Subject: RE: HJC Hearing intel-Issa

All: According to Congressman Issa's staff, he suspects that the Congressman will spend his 5 minute questioning the AG on his oversight related matters, including Fast and Furious/Project Gun Runner. We have a talker on this issue at tab 108 of the handbook. However, staff indicated he had not had an opportunity yet to speak with the Congressman in detail about tomorrow's hearing, and he would email me if anything more came up. Thanks, Bill.
