Adding Matt to see if he recognizes this incident.

I don't recall hearing anything like this before.

Has anything like this come up in your internal review? Do you know whether this is connected to F & F?

We can ask ATF to search for this, but first, please advise if you have any info about it. Thanks. FB

Subject: ROI request

Faith,

Hope you are well. We understand that at one point, Special Agent Tonya English and Phoenix Detective Daniel Moncrief went at the direction of Hope MacAllister to do an interview at the home of a firearms purchaser. We do not know the name of the purchaser or the date, although it was presumably after the fall of 2009. The purchaser turned out to be a prohibited possessor (possibly a felon—we're not sure), and his firearms were seized. However, he was not arrested at that time. We would like a copy of the Report of Incident (ROI) from this event. Can that be located for us?

Thank you,

Tristan
