Definitely not the murder weapon. That hasn't been recovered. The shooter ran off, taking that weapon with him. When Pat Cunningham finishes reviewing the talking points I think he can answer whether there's any evidence that the recovered weapons were used in the shoot out or just dropped. But the bullet that killed Agent Terry did not come from any of those found at the scene.

So, the guns recovered at the site were not the murder weapon, just used in the shootout?

Here's what I got from James Grimaldi about an hour ago.

Robert,

Do you have a minute to chat about Fast and Furious? I am writing a story.

Also, I heard that you issued a statement essentially ruling out those two weapons as murder weapons in the Terry investigation?

FYI, We didn't issue any statement on the matter. However, in the LA Times story last week by Kim Murphy, it looks like the ATF did, buried down near the bottom.

"ATF officials said there was no evidence showing the two Fast and Furious guns found at the scene were used to kill the agent."

Eta on this is very soon. Also we got a request from James Grimaldi at the Post that I think should be kicked to you. He wants confirmation that the weapons recovered at the Terry crime scene were not the murder weapon. **DP**
