EXECUTIVE OFFICE OF THE PRESIDENT  
OFFICE OF MANAGEMENT AND BUDGET  
WASHINGTON, D.C. 20503

October 15, 1992

THE DIRECTOR

Honorable J. Danforth Quayle  
President of the Senate  
Washington, D.C. 20510

Dear Mr. President:

Enclosed is the twentieth report on United States Costs in the Persian Gulf Conflict and Foreign Contributions to Offset Such Costs, as required by Section 401 of P.L. 102-25. This report was prepared in consultation with the Secretary of Defense, the Secretary of State, the Secretary of the Treasury, and other appropriate government officials. Previous reports have covered the costs for the period beginning August 1, 1990, and ending July 31, 1992. A revised final report on contributions is also included in this report.

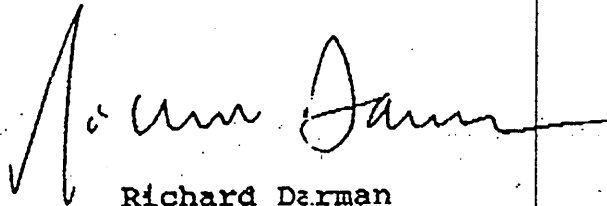

In accord with the legal requirement, this report provides the following information:

- o the incremental costs associated with Operation Desert Storm that were incurred during August 1992;
- o the cumulative total of such costs, by fiscal year, from August 1, 1990, to August 31, 1992;
- o the costs that are nonrecurring costs, offset by in-kind contributions, or offset by the realignment, reprogramming, or transfer of funds appropriated for activities unrelated to the Persian Gulf conflict;
- o the allocation of costs among the military departments, the Defense Agencies of the Department of Defense, and the Office of the Secretary of Defense by category -- airlift, sealift, personnel, personnel support, operating support, fuel, procurement, and military construction; and
- o the amount of contributions made to the United States by each foreign country. The report specifies the amount of cash payments pledged and received, provides a description and value of in-kind contributions pledged and received, and identifies restrictions on the use of such contributions.

#650

The costs reported to this point should be viewed as partial and preliminary for reasons noted in the enclosure. As required by Section 401 of P.L. 102-25, a final report will be submitted by November 15th.

Respectfully submitted,

Richard Darman  
Director

Dear Mr. Speaker:

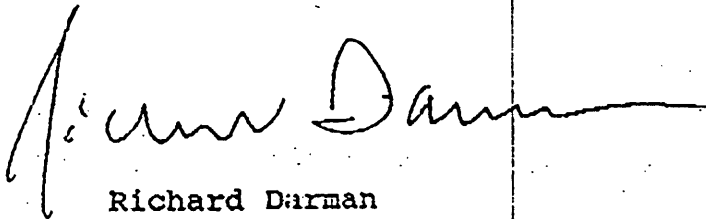

Enclosed is the twentieth report on United States Costs in the Persian Gulf Conflict and Foreign Contributions to Offset Such Costs, as required by Section 401 of P.L. 102-25. This report was prepared in consultation with the Secretary of Defense, the Secretary of State, the Secretary of the Treasury, and other appropriate government officials. Previous reports have covered the costs for the period beginning August 1, 1990, and ending June 31, 1992. A revised final report on contributions is also included in this report.

In accord with the legal requirement, this report provides the following information:

- o the incremental costs associated with Operation Desert Storm that were incurred during August 1992;
- o the cumulative total of such costs, by fiscal year, from August 1, 1990, to August 31, 1992;
- o the costs that are nonrecurring costs, offset by in-kind contributions, or offset by the realignment, reprogramming, or transfer of funds appropriated for activities unrelated to the Persian Gulf conflict;
- o the allocation of costs among the military departments, the Defense Agencies of the Department of Defense, and the Office of the Secretary of Defense by category -- airlift, sealift, personnel, personnel support, operating support, fuel, procurement, and military construction; and
- o the amount of contributions made to the United States by each foreign country. The report specifies the amount of cash payments pledged and received, provides a description and value of in-kind contributions pledged and received, and identifies restrictions on the use of such contributions.

The costs reported to this point should be viewed as partial and preliminary for reasons noted in the enclosure. As required by Section 401 of P.L. 102-25, a final report will be submitted by November 15th.

UNITED STATES COSTS IN THE PERSIAN GULF CONFLICT AND  
FOREIGN CONTRIBUTIONS TO OFFSET SUCH COSTS

Report #20: October 15, 1992

Section 401 of P.L. 102-25 requires a series of reports on incremental costs associated with Operation Desert Storm and on foreign contributions to offset such costs. This is the twentieth of such reports. As required by Section 401 of P.L. 102-25, it covers costs incurred during August 1992 and a final report on contributions. Previous reports have covered the costs for the period beginning August 1, 1990, and ending July 31, 1992. A revised final report on contributions is also included in this report.

Costs

The costs covered in this and subsequent reports are full incremental costs of Operation Desert Storm. These are additional costs resulting directly from the Persian Gulf crisis (i.e., costs that would not otherwise have been incurred). It should be noted that only a portion of full incremental costs have been included in Defense supplemental appropriations. These portions are costs that required financing in fiscal year 1991-1993 and that are exempt from statutory Defense budget ceilings. Not included in fiscal year 1991-1993 appropriations are items of full incremental costs such as August-September 1990 costs and costs covered by in-kind contributions from allies.

The Department of Defense has estimated the full incremental cost of the Persian Gulf conflict to be \$61.1 billion. Costs reported by the field to the Department of Defense through August 31, 1992, are summarized in Table 1. The cost information is shown by the cost and financing categories specified in Section 401 of P.L. 102-25. Tables 2-9 provide more detailed information by cost category. Revised estimates for continued security operations in FY 1993 will be reflected in the final report.

The costs shown in Tables 1-9 include a revised estimate of the cost of equipment repair, rehabilitation, and maintenance caused by the high operating rates and combat use. They also include most of the costs of phasedown of operations and the return home of the deployed forces. However, incremental costs are being and will continue to be incurred in subsequent months. These include long-term benefit and disability costs, and the costs of continuing operations in the region. Almost 24,000 military personnel were in the region at the end of August. Combat aircraft continue to fly in the region and the U.S. forces will continue to remain in the region until all parties are satisfied with long term security arrangements. A Department of Defense estimate of potential total incremental costs by major

Incremental Coast Guard costs in support of military operations in the Persian Gulf were \$33.4 million.

Incremental Department of Education costs to date have been \$13.5 million. Incremental Department of Veterans Affairs costs to date have been \$252.6 million.

### Contributions

Section 401 of P.L. 102-25 requires that this report include the amount of each country's contribution during the period covered by the report, as well as the cumulative total of such contributions. Cash and in-kind contributions pledged and received are to be specified. All commitments have been fulfilled and no further contributions are expected.

Tables 10 and 11 list foreign contributions pledged in 1990 and 1991, respectively, and amounts received. Cash and in-kind contributions are separately specified.

Foreign countries contributed \$9.6 billion of the \$9.7 billion pledged in calendar year 1990, and \$44.2 billion of the \$44.3 billion pledged in calendar year 1991. The difference between contributions and pledges is due to in-kind assistance which had been made available, but could not be utilized. Of the total \$53.8 billion received, \$48.1 billion was in cash and \$5.7 billion was in-kind assistance (including food, fuel, water, building materials, transportation, and support equipment). As a result of a Government of Japan reduction of \$25 million in the value of in-kind assistance provided, an offsetting cash payment of \$25 million was made by Japan in October 1992. Table 12 provides further details on in-kind contributions. Table 13 summarizes the final status of commitments and contributions received.

### Future Reports

As required, the final report will be submitted by November 15th.

Realignment 4/	913	118				1,031

1/ Data was compiled by OMB. Source of data --- Department of Defense. This report adjusts earlier estimates to reflect more complete accounting information

2/ The costs reported so far are preliminary. This report includes an estimate of costs identified to date of equipment repair, rehabilitation, and maintenance caused by the high operating rates and combat use. The report also includes most of the costs of phasedown of operations and the return home of the deployed forces. However, certain long-term benefit and disability costs have not been reflected in the estimates.

3/ Nonrecurring costs include investment costs associated with procurement and Military Construction, as well as other one-time costs such as the activation of the Ready Reserve Force ships.

4/ This includes the realignment, reprogramming, or transfer of funds appropriated for activities unrelated to the Persian Gulf conflict.

1/ Some previously reported medical costs have been reallocated to the Defense Health Program to reflect the new funding responsibilities for that program.

2/ Costs are less than \$500 thousand.

3/ This includes the realignment, reprogramming, or transfer of funds appropriated for activities unrelated to the Persian Gulf conflict.

This category includes subsistence, uniforms and medical costs.

Most of the reported costs for this period were for Reserve deactivation and medical support.

1/ Data was compiled by OMB. Sources of data: commitments -- Defense, State, and Treasury; cash received -- Treasury; receipts and value of in-kind assistance -- Defense.

2/ 1990 cash contributions were for transportation and associated costs. In October 1992, the Government of Japan transferred \$25 million to the U.S. Government. This reflected a shift from in-kind support to cash support, and does not represent an additional contribution.

3/ The commitment has been fulfilled. Germany made available for donation to the U.S. over \$200 million worth of ammunition, which the U.S. chose not to accept due to the termination of the war.

1/ Data was compiled by OMB. Sources of data: commitments -- Defense, State, and Treasury; cash received -- Treasury; receipts and value of in-kind assistance -- Defense.

2/ 1991 cash contributions are for logistics and related support.

3/ The commitment has been fulfilled and there are no future receipts against this commitment. The total commitment could not be fully utilized by the U.S. for Desert Shield/Desert Storm requirements. Korea has agreed to provide in-kind support for non-Desert Shield/Desert Storm projects in FY. 1992 in an amount equivalent to the difference.

- 1/ Data was compiled by OMB. Sources of data: commitments -- Defense, State, and Treasury; cash received -- Treasury; receipts and value of in-kind assistance -- Defense.
- 2/ The commitment has been fulfilled. Germany made available for donation to the U.S. over \$200 million worth of ammunition, which the U.S. chose not to accept due to the termination of the war.
- 3/ In October 1992, the Government of Japan transferred \$25 million to the U.S. Government. This reflected a shift from in-kind support to cash support, and does not represent an additional contribution.
- 4/ The commitment has been fulfilled and there are no future receipts against this commitment. The total commitment could not be fully utilized by the U.S. for Desert Shield/Desert Storm requirements. Korea has agreed to provide in-kind support for non-Desert Shield/Desert Storm projects in FY 1992 in an amount equivalent to the difference.

Department of Defense Preliminary Estimate of Full Incremental  
Desert Shield/Desert Storm Costs  
(\$ in Billions)

	Reported 1 August 1990 <u>31 August 1992</u>	DOD Estimate of Additional Potential <u>Exposure</u>	Total Reported Plus Potential <u>Costs *</u>
Airlift	3.2	-	3.2
Sealift	5.0	-	5.0
Personnel	6.7	.8	7.5
Personnel Support	6.8	-	6.8
Operating Support	21.3	.1	21.4
Fuel	4.8	-	4.8
Investment	8.4	-	8.4
Military Construction	.4	-	.4
Other Personnel Benefits**	<u>3.3</u>	<u>3.3</u>	<u>3.6</u>
<b>Total</b>	<b>56.8</b>	<b>4.2</b>	<b>61.1 *</b>

The above estimate reflects the majority of the cost of needed repair, rehabilitation and restoration of equipment due to sand, climatic conditions and combat stress. Estimating the full incremental cost of Desert Shield/Desert Storm requires assumptions about the scope and extent of operations continuing in the region.

- o Almost 24,000 military personnel were in the region at the end of August.
- o Combat aircraft continue to fly in the region and U.S. forces will continue to remain in the region until all parties are satisfied with long term security arrangements.

\* A substantial fraction but not all of these costs require appropriations.

\*\* This includes costs that have already been incurred by the Department of Veterans Affairs and the Department of Education as well as the present value of long term personnel benefits.
