This is officially going to be the longest email in the world.

- (1) I checked with Jonathan W., and the hearing on our guidelines proposal is scheduled for March 16. **ATF**  
**ATF**
- (2) Attached is a copy of the AUSA's memo on the **ATF** Terry guns, including his description of the Dec. 2009 communication with **ATF** that sold those guns.
- (3) I've compiled a couple of ATF and USAO documents into one timeline of the **ATF** purchase history. I also included ATF's notes about Mexico recoveries and overall recovery numbers. This is very rough, as I pasted it together rather quickly from documents written by ATF and the AUSA. I'm running it by ATF to see if they have anything to add/change but wanted you to have it sooner. Here you go:
