These are ATF's two Firearms Trafficking related guidance documents. The National Firearms Trafficking Strategy and implementation plan are the first chronologically and represent our broad national strategy. These are not public documents.

The Cartel Strategy was released in September 2010 and specifically addresses Project Gunrunner. It is a focused subset of the National Strategy. The strategy document has been leaked and is in the public space. I do not believe the transmittal memo is "out there." Obviously we would consider these non public documents.

This is the 2009 edition of the "parent document" that lays out the USG strategy. Project Gunner is specifically named in Chapter 7. This is a public document which is available on ONDCP's website : [http://www.whitehousedrugpolicy.gov/publications/swb\\_counternarcotics\\_strategy09/swb\\_counternarcotics\\_strategy09.pdf](http://www.whitehousedrugpolicy.gov/publications/swb_counternarcotics_strategy09/swb_counternarcotics_strategy09.pdf)

I have also attached the 2011 version of the same document – it is not officially "public" (though it is in wide circulation within the USG for final review) and has been entered at OMB for clearance.
