Ron -

We had talked yesterday about getting together with you and Steve so I can highlight what I think the issues are for the FBI, we can show you our working timeline, and we can discuss our latest thoughts on a response to the Committee (our latest draft letter is attached, but it's still a work in progress). I'm pretty open tomorrow and Thursday, so let me know if there's a time that works for you, Steve, and others you'd like to include in the conversation.

Thanks.

- Stephen
