Murder Weapon of ICE Agent Jaime Zapata

According to a Justice Department press release from March 1, 2011, one of the firearms used in the February 15 murder of U.S. Immigration and Customs Enforcement (ICE) Agent Jaime Zapata was traced by the ATF to Otilio Osorio, a Dallas-area resident. Otilio Osorio and his brother Ranferi Osorio were arrested at their home, along with their neighbor Kelvin Morrison, on February 28. According to that same press release, the Osorio brothers and Morrison transferred 40 firearms to an ATF confidential informant in November 2010. Not only were these three individuals not arrested at that time, according to the press release their vehicle was later stopped by local police. Yet the criminal

indictment in *United States v. Osorio*, filed March 23, 2011, is for straw purchases alone and references no activity on the part of the Osorio brothers or Morrison beyond November 2010.

Questions:

- A. Why did the ATF not arrest Otilio and Ranferi Osorio and their neighbor Kelvin Morrison in November?
