Matt:

I have no idea what documents have been turned over to Issa or produced for review to the Committee. I have never been given the list or copies from OLA. As you mentioned earlier today, that list is changing and includes items for which we have never received a formal request. Sorry I really can't help with that part of your request. (That's part of why I want to try and use Concordance going forward.)

- a. The memorandum from Phoenix SAC Newell to ATF headquarters following the death of CBP agent Brian Terry.

DP

ATF

- b. The presentation given by ATF on March 5, 2010 on the southwest border, attended by DOJ official Joe Cooley and senior ATF officials.

DP

- c. All records relating to a meeting on or about December 17, 2009 between a Federal Firearms Licensee (FFL) and any ATF or U.S. Attorney's Office official.

DP

- d. All briefing papers relating to Fast and Furious transmitted to ATF Headquarters, U.S. Attorney's Offices, or Justice Department headquarters.

DP

ATF

DP

- e. All records relating to instances in which case agents or their superiors ordered field agents to “stand down,” “discontinue surveillance,” or otherwise failed to authorize requested attempts to interdict weapons.

DP

ATF

ATF

ATF

- f. All records relating to communications between FBI personnel in Phoenix or Tucson and the FBI Laboratory Firearms/Toolmark Unit relating to the firearms recovered during the course of the investigation of CBP Agent Brian Terry’s death.

DP

- g. All records relating to the genesis of Operation Fast and Furious and communications between ATF personnel and personnel in the United States Attorney’s Office for the District of Arizona.

Let me know what else we can do to help.

Sorry, but I have another firedrill. I'm trying to identify docs that Senator Grassley is looking for. The categories have changed a bit since last time. It looks like a, b, and c are the same as 1, 2, and 3 from last time. But can you try to identify what you have related to d, e, f, and g? Some may be easier to identify than others. Call me and we can talk it through. Also, if there are docs that are responsive to the categories below that we already have made available to Issa, I need to know that as well. Thanks **ATF**

Matt:

Following up on our conversation:

We have identified the power point that was used in the briefing referred to in Senator Grassley's question 3 below. It is 28 slides not 200. We have confirmed its origin and that it is the presentation used to brief HQ in the spring of 2010.

The PowerPoint was prepared by one of our headquarters intelligence analysts [ATF] and was used by he and [ATF] to brief HQ personnel. The file is too large to send via e-mail. Director Melson's detail will deliver it to you within 30 minutes. The password is: 2011ATFfast&furious

Here are the categories of docs that I'm trying to identify and gather. As I mentioned on the phone, I'm pretty sure I have all docs responsive to Categories 1 and 2 from the last time we did this. Category 4 is pretty broad, so let's deal with that one last. Do you think you could start by locating the docs responsive to Categories 3, 5, 6, 7, and 8? Thanks a ton.

Matt
