SUBJECT ADDRESS BY LIEUTENANT GENERAL
 ARTHUR TRUDEAU BEFORE THE AMERICAN
 SOCIETY FOR INDUSTRIAL SECURITY
 SEPTEMBER 16, 1958

You will recall that General Trudeau, in speaking before the above group, made the statement that was widely reported in the press that Soviet technological advances stem from a great extent to Soviet industrial espionage in this country. Trudeau subsequently repeated his charge in a television program and pointed out that he was talking to a group of people who are responsible for security in the industrial area and wanted to alert them to their responsibilities.

Colonel Frederick G. White, General Trudeau's intelligence officer, advised our Liaison Representative on December 9, 1958, that General Trudeau instructed him to request from the FBI public source data to support his allegations concerning Soviet industrial espionage. General Trudeau wishes to use this information in any future speeches, anticipated Congressional inquiry when he appears on budget matters, and would furnish such information to responsible officials in and out of Government who have already inquired of General Trudeau concerning his remarks. General Trudeau specifically mentioned such espionage cases as Allen Nunn May, McLean and Burgess, Fuchs, and Rosenberg.

You will recall that in my memorandum of November 18, 1958, it was reported that General Trudeau had requested this same type information from General Willems, Assistant Chief of Staff for Intelligence (ACSI). Willems' reply to Trudeau was that the information that ACSI had in its possession of this nature came from the FBI and that before he would furnish such information to General Trudeau he would have to know how General Trudeau intended to use such information and also would have to clear with the FBI as to disclosure. General Trudeau replied to General Willems that he would approach Mr. Hoover directly for this information. Our relations with General Trudeau over the years have been very good and he is an admirer of the Director.

OBSERVATIONS:

When General Trudeau originally made his speech he unquestionably went out on a limb because he did not have supporting facts for the statements made by him. General Trudeau is now seeking facts which would

support his public statements. The cases mentioned by General Trudeau have been heavily publicized in the past. The Army has copies of our investigative reports in these cases and also has public source data relating to them. It would seem then that they are capable of digging out information concerning these cases which would be of use to General Trudeau. However, it will be noted that these are old cases and the import of General Trudeau's speech was that this industrial espionage is still going on.

RECOMMENDATION:

We hesitate getting involved with General Trudeau as he has not always been discreet. If we furnish him any material and he gets his back to the wall he is liable to say he got the material from the FBI and draw the Bureau into the controversy. However, if you agree, we will check our more recent cases and cases involving persona non grata action to see if there is anything which might be of assistance to General Trudeau and can be given to him. The results of this check will be furnished to you so that you can decide whether it would be advisable to give the information to General Trudeau.

*let us see what

we can safely
do so I would
like to help.

Memorandum from Mr. Rouch to you 12/11/58 advised that General Trudeau had requested the FBI to furnish public source data to support his allegations concerning Soviet industrial espionage. He wishes to use this information in future speeches, in any Congressional inquiry and to furnish it to responsible officials in and out of Government. The Director indicated that he would like to help if we can safely do so.

General Trudeau in his 9/16/58 speech made two basic points of interest. (1) He stated that the advanced state of Soviet technology today is due more to Soviet success in espionage and subversion than it is to the Soviet scientific apparatus. (2) He indicated that the Soviets are still engaging in espionage and referred to "recent cases" which he knew of but could not discuss for security reasons.

It is noted that we interviewed Trudeau subsequent to his 9/16 speech and he advised that he knew of no recent cases but had reference to cases previously handled by the Bureau such as the Abel case and those that grew out of the Fort Monmouth situation.

We have reviewed current Soviet cases to determine if we can safely furnish information to Trudeau keeping in mind that he intends to use the information for speeches, etc. We, of course, have numerous cases involving Soviet attempts to obtain information in this country through intelligence operations some of which involve classified information coming within the meaning of the espionage statutes. For the most part these cases involve Soviet and satellite officials and for the most part we are operating double agents or informants in these cases. These cases clearly show that the Soviets are continuing their attempts to obtain information in the U. S. but we are not aware of how much they obtain except that which is cleared for passage through double agents. The value to the Soviet technology of the information which they are obtaining is also not known. The review of these cases fails to reflect any public source data which could be safely given to Trudeau. (X)

We have also reviewed cases involving espionage prosecutions or persona non grata actions in the recent past. It is noted that all of those involving prosecution, including the Abel and Soble cases which are the two most recent, involve espionage activities which did not appear in the newspaper publicity relating to the prosecutions. However, public disclosure of this information at the present time might interfere with future prosecutions and/or with related investigations. Therefore, this information should not be given to Trudeau.

Since 1951 we have had 16 Soviet officials and five satellite officials declared persona non grata for their attempts to obtain information except three which involved attempts to repatriate persons behind the Iron Curtain. These cases have also been reviewed. For the most part, at the time of the persona non grata action State Department (or the Secretary General of the United Nations when UN officials were involved) issued press releases which were very brief and did not go into detail regarding the intelligence activities. There is additional information, therefore, in these cases which has not been made public but a review of this material indicates that in some instances it might jeopardize other investigations and in other instances the State Department would most likely object to further publicity. It is believed, therefore, that this information should not be given to Trudeau. It is noted also that this information does not reflect the value of Soviet espionage to Soviet technology.

It is believed that the only authentic support of Trudeau's contention that Soviet technological success is due to espionage would be statements by persons who have been behind the Iron Curtain and are in a position to know. Such persons would be Soviet defectors or German scientists who were taken to Russia and worked in Soviet scientific establishments. In this connection we found the following pertinent information.

(1) A booklet by Soviet defector G. A. Tokaev entitled "Soviet Imperialism" published in 1954 contains statements indicating that Soviet war industry to a large extent has been developed as a result of widespread espionage, the use of foreign inventions and the capture of material. He stated that "blind landing" in the Air Force came from the Americans; heavy bombers were developed from the B-29; the technique of building atomic bombs came from the Americans, Canadians and British; radar came from British and German sources, etc. (100-360455-33 Enclosure Behind File)

(2) A draft of an article by Petr S. Derjabin which is to appear in "Life" magazine after the first of the year quotes Lieutenant General Fedotov, Deputy Head of the Committee of State Security as stating in 1952 "If it weren't for our work in Canada and the U. S., the Soviet Union would still not have the atomic bomb." It is noted that Derjabin who defected in 1954 has been in the custody of CIA but this fact has never been publicized. The "Life" magazine article will be the first public material emanating from him. (See memo Branigan to Belmont 12/16/58 re Petr S. Derjabin, 100-409369.)

literature has been of value to the Soviets. Such literature has been obtained through Soviet legal intelligence procurement. The principal source has been the Four Continent Book Corporation but in addition they have used the Tass News Agency and individual Soviet officials assigned to this country to collect this material. The detailed results of our investigation in this matter have never been publicized; however, it is noted that the Four Continent Book Corporation is registered with the Attorney General under the Foreign Agents Registration Act and that registration statements filed by this organization are available to the public. The registration statement of 2/12/58 reflected the volume of purchases of books, periodicals, magazines, etc., exceeded \$138,000. This was for the six-month period ending 12/31/57. (65-1674-1424) (S)

RECOMMENDATION:

It is recommended that Liaison advise General Trudeau (or his intelligence officer) that the Bureau believes that the best sources to obtain authentic support for General Trudeau's statements regarding value of Soviet espionage to Soviet technological advances would be statements by Soviet defectors and German scientists who have worked in Russia. He should be referred to the book entitled "Soviet

It is also recommended that Liaison advise Trudeau that the Soviets are continuing to engage in intelligence operations in the U. S. designed to obtain data of value to the Soviet Union and that some of the targets do include information within the purview of the espionage statutes. However, the cases involving such activities are of such a nature that we are not in a position to furnish him information which could be used, as he has indicated for speeches, etc. It should be pointed out to him, however, that the registration statements of the Four Continent Book Corporation reflect the amount of money involved in purchases of books, periodicals, magazines, etc., in the U. S. on behalf of the Russians and he may desire to contact the Foreign Agents Registration Section of the Department in this regard. (S)

WHAT GOES ON HERE, ANYWAY?

I believe that if we surrender certain of our rights today, then inevitably, and soon, we shall lose what rights remain

Lt Gen. Arthur G. Trudeau, Army Research and Development chief, wanted to include the above statement in a speech he delivered Oct. 10, 1961

Lt Gen.
Arthur G. Trudeau

Unnamed persons in the Defense and State departments ordered the sentence cut out of the speech when they cleared it for delivery. It was in conflict, they said, with Public Affairs Directive No. 18 on foreign policy.

This directive apparently seeks to repeal a principle proved true throughout recorded human history.

The censoring of Trudeau's speech became public last week, as the Senate Preparedness subcommittee's investigation of the muzzling of military men got under way.

Numerous other incidents of such censorship were bared by the subcommittee—chairman, Sen. John Stennis (D-Miss.)—at the same time. Trudeau is a—

VIGOROUS ANTI-COMMUNIST

—who believes in denouncing Communism at every opportunity and in the plainest English, and therefore is hated by professional "liberals" and anti-anti-Communists

On another occasion (Jan. 31, 1961), Gen. Trudeau wanted to say in a speech:

Beyond a shadow of a doubt, your country and mine are the prime targets of a worldwide, all-out offensive of world Communism. This offensive has forced nations that glory in free institutions to join in defending these priceless values. This is why—and the simple, sole and irrefutable reason—we and our allies arm—to counter the Communist threat. Since the days of the bloody Red Revolution, the Soviets have ceaselessly increased their weapon capabilities against the day when, in Khrushchev's words, they 'will bury us'.

This entire passage—a statement of a truth known to everybody who knows what goes on in the world, and a truth every American should know—was cut out of Trudeau's speech on order of the State Department, without explanation.

For delivery Feb. 17, 1961, Gen. Trudeau prepared a speech containing this sentence:

We must make sure that our military strength is geared to cope with the Sino-Soviet bloc threat today and in the future

It would seem that there is at least one pipsqueak in the State Department who doesn't know that our current major enemies are Soviet Russia and Red China. Anyway, the State Department gutted the sentence by ordering out the phrase "Sino-Soviet bloc"—again without explanation.

The remark "On such theories Socialism thrives" was eased out of a Trudeau speech delivered March 9, 1961, with a State Department comment that "some of our best friends are Socialists."

Gen. Trudeau was guardedly polite in—

HIS TESTIMONY

—about all this before the Stennis subcommittee. We imagine he had Gens. Billy Mitchell, Douglas MacArthur and Edwin A. Walker rather painfully in mind while testifying.

But there is no necessity for civilians or newspapers to be polite on this subject of the muzzling of the military by appeasers-or-worse in the State and Defense departments.

Traitors—or Dumb Clucks?

What is going on, obviously, is that our military men—the men who know the enemy best and may have to fight him some day—are being forbidden to sound the alarm to their fellow Americans in vigorous and convincing ways.

They are being forced to tone down and mushmouth the truths that are in their minds and hearts.

This disclosure by the Stennis subcommittee raises some very grave questions, among which are:

Is the State Department, as so often alleged, still infested with second- and third-echelon traitors who mold much of our foreign policy and are determined to sell the United States down the river to Communism?

Or are both the State and the Defense departments loaded with simple-minded, mole-eyed twerps who don't know that there is a war on?

It is to be hoped that the Stennis subcommittee will put plenty of time and effort into getting the correct answers to such questions, and will let the people have those answers uncensored by anybody in any particular

JFK Retires Trudeau, An Anti-Red General

Washington, April 10 (News Bureau).—Lt. Gen Arthur G. Trudeau, former Army intelligence chief and outspoken foe of Communism, will be retired June 30 because of age, the White House announced today. He will be 60 on July 5.

President Kennedy could have kept Trudeau on active duty by disapproving his automatic retirement. But he did not choose to do so. Instead Kennedy asked the Senate to promote Trudeau, whose permanent rank

Gen Arthur G. Trudeau

was major general, to lieutenant general on the retired list.

Trudeau is now Army chief of research and development. He will be succeeded by Maj. Gen. Dwight E. Beach, 54, nominated today for three-star rank of lieutenant general.

In other command changes, Kennedy promoted Maj. Gen. John H. Michaels, Korean war hero, to lieutenant general. Michaels, now Army commander in Alaska, will take over the Army's V Corps in Europe.

Lt. Gen. Robert J. Wood, head of the Army's Air Defense Command, was promoted to four-star general and named director of military assistance in the office of the assistant secretary of defense for internal security affairs.

Memorandum

TO The Director

DATE *FEBRUARY 25, 1964*

FROM N. P. Callahan

SUBJECT The Congressional Record

Pages 3288-3291. Senator Goldwater, (R) Arizona, requested to have printed in the Record an address delivered by retired Lt. Gen. Arthur G. Trudeau in Detroit, Michigan, on February 12, 1964. Mr. Goldwater pointed out that "General Trudeau minces no words in pointing out what he and many of us feel are the wrong steps being taken in our foreign policy and our military policy, and he speaks on this subject with a knowledge gained through many years of service to the Army and his country." During this address General Trudeau stated "My claims of danger from within have been openly stressed many times by many patriots including Mr. J. Edgar Hoover, one of our greatest Americans, but I know Mr. Hoover has left much unsaid. Read his new article in the current issue of the Harvard Review entitled 'The U. S. Businessman Faces the Soviet Spy.' I wish there were more public knowledge of the threat to our institutions and our youth from non-card-carrying Communists and the libertine and Fabian Socialist left."

Dear Mr. Hoover

I am deeply grateful for your very kind note of 12 April regarding my forthcoming retirement.

Needless to say, I leave the service of my country with very great regret, as so much remains to be done. I take some degree of satisfaction in what has been accomplished and am sorry it could not have been even more.

During these last years I have been particularly appreciative of the splendid support I have always received from you and your associates and I have constantly felt that the backbone of our security lies in your capable hands. I hope it will remain there for a long time to come.

The Department of Defense, Defense Intelligence Agency, Washington, D. C., has advised that Lieutenant General Arthur G. Trudeau, USA (Retired), President of Gulf Research and Development Company, Pittsburgh, Pennsylvania, informed the Defense Intelligence Agency on 3/20/64 that it had been reported to him by a usually reliable source with extensive international connections that weapons are being brought into the United States on grain ships flying the Nigerian flag, which are coming to this country to pick up wheat. These weapons, according to his informant, are intended for the civil rights struggle. (C)

Importation and Exportation of Arms is governed under Section 1934, Title 22, U. S. Code, and violations of this section are under the investigative jurisdiction of the Bureau of Customs. However, in order to determine if General Trudeau's information may affect the Bureau's interest, he should be interviewed by us. We have had very cordial relations with General Trudeau who is on the Special Correspondents List.

ACTION:

Attached is an airtel instructing the Pittsburgh Office to interview General Trudeau in line with the above to ascertain the identity of his source of information and, if available, to interview this source. ALLEGED SHIPMENT OF WEAPONS

FLYING LIBERIAN (NIGERIAN) FLAG

Pursuant to information furnished by Lieutenant General Arthur G. Trudeau, U. S. Army (Ret.), President of Gulf Research and Development Corporation, Harmarville, Pa., to Lieutenant General Alva R. Fitch, U. S. Army, Deputy Director, Department of Defense, Defense Intelligence Agency, Washington 25, D. C., on March 20, 1964, and concerning shipment of weapons to the United States on grain ships flying the Nigerian flag for use in the Civil Rights struggle, General Trudeau was interviewed by the Federal Bureau of Investigation on March 30, 1964, at Harmarville, Pa., at which time he furnished the following information set forth in memorandum form, as to the extent of his knowledge concerning this allegation: (C)

"Subject: Report on Arms Smuggling in Wheat Shipments to Russia on Ships Flying the Liberian (Nigerian?) Flag

2841 ARIZONA TERRACE, N.W., WASHINGTON 16, D.C.

"On or about March 24, 1964, I received a call from Maj. Gen. John B. Murphy (Ret.) in Washington, D. General Murphy sought my advice. I suggested an immediate report to Lt. Col. [redacted] Administrative Assistant to Senator Strom Thurmond, who would report the matter to the Senate Internal Security Committee. I learned that General Murphy did talk with Colonel [redacted]."

General Trudeau stated that [REDACTED] traveled extensively and is considered completely reliable. This gives [REDACTED] an additional reason for veracity and allegiance to the United States.

General Trudeau advised that according to information received from [REDACTED] there was concern in Quebec, Canada, where similar attempts were being made by the communists to smuggle weapons in grain ships to assist in fomenting trouble in that Province. [REDACTED] is well acquainted with important members of the Canadian Government and French-Canadian Industrialists. On 4/7/64, Major General JOHN P. MURPHY (retired),

by SAs [REDACTED] and ROBERT M. EGAN.

General MURPHY advised that his contact by [REDACTED]
[REDACTED] on 3/22 or 23/64 came as a result of [REDACTED] attempt to
contact Lieutenant General ARTHUR G. TRUDEAU without success.
General MURPHY accepted [REDACTED] information and agreed to
pass it on to General TRUDEAU. General MURPHY also furnished
[REDACTED] information to Lieutenant Colonel [REDACTED]
Administrative Assistant to Senator STROM THURMOND.

General MURPHY displayed a copy of General TRUDEAU's
memo, which was quoted in Pittsburgh's LHM of 3/31/64. Inter-
view made it evident that General MURPHY could add nothing
to the contents of General TRUDEAU's memo except to correct
the information to show that the ships involved were of Liberian
registry and not Nigerian registry. He also noted that no
mention was made to him that the weapons were to be used for
the arming of Black Muslims. General MURPHY received a
definite impression from [REDACTED] that the arms were to be used
for the purpose of arming Southern Negroes interested in the
civil rights movement. General MURPHY supposed that this
additional information regarding the Black Muslims had been
furnished to General TRUDEAU by [REDACTED] during their latter phone
conversation.

On April 15, 1964, [redacted] who identified

Approximately eight to ten weeks ago [redacted]
[redacted] a career

Liberian flag ships which had aroused [redacted] suspicions.

Peru
A few days prior to their conversation, two Liberian
ships (both registered under the Liberian flag), had been in
Vancouver Harbor, British Columbia. One of these ships was
destined for Peru and the other was to transport Canadian wheat
from Vancouver to Russia. A sailor of Greek nationality serving
on the Liberian ship destined for Peru had contacted [redacted]
for the purpose of obtaining a Peruvian visa to go ashore in
Peru.

The next day a Peruvian, serving on the ship destined
for Russia, visited [redacted], apparently on an official matter,
the nature of which was unknown to [redacted]. During this visit
[redacted] had noted that his Peruvian passport appeared unusual
in that the date of the passport was the same as the date
contained on the military service notation indicating the
Peruvian's military status with the government. According to
[redacted] advised that this would be most unusual for the
two dates to be identical. Also, [redacted] had stated that this
individual did not appear to be a sailor, as his hands were not
those of a sailor's and he did not speak Peruvian Spanish.

b6
b7C
b7D

ALLEGED SHIPMENT OF WEAPONS TO UNITED STATES
ABOARD SHIPS FLYING LIBERIAN (NIGERIAN) FLAG

Following the departure of these two ships [] had noted that the name of the Greek sailor did not appear on the roster of the Liberian ship destined for Peru and [] indicated to [] that possible these two individuals had switched places and could be "Castro agents."

b6
b7C
b7D

[] advised he was unable to recall the complete facts on which [] based this suspicion, but [] in explaining his suspicion to [] had made it seem quite logical. [] could not recall the sailors' names.

[] had then related to [] another incident involving a Liberian flag ship destined for Peru from Vancouver which had also occurred in the recent past. Shortly after this ship's departure from Vancouver the agent for this ship's company, name not known by [], had contacted [] and stated that a quantity of dynamite and dynamite caps on this ship destined for a mining company in Peru, had been inadvertently omitted from the ship's manifest. The agent requested [] to supply an official consular invoice for this dynamite which would be forwarded to the ship's captain. [] complied with this request and subsequently wired the Peruvian Government that the ship contained the explosives.

b6
b7C
b7D

[] had later ascertained from his government that upon the ship's arrival in Peru, the captain had exhibited the manifest to Peruvian officials which had not contained the listing for explosives. Upon a search of the ship and discovery of these explosives the captain had exhibited the official consular invoice and explained there had been a mistake on the initial manifest.

b6
b7C
b7D

[] had suggested to [] that this would be an ideal way of shipping explosives into a country for possible illegal use, as if they were not detected by custom officials, they could simply be unloaded; and if detected, it could be explained as an oversight and the second document produced.

NATION OF ISLAM, formerly
referred to as the Muslim
Cult of Islam, also known
as Muhammad's Temples of
Islam

In January, 1957, a source advised Elijah Muhammad has described his organization on a nationwide basis as the "Nation of Islam" and "Muhammad's Temples of Islam."

On July 10, 1963, a second source advised Elijah Muhammad is the national leader of the Nation of Islam (NOI); Muhammad's Temple of Islam No. 2, 5335 South Greenwood Avenue, Chicago, Illinois, is the national headquarters of the NOI; and in mid-1960, Muhammad and other NOI officials, when referring to Muhammad's organization on a nationwide basis, commenced using either "Mosque" or "Temple" when mentioning one of "Muhammad's Temples of Islam."

The NOI is an all-Negro organization which was originally organized in 1930 in Detroit, Michigan. Muhammad claims to have been selected by Allah, the Supreme Being, to lead the so-called Negro race out of slavery in the wilderness of North America by establishing an independent black nation in the United States. Members following Muhammad's teachings and his interpretation of the "Koran" believe there is no such thing as a Negro; that the so-called Negroes are slaves of the white race, referred to as "white devils," in the United States; and that the white race, because of its exploitation of the so-called Negroes, must and will be destroyed in the approaching "War of Armageddon."

In the past, officials and members of the NOI, including Muhammad, have refused to register under the provisions of the Selective Service Acts and have declared that members owe no allegiance to the United States.

On May 5, 1958, the first source advised Muhammad had, upon advice of legal counsel, tempered his personal statements and instructions to his ministers concerning the principles of his organization in order to avoid possible prosecution by the United States Government; however, he did not indicate any fundamental changes in the teachings of his organization.

APPENDIX

ALLEGED SHIPMENT OF WEAPONS TO UNITED STATES
ABOARD SHIPS FLYING LIBERIAN (NIGERIAN) FLAG

On July 10, 1963, a third source advised Muhammad had early in July, 1958, decided to de-emphasize the religious aspects of the teachings of Islam and to stress the economic benefits to be derived by those Negroes who joined the NOI. This policy change, according to Muhammad, would help him acquire additional followers and create more interest in his programs.

By memorandum dated 4/8/64, information was set forth pertaining to an interview of Lieutenant General Arthur G. TELEPHONIC THREATS CONCERNING
U. S. SENATOR BARRY GOLDWATER
AND LT. GENERAL ARTHUR G.
TRUDEAU, U. S. ARMY (RET.)
AT PITTSBURGH, PA., 8/1/64

Lt. General Arthur G. Trudeau, U. S. Army (Ret.) and President of Gulf Research and Development Corporation, Harmarville, Pa., advised on August 4, 1964, that he desired to furnish information which his wife had telephonically received and which he believed constituted a potential threat to the life of U. S. Senator Barry Goldwater and himself.

General Trudeau related that he had been on a business trip to the West Coast of the United States during the period September 25, 1963, through August 2, 1964; that during this trip he attended a social function held at Bohemian Grove, Calif., which function was also attended by U. S. Senator Barry Goldwater. General Trudeau stated that upon departing this function on August 1, 1964, and prior to emplaning for Pittsburgh, Pa., he telephonically contacted his wife at their residence in Pittsburgh, Pa.; that Mrs. Trudeau at this time informed him that she had received two telephone calls from an unidentified male with a cultured voice which calls appeared to be of a local nature; that the caller stated, "We know where your husband is and we are going to get him and Barry Goldwater if it is the last thing we do." General Trudeau stated the caller had immediately hung up the phone after this comment and at approximately ten to fifteen minutes subsequent again called Mrs. Trudeau and repeated the original message without further comment. Mrs. Trudeau had informed her husband that the voice of both callers appeared to be the same.

TELEPHONIC THREATS CONCERNING
U. S. SENATOR BARRY GOLDWATER
AND LT. GENERAL ARTHUR G.
TRUDEAU, U. S. ARMY (RET.)
AT PITTSBURGH, PA., 8/1/64

General Trudeau stated that upon his return to Pittsburgh, Pa., on the evening of August 2, 1964, he had confirmed the information which his wife had previously furnished to him and that he immediately notified the local authorities of the calls which his wife had received.

General Trudeau stated that his wife had informed him that she did not recognize the voice of the caller and that neither he nor his wife could furnish any logical suspects as to who the caller could have been.

General Trudeau advised that the matter was being brought to the attention of the Federal authorities in view of the fact that U. S. Senator Barry Goldwater's name was contained in the alleged threat.

General Trudeau concluded that he anticipated being in contact with a Mr. Hess associated with the staff of U. S. Senator Barry Goldwater within the next few days and that he undoubtedly would bring this matter to Mr. Hess's attention as a matter of information.
