 - Similar to “Google”
- Logs linked to the “.22” and “.40” IP addresses span the length of PFC Manning’s deployment
- Searches for “wikileaks” more than 100 times on the SIPRNET

PFC Manning's Personal Laptop

- Collected from PFC Manning's containerized housing unit (CHU)
- Two different sets of chat logs:
 - Chat logs between PFC Manning and "pressassociation" (Julian Assange)
 - Chat logs between PFC Manning and Adrian Lamo
- Important admissions in chat logs
- "Volumes.txt" = "mounting data"
 - Data is created when CD is inserted

(12:46:17 PM) info@adrianlamo.com: how long have you helped Wikileaks?

(12:49:09 PM) bradass87: since they released the 9/11 "pager messages"

(12:49:38 PM) bradass87: i immediately recognized that they were from an NSA database, and i felt comfortable enough to come forward

(12:50:20 PM) bradass87: so... right after thanksgiving timeframe of 2009

(04:33:44 PM) bradass87: idk... i only know what i provide him xD

(04:34:14 PM) info@adrianlamo.com: what do you consider the highlights?

(04:35:31 PM) bradass87: The Gharani airstrike videos and full report, Iraq war event log, the "Gitmo Papers", and State Department cable database

It's already been sanitized of any source identifying information.

You might need to sit on this information, perhaps 90-180 days, to figure out how best to release such a large amount of data, and to protect source.

This is possibly one of the more significant documents of our time, removing the fog of war, and revealing the true nature of 21st century asymmetric warfare.

Have a good day.

CLASSIFIED INFORMATION NONDISCLOSURE AGREEMENT
AN AGREEMENT BETWEEN MANNING Bradley **AND THE UNITED STATES**
(Name of individual, printed or typed)

I, intending to be legally bound, hereby accept the obligations contained in this Agreement in consideration of my being granted access to classified information. As used in this Agreement, classified information is defined as unclassified classified information, including oral communications, that is classified under the standards of Executive Order 12958, or under any other Executive order or statute that prohibits the unauthorized disclosure of information in the interest of national security, and unclassified information that meets the standards for classification and is in the process of a classification determination as provided in Sections 1.2, 1.3, and 1.4(e) of Executive Order 12958, or under any other Executive order or statute that requires protection for such information in the interest of national security. I understand and accept that by being granted access to classified information, special confidence and trust shall be placed in me by the United States Government.

2. I hereby acknowledge that I have received a security indoctrination concerning the nature and protection of classified information, including the procedures to be followed in ascertaining whether other persons to whom I contemplate disclosing this information have been approved for access to it, and that I understand these procedures.

3. I have been advised that the unauthorized disclosure, unauthorized retention, or negligent handling of classified information by me could cause damage or irreparable injury to the United States or could be used to advantage by a foreign nation. I hereby agree that I will never divulge classified information to anyone unless I have officially verified that the recipient has been properly authorized by the United States Government to receive it, or (b) I have been given prior written notice of authorization from the United States Government Department or Agency, Department or Agency, or the responsible official for the classification of the information or last granting me a security clearance that such disclosure is permitted. I understand that if I am uncertain about the classification status of information, I am required to confirm from an authorized official that the information is unclassified before I may disclose it, except to a person as provided in (a) or (b), above. I further understand that I am obligated to comply with laws and regulations that prohibit the unauthorized disclosure of classified information.

4. I have been advised that any breach of this Agreement may result in the termination of any security clearances I hold, removal from any position of special confidence and trust requiring such clearances, or the termination of my employment or other relationships with the Department or Agencies that granted my security clearance or clearances. In addition, I have been advised that any unauthorized disclosure of classified information by me may constitute a violation, or violations, of United States criminal laws, including the provisions of Sections 641, 793, 794, 795, 796, and 797 of Title 18, United States Code, the provisions of Section 703(b), Title 50, United States Code, and the provisions of the Intelligence Identities Protection Act of 1950. I recognize that nothing in this Agreement constitutes a waiver by the United States of the right to prosecute me for any status offense.

5. I hereby assign to the United States Government all royalties, remunerations, and emoluments that have resulted, will result, or may result from any disclosure, publication, or revelation of classified information not consistent with the terms of this Agreement.

6. I understand that the United States Government may seek any remedy available to it to enforce this Agreement, including, but not limited to, application for a court order prohibiting disclosure of information in breach of this Agreement.

7. I understand that any classified information to which I have access or may obtain access by signing this Agreement is now and will remain the property of, or under the control of, the United States Government unless and until otherwise determined by an authorized official ruling of a court of law. I agree that I shall return all classified materials which have, or may come into my possession or for which I am responsible because of such access (a) upon demand by an authorized representative of the United States Government, (b) upon the conclusion of my employment or other relationship with the Department or Agency that last granted me a security clearance or that provided me access to classified information, or (c) upon the conclusion of my employment or other relationship that requires access to classified information. If I do not return such materials upon request, I understand that this may be a violation of Section 793 and/or 794, Title 18, United States Code or United States Criminal Law.

8. Unless and until I am released in writing by an authorized representative of the United States Government, I understand that all conditions and obligations imposed upon me by this Agreement apply during the time I am granted access to classified information, and at all times thereafter.

9. Each provision of this Agreement is severable. If a court should find any provision of this Agreement to be unenforceable, all other provisions of this Agreement shall remain in full force and effect.

The Beginning of the Deployment (November 2009)

(12:46:17 PM) info@adrianlamo.com: how long have you helped Wikileaks?

(12:49:09 PM) bradass87: since they released the 9/11 "pager messages"

(12:49:38 PM) bradass87: i immediately recognized that they were from an NSA database, and i felt comfortable enough to come forward

(12:50:20 PM) bradass87: so... right after thanksgiving timeframe of 2009

Specification 11 of Charge II

(November 2009)

- First transmission occurred in **late-November 2009**
- BE22PAX.zip was located on the CENTCOM SIPRNET SharePoint site
 - Under “CentcomLegal/Investigations/Farah” subfolders
- The video was password protected
- Same video (forensic duplicate) was on the work computer of Jason Katz on 15 December 2009

(2:15:57 PM) bradass87: they also caught wind that he had a video... of the Gharani airstrike in afghanistan, which he has, but hasn't decrypted yet... the production team was actually working on the Baghdad strike though, which was never really encrypted

Specification 2 of Charge II (o/a 15 February 2010)

- “12 JUL 07 CZ ENGAGEMENT ZONE 30 GC Anyone.avi” was located on the Brigade’s SIPRNET sharedrive, under the “SJA” folder
 - “Apache video”
- CENTCOM FOIA officer will testify that the video was not released when CENTCOM released the investigation related to the video

Specification 2 of Charge II (o/a 15 February 2010)

- When the Apache video was initially released by WikiLeaks, released as an edited version (17 minutes v. 38 minutes)
- Participated in the editing process
- Army Aviator will testify and explain how the video could be useful to foreign adversaries

On 5/19/10 6:22 PM, Bradley Manning wrote:

Good question.

There's a few answers I have to various other questions as well:

1. I approved the edits without actually viewing the video. (Had a written description.)
2. I "saw" an RPG and many, many more weapons the first time I saw the video. I was numb. I explored it further, and found out what actually happened later. I wanted the video to challenge that cognitive bias that every young Iraqi male is an insurgent.
3. I instructed there to be an Orwell quote, description of the journalists, and some general context. Assange came up with "Collateral Murder," with my approval. It literally means "unintentional murder."
4. Public Relations is an area WikiLeaks needed some desperate help in, since the only people who had heard of them before were people in the hacker, journalist, and intelligence communities.
5. Video personally pissed off Assange, and he wanted to "get out of exhile."

On 5/20/10 1:02 AM, Eric Schmiedl wrote:

Cool. Why all the PR spin over "collateral murder," when releasing it straight like previous leaks might have ended up winning more controversy?

On 5/19/10 5:50 PM, Bradley Manning wrote:

I was the source of the 12 JUL 07 video from the Apache Weapons Team, which killed the two journalists and injured two kids.

(U) Wikileaks.org—An Online Reference to Foreign Intelligence Services, Insurgents, or Terrorist Groups?

PE 45 for ID

(U) Key Judgments

- ~~(S//NF)~~ Wikileaks.org represents a potential force protection, counterintelligence, OPSEC, and INFOSEC threat to the US Army.
- ~~(S//NF)~~ Recent unauthorized release of DoD sensitive and classified documents provide FISS, foreign terrorist groups, insurgents, and other foreign adversaries with potentially actionable information for targeting US forces.
- ~~(S//NF)~~ The possibility that current employees or moles within DoD or elsewhere in the US government are providing sensitive or classified information to Wikileaks.org cannot

Specification 15 of Charge II (December 2010 – March 2010)

- The document alerted readers that WikiLeaks was a source of intelligence for adversaries
- Document had not been released publicly
 - Only available to individuals with access to the SIPRNET
 - Marked top and bottom with classification

WikiLeaks Research

- Other research on WikiLeaks in this timeframe:
 - “Chaos Computer Club” (C3) document
 - Intelligence Information Report (IIR)
- Forensic evidence shows transmission of these two documents to WikiLeaks in February 2010
 - “Volumes.txt”

- a. ~~(S//NF)~~ **(U//FOUO) Analysis.** WikiLeaks represents a potential force protection, counterintelligence, operational security (OPSEC), and information security (INFOSEC) threat to MARFOREUR/AF. The intentional or unintentional leaking and posting of US Marine Corps sensitive or classified information to Wikileaks.org poses a large threat not only from the external disclosure, but from the insider. The insider would be able to easily leak information without fear of any direct, individual, repercussions. Further, when the off-shore storage is implemented, WikiLeaks will have more latitude to distribute and publish leaked information as it will not be bound by U.S. law.

Specifications 8 and 9 of Charge II

(March 2010)

Specifications 8 and 9 of Charge II (March 2010)

- Returned to targeting large databases
- On 5 March 2010, attempted to download the JTF-GTMO detainee assessment database manually
 - Right clicking, saving to computer
 - SA Shaver will explain using Intelink logs
- Stopped after downloading approximately 400 detainee assessments

Specifications 8 and 9 of Charge II (March 2010)

- 7 March 2010
 - Downloaded the entire JTF-GTMO detainee assessment database
 - More than 750 records
 - Used “Wget” to automate process
- 8 March 2010
 - Chat logs with “pressassociation” (Julian Assange) discuss the transmission process

dawgnetwork@jabber.ccc.de	Nobody	2010-03-07 07:14:56	i have a quick question?

Specifications 8 and 9 of Charge II

(March 2010)

- Each detainee assessment was marked on the top and bottom with classification
- Intelligence analyst who wrote assessments and maintained the database will testify
 - Detainee assessments were only available on SIPRNET and higher
- Assessments had not been released to public

Specification 2 of Charge III (March 2010)

Specification 2 of Charge III

(March 2010)

- Harvest of detainee assessments is first known example of using Wget
- Wget
 - Free software available on the internet
 - Rapidly downloads information from web servers
- Acceptable Use Policies (AUPs) prohibited the addition of “freeware” and “executables” on government info systems

- d. I will use only authorized hardware and software. I will not install or use any personally owned hardware, software, shareware, or public domain software.
- e. I will use virus-checking procedures before uploading or accessing information from any system, diskette, attachment, or compact disk.
- f. I will not attempt to access or process data exceeding the authorized IS classification level.
- g. I will not alter, change, configure, or use operating systems or programs, except as specifically authorized.
- h. I will not introduce executable code (such as, but not limited to, .exe, .com, .vbs, or .bat files) without authorization, nor will I write malicious code.
- i. I will safeguard and mark with the appropriate classification level all information created, copied, stored, or disseminated from the IS and will not disseminate it to anyone without a specific need to know.

Specification 1 of Charge III

(March 2010)

- Enlisted Assange's help in seeking a way to browse the SIPRNET anonymously
- Hash-cracking = reverse engineering a password
 - Hash value in chat is from ".22" and ".40"
- Testimony from SA Shaver, who will explain "Im hash" and "rainbow table"
- Testimony from information assurance expert

Specifications 12 and 13 of Charge II

(March 2010 – April 2010)

Specifications 12 and 13 of Charge II (March 2010 – April 2010)

- Used Wget to systematically harvest more than 250,000 Department of State diplomatic cables
 - 251,287 purported DoS cables released by WikiLeaks
- 28 March – early April 2010
 - Firewall logs from the DoS show more than 700,000 connections

Simple Math

- 250,000 diplomatic cables over approximately 10 days
- 25,000 cables / day
- More than 1,000 cables / hour
- Automated

Importance of Wget

- Wget, and programs like it, were prohibited by Acceptable Use Policy
- Wget bypassed the normal mechanism for access to the cables
 - Click → Open → Save
- Wget acted as a technical “boost” for harvesting large amounts of information

Specification 10 of Charge II

(April 2010)

Specification 10 of Charge II

(April 2010)

- 10 April 2010
 - Visited the CENTCOM SIPRNET SharePoint site
 - Logs shows entire AR 15-6 Investigation into the “Gharani Airstrike” downloaded
 - More than 334 records
- Did not download the related airstrike videos
 - SA Shaver will discuss the log evidence

(04:33:44 PM) bradass87: idk... i only know what i provide him xD

(04:34:14 PM) info@adrianlamo.com: what do you consider the highlights?

(04:35:31 PM) bradass87: The Gharani airstrike videos and full report, Iraq war event log, the "Gitmo Papers", and State Department cable database

Specification 10 of Charge II

(April 2010)

- Charged documents were located in a folder devoted to the investigation
 - Only on the SIPRNET
- Had not been released publicly
- Marked with classifications

Specification 3 of Charge III

(4 May 2010)

Specification 3 of Charge III

(4 May 2010)

- Wget was downloaded to PFC Manning's SIPRNET computer a second time
- Forensic evidence will trace Wget from the NIPRNET computer in the SCIF to one of PFC Manning's SIPRNET computers
 - Wget then used to harvest an additional 11,000 DoS cables from Net-Centric Diplomacy
