SENATE

Pages S14079-S14080. Senator Ernest F. Hollings (D-South Carolina) paid tribute to Mr. Thomas J. Scott, chief clerk of the Senate Appropriations Committee. He stated, "Without his tireless efforts and gentlemanly demeanor, the quality of our committee's work over the years would be measurably lower and the pleasure of doing the work markedly diminished. He is soon to retire, and we are sorry to see him go. - - - Tom Scott has worked on Capitol Hill since 1943, when Senator Kenneth McKellar, then acting chairman of the Committee on Appropriations, requested the Federal Bureau of Investigation to supply one of its 'best men' to assist in a committee project. The Director of the FBI, te late, distinguished J. Edgar Hoover, responded by loaning the committee one of his brightest agents and most promising administrators, Tom Scott. The new consultant quickly made his mark on the Hill. He liked his work, the committee was impressed with him, and in 1945 he resigned a promising career in the FBI in favor of permanent work with the Appropriations Committee." (Thomas J. Scott was employed with the Bureau from December 10, 1934, until he resigned July 31, 1945.)

Pages S14083-S14089. Senator Alan Cranston (D-California) introduced for himself and several other Senators a bill (S. 2200) to govern the disclosure of certain financial information by financial institutions to governmental agencies, to protect the constitutional rights of citizens of the United States, and to prevent unwarranted invasion of privacy by prescribing procedures and standards governing disclosure of such information. The text of the bill is set forth in the Record. Senator John V. Tunney (D-California), a cosponsor of this legislation, stated, "Few Americans are aware that their financial records are open to indiscriminate examinations. They expect, and financial institutions also profess, that individual financial records are confidential. Yet a Government attorney, during arguments on the bank secrecy bill lawsuits, flatly declared that, in the Government's view, an individual has no right of privacy in his financial records. I think most Americans would be shocked to know of this callous and irresponsible position taken by its Government." He made reference

Memorandum to The Director
Re: The Congressional Record

SENATE - continued

to hearings held last year by the Banking, Housing and Urban Affairs Committee on legislation he introduced to amend the Bank Secrecy Act. He continued, "We learned in the hearings - - - just how fragile are an individual's rights in this regard. - - - We also learned of some of the dimensions of abuses. A young man who lives in the suburbs of San Francisco, happened to espouse unpopular causes, discovered that the FBI had examined all his bank records with the assistance of his bank. An actress associated with points of view opposed to this administration, had a thick FBI dossier which contained voluminous detail about her financial records. In neither case was a legal subpoena obtained, nor was any criminal activity alleged or charged by the FBI."

Page S14158. The Senate received the following Executive nomination: Leonard I. Garth, of New Jersey, to be a U. S. circuit judge, third circuit.

Adjournment: Until Friday, July 20, 1973, at 9 a.m.

HOUSE

Pages H6381-H6383. Congressman Robert F. Drinan (D-Massachusetts) stated, "I would like to share with my colleagues the testimony I intend to deliver before the U. S. Senate Committee on Armed Services on Friday, July 20, 1973 at 10 a.m. in opposition to the appointment of Mr. William E. Colby as the Director of the Central Intelligence Agency." This information is set forth in the Record. Mr. Drinan pointed out in this material "I object to Mr. Colby's confirmation because in the testimony on July 2 he made no firm commitment that the CIA under his direction would not become involved in another operation such as the CIA conducted in Laos. - - - Mr. Colby is also less than clear or satisfactory when he states that he would not preclude the CIA from assisting other Federal agencies even though the CIA should restrict all of its activities to foreign intelligence operations. - - - Similarly Mr. Colby approves of a secret FBI-CIA arrangement by which both of these agencies agree to help each other. Mr. Chairman, as a member of the House Judiciary Committee with direct oversight of the Department of Justice and the FBI I feel that I have a right to see that document and to question those who wrote it and those who operate by it. - - - I feel strongly that the Congress of the United States should review the agreement between the CIA and the FBI which, Mr. Colby tells us, was 'drawn up some years ago.'"

Pages H6405-H6409. Congressman Richard H. Ichord (D-Missouri) placed in the Record a transcript of a recent program presented by the National Broadcasting Company (NBC) on the activities of the Communist Party, U.S.A. (CPUSA). He stated, "This is the first time in recent years the media have placed the spotlight on the activities of the

Memorandum to The Director
Re: The Congressional Record

HOUSE - continued

Communist Party. - - - - Perhaps the most significant revelation in the television program was the statement of Communist Party national leader, General Secretary Gus Hall, as to whether the Communist Party anticipates using violence in connection with its coming into power in the United States. Although the Communist Party in recent years has steadfastly maintained an official position that it will come into power through nonviolent means, Gus Hall, when asked by NBC commentator Frank McGee if there is a strong possibility that a Communist takeover would be violent, answered: 'I think so. I think there's strong possibilities that there will be violence. We do not rule out non-violence, - - - -.' It would be difficult to single out any period since the Communist Party was organized in which the optimism of the party has surpassed that of the present time. Gus Hall has declared that the party is experiencing its greatest upsurge. - - - - It means that those who choose to downgrade the internal threat of the Communist Party are sadly underestimating the zeal and dedication of party leaders." During this program, reference was made concerning two undercover agents, Charles Fitzpatrick and John Lautner. It was pointed out that "Publicly, the Party claims a membership of 15,000, a figure which the F.B.I. also cites. (Comment by Mr. Ichord: This membership figure is a highly inflated one. Party leaders have admitted that there have been no registrations conducted of Party membership in the past fifteen years and that they really don't know what the membership is at present.)" Reference is made to the files maintained by the House Internal Security Committee. It states, "Each file is keyed to an index card in one of two enormous power-operated rotating drum files. More than 20 executive offices use the cards as reference. Committee staff members said the F.B.I. and the Civil Service Commission keep full-time representatives there. People seeking federal jobs are among those checked." (Per the Intelligence Division, Charles Fitzpatrick and John Lautner were utilized as informants.)

Adjournment: Until Friday, July 20, 1973, at 12 noon.

D. W. Bowers memorandum to the Director, dated 7/20/73, summarizing the Congressional Record 7/19/73, contained a paragraph relating remarks of Congressman Robert F. Drinan (D-Mass.) concerning testimony he intended to deliver before the Senate Armed Forces Committee opposing appointment of William E. Colby as Director of CIA.

Drinan said that Colby approves of a secret FBI-CIA arrangement by which both agencies agree to help each other. Drinan declared that as a member of the House Judiciary Committee with direct oversight of the Department of Justice and the FBI (sic) he felt that he has the right to see that document and to question those who wrote it and those who operate by it; that the Congress should review the agreement between the CIA and FBI which was drawn up some years ago.

The Director indicated that he would like to see any such document as referred to by Drinan.

SUBJECT: CENTRAL INTELLIGENCE AGENCY (CIA)
REQUEST FOR BUREAU SPEAKER, 9/24/73

(S) [Redacted]
 On 8/21/73 [Redacted] telephonically inquired if Mr. William O. Cregar, Section Chief, CI-2 Section, Intelligence Division, and the Bureau's alternate member on the U. S. Intelligence Board (USIB), could speak to a group of approximately 30 CIA intelligence officers attending [Redacted] at CIA Headquarters on 9/24/73.

The lecture is scheduled for 1 hour and 15 minutes. It would be restricted to a presentation of the structure of the FBI and its jurisdiction in the field of internal security, as well as the FBI's role on the USIB and its relationship with the intelligence community. Similar lectures have been handled in the past by Section Chief Cregar. They have been well received and have been found very useful in orienting CIA personnel to FBI responsibilities. A question and answer period following the lecture has in the past provided those in attendance a better appreciation of the role the Bureau plays in the intelligence community.

ACTION: If approved Mr. Cregar will handle this lecture and so advise [Redacted] telephonically.

I then said that it had been rather difficult for us to thereafter understand the role of CIA inasmuch as they were so secretive, aloof, and considered us more of the beer drinking set while they set themselves up as the tea sipping group. I then stated and very truthfully that I have as yet not met a CIA agent. As a matter of fact, as far as I know, Mr. Colby is the first person I have met in this organization who is of any stature in the organization. I told him I felt that the Bureau would be very receptive to a closer coordination between us but that in this coordination, we wanted to preserve our position of being an expert group and that statistics as related to me indicated that we had a position of preeminence and were unparalleled insofar as our production of informants and valuable sources. I thereafter said I did not want to engage in any arrangement nor negotiation away any of that capability, nor to destroy by any degree the spirit which brings about these accomplishments. Mr. Colby did not acquiesce nor did he, however, voice any disagreement.

I did say, however, in response to a query made by Mr. Richardson that as good citizens of this country, we feel the good of the nation at large transcends any other consideration. Keeping this in mind, I told him and the assembly that we were willing to work with the CIA [redacted]

[redacted]

It was thereupon agreed that we would get together and that our communications would no longer be spotty or even nonexistent, but that we would at the executive level have meetings and discuss our mutual problems in an atmosphere of conciliation rather than animosity.

(S) [redacted]

(S) [redacted]

[redacted] I feel further that he probably felt that through the presence of Attorney General Richardson and Mr. Ruckelshaus, he could get some support for such a stance. This support did not materialize and although I do not feel he was in a position of rout, nonetheless it appeared to me that he was somewhat set aback in view of his failure to accomplish what may have been his mission.

I do not by any means want to convey the idea that I thought Mr. Colby was devious nor trying to convince the group against their will to do something which we did not want to do. I think, rather, that he felt that his need was so great that we should recognize it and accede by virtue of the preponderance of the evidence of their need. It appears to me, however, that he did accomplish

a great deal as a result of his open attitude and we can get along without too much friction if we proceed as outlined above.

Based on this meeting, I want to be sure that in any overtures hereafter made in continuing our cooperative functions that we do engage in such overtures and do everything we can again because anything which inures to the benefit of the country at large should be our proper guideline.

I would be happy to discuss this further and if there be any information which is learned from comments made after the meeting by members of CIA as to the reaction to the meeting, this, particularly, I would want to hear.

Very truly yours,

SUBJECT: TECHNICAL LIAISON
CENTRAL INTELLIGENCE AGENCY (CIA)
Laboratory Matter

(S) At the Executives Conference breakfast 10/10/73 the Director advised of a recent conference with the Director of CIA wherein Mr. Kelley was invited to come over to CIA [redacted]

The purpose of this memorandum is to confirm the existence of liaison on a continuing basis at a technical working level between the FBI Laboratory and its counterpart in CIA and to recommend that, if the Director and the Intelligence Division concur, Mr. Colby's invitation to visit CIA be accepted by the Director.

b1
b3

As you indicated to the Director at breakfast, [redacted]

[redacted] We have no reason to believe that these cooperative efforts are other than wholehearted complete efforts, openly entered into, with the only motive being that of a genuine effort to safeguard the security of our country.

With regard to the CIA proposed conference involving Mr. Kelley, there appears to be substantial benefit to be derived therefrom, since such a conference, we feel, would be taken as a sign by CIA that we are indeed serious about fully cooperating in matters of mutual interest. The Director's presence under these circumstances would lend much weight in further establishing our cooperative stance. Just as we have need for further cementing relations with local law enforcement, there appears to be a need to further cement relations in this area.

RECOMMENDATION:

That this memorandum be referred to the Intelligence Division for comment.

 On 10/18/73 [Redacted] Liaison Officer, CIA, telephonically inquired if Mr. William O. Cregar, Section Chief, CI-2 Section, Intelligence Division, and the Bureau's alternate member on the U. S. Intelligence Board (USIB), could speak to a group of approximately 25 CIA intelligence officers attending [Redacted] at CIA Headquarters on the afternoon of 11/27/73.

The lecture is scheduled for 1 hour and 15 minutes. It would be restricted to a presentation of the structure of the FBI and its jurisdiction in the field of internal security, as well as the FBI's role on the USIB and its relationship with the intelligence community. Similar lectures have been handled in the past by Section Chief Cregar. They have been well received and have been found very useful in orienting CIA personnel to FBI responsibilities. A question and answer period following the lecture has in the past provided those in attendance a better appreciation of the role the Bureau plays in the intelligence community.

SUBJECT: RELATIONS WITH CIA

Reference is made to the Director's memorandum of 10/4/73 detailing his meeting with the Attorney General, the Deputy Attorney General and Mr. William Colby, Director of CIA. The Director noted that he would like to be informed of any comments by personnel of the CIA as to their reaction to the meeting.

On 10/11/73 Mr. James Angleton, CIA's Chief of Counter-intelligence Operations, offered the comment to Section Chief W.O. Cregar that the meeting between Mr. Colby and Mr. Kelley went off very well, although by Angleton's evaluation nothing substantive was accomplished and a considerable number of meetings between the staffs of Mr. Kelley and Mr. Colby, as well as meetings between the Director and Mr. Colby, will be required.

b2

Angleton stated that Mr. Colby believes both he and Mr. Kelley must have a complete understanding of the way their respective organizations function

Additionally, Colby is insistent that both organizations work closely together and he has assured the President that such will be accomplished. Angleton feels sure that Colby, in his role as the President's Advisor on Foreign Intelligence Matters, will work closely with the Bureau and will do nothing that affects the Bureau without having a complete understanding with Mr. Kelley.

On 10/12/73 [REDACTED]

[REDACTED] advised Inspector A.J. Decker, Jr., and Section Chief W.A. Branigan that Mr. Colby indicated he was pleased with his meeting with the Director. According to [REDACTED] Mr. Colby mentioned a joint task force to Mr. Kelley. It was Mr. Colby's impression that the Director interpreted this reference as pertaining to operational matters when actually Mr. Colby intended the task force reference to relate to a broader liaison relationship between the two organizations. According to Nelson, Mr. Colby's desire is to broaden the already existing liaison relationship to include both policy and operational segments of the Bureau and CIA.

b3

[REDACTED] indicated that at one point during the meeting Mr. Kelley mentioned that he had never met a CIA agent. In this regard, Mr. Colby extended an invitation for Mr. Kelley and the Associate Director and other FBI personnel to visit CIA for a general briefing on the operations of the Agency and to meet and have lunch with some of Mr. Colby's staff, including his Deputy Directors, Mr. James Angleton and [REDACTED]

I have determined that 11/6/73 might be an appropriate date since neither Mr. Kelley nor Mr. Colby have prior commitments on that day. If it is agreeable, I would welcome the opportunity to accompany the Director and Mr. Callahan to this meeting. It would also be desirable that Mr. Harold Bassett from the Associate Director's Office; Assistant Director Briggs White; Inspector A.J. Decker, Jr.; Section Chief W.A. Branigan and [REDACTED] our liaison representative with CIA, be included in this meeting.

Memorandum to Mr. N.P. Callahan
RE: RELATIONS WITH CIA

According to [redacted] Mr. Colby desires to use the luncheon as a vehicle for briefing the Director and his staff on the organization and operations of CIA. No substantive discussions are anticipated at this meeting. However, as a preliminary step to more substantive discussions, arrangements have been made for some Intelligence Division personnel and me to meet with [redacted] and his staff on 10/19/73. At this meeting we hope to develop an agenda [redacted]

b3

[redacted]

[redacted]

Following discussions between [redacted] our respective personnel and myself, we will then be in a position to provide Mr. Kelley with the necessary background information and positions he should take in future meetings with Mr. Colby.

ACTION:

It is requested that the Director indicate whether he can meet with the Director of CIA and his staff for lunch on 11/6/73, at which time he and other personnel of the Bureau will be briefed on the operations of that Agency.

SUBJECT: ADMIRAL GEORGE ANDERSON, Retired
CHAIRMAN, PRESIDENT'S FOREIGN INTELLIGENCE
ADVISORY BOARD (PFIAB)

Admiral Anderson and his assistant, [redacted]
[redacted] PFIAB, met with Director Kelley on 11-26-73 in the Director's
Office.

CTH

R. Higgins

b7C

Admiral Anderson explained to Mr. Kelley the make-up of PFIAB highlighting the fact that such persons as Governor Nelson Rockefeller, former Governor John Connally, and former Senator Clare Booth Luce, among other prominent people, were members of this committee. He explained that in May of 1972, the President had issued a very carefully guarded directive instructing PFIAB to conduct an intelligence community-wide study of intelligence gathering techniques and resources for the express purpose of ascertaining the competence of our Government in the human intelligence area.

[redacted]

b1

I had previously explained to Mr. Kelley the full details regarding this concept and also the fact that the approach was quite reasonable since the development of human intelligence resources in this country compared with the same development of resources overseas could be a flourishing business.

Admiral Anderson also explained to Mr. Kelley that the Board meets every other month and that the last meeting was on October 4th, at which time the Board discussed the recommendations of its 7 months' survey with the President. At that time the President in discussing the FBI phase of the study instructed Anderson to discuss this matter first with the then Attorney General Richardson and request him to convey through channels the results of the study to the Director of the FBI. Anderson stated that since Mr. Richardson is no longer Attorney General and since the Attorney General designate may take some time to confirm, he had decided to furnish a copy of the Board's recommendations directly to the FBI. (Incidentally, he requested and received

Re: Admiral George Anderson ...

assurances of the Director that no copies of this study would be made.)

I explained to Admiral Anderson that the FBI had already started implementation of several of the recommendations made by the Board in its study and particularly in the training area. I also pointed out to him that recommendations regarding the broadening of the FBI authority, particularly in the positive intelligence collection area, would have to be studied very carefully by us following which it would be necessary to confer with Admiral Anderson prior to implementation of the recommendations. Critical to this topic is the fact that we must make absolutely certain that we are on sound ground from an authoritative standpoint. I had previously explained to Admiral Anderson that in today's world authority to conduct investigations is a factor that the FBI must pay very careful attention to since we are, and have been for some time, challenged on these points and this whole area is of high-level concern in many places in Congress. I pointed out that in our previous discussion I had outlined to Admiral Anderson the three basic ways in which the FBI establishes authority to conduct investigations; that is, legislative enactments, Presidential proclamations and Executive Orders, and through Departmental Orders issued by the Attorney General. In today's world it would appear that the most feasible of these three may be Departmental Order, although it appears to me that there is latent potential for legislative enactments since in the recent past both Senators Robert Byrd of West Virginia and William Proxmire of Wisconsin have been discussing the necessity for nailing down FBI authority in the conducting of internal security investigations. This latter potential should be explored by us.

I also explained to Admiral Anderson that if the time arrives where our authority is broadened into the collection of positive intelligence in this country that it will be necessary for us to relate this requirement to additional dollars in terms of manpower which will be required in order to fulfill the requirement. Admiral Anderson acknowledged this since we had previously discussed this very point and stated that the Board and the President realize that it will be necessary to make some arrangements along the lines suggested. He said that it is not the recommendation of the Board or the President that in the overall picture the Government spend more money for intelligence collection efforts but that they had discussed the idea of reallocating present funds devoted to intelligence collection from one agency to the other. By this I infer that they have in mind something along the lines of diverting funds either from CIA or the Defense Department over to the FBI so that we can move on this higher priority type of work. I want to point out at this juncture, however,

~~SECRET~~

~~SECRET~~

Memorandum to Mr. Callahan
Re: Admiral George Anderson ...

that we have to explore with Anderson just what he means about using the resources of other agencies to accomplish positive intelligence collection since we do not want to get into a situation where people from other agencies are doing our work or that cast-off employees are reassigned to us with the idea that they can be used in our efforts to achieve collection requirements.

Director Kelley outlined for Admiral Anderson the substantial progress which has been made in the perfection of liaison, particularly with the Central Intelligence Agency, since Mr. Kelley has been Director. He told Admiral Anderson of the two meetings and discussions which he had had with Bill Colby of the CIA and the fact that there was a complete meeting of the minds as to the direction in which both agencies are going, based on very close cooperation. Mr. Kelley also told Admiral Anderson that he is aware of the vital importance of the FBI's efforts in the collection of foreign intelligence information and that the successful future of this country is dependent upon the FBI's doing the best possible job in this field.

Admiral Anderson obviously was quite impressed with the fact that the liaison problem had been resolved with the Central Intelligence Agency since I am personally aware that for one reason or another this topic has been "bugging" him, the PFIAB, and the President for quite some time. He commented to me after the meeting with the Director that he was quite satisfied that this program was going in the right direction and that the Bureau under Mr. Kelley would continue to develop the necessary requirements for the overall program in the shortest possible time. I told him that we were not magic at the FBI and that we would need considerable assistance from the Board in some of these areas and he assured me, as he had Mr. Kelley previously, that the Board would assist the Bureau in every possible way.

As soon as the copy of the study is furnished to me we will prepare an analysis of the study, setting out the details of what has been accomplished thus far, what needs to be accomplished, and the areas in which we will have to have continued discussions with Anderson and the PFIAB.

ACTION:

The above for information. Admiral Anderson mentioned during his visit that he and the Board would like very much to meet with Mr. Kelley and Mr. Kelley agreed that this would be desirable. The Intelligence Division will follow this carefully with Admiral Anderson and make the appropriate recommendations when this can be worked out.

Individuals preparing teletypes for dissemination to CIA should make certain that no sensitive Bureau source material is contained in the body of the teletype. If material of this type exists, it should be set forth under the "Administrative" portion of the teletype together with documentation of the source involved. Supervisory Special Agents at FBIHQ will then prepare separate communication for transmittal to CIA in order to provide for compartmentation existing at CIA for handling of such material.

Contents of this communication and enclosures may be duplicated to facilitate handling by recipients; however, strict accountability must be maintained since subject matter discussed is entitled to classification of "Secret."

Dear Mr. Colby:

We have just completed a most successful training school for our field Special Agents handling terrorist matters. Since this is a very specialized area and a majority of those in attendance have supervisory responsibilities, we endeavored to find experts from other agencies and intelligence services who could provide meaningful information concerning handling of these serious matters.

(S) We were fortunate in having [redacted] from your Agency address this group. His presentation was superior and those in attendance attested to this by insisting that [redacted] continue his presentation past the lecture period originally allotted him. Please be assured that [redacted] contribution was a major factor in the overall success of our program.

TO : Mr. W. R. Wannall

DATE: 1/21/74

FROM : W. O. Cregar

SUBJECT: CENTRAL INTELLIGENCE AGENCY (CIA)
REQUEST FOR BUREAU SPEAKER

Wannall

(S)
On 1/21/74 [redacted] Liaison Officer, CIA, telephonically inquired if Mr. William O. Cregar, Section Chief, CI-2 Section, Intelligence Division, and the Bureau's alternate member on the U. S. Intelligence Board (USIB), could speak to a group of approximately 30 CIA intelligence officers attending CIA's [redacted] on the morning of 2/14/74 between the hours of 11:00 and 12:00.

b1
b3

The lecture would be restricted to a presentation of the structure of the Bureau, its jurisdiction in the field of internal security, as well as the FBI's role on USIB. Similar lectures have been handled in the past by Section Chief Cregar, the last being on 11/27/73. CIA has found them to be very useful in orienting CIA personnel to FBI responsibilities and has advised such a presentation by the Bureau representative contributed much to the success of its Course. A question and answer period following the lecture has in the past provided those in attendance a better appreciation of the role the Bureau plays in the intelligence community and has clarified some misconceptions as to what role the Bureau plays in that area of its jurisdiction.

ACTION:

If approved, Mr. Cregar will handle this lecture and so advise [redacted] telephonically.

SUBJECT: NATIONAL CAUCUS OF LABOR COMMITTEES (NCLC)
INTERNAL SECURITY

PURPOSE:

To advise of the receipt of a copy of a memorandum for "the files" from [Redacted] Assistant to the Secretary of Commerce, outlining a meeting between him and two representatives of NCLC concerning the financial difficulties of the Franklin National Bank. Also received were a one page flier predicting a credit collapse and four copies of the NCLC newspaper, "New Solidarity." All of the above are attached.

BACKGROUND:

MEMBER OF SUBJECT ORGANIZATION

In 1/74, [Redacted] telephonically contacted me requesting background information concerning NCLC as one [Redacted] an NCLC representative, had sought an appointment with Secretary Dent, Commerce Department, concerning alleged evidence regarding the Watergate investigation. [Redacted] was referred to a "New York Times" article of 1/20/74 detailing NCLC's activities. [Redacted] advised he would meet with [Redacted] and other NCLC representatives and furnish the results to the FBI. On 1/31/74, [Redacted] met with [Redacted] and [Redacted] of NCLC and subsequently furnished the results of the meeting to FBIHQ.

On 5/20/74, I received, by mail, a copy of a memorandum for "the files" from [Redacted] outlining a meeting he had on 5/17/74 with NCLC representatives [Redacted] and [Redacted] wherein the latter two individuals furnished NOT RECORDED information reputed to prove that the near bankruptcy of the Franklin National Bank is a result of a foreign exchange deal by David Rockefeller. They also suggested there is a CIA master plan involving fertilizer, grain and trucks which will create panic by the American people and lead to a military takeover of the economy. They advised they hoped for an immediate investigation of the Rockefeller organization.

creates mass panic by the American people due to insufficient food supplies. At the appropriate moment the military will take over our floundering economy and become heroes in the eyes of the American people.

The impeachment proceedings are seen as part of the master plan designed to keep our governmental and economic machinery in either chaos or limbo creating the necessary vacuum for the military takeover. The end result of our collapsed economy will then play into the hands of Dave Rockefeller leaving his organization with a larger percentage of the spoils.

I asked them how I could help since none of this soap opera falls within the jurisdictional boundaries of the Department of Commerce. They indicated that they were aware of that but hoped that I would make other government people aware of this impending disaster with the hope that an immediate investigation would be launched into the Rockefeller organization.

On 3/18/74 [redacted] Liaison Officer, CIA, telephonically inquired if Mr. William O. Cregar, Section Chief, CI-2 Section, Intelligence Division, and the Bureau's alternate member on the U.S. Intelligence Board (USIB), could speak to approximately 35 CIA intelligence officers attending [redacted] on 4/8/74 between the hours of 3-4:30 p.m.

The lecture would be restricted to a presentation of the structure of the Bureau and its jurisdiction in the field of internal security, as well as the Bureau's role on the USIB. Section Chief Cregar has handled these presentations in the past, the last being 2/14/74. Such a presentation has been useful in that it orients CIA personnel to FBI responsibilities in the field of internal security, as well as the Bureau's role in the intelligence community. A question-and-answer period will follow the lecture, which has proved to also be beneficial in that it clarifies for CIA personnel some misconceptions as to what responsibilities the Bureau has in the field of foreign intelligence.

ACTION:

INTERNAL SECURITY

PURPOSE:

To advise of NCLC representatives' contact with Department of Commerce representative and recommended dissemination of pertinent information to CIA.

BACKGROUND:

My memorandum dated 1/30/74 (attached) advised of a contact by [Redacted] Special Assistant, Secretary of Commerce, requesting information concerning captioned group. [Redacted] stated representatives of this group wanted to talk to the Secretary to furnish information helpful to the President in the Watergate affair. [Redacted] was furnished public source information and he stated he would advise the Bureau of the results of the contact by NCLC representatives.

CURRENT DEVELOPMENTS:

[Redacted] has furnished a copy of his report (attached) to the Secretary concerning his interview of NCLC representatives. The information furnished is vague and nonspecific. Further, it shows an obsession with the idea of CIA responsibility for much of the Nation's current foreign and domestic problems, in the same vein as quoted in a recent newspaper article concerning the group.

It is believed, however, that the obsession with CIA coupled with past violent and irrational behavior by NCLC members could lead to their taking some form of violent action against CIA. For that reason, it is believed warranted to furnish CIA a copy of [Redacted] letter for their information and whatever action they may wish to take.

RECOMMENDATION:

If you approve, a copy of the attached letter will be furnished CIA.

PRESIDENTIAL CAMPAIGN ACTIVITIES

At 3:10 p.m. on March 8, 1974, the Director called me and requested that I meet with Deputy Attorney General Laurence Silberman and Associate Deputy Attorney General Gary Baise at 3:30 p.m. on the afternoon of March 8, 1974. The subjects for discussion would be the request for review of FBI files by [REDACTED]

[REDACTED] of the Senate Select Committee, and [REDACTED]

In view of the interest of the General Investigative Division in the request to review files in the Watergate matter, I advised Assistant Director Gebhardt of the Director's instructions and I asked Mr. Richard Long, Section Chief of the Accounting and Fraud Section of that division, to accompany me to the meeting with the Deputy Attorney General.

We met with Deputy Attorney General Silberman, Gary Baise, William Hoiles, and [REDACTED] identified as a White House Fellow working in the office of the Deputy Attorney General.

Gary Baise mentioned a memorandum that had been prepared by the Criminal Division of the Department giving a status report concerning [REDACTED] and explained to the Deputy Attorney General that the matter was being handled through FBI channels by direct contact with the United States Attorney and by conferences with [REDACTED]. Memorandum to Mr. E. S. Miller
Re: REQUEST FOR REVIEW OF FBI FILES, etc.

Deputy Attorney General said that he appreciated the efforts of the FBI in acting directly in this matter, but that we should get more service from the United States Attorney's Office and the Department.

The conference then turned to the request from [redacted] to review certain materials in FBI files. The Deputy Attorney General said that he would like to develop a more direct relationship with the FBI between his office and appropriate representatives of the Bureau in regard to sensitive matters such as requests from Senate Committees. He noted that the Director's letter to the Attorney General dated March 7, 1974, which stated our opposition to releasing the files presented a strong policy statement of the Bureau. He said that it would be helpful if such matters could be discussed telephonically prior to the submission of memoranda.

The request of [redacted] to review FBI materials was detailed for the Deputy Attorney General and in the discussion that followed, it was made clear that the FBI would resist efforts to expand the guidelines established by former Attorney General Kleindienst and Senator Ervin that only the ranking Majority and Minority members, the Majority and Minority counsel, and one Assistant Minority counsel would be permitted to review interview reports of individuals identified by a list previously submitted to the Committee. A point was made that the Deputy had indicated approval of [redacted] as one additional representative of the Committee and after some discussion we came to an understanding with the Deputy that if the Bureau would accept Madigan as one additional Committee representative, no additional staff personnel would be approved to review Bureau materials in regard to this matter.

b7C

The four major areas of the [redacted] request were:

1. All FBI file information concerning [redacted] particularly two FBI contacts with him [redacted] It was pointed out to the Deputy that [redacted] contacts related to information furnished by foreign intelligence services and in order to disclose that material it would be necessary to secure the prior approval of the originating agencies. The Deputy Attorney General indicated that he thought that such approval was necessary and obtaining such approval

could take as much as six weeks. Mr. Long indicated that he would review the material and determine whether such approval could be obtained.

2. A second request was for access to review a file contained in the Alexandria FBI Office [redacted]

(S) [redacted] It was pointed out to the Deputy that such a review would constitute a fishing expedition in our files and we would oppose granting such authority to any representative of the Committee. The Deputy agreed and it was determined that the Committee would be so advised. If the Committee pursues this matter and attempts to issue a subpoena, the subpoena would be resisted and the matter would be discussed with Senator Ervin personally.

3. The third request was for authority to review FBI Headquarters files in order to satisfy themselves whether there exists any other material [redacted]

(S) [redacted] that would be pertinent to the Committee's inquiry. This was resisted on the same grounds as we resisted the production of the file of the Alexandria Office, and the Deputy agreed on the same basis.

b1
b3

(S) [redacted]

In summary, the Deputy Attorney General's position was: first that [redacted] would be added as an individual authorized to review certain FBI material as a representative of the Senate Committee.

b7C

2. That the existing guidelines established by former Attorney General Kleindienst would be followed.

3. That as a special exception to those guidelines, if approval could be obtained from the foreign intelligence service source, certain information relating to [redacted] would be made available for review but not copying by [redacted]

b3

4. Access to Bureau files containing [redacted] [redacted] would not be permitted.

(S) [redacted]

b1
b3

The Deputy Attorney General instructed Gary Baise to telephonically advise [redacted] or another representative of the Committee on Monday, March 11, 1974, of the resolution of his request. The Deputy asked us to furnish the results of our review of the request to have access to [redacted] material to Mike Spector, telephone number 187-2001, on Monday, March 11, 1974, if possible, to assist in furnishing the Department's reply to the Committee. Mr. Long, of the General Investigative Division, will handle this matter.

b7C
b7D

OBSERVATIONS:

In connection with the [redacted] request, it appears to me that an effort was made to change the guidelines established by the Attorney General and the Majority Member of the Senate Committee without the approval of the present Attorney General or the Director of the FBI. Our conference with the Deputy Attorney General, his concern about this matter, and his expressed interest in having these matters resolved by direct contact with me, indicates that we are secure at least for the moment in that our established guidelines still exist and any change in that policy will be made only with the prior approval of the Deputy Attorney General and if necessary by conference with the Attorney General himself.
