Do you actually owe him a call?

Ok. I will call Jason back and see if he just didn't understand the wording of my email, and then say that it is my understanding that this is the level of detail agreed upon with Steve.

Also, I will send you a proposed coding scheme shortly so that we can start using today.

DP

Steve and Faith, I'll be a little late to the 9:45 but will join when I can.

**Subject:** RE: Redaction questions

I spoke to Steve Castor and told him that, starting absolutely as quickly as we can, we would create a key of reasons for redactions (eg: 1 = Personal privacy) and that we would handwrite on the redacted documents the code for why redactions were made and also give them a copy of the key so he understood the codes.

Perhaps we can have a conversation where that explanation can be fleshed out a bit? I'm not sure what that means as described below.

Thanks, Tristan.

With respect to your questions about HOCR-ATF 1179-1181, the Exit Strategy:

With the exception of the redaction of text in the penultimate line on the first page, every single redaction in this document is a reference to a sensitive surveillance technique.

The redaction of text in the penultimate line on the first page is of sensitive information about an investigative target.

Thanks,  
Molly

**Subject:** Redaction questions

Molly,

As you suggested, we have identified the instances where we would like to know the substance behind redactions. They follow individually, as per your request. As mentioned on the phone the other day, this doesn't need to include redacted phone numbers.

Thanks,

Tristan
