What is our position? DP

ATF

DP

ATF

Also, one additional fact. On June 15, 2010, ATF was caught attempting to export ammunition as well as "dummy" grenade hulls and fuses. That ammunition was also determined to be a controlled munition.

Yep. I should have comments by tomorrow mid-morning. Primarily, I will be adding a few facts that appear to be missing.

Also, I will land from MXC at 5:00 and I can do an evening meeting on Thursday.

Subject: RE: Briefing Paper

I won't return to the office from MXC until 5:00 p.m. on Thursday (8/11), and on Friday, I have meeting offsite in the afternoon (ICE SAC will be there). I could meet on Friday morning.

Here is an electronic version of the ATF briefing paper. Please make your comments in the appropriate places using different colored type so I can follow who is commenting. I can't remember what color I told Tracy and Emory to use so please use the following:

Emory – green

Tracy – red

Josh – blue

Mike – purple

*I received a call from Steve Reich in the DAG's office and he would like to send Monica Ramirez and another attorney out to discuss the **ATF** case in person. Please let me know your availability next Thurs and Friday (August 11 and 12). Thanks.*
