FYI, attached is a collection of letters setting forth the Department's policy on memos on memos. Faith and I assembled them and provided them yesterday to DHS-OGC for its memos-on-memos issue regarding Issa's investigation into DHS's sending of a letter complaining about the committee's public disclosure of sensitive information. The discussion of this issue is toward the end of each of the three letters, with the most extensive discussion being in the 3/26/07 letter.

This policy is pertinent to some of Issa and Grassley's pending requests, such as the inquiry into the ATF shared drive.
