On 30 April 1975, USLP member Arthur Leaderman, Bureau Chief, NSIPS in NYC, at a press conference in Washington discussed the meaning of a "new NATO doctrine" which he alleged is outlined in NATO document "MC14/4", i.e., the Schlesinger Doctrine. According to Leaderman, this document established as NATO policy the acceptance of tactical nuclear warfare following a "staged confrontation" between the US and the USSR. He also alleged this policy is causing a "fractional situation" to arise within the NATO command. The tone of his press conference was to make the USSR appear to be the potential victim of US foreign policy as applied to NATO. Leaderman also told the group that the West German police had conducted a raid on ELC Headquarters in Wiesbaden on 29 April 1975 in an attempt to uncover the "High Bundeswehr Source" who reportedly had revealed this information to the NSIPS representatives. 16
