)
6. a. In what direction was the sighting first observed? 280°  
JUST SOUTH OF & NEAR THE SUN  
b. At what angle to the horizon?  

7. a. In what direction was the sighting last observed? 280° T.  

8. Estimate of distance and/or altitude from observer 2000 FT ALTITUDE WHEN OVERHEAD.
9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? BY 32 TRANS

EXPERIENCE IN CELESTIAL & TERRESTRIAL NAVIGATION  
AND VERIFIED TODAY BY SIXTANT ALTITUDE OF SUN  
AT THE SAME TIME AND BY MAGNETIC COMPASS.

(8) TODAY I RANG DIRECTOR OF MARRABIN AIRPORT TO CHECK  
AVERAGE HEIGHT & SPEED OF LIGHT PLANES WHEN OVER THIS AREA.  
AVERAGE HEIGHT 2000 FT & AV. SPEED ~~110~~ <sup>110</sup> KNOTS. THIS IS SIMILAR TO  
OBJECT SIGHTED THEREFORE DIAMETER OF 40 MINUTES OF ARC AT  
2000 FT GIVES ACTUAL DIAMETER OF 22 FT. SPEED SAT 90 KNOTS.

10. Describe

10.

Describe the object(s)/light(s) as follows:

- a. number 1 (NO LIGHTS & NO SOUND)
- b. colour DARK GREY ON TOP. DARK-BROWN BANDS UNDER
- c. size APPROX 22 FT. DIAMETER. (40 MINUTES OF DARK APPROX)
- d. shape INVERTED SAUCER WITH DOME ON TOP.
- e. brightness (relative to full moon/star) —
- f. movement/direction of travel 280° TRUE - VERY STEADY COURSE.
- g. sound NONE
- h. speed SPEED OF SLOW LIGHT AIRCRAFT - SAY 90 KNOTS.
- i. method of propulsion MAGIC (IN OTHER WORDS - NO IDEA)
- j. manner of disappearance BEHIND ROOF OF MY HOUSE

11.

- a. Narrative description of the sighting and any unusual features or additional comments

SEE ATTACHED REPORT.

b. Diagram or sketch of sighting (if possible)

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations?

NO

13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)

NONE THAT I CAN LOCATE

14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances.

YES.  
APPROX 10 YEARS AGO. AT SANDRINGHAM DRIVE IN THEATRE  
APPROX 20 LIGHTS SIGHTED TO RIGHT OF SCREEN MOVED  
SLOWLY ACROSS SKY AT VARYING SPEEDS + DISAPPEARED  
WHEN ABOUT HALF WAY ACROSS. SIGHTED BY WIFE +  
OCCUPANTS OF A DOZEN OR SO OTHER CARS AS MANY GOT  
OUT OF THEIR CARS TO WATCH. REPORTED TO ASTRONOMICAL  
SOCIETY & I THINK RAAF. AS I RECALL ONE OTHER PERSON  
FROM AN OUTER KANSAS SUBURB REPORTED THIS.

Date 2/11/78

Signature L. J. Jell

Report on the sighting of a V.F.O at Brighton  
at 1443 on Sunday 12<sup>th</sup> November 1975.

I was lying on a trampeline in our back yard, the sky was very clear with no high cloud and with light passing low clouds. The wind was southerly at 15 to 20 knots.

I noticed a large object in the sky just to the south of and in the glare of the sun at an elevation of about 70° and moving in a westerly direction. I thought "gee, that's a big bird." Not particularly interested at that stage I thought that it looked egg or oval shaped and that it had brown bands on a darker background underneath.

After noting the shape and steady movement I decided that it wasn't a bird but must be a balloon or a kite but its movement across the wind soon dispelled those thoughts and made me sit up and take notice.

By this time it was getting lower in elevation and towards the roof of the house and I very clearly saw a dome on top, this was dark grey and appeared very solid. The base was like an inverted saucer and gave the appearance of being of thin metal and hollow. I have the impression that the skin of this part was waved as is often seen when light metal sheets are welded. I was surprised at the sharp angled joins between the dome and the base and the sharp edge around the perimeter of the base.

The object then disappeared behind the roof of the house at an elevation of about 20°. I later judged the course to be about 280° True.

I was probably in sight for a bit less than a minute and the final observations were

only for a few seconds  
that were no light, no response there and  
definitely no noise.

For hours to Tammam and light aircraft  
from observation post are here frequently but none  
were in sight at that time.

It was impossible to estimate its flight  
with any accuracy, its apparent diameter did  
not decrease very much after disappearing which  
would indicate that it was not very high.  
Certainly no higher than the average light aircraft  
estimate its diameter as slightly larger than a  
full moon.

of its height was 3000 ft. and its diameter  
40 minutes of arc, then its actual diameter  
would be 33 ft. I personally think it was lower  
than this, so therefore would be smaller. Its rate  
of passage across the sky was about the same  
as a slow light aircraft.

On the following day after figuring that its  
course would have taken it 3 or 4 miles from  
the Moorabbin airport control tower during the  
airport director who referred me to D. A. Cunningham  
who in turn referred me to the RAAF Public Relations  
Office. This office requested that permission be  
advised the daily newspaper and asked that I  
co-operate with them in the hope that it may  
encourage other reports. They also have asked for  
a full separate report.

This report has been made in good faith  
and in all honesty and as accurately as possible  
consequently the writer goes only forward to actually  
my own curiosity. I now personally know  
for certain that this type of flying object does  
exist but I remain as sceptical as ever to the  
theory that they are visitors from other planets.

Ken Jones

INITIAL UNUSUAL AERIAL SIGHTING REPORT

1. Name of Observer : CAPT JOLLY
2. Address of Observer : 54 HANBY STREET BRIGHTON  
3186 PHONE 927278
3. Date and time of start of observation :  
121443NOV78
4. Duration of observation : 1 MIN APPROX
5. Observer's location at time of sighting :  
ABOVE ADDRESS
6. Brief description of object(s) : EGG SHAPED, DOME ON TOP  
CONCAVE UNDERNEATH, DARK GREY METALLIC COLOUR DIA 60"
7. Object's bearing when first observed :  
280° TRUE
8. Direction of travel : AS FOR ?
9. Speed :
10. Angle of elevation : ALTITUDE APPROX 3000'
11. Object's bearing when last observed :
12. NO EMISSIONS OF ANY SORT, NO EXTERNAL LIGHTS, NO NOISE.
13. OBSERVER IS A PORT PHILLIP SEA PILOT.

Phoned Capt. Jolly. Seemed very level headed and had taken into account most of the usual explanations. He said that the press report in the 'Sun' was "a little exaggerated" - not exactly as he'd reported it. Agreed to complete questionnaire. RB.  
Questionnaire posted 17 Nov 78.

16.11.78.

2. a. Exact location of observer Point Lonsdale Lighthouse  
During the 1500 - 2300 (evening watch)  
 b. Observer's familiarity with the location 5 yrs. experience though  
working in Job.
3. Start of observation: Date 15/9/78 Time 2200 am/pm -  
 End of observation: Date 15/9/78 Time 2205 - 10 am/pm 25-10 mins
4. Accuracy of date CORRECT. Time CORRECT.
5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. Weather conditions good - V. Good.  
*Referring to weather*  
*Log at Point Lonsdale Lighthouse.* } Wind Northerly 16-22 kts Smooth sea with a low swell  
cloud cover about 3/8" Barometer 1009.
6. a. In what direction was the sighting first observed? SW-WSW from  
Lighthouse  
 b. At what angle to the horizon? 
 You 
 7. a. In what direction was the sighting last observed? SW-WSW from  
Lighthouse towards,  
Torquay - Apollo Bay  
(home area).  
 You 
 8. Estimate of distance and/or altitude from observer approx. 15 mls; direction  
SW-WSW.  
Towards LOERNE/TORQUAY but inwards from the land, inwards from  
the coast and over the sea.
9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? SIGHTING OBSERVED VISUALLY.

10.

Describe the object(s)/light(s) as follows: — Very Strange!

- a. number one object, Number of lights not distinct from distance
- b. colour Yellow, Red, Green, Orange <sup>white</sup> (seemed to interchange)
- c. size Larger than the brightest star/planet. (Sirius/Venus)
- d. shape Circular (Round)
- e. brightness (relative to full moon/star) Much brighter than Star/Planet = to Full moon intensity.
- f. movement/direction of travel No distinct movement of travel. <sup>although could have been there for a greater period.</sup>  
was only seen for a short period; 5-10 mins.
- g. sound Nil.
- h. speed No apparent speed. (Just disappeared.)
- i. method of propulsion Not known.
- j. manner of disappearance Both observer on Wyuna (Pilot ship) and myself observed instantaneous disappearance

11.

- a. Narrative description of the sighting and any unusual features or additional comments

In the binoculars this object was more distinct than with the naked eye. In a flash of a second in turning around it just disappeared.

Once Joe and I started to talk about it on the V.H.F. radio, after a short period it vanished with no direction to where it was going. Both Joe and myself thought that this was the result from us talking about it on V.H.F. (channel 13).

b. Diagram or sketch of sighting (if possible)

Lights colour: Yellow  
Red  
Orange  
Green?  
white?

Lights seemed to interchange and very bright.

The lights were not necessarily in this order, due to the distance from object.

Definitely appeared to be round in shape and much bigger and brighter than any helicopter or aeroplane and far larger than the brightest star or planet.

SEA.

LAND.

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? No photographs, No evidence of fragments/scorching or ground indentations!

13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)

Powell St,  
Ocean Grove, } Joe Clayton (mate in charge of Pilot Ship 'Islyura').

Have since had two elderly women visit the lighthouse who also had witnessed the same sighting.

14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances. No previous sightings or reports made to any organizations. Both myself and Joe Clayton, (mate in charge of Islyura) were mystified by the object/UFO. It was unbelievable in that we had never seen anything like this before.

Dear Sir

at 9.40 P.M. 26.10.78 (Thursday) through a  
frightful electric storm a craft lighted white only - passed  
my home; higher as it came in from Mt Donna Buanay  
N.E. from my home - dropping lower as it passed Mt. Little  
Joe - and it went straight west. I heard no engine, silent  
as it went - quite fast.

To my surprise, Mr John Pearce 2 G.B. Sydney - to  
whom I listen each night - was conducting his first  
programme 9 P.M. to 10 P.M. on aircal unknowns. He has his  
own plane - and said he has never seen one. But with his  
usual brilliance - opened the line for public opinion.  
With the static very bad - it was disappointing in  
reception.

Faithfully,  
(Mrs) Trieta Campbell

Sqn Ldr.

Sir,

From the recent visit of the UFO to Victoria  
I have been able to understand their message due  
I have seen one in the morning of 24<sup>th</sup> September  
passing over my house with a light at Kingsville.

Light = "demanding to lit the ground"

Plane = "Landing like a plane".  
(lost at Bass Strait) (Concord Aircraft system).

King Island = "Interlocking system for landing  
(like placing a hat on a head).

Bass = "Sound noise for landing, require  
(hassock) soft material mould like rubber  
(inflammable)".

Strait = "be brought to a bed" (a mould)  
(Confine)

Motto: Visitors of Outer Space.

23: 10: 1978

Dear Sir

At 10.45 P.M. Friday the 20<sup>th</sup> October 1978 - a square box like craft - studded with white light bulbs - and a red light - passed my home. It had neither nose nor tail. The engine was clear; it travelled very slowly and low in the valley. It appeared to come from Mt. Donna Brang direction N.E. from my home - and moved West to Mt. Little Joe - out of my sight.

I advised the police who thought it best to write the facts to you. Previously I wrote you the detail of my way of life. I understand if you are aware of this craft I need not concern myself. But I am upset gravely - there is a fear which I alone cannot calm. It is the seventh aerial sighting this year.

Kindly extend me the assurance needed, and your courtesy will be greatly appreciated.

Faithfully,

(Mrs) Berta Campbell

Mrs S Petrakou  
74 Cameron Street  
COBURG VIC 3058

Dear Mrs Petrakou,

Thank you for your report of an unusual aerial sighting on 11 October 1978. Investigation of your report suggests that what you saw was almost certainly the planet Venus. Venus has appeared as an 'evening star' for most of the year. Temperature inversions and haze which were predominant in the atmosphere that night, would give Venus the appearance of a large star with a very bright halo.

Your faithfully,

(K. LLEWELYN)  
Public Relations Officer  
(Melbourne)

Mr G. Hardwick  
PO Box 248  
KERANG VIC 3579

Dear Mr Hardwick,

I understand from Inspector McDonald of the Kerang police that you reported an unusual aerial sighting on the night of 9 October 1978. From his description of your report, what you saw seems to have been a combination of particularly bright stars seen under atmospheric conditions which cause rapid twinkling and colour changes. This is not an uncommon occurrence on a clear night.

If you feel, however, that further investigation is warranted, please complete the enclosed questionnaire and return it in the envelope provided.

Mr A Lamaletie  
8 Dunfield Drive  
GLADSTONE PARK  
3043

Dear Mr Lamaletie,

Thank you for your report of an unusual aerial sighting on 4th October 1978. Investigation of your report suggests that what you saw was almost certainly the planet Venus.

At the time of your sighting, Venus was particularly bright and was also in conjunction with several stars from the constellation Libra. This phenomenon would give Venus the appearance of a noticeably large star with seemingly 'flashing lights'. Phenomena of this nature are not uncommon.

Your faithfully,

(K. LLEWELYN)  
Public Relations Officer

5/6/1/Air (40)

Mr H Stehlik  
Regenerace Kennels  
Lot 5, Dales Road  
Staffordshire Reef  
via CAPE CLEAR VIC 3351

Dear Mr Stehlik,

Thank you for your report of unusual aerial sightings on 15 August 1978 and later evenings. Examination of your report suggests that the sightings were most probably of stars, planets or a combination of the two.

Pollution in the atmosphere, temperature inversions and a phenomenon known as atmospheric scintillation sometimes have remarkable, and possibly startling effects on these light sources. All are capable of producing colour changes from red and yellow through to blue and green and of creating the impression of movement. Atmospheric scintillation in particular, a phenomenon caused by varying atmospheric density layers, can produce rapid fluctuations in brightness, position and colour of light sources such as Venus.

At the time of your sightings, Venus was particularly bright, low in the Western sky. The planet Mars, although less intense, was close to Venus. Your sightings could well have been of Venus, Mars and stars affected by the atmospheric conditions described perviously.

Yours faithfully,

(K. LLEWELYN)

Headquarters Operational Command

UNUSUAL AERIAL SIGHTINGS

Reference: A. HQSC 5/6/AIR (62) of 13 December 1974

1. A report of an unusual aerial sighting has been received from a Mrs. Forrest, 26 Lee Street, Wellington, NSW (telephone 666).
2. Mrs. Forrest reported that whilst travelling from Dubbo to Wellington by car on the 7 September 1978 at 2130 hours she observed a large object with blinking coloured lights hovering just above ground level. Place of observation was approximately two miles east of Werrigarbon and she estimated the object was .25 of a mile from the righthand side of the roadway. There were five (5) other passengers in the vehicle who also witnessed the sighting.
3. Mrs. Forrest did not make an immediate report, however, after discovering that two other people had observed a similar object approximately 50 kilometres to the north east, she decided to enquire further and rang the Equipment Officer 2SDD. Mrs. Forrest advised that she did not wish to make a formal report of the sighting.
4. The weather on the night of the sighting was very windy, with large accumulus clouds and 1.2 millimetres of rain was recorded at the Dubbo Post Office between 1800 hours and 2200 hours.
5. A previous sighting was made in this area on 29 July 1974, 2SDD 5/1/AIR (20) of 31 July 1974 refers. A copy of the final assessment of this report is attached.

(K.F. STACPOOLE)

27 AUG 1974

Mr R. M. Stockings,  
146 Arthur Street,  
WELLINGTON, N.S.W. 2820.

Dear Sir,

Your report of an unusual aerial sighting on 29th July, 1974 has been received and the investigating team considers that the most probable cause was the planet Jupiter.

At the time of the sighting Jupiter, with a magnitude of -2, was visible just above the eastern horizon. Whilst travelling in a car the relative position of this planet, because of its distance from you, would not change when compared with much closer objects, thus creating the illusion of movement paralleling the car's direction of travel. The movement associated with the disappearance of the planet was probably due to a combination of the car's movement and cloud moving across the planet.

We trust that this explanation is satisfactory and thank you for your report.

Yours faithfully,

*C. J. Odgers*

(C. J. ODGERS)

9.00 PM TIME OF DISAPPEARANCE on 15-2-1978  
last 15 min.

9.30 PM APPEAR AGAIN. AFTER 10 MINUTES  
OBSERVING TOGETHER WITH MY WIFE I DECIDED TO DRIVE  
NEARER. WE TOOK CAR AND DRIVE 5 MINUTES THROUGH  
BUSH TOWARDS "CAPE CLEAR" (WEST) ABOUT 6 miles  
9.35 WE REACH NOW SPOT - INTERSECTION OF  
BUSH TRACK WITH CAPE CLEAR X NEW TOWN ROAD.  
OBJECT WAS FAR WEST - SLOWLY MOVING TOWARDS  
FAR HORIZON - AWAY OF US. DISAPPEAR AFTER  
25 MINUTES BEHIND FAR HORIZON. WE RETURN  
HOME (5 MINUTES DRIVE) AND STOPPED AT  
OUR GATES 10.05 PM EXACT. OBJECT WAS  
SITTING ON OUR "NEAR, HILL LIKE" HORIZON  
AND DISAPPEAR IMMEDIATELY WITH OUR  
APPEARANCE IN GATE.

b. Diagram or sketch of sighting (if possible)

(shape not possible  
defined - STRONG  
LIGHT LIKE)

BRIGHT - STAR TORCH LIKE "SHOT" BLUE LIGHT  
AR BLUSH  
CHANGING TO YELLOWISH-ORANGE

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations?

NO (I WILL MAKE THEM)  
\* PHOTOS

13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)

ON 15-8-1978 MY WIFE  
FELICITY STEHLIK, B.A., Dip. ED  
secondary school teacher

14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances.

NEVER

\* AFTER 15-8-1978 I observed one to six objects nearly each day.

ON SATURDAY 2-9-1978 we watch with witnesses: 9-9-1978

KIM KEERIE, age 23, address. 35 HIGHLAND AVE., HAMPTON PARK

YOUR QUESTIONNAIRE DOESN'T SUIT  
my daily observations. PLEASE, GIVE  
your attention to my appendix.

APPENDIX:

My first observation I describe at your questionare (15.8.1978 - 8.45 PM to 10.05 PM)  
After this experience I start observe each day. Some days I notice up to six lightening objects just over horizon, hanging on spot, hiding behind horizon, coming again out, moving both ways, vertically and horizontaly. On one occasion I saw two of them approaching horizontally one other and finally dissapearing of one in another (MORE INTENSIVE LIGHTENING FOLLOWED). On other occasion object falled down at enornus speed SIDE WAY - like meteor. BUT IT WAS OBJECT WHICH WAS BEFORE MOVING HORIZONTALY).

USUALLY objects are moving above our near horizon. See shedule, West horizon behind our property is only about 300 metres of our caravans, where we live permanently. Before appearence of mostly yellowish orange objects is easy to observe bluish star like bright large glow.

I AM VERY MUCH TRYING TO BE STRICTLY LOGICAL IN MY LIFE, I HATE RELIGIOUS NAIVITY, SUPERSTITION AND SO ON. Top breeder of German Shepherds, university education in Czechoslovakia, prestige possition in Australian German Shepherd Dog World. My wife is teacher (active) with B.A. and Dip.E.D.

On 2.9.1978 we observe those unexplainable objects about two hours with these people. (SIGNED BY THEM)

25 AUG 1978

Mr. A Swan  
28 The Ridge  
CANTERBURY VIC 3126

Dear Mr Swan,

Thank you for your report of an unusual aerial sighting on 4th August 1978. Investigation of your report suggests that what you saw was almost certainly the passage of the 'Skylab' space satellite launched by the United States in 1973. The satellite was forecast to be visible from the Melbourne area at the time of your sighting.

You may be interested to know that sightings of satellites are not uncommon. Of 10,640 man-made objects catalogued since 1957, about 4,500 are still in space. 'Skylab' is among those most readily seen in clear atmospheric conditions.

Yours faithfully,

(K. LLEWELYN)  
Public Relations Officer  
(Melbourne)

Angus Swan,

Canterbury,  
Vic. 3126.

4 Aug 78. (Fri)

Unidentified Flying Object Report,  
Operations Officer, R.A.A.F.,  
Victoria Barracks,  
St. Kilda Rd., Melbourne,

At about 7.50 pm. tonight I left my home and saw a strange object in the sky. It had passed roughly over our land, seemed low, and was following a direct path in a SSE direction.

There was a continuous orange light from the object, which travelled at apparently uniform speed, but as we watched, later with binoculars, the orange light faded and became dark.

The light was reported firstly about 7.50 p.m., and had been observed and faded to darkness by 7.53 p.m..

The night was clear and cool, with permanent stars easily visible.

Would you please indicate whether this sighting has any significance? Is it a satellite burning up on re-entry to Earth's atmosphere? Or what is it?

Yours faithfully,

Angus Swan

# REPORT OF UNUSUAL AERIAL SIGHTINGS

## Part 1 - Report by Observer

1. Name of Observer Trevor Libbis Age 17  
 Address 104 Somers Avenue Macleod  
Melbourne State Vic Post Code 3085  
 Occupation Apprentice motor mechanic (2nd year)  
 Telephone No. (home) - (Business) 467-3370
2. a. Exact location of observer Fairlie Avenue Macleod  
 b. Observer's familiarity with the location My girlfriends street.
3. Start of observation: Date 9-7-78 Time 12-40 am/pm  
 End of observation: Date 9-7-78 Time 1-15 am/pm
4. Accuracy of date 9-7-78 Time 12-40-45pm
5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. Visibility was perfect, no clouds.  
little wind if any.
6. a. In what direction was the sighting first observed? East to West.  
 b. At what angle to the horizon?  

7. a. In what direction was the sighting last observed? 90°  

8. Estimate of distance and/or altitude from observer Approx  
10-15 miles
9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? No. Equipment was  
not used.

/ 10. Describe

Describe the object(s)/light(s) as follows :

- a. number one
- b. colour Bright white and Bright Red.
- c. size Compared to a 5<sup>th</sup> piece where I was standing.
- d. shape an oval.
- e. brightness (relative to full moon/star) full moon
- f. movement/direction of travel East to the West  
in a straight line.
- g. sound No sound.
- h. speed 1,000-cruising (mph) approx 4,000 mph when I <sup>disappeared</sup> disappeared.
- i. method of propulsion Could not tell from where I was.
- j. manner of disappearance went straight up and disappeared.

guessing

11.

- a. Narrative description of the sighting and any unusual features or additional comments When I saw it  
it was moving, then it stayed still in mid-air.  
It was a very bright white. It started moving  
again then picked up great speed and slowed  
down to a stop again. It started moving  
around in circles as if it was lost. It seemed  
to be performing acrobatics. It would rise  
to a certain height then fall to a certain  
level. It tried to do a figure eight but couldn't  
achieve it properly. Then it changed its  
colour to a bright red. It started to rise  
up then picked up tremendous speed cause  
it left a slight trail behind it then changed  
back to its white and disappeared.

/b. Diagram

- b. Diagram or sketch of sighting (if possible)

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? \_\_\_\_\_

NO

13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)

No witnesses.

14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances. No I haven't

Probably staring at an  
unusually bright star.  
Apparent movement and change in  
colour attributed to  
light refraction coupled with  
optical illusion. RB

James L. L. L.

19-7-78.

Dear Mr Hewek/N

In reply to your letter which I recieved on the 14-7-78 about my unusual object sighting there are a few mis-understandings. Don't get me wrong if this letter sounds abusing, in which no way is it meant to be. UFO's have fascinated me. I've had an interest in them for quite some years. This is why I'm sending you this letter, not only to assist you in your research, but to put the point across to you that I am positive that what I saw on the 9-7-78 was a ufo. I'm certain about this because I see aircraft approaching Tullamaine + Essendon airports nearly every night and even the large 747's landing ~~and~~ lights were not this bright. If you don't mind I'd like to go back to the night in which I saw this object. Approx 12:35am I<sup>f</sup> left my girlfriends house

and walked down Fairlie avenue. I happened to see out of the corner of my eye a bright object. I too, at first, thought it was a 747 making its landing approach to Tullamarine airport, but it seemed to be staying still in mid-air. I sat on a gate and watched to make sure my mind wasn't playing tricks on me, but it must of stayed still for approx 58 minutes. It was very bright and I thought then that it couldn't be any aircraft. It then picked up great speed in a matter of seconds and slowed down to a stop again. It didn't remain stationary for very long. After that, this is when it started doing weird things. It started moving around in circles and each circle seemed to be larger. It was a white glow all around the object ~~and~~ so if it was any aircraft I presume it would only be bright where the headlights were with

green + red lights to the rear. Any way after the circles, it started to rise to a certain height then fall to a certain level, it was like it was performing acrobatics. It also seemed to be doing a figure eight but couldn't achieve it properly. This is when it changed its colour from a bright white to a bright red, then it started to rise straight up and picked up great speed because it left a slight tail behind it. As it got faster it changed back to its white and then everything ~~at~~ went dark, as if it turned off its lights and that was the last I saw of it. I think the misunderstanding was that I don't know which is North, South, East or West and I used Tullamarine to Woburnia Army Base as a direction. It was not moving towards Tullamarine and at no time did it appear to come from Tullamarine. I estimated the object to be near the Eltham area.

(4)

The time which I last saw the aircraft would of been around 1:15 am. I am sorry if I have inconvenienced you, but I thought I had to write this letter because what I thought it to be was true. I would greatly appreciate if you could reply to this letter to see if it has changed your thought about this matter. What I wrote in this letter is actually what I saw and is true.

Yours Sincerely

Trevor Hibbs

Mr. T. LIBBIS .  
104 Somers Ave,  
MACLEOD 3085

Dear Sir,

Thank you for your report of an unusual aerial sighting on 9th July 1978. Investigation of your report suggests that what you saw was almost certainly the navigation and landing lights on an aircraft. Aircraft lights often appear to move at differing speeds, and colours alternate when the aircraft is changing direction relative to the observer. Sightings of this nature are not uncommon near airports. They can be expected in the suburb of Macleod, which is on the approach circuit to both Essendon and Tullamarine airports.

Your faithfully,

INITIAL UNUSUAL AERIAL SIGHTING REPORT

Reported 2020 11 JUN 78

1. Name of Observer : CRIPPS Barry
2. Address of Observer : 86 AIRLIE RD  
MONTMORENCY Ph 439 6353
3. Date and time of start of observation :  
11 JUN 78 1835
4. Duration of observation : 20 Min - Possibly lost sight due to travel
5. Observer's location at time of sighting :  
Whittlesea, travelling south in car
6. Brief description of object(s) : Bright white light  
x10 - x100 normal star brilliance  
Showed distinct disk when 'observed' by cloud (short time only)
7. Object's bearing when first observed : 310° - Observer claimed to have flying licence,  
seemed well aware of orientation in area  
*Possibly 210° - observer referred to 'southerly' could have been DSO error.*
8. Direction of travel : Stationary
9. Speed : Stationary
10. Angle of elevation : 20°-25°
11. Object's bearing when last observed : Venus setting in NE by 1930 hrs

## Further comments by observer:

Estimated cloud base min 4000'  
 Object appeared to be below cloud base most of time  
 Was travelling from Whittlesea (1835) to Montmorency,  
 possibly lost sight of object due to buildings in  
 Montmorency area  
 Aware that Venus was expected to show brightly,  
 had observed Venus at other times, object seemed too bright  
 Observed A/c Nav/landing lights during sighting,  
 definitely not same (was aware of landing patterns, etc)

Observer sounded quite rational and gave impression  
 of above average powers of observation. He gave concise  
 report almost raw preforma (suspect??), then discussed  
 further details at length.

Met office advised cloud base 4/4 at 9000ft at 1830/1900  
 Also advised Venus due to set about 1900 (from Age newspaper)

WANTS QUESTIONNAIRE

Possibly Ansett helicopter which commutes between city & Mt. Eliza, or other helicopter Peninsula Rescue Services etc.

Duration of observation could indicate star SPICA but insufficient information.

5/6/1/Air (23)

18 May 1978

Mr. S. Thompson  
12 Lawson Ave  
FRANKSTON VIC 3199

Dear Mr. Thompson,

Thankyou for your report of an unusual aerial sighting on 9 May 1978. Investigation of your report suggests that what you saw was almost certainly a large passenger aircraft (possibly a 'jumbo-jet') in its circuit for Tullamarine.

Large, slow flying aircraft can often be seen above the city area and, at low altitude, are quite spectacular in appearance.

Yours faithfully,

(K. LLEWELYN)  
Public Relations Officer  
(Melbourne)

REPORT OF UNUSUAL AERIAL SIGHTINGS

Part 1 - Report by Observer

1. Name of Observer Simon Thompson Age 19  
Address 12 LAWSON AVE FRANKSTON  
State VIC Post Code 3199  
Occupation Cartridge operator Radio 3XY  
Telephone No. (home) 983-9630 (Business) 67-8711

2. a. Exact location of observer Corner Little Burke Street and Spencer Street  
b. Observer's familiarity with the location Good.

3. Start of observation: Date 9-5-78 Time 6-10 ~~am~~ pm  
End of observation: Date 9-5-78 Time 6-13 ~~am~~ pm

4. Accuracy of date exact Time fair

5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. it was a clear night, no wind, good visibility

6. a. In what direction was the sighting first observed? overhead

7. a. In what direction was the sighting last observed? East

8. Estimate of distance and/or altitude from observer 3-500 feet  
(twice the height of the age building). 100 feet away

9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? Just my eyes and ears.

10. Describe the object(s)/light(s) as follows :

- a. number one object (4) four lights.
  - b. colour a gray object 1 red light 3 yellow.
  - c. size width of spencer street station car park & length,
  - d. shape see illustration
  - e. brightness (relative to full moon/star) dull gray. unlike star or moon
  - f. movement/direction of travel slow move west north west then turning east.
  - g. sound that of a jet.
  - h. speed 60 mile per hour Approx. I'm not good at judging speeds.
  - i. method of propulsion not evident.
  - j. manner of disappearance ~~when~~ went behind building and must of been veered off in a direction out of my sight.
11. a. Narrative description of the sighting and any unusual features or additional comments I was standing (crossing)

little Burke street when I heard what was sounding like a jet.  
Being interested in watching planes I looked up and saw  
the object flying across the sky. There was one large red  
flashing light below the bow of the object and three lights in  
a triangular formation at the rear. I looked around to  
see if any one else was watching, but because spencer street  
is naturally noisy no one else was watching or taking  
notice. There were approximately three other people in  
the street near the area. Plus a number of cars.

I watched the object fly over head then  
across the railway station yards then bank right and head  
East, from then on it was not ~~be~~ visible after it disappeared  
behind the building.

/b. Diagram

Description of typical  
 jumbo 747 at low altitude  
 over city RB

b. Diagram or sketch of sighting (if possible)

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? NO.

13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)

Approximately three other people in the street  
though I am not sure whether they were watching  
at all. I suspect they weren't.

14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances. YES.

Date 14-5-78

REPORT OF UNUSUAL AERIAL SIGHTINGS

Part 1 - Report by Observer

1. Name of Observer MR. C. A. EVANS. Age 35  
Address LOT 122 MEANDER ROAD  
HURSTBRIDGE. State VIC Post Code 3099  
Occupation MANAGER. (TECH. SERV. DNS.)  
Telephone No. (home) 718 2910 (Business) 387 2811
2. a. Exact location of observer 37. BOGONG AVE  
MOUNT BEAUTY VIC. (REAR OF HOUSE).  
b. Observer's familiarity with the location GOOD.
3. Start of observation: Date 13.3.78 Time 6<sup>45</sup> am/pm  
End of observation: Date --- Time 6<sup>47</sup> am/pm
4. Accuracy of date EXACT. Time EXACT.
5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. VISIBILITY - EXCELLENT: WIND - NIL:  
CLOUD - Some high cloud to the West over Mountains & bright.
6. a. In what direction was the sighting first observed? W.N.W.  
b. At what angle to the horizon?  
  
45°.
7. a. In what direction was the sighting last observed? W.N.W.  
  
40°
8. Estimate of distance and/or altitude from observer Very high &  
a long way off.
9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? By Judgement for all  
except direction where mapping compass was used.

/ 10. Describe

10. Describe the object(s)/light(s) as follows :

- a. number ONE LONG. LIGHT
- b. colour White to some orange.
- c. size 1 1/2" - 2" LONG. PENCIL THIN.
- d. shape Long white line (like rocket lion).
- e. brightness (relative to full moon/star) Similar to full moon on clear night.
- f. movement/direction of travel Due West.
- g. sound Nil.
- h. speed Very fast
- i. method of propulsion Not known.
- j. manner of disappearance Behind clouds / mountains.

11.

- a. Narrative description of the sighting and any unusual features or additional comments Object was first sighted as described above heading due west, very fast. It was noted that there was no flashing lights (as jet jets etc) and that the "tail" did not slowly dissipate as jet a vapour trail. It was just a long white moving line in the sky which could be likened to a Comet or Rocket. However it was travelling perfectly straight and level, leaving nothing behind it. It was observed for at least 90 seconds to two minutes and finally disappeared behind clouds that were building up over the mountains to the West of the viewing point. (Mr Beadly)

# REPORT OF UNUSUAL AERIAL SIGHTINGS

## Part 1 - Report by Observer

1. Name of Observer DENISE FORD Age 24  
 Address 8 RAPHAEL CRES.  
FRANKSTON State VIC Post Code 3199  
 Occupation STUDENT TEACHER  
 Telephone No. (home) 7833213 (Business) \_\_\_\_\_

2. a. Exact location of observer Travelling from Golf links Rd. 4' ton, along Hastings Rd. 7' ton + into City of Frankston via Dawsons St + Young St.  
 b. Observer's familiarity with the location Have known area 8 years.

3. Start of observation: Date 28/3/78 Time 8.15 am/pm

End of observation: Date 28/3/78 Time 8.25 am/pm

4. Accuracy of date \_\_\_\_\_ Time \_\_\_\_\_

5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. slight cloud but not obscuring lights.  
Visibility was good. No wind

6. a. In what direction was the sighting first observed? north-towards Melbourne over the bay.  
 b. At what angle to the horizon?

7. a. In what direction was the sighting last observed? \_\_\_\_\_

8. Estimate of distance and/or altitude from observer between 5 + 10 miles away - altitude possibly 2 1/2 000 feet.

9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting? The answers to 6, 7 + 8, were guesses. The lights seemed to be very far away - as I got closer / 10. Describe to Frankston they neither increased nor decreased in size. The brightness of the lights also makes it difficult to assess their distance.

10 Apr 78 Miss FORD telephoned and remarked upon  
similarity between her sighting and that reported in  
Sat/Sun HERALD from Albany, particularly the black  
markings in centre of objects. Also mentioned  
several other objects she and her boyfriend had  
sighted using a telescope - both starwatchers. RB

10. Describe the object(s)/light(s) as follows :

- a. number 2 lights - very close together  
b. colour yellow/white  
c. size Hard to gauge exactly. They looked very big.  
d. shape Circular  
e. brightness (relative to full moon/star) Twice as bright as the brightest star.  
f. movement/direction of travel stationary at all times - disappeared without trace instantly.  
g. sound did not hear a sound.  
h. speed objects did not move, just disappeared.  
i. method of propulsion Have no idea.  
j. manner of disappearance lights vanished - no evidence

11.

- a. Narrative description of the sighting and any unusual features or additional comments I was driving my car along Golf Links Rd, Frankston, when I saw the lights out of my side window. The lights were visible above the trees lining the road. The thing that made me curious was the fact that the lights were excessively bright, much brighter than stars, and very close together. Although bright, the lights seemed a long way away. Although the lights themselves were white there was a yellowish glow around them that seemed to, in some way, fuse the lights together. I drove on until the Hastings Road, where I pulled over and got out of my car. I watched the lights to see if they moved or faded.

P10.

/b. Diagram

The lights themselves were extremely bright

## 11. Continued - - - -

They remained stationary for 3-4 minutes. I was on my way to pick up a friend of mine from the Frankston railway station and because I wanted this friend also to see the lights, I decided to drive quickly into Frankston. I concluded that considering the length of time they had been visible, they would remain so for a while longer. Driving into Frankston the lights remained visible all the time and did not move or change direction. I am aware that changing direction constantly while driving can sometimes make it appear that other objects, e.g. the moon, have changed their position. I am absolutely <sup>certain</sup> ~~position~~ that these lights did not change direction or lose intensity of brightness.

Driving into Frankston and getting closer to heavier traffic and street lighting, also being surrounded by tall buildings, I was unable to watch the lights constantly. The last time I saw them was as I was passing the Round-about in Young St. Frankston. The lights suddenly disappeared without any trace. They did not fade away but vanished as quickly as light does from a light bulb when the switch is turned off.

I picked up my friend from the station and we drove straight into Balmoral Car Park which was practically deserted. From this car park there is a good view of the skies uninterrupted by <sup>street</sup> lights and tall buildings. We could, however, not see any trace of the lights. From the description I gave him, my friend was able to guess the distance <sup>away</sup> + the altitude that the lights probably were.

On the next page I have drawn a rough map of the route I took into Frankston and the position of the lights.

- b. Diagram or sketch of sighting (if possible)

FRIED EGG PHENOMENA!

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? \_\_\_\_\_

No, I wish I had.

13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)

None that I am aware of. There was a lot of traffic at the time, but nobody else stopped to view the objects except for myself.

14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances. Yes.

Easter 1970 in Devonport, Tasmania. The Bureau of Meteorology could give no explanation of an object flying very high over the area. Under a telescope the object was ~~a~~ definitely propelled by some sort of rocket system - there was an orange glow. This object was seen by about 15 people.

Date 30-3-78

Signature [Signature]

No firm conclusion. Low elevation suggests that lights may have originated from structure in the ground. RB

Ref: 5/6/1/air(56)

Dear Sir

at 10 P.M. on 16/2/78 - I thought I saw fall from high in the heavens - a star - I was waiting for it to display out to my surprise it came on from the M.W. along Mt. Loolebe-wong area, crossed the Yarra Valley - and travelling east - in a straight line - went along the ridge opposite my home. So close to the tops of tall timber - I feared for it. My home is two story so I had a very good sighting - and realised it was a machine - and sounded much as a helicopter does - but it had a strange appearance - the back was like a box brilliantly lit with white lights. I reported this to the local police next morning. From whom I have heard nothing. I am aware that if this machine is known to the authorities - I need not concern myself.

over:

leg: 5/6/11 Air (56)

29: 3: 48

last night - at 11 PM 25/3/78 - I was as

usual listening to a Sydney radio programme -

they had just broken for the news - when I looked

up to see a huge white box coming along the

W. Goole-be-ward area - on to the Ben Cairn range

it hesitated - made a right-hand turn - clearly

crossed the narrow valley travelling south in a straight

line and well to the west - part of the M. H. B. W.

pipe line - hovered - then right-hand turn west and

disappeared from view. It was some while in

flight - alighted with rights - and as near a perfect

squarish box as I have seen. Head no engine - no

sound of any kind. But I was further from it - the

line.

As you already know I am concerned for the

precision of its arrival to the west-bound.

hoping that you already have knowledge

of this incident - and that our pipe line is safe.

I live alone - and take most interest there

days.

Faithfully,

(My) J. Campbell

CATCO staff

Please ask DOT contacts  
if they are aware of any night  
time helicopter activity by public

AK-1A

UNUSUAL AERIAL SIGHTINGS,

Scotchman Creek Valley Nr. WARBURTON

18 MAY 77 2130 hrs.

Red shining object coming from EAST made precision turn and moved slowly SOUTH. when it was seen as block of red light about 18' long. Disappeared behind Mt. Little Joe.

Observer mentioned aircraft or helicopter hovering over her house early last year (1976), roaring noise several minutes then stopped abruptly and seemed to vanish.

16 FEB 78 2200 hrs. (Came from N-WEST along Mt. Toole be Wongy area)

Box shaped brilliant white object crossed YARRA VALLEY heading EAST in a straight line. Sounded like a helicopter. WRE prediction not received for that week.

28 MAR 78. 2300 hrs.

Perfect square box shape studded with white lights. Came along the Mount Toole be Wongy area, turned slowly to starboard, crossed YARRA VALLEY heading SOUTH in a straight line, hovered at West Portal of MMBW pipe-line, turned west & disappeared from sight. No sound but this may have been due to distance from observer.

near horizon .....

1. Mr Merry was at home with three other guests, each of which observed the sighting. Mr Merry's sister Mrs Janice Maitland of the same address also spoke on the telephone about the occurrence.

2. Her report was substantially the same as Mr Merry. There were no other distinguishing lights (ie red or green). Both advised that they would be happy to fill out a questionnaire. They volunteered that they "didn't believe in UFO's" however incident appeared too real to dismiss.

3. The other three members at the house also witnessed the sighting.

# REPORT OF UNUSUAL AERIAL SIGHTINGS

## Part 1 - Report by Observer

1. Name of Observer Ellwood Lucy, Kathleen Age 43 yrs.

Address 24, York Road, BERWICK.

State Vic. Post Code 3806.

Occupation House Wife.

Telephone No. (home) 707-1807 (Business) None.

2. a. Exact location of observer Standing on the front terrace of our home. Looking North.

b. Observer's familiarity with the location Resided here five yrs.

3. Start of observation: Date 19th Jan '78 Time 2 to 3 am/pm

End of observation: Date 20th " '78 Time 4 am/pm

4. Accuracy of date 19th 20th also, 26th Time 2 to 3 a.m. 4a.m. also 3.45 a.m. to 4.15am.  
January, 1978.

5. General weather conditions of time of observation, referring to cloud, wind, visibility etc. Calm, Clear, Bright, light wind, no clouds

Starry night and morning. On 26th conditions the same but with bright big moon.

6. a. In what direction was the sighting first observed? North

b. At what angle to the horizon?

a. In what direction was the sighting last observed? 90°

8. Estimate of distance and/or altitude from observer About 100 yds.

Just above the power lines. 25°

9. How were the answers to questions 6, 7 and 8 assessed, and were aids or equipment used during the sighting?

With the aid of binoculars.

/ 10. Describe

MARS NEAREST NORTH  
SATURN 11 24 N of RAVALUS  
VENUS RISING 0330  
NEGATIVE 0220  
JUPITER 0300

10.

Describe the object(s)/light(s) as follows :

- a. number On the 19th and 20th only one. On 26th four but only one Big
- b. colour white and red white With two red streaks
- c. size bigger than an aeroplane. As big as an aeroplane.
- d. shape round with halo around the middle. Like an aeroplane.
- e. brightness (relative to full moon/star) to star. Not as bright as moon
- f. movement/direction of travel North to North East at 2 a.m.  
North West at 3.a.m. On 19th and 20th January, 1978  
but on 26th North West to North East. 3.45a.m. to 4.15 a.m.
- g. sound Pips
- h. speed very slow.
- i. method of propulsion \_\_\_\_\_
- j. manner of disappearance \_\_\_\_\_

11.

- a. Narrative description of the sighting and any unusual features or additional comments On the 19th and 20th a.m.

was awakened by a strange noise like pips which went  
about four times. Then I heard voices male which I  
took to be a newsreader then more pips. The pips did  
not sound like they came from a radio but similar.  
I got out of bed and looked out the window and saw  
what at first sight looked like a bright star. Then  
I went outside on the terrace to have a closer look.  
It was bigger than a star and was moving very slowly.  
Then my husband joined me on the terrace and I asked  
him to keep an eye on this object until I got the  
binoculars which were in the wardrobe in the side  
bedroom. My husband said it looked square with a  
bright light on each corner. I thought it was round  
with haze or halo around it..

/b. Diagram

b. Diagram or sketch of sighting (if possible)

12. Have you any photographs of the sighting, or is there any physical evidence of fragments, scorching or ground indentations? \_\_\_\_\_

I don't know. ~~Have never been to the quarry ever.~~

13. How many other witnesses were there to the sighting?  
(Please provide names and addresses if possible)

Only one. My husband Mr. George Swinburne Ellwood

14. Have you previously made any reports to official authorities or UFO organizations regarding unusual aerial sightings? If so, give brief details of dates and circumstances. No.

Only through a friend of ours a Mr. Eddie Greenaway, 27 Evans St,  
BERWICK. Vic. 3806. Who telephoned you the next morning  
after the first sighting on 20th January, 1978.

NOT RECORDED.

I am the woman  
who saw the object in the sky on  
Boxing day night. It was not a  
balloon. It was a round object with  
bright lights and ~~there~~<sup>it</sup> was a round  
on top with a dome, and underneath  
it was round too. so it would not  
be flat on the ground, when it  
landed, and it was made out of some  
metal. it looked like steel with  
pieces of dark metal through it.  
It hovered for a while, then it  
came to me very quickly so  
wards me, and there were big red  
lights, and they were ~~the~~ swinging

and it did that three times.  
it kept coming towards me and  
the red lights would come and then  
were close up & there is a size  
pass outside and I could see it  
plainly it did that till after  
10-30 then it hovered for a while  
then went away quickly in the  
distance. I didn't report it as I  
didn't think people would believe  
me.

I remain

yours faithfully  
Chris E. Kischel

These are the lights

This is the object.

20 JAN 78.

Paul Robinson "Preston Post".

10 pm 25 DEC 77.

68 yr old woman, teetotal, lives alone.  
reports:-

"big round object, dome on  
top, silvery metal, not the moon,  
moving up and down, bright light.  
-claims it made her eyes sore -.

I suggested he contact Bureau of  
Meteorology, ~~ESSENDON~~ AIRPORT, who  
may have made routine release of  
WX balloon (carrying light) at 2100 hrs.

Seems to be the logical explanation.
