See what happens when you go away for a few days? Thanks. This is very helpful.

Jim – here are some updates:

3) DHS/Mexico – you've pretty much been following the email traffic on this I think. Bottom line – summit-palooza currently set for Tuesday. As you may have seen Nap. Said she is bringing additional people so we are adding to our numbers as well. FWIW - My own view is that you should continue your bilats w/ Lute. Can't hurt

6) ATF – We got another missive from Grassley with more allegations, etc.

In other news,

ATF announced (without coordinating w/ us or press folks) in a press release this afternoon that they have asked a LE panel to review its gun strategies...

That's it for now. Safe travels
