Subject: Project gun runner

ATF came in about 15 minutes ago to purchase a **ATF**. He filled out the 4473 and we called it into NICS, **ATF** was delayed by NICS, the examiner was **ATF**. After paying for the rifle so we could hold it till his NICS transaction went through, he came back in to return and cancel the transaction. **ATF** was the sales person being rung up. I was the sales manager on duty, any questions let us know.
