INTELLIGENCE COMMUNITY LEGISLATIVE PROGRAM FOR THE FIRST SESSION OF THE 98TH CONGRESS.

b3

In addition to items already appearing in the current legislative program, the FBI recommends the following concerns be addressed:

1). The FBI recommends that 20 U.S.C. 1232, the Family Educational Rights and Privacy Act of 1974, be amended. This legislation, specifically 20 U.S.C. 1232 g, known as the Buckley Amendment, prohibits educational institutions or agencies from having a policy or practice of permitting the release of "education records" or personally identifiable information contained therein to anyone other than certain specifically named individuals or organizations without the consent of the student or his parent or unless in compliance with a judicial order or lawfully issued subpoena. Prior to a release pursuant to a judicial order or subpoena the parents or the student must be notified. Neither the FBI nor its agents are listed as individuals who can be provided the information without the appropriate consent, court order or subpoena. The penalty for violating this proscription is denial to the offending educational agency or institution of Federal funds.

MAIL ROOM

The Buckley Amendment and certain stringent practices exercised by educational institutions have negatively impacted on the FBI's foreign counterintelligence or terrorism investigations of foreign students representing certain hostile countries. Since the Buckley Amendment does not distinguish between U.S. and foreign students its protections are applied to all students. Therefore, "education records" of the foreign students whose investigations relate to foreign counterintelligence or terrorist matters are not available to the FBI unless the consent of the student or his parent is obtained or unless a court order or subpoena is obtained. These alternatives are normally unacceptable in a foreign counterintelligence or terrorist investigation. Although this restriction is not applicable to "directory information" (eg. the student's name, address, date and place of birth, major field of study, dates of attendance, recently attended educational institutions, etc.), educational institutions are not precluded from providing students broader protection for such "directory information".

The FBI recommends that the Buckley amendment be amended to specifically permit access to "education records" and "directory information" by the FBI for law enforcement or counterintelligence reasons. This amendment in combination with legislation giving the FBI subpoena powers (which the FBI has previously recommended), would sufficiently address this problem of accessing educational records.

2) The FBI also recommends permanent legislation with regard to the use of appropriated funds for undercover operations. The FBI is currently authorized on a year-to-year basis, via the DOJ Authorization Bill, to engage in certain otherwise prohibited activities in the course of undercover operations:

b2
b7E

It has unfortunately become common practice in Congress to allow a hiatus between DOJ authorization bills. These lapses constitute a significant threat to investigative operations because they remove the authority to use techniques which are often vital to the maintenance of an undercover operation. Even more compelling is the fact that a sudden change in investigative techniques in an undercover operation has the potential to seriously threaten the safety of our informants and personnel.

The FBI recommends permanent legislation which would provide permanent authority to use the above-described techniques for law enforcement and counterintelligence operations.

NOTE: This memorandum also reflects the input of the INTD as set forth in INTD addendum dated 7/30/83, to the Young to O'Malley memorandum dated 7/1/82. The concerns of the Buckley Amendment's impact on the FBI's foreign counterintelligence investigations of certain foreign students were raised in airtels from Buffalo and Albany to the Bureau dated 12/21/81 and 1/27/82, respectively and commented on in an airtel from the Director to SAC's Albany and Buffalo dated 4/13/82 and prepared by Legal Research Unit, Legal Counsel Division.

Subject: INTERAGENCY GROUP/COUNTERINTELLIGENCE TASKING:
REPORTING HOSTILE CONTACTS

In response to the tasking of the Interagency Group/Counterintelligence on September 23, 1982, for the FBI to assume the lead in preparation of an Executive Order that would require Executive branch departments and agencies to develop procedures for the reporting of contacts by foreign representatives, the attached draft has been prepared. It is anticipated that the recipients of this memorandum or their representatives will meet in early January to jointly prepare a final product for submission to the IG/CI in mid-January. Central Intelligence Agency, Departments of Defense and State, and the National Security Agency are receiving copies of this draft.

You will note that the attached draft attempts to establish minimum standards for the procedures but recognizes that where there are existing procedures the proposed Order should not require any change if the basic standards are met.

You will be advised once a meeting time is scheduled, and should you have any questions prior to our meeting, please contact James M. Sturgis, Jr., Special Assistant to the Assistant Director, Intelligence Division, telephone number [Redacted]

Honorable William J. Casey

NOTE:

By referenced letter, the DCI invited the FBI to participate in the preparation of the DCI's Annual Report to Congress by contributing a 1982 Agency Report. This is the second year that the FBI has participated. In addition to the FBI, other contributors include the Defense Intelligence Agency, the National Security Agency and State, as well as separate input from the Central Intelligence Agency and DCI. Content and format (which are left to the discretion of the contributing agency) of the 1982 FBI Agency Report is comparable to that presented in past years by other agencies, i.e., they have "discussed their responses to world events." In 1982 the Report also addresses some issues discussed in the 1981 FBI Report. Agency reports are due by January 1, 1983.

 10th & Pennsylvania Avenue, N.W.
 Washington, D.C. 20535

Dear Mr. Webster:

CIA

DC

The National Photographic Interpretation Center (NPIC) will be observing National Black History Month during February 1983. The FBI Choir is known throughout the Metropolitan Washington for its musical excellence. We, at NPIC would like to invite the FBI Choir to participate in our Black Awareness Week Program of events. The Choir would be asked to sing in the lobby of Building 213 on February 7, 1983 for thirty to forty-five minutes around 11:00 a.m. and return to the FBI building afterwards. We will provide bus transportation to and from Building 213 on the stated date.

b7C

We sincerely hope the FBI Choir will be able to take part in our celebration of Black History Month, for we truly feel the choir would be an asset and very instrumental in making our observance a success.

[Redacted] the NPIC Black History Month Observance Committee, is your contact and will provide you with any support you may need. [Redacted] can be reached on [Redacted]

(S) Dear [Redacted]

b3

Director Webster has referred [Redacted] letter of January 26, 1983 to me for response.

On behalf of the FBI Choir members, I would like to express appreciation for the favorable comments concerning the choir's musical excellence which has become known throughout the Metropolitan Washington area.

The majority of FBI Choir members are assigned to the Identification Division of which I am the Assistant Director. Due to the heavy workload of this division, I have found it necessary to limit the choir's appearances to official FBI functions conducted within the confines of the FBI Building. To accept your invitation would not be in accord with guidelines established when the choir was first formed, and would not be fair to the several other governmental agencies which in the past have extended invitations but had to be declined.

I regret I cannot accede to your request in this matter, but trust you will be able to find another suitable group for this observance.

Subject : DEFENSE ADVANCE COMMENTS ON CIA'S PROPOSAL, THE INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 1984

RECOMMENDATION: That INTD and CID provide the CAS with appropriate comments at the earliest practicable date inasmuch as the Department has requested comments as soon as possible. This matter is being coordinated by SA [redacted] CAS, extension [redacted] Room 7240.

Re: DEFENSE ADVANCE COMMENTS ON CIA'S PROPOSAL,
THE "INTELLIGENCE AUTHORIZATION ACT
FOR FISCAL YEAR 1984"

ADDENDUM: INTELLIGENCE DIVISION (INTD), 3/10/83, JMS:jls ^{JMS} ~~KS~~

Since the writing of referenced memorandum, a series of meetins have been held with OMB, CIA, FBI, DOJ and the military services. The FBI position was that absent some indication from the military as to the proposed scope of their intention to establish proprietaries in the United States, the FBI was unable to make any preliminary accessment on the potential effect on our coordination responsibilities. The military produced no examples of their proposed use of the statute until the final meeting with OMB in which they said their need was to establish proprietaries in the U.S. as backstopping for operations abroad.

Since the scope of this backstopping would appear to place only a minimal strain on our coordination or joint operation function with the military, it is acceptable. It was agreed at the meeting, however, that if the intelligence activity was to be conducted abroad, it would make the bill more politically attractive on the Hill to confirm the use of the statute to overseas activity where the likelihood of sweeping in large quantities of U.S. Persons is diminished.

The proposed statute was amended to confine the effect of the statute to "intelligence operations directed abroad". This would require the focus and affect of the military operation to be abroad, but would recognize that support activity may by necessity be in the United States.

CIA and the military supported this change as did DOJ. OMB took no position.

INTD requests OCPA to support this change.

Memorandum from R. S. Young to Mr. E. J. O'Malley
RE: THE INTELLIGENCE AUTHORIZATION ACT
FOR FISCAL YEAR 1984

ADDENDUM: CRIMINAL INVESTIGATIVE DIVISION; LCC:mdp; 1/11/83

The Criminal Investigative Division (CID) has reviewed Titles 4 and 7 of the attached draft bill of the Intelligence Authorization Act for Fiscal Year 1984. Title 4 provides criminal liability for unauthorized disclosure of classified information. Title 7 proposes amendments for the Foreign Intelligence Surveillance Act (FISA).

The CID concurs with and fully supports the proposed amendment contained in Title 4 of the draft bill which amends Title 18 of the U.S. Code (USC) to provide criminal penalties for willful unauthorized disclosure of classified information by Federal employees and others with authorized access, such as Government contractors. In the past, there has been a reluctance on the part of the Justice Department to prosecute those unauthorized disclosures inasmuch as the only vehicle for prosecution lay with the provisions of the Espionage Act. Further, the Justice Department was concerned that with certain narrow exceptions of atomic energy and communications and intelligence/cryptograph information, willful unauthorized disclosure of classified information were not specific offenses in and of themselves under existing Federal criminal statutes. Passage of this amendment will provide for the first time a clearly designed deterrent to those with authorized access who would make unauthorized disclosure of information to the news media for purposes of political or personal gain.

Title 7 of the draft bill proposes three amendments. The first would modify targeting standards pertaining to agents of foreign powers to permit electronic surveillance (elsur) of dual nationals who occupy senior positions in foreign governments or factions while simultaneously retaining U.S. citizenship. The second proposes changing the limit on elsurs that may be authorized without a court order in an emergency situation from 24 to 48 hours. The third amends FISA to allow dissemination of information gained from elsurs to individuals or law enforcement agencies with notice to the Attorney General for the purpose of protecting persons from the threat of death or serious bodily harm. CID again concurs with and supports these three proposed amendments. Extension of emergency surveillance period from 24 to 48 hours would provide additional time to accomplish the administrative steps necessary

Memorandum from R. S. Young to Mr. E. J. O'Malley
RE: THE INTELLIGENCE AUTHORIZATION ACT
FOR FISCAL YEAR 1984

ADDENDUM (Cont'd)

for submission of applications to the FISA Court, thereby decreasing the risk of having to terminate an elsur because of expiration of emergency authorization under the provisions of the Act. Under the present provisions of the FISA Act, it is technically unlawful to disseminate information gained from the elsur to unauthorized persons or agencies even in a life threatening situation. The amendment would assure that employees of the FBI could lawfully act to save lives in the above described situation.
