Confidential Informant T-1, of known reliability, advised that in January 1950 various members of the Mathematics Department at the University of Illinois addressed a letter to Professor J. R. KLINE of the American Mathematics Association, University of Pennsylvania. They presented a tentative program to provide aid to the Chinese mathematician HUA. HUA reportedly stated that he was obliged to aid a pro-Communist government for the good of the Chinese people. The program called for a tentative formation of a committee to collect books and periodicals for shipment to China. Said books were to be of American and Russian derivation and were to be made available to Chinese mathematicians and students. There is no information available in this office indicating that Professor KLINE took any positive action in conjunction with the aforementioned letter.
