17 June 1975

MEMORANDUM FOR: Deputy Director of Security, PSI

SUBJECT : Review of Rockefeller Commission Report

1. You are referred to my memorandum of 13 June 1975 captioned, "Inclusion of 'Counter Intelligence Corps' Information in Project RESISTANCE Reports," and your continuing requirement for a review of the Presidential Commission's Report.
2. As a result of my continuing review of the Presidential Commission's Report and particularly to a statement appearing on page 156, "The SIR's were not furnished to the FBI. Neither were copies furnished to local police departments," I reinterviewed \_\_\_\_\_ and \_\_\_\_\_ on 17 June 1975 concerning their recollections of the dissemination of SIR's. Both \_\_\_\_\_ and \_\_\_\_\_ recalled that \_\_\_\_\_, Chief of the Special Activities Division, handcarried a limited number of SIR's to the Mc Lean Substation of the Fairfax County Police Department. The copies of the SIR's disseminated by \_\_\_\_\_ only contained a calendar of the forthcoming events which were reviewed prior to delivery so that all Third Agency information was deleted. Such dissemination was very minimal and only occurred when forthcoming events of dissident movements indicated future protest activity in the Washington, D. C., area. Neither \_\_\_\_\_ nor \_\_\_\_\_ recalled the dissemination of such reports to any other police agency in the Washington, D. C., area.
3. I have again reviewed volumes one through five of Project RESISTANCE (OS#533 989) and did not notice any notations, comments, or memoranda which would indicate the actual dissemination of SIR's to federal, state, or local agencies other than the Secret Service. Since the Commission investigators had access to the same files, it would appear that their statement as set forth above is accurate as long as it is based solely on their review of Project RESISTANCE files.
