13 June 1975

MEMORANDUM FOR: Deputy Director of Security, PSI

SUBJECT : Inclusion of "Counter Intelligence Corps"
Information in PROJECT RESISTANCE Reports

1. Reference is made to your recent verbal request to determine whether Counter Intelligence Corps dissident surveillance information was included in Project RESISTANCE reports and if so, were these reports disseminated outside the Agency.

2. A review of Project RESISTANCE files indicates that the Office of Security published a number of Situation Information Reports from June 1968 until late 1972, when publication was discontinued. These reports, published generally on a weekly basis, consisted of an analysis of past events of dissident groups and a calendar of forthcoming events. They included information gathered from public news sources, reports of other federal agencies, mainly the FBI, the Army, and the Air Force, plus a small number of liaison contact reports with Washington, D. C., and suburban police agencies.

3. U. S. Army originated information included in the reports came in the main from TWX summaries produced by the Army Intelligence Center at Fort Holabird, Maryland. To a lesser extent, information from CIC counterintelligence summaries was also included. The TWX summaries were received by the Office of Security on a daily basis from June 1968 until April 1970. All of the TWX summaries and the few counterintelligence summaries received by this Office from the Army were finished intelligence products, and none of them included raw surveillance data.

4. The Situation Information Reports were generally consumed within this Agency, however, a number of them were given to the Secret Service and a limited number were disseminated to local police agencies. The reports disseminated

209

to the Secret Service were rewritten to extract information received from other government agencies. Although the RESISTANCE files are not clear as to whether the same procedure was followed with reports given to local police agencies, it is assumed that such was the case.

5. The undersigned reviewed your referenced requirement with _____ and _____ both of whom served in the unit which produced the Situation Information Reports. _____ and _____ stated to the best of their knowledge the Office of Security did not receive raw data surveillance reports from the U. S. Army. All of the reports received were as described above, and they know of no instance in which the Office of Security disseminated outside this Agency a Situation Information Report containing information gathered by another federal agency.
