The National Investigation Committee on Aerial Phenomena has corresponded with the Bureau since 1957, forwarding various material concerning flying saucers. No investigation of the organization has been conducted by the Bureau and, to date, no complaints have been received against the organization alleging violation of law over which this Bureau has jurisdiction.

The following items of literature have been forwarded to correspondent:

1. "Communist Target - Youth"
2. "One Nation's Response to Communism"
3. "God and Country or Communism?"

Dear Sirs,

I received this letter in the mail some time ago and was at a loss what to do with it. As there are so many subversive organizations around I do not want to give any information that may have a bad effect on our government. I am not a Communist by any means and have no desire to give information to them. I would like to know if this is a legal organization or what. Also the unidentified flying objects we saw I will be glad to give the information to your office if you want it but I don't think it could have any value now.

Yours truly

Mr. Sabie

Permit me to introduce myself. I am Orvil R. Hartle, chairman of Indiana Unit #2, NICAP. NICAP is the abbreviation for National Investigation Committee on Aerial Phenomena. This is a scientific investigative organization which has been established for several years. The purpose of this organization is to obtain factual information to be used in the cracking of censorship on the matter of UFO's (unidentified flying objects).

On March 20, 1961, I interviewed your brother Norman. Norman is a personal friend of one of the members of our organization, Mr. George Linnell, who assisted in the interview.

During the course of the interview, Norman volunteered information concerning a sighting (of a UFO) that you and he made in early November, 1928. At that time you were driving cattle near Milton, North Dakota.

Needless to say, Mr. Sabie, any additional information you might add to the report and testimony that Norman has already given would be greatly appreciated. The information that you give may be the link in solving the great UFO mystery.

Enclosed you will find an official NICAP report form, which we of Indiana Unit #2 would appreciate having you fill out for the national headquarters of NICAP. If you decide to fill out the form (and we sincerely hope that you do) will you please return it to me by return mail. I believe that the questions are self-explanatory. If you need aid in filling out the form, feel free to consult a near friend.
I took the liberty of asking Norm for your name and address. Also I asked him if he thought that you could add to the details of the aforementioned UFO sighting. He said that he was certain that you would be glad to comply with our request if you possibly could.

If at all possible, please fill out the enclosed form, and return it to me as soon as possible. At the present we are evaluating Norman's report, and we cannot conclude before hearing from you.

I might also add that your sighting of this UFO may prove a point which could affect not only our present generation, but also the generations to come. Please, sir, be as factual as possible in filling out this report. Any detail you may consider unimportant and inconsequential may be the very link which our national group is looking for. However, I realize that thirty-three years is a very long time to remember.

Thank you for your time and cooperation.

Sincerely yours,

REPORT ON UNIDENTIFIED FLYING OBJECT(S)

This form includes questions asked by the United States Air Force and by other Armed Forces' investigating agencies, and additional questions to which answers are needed for full evaluation by NICAP.

After all the information has been fully studied, the conclusion of our Evaluation Panel will be published by NICAP in its regularly issued magazine or in another publication. Please try to answer as many questions as possible. Should you need additional room, please use another sheet of paper. Please print or typewrite. Your assistance is of great value and is genuinely appreciated. Thank you.

Dear Mr. Sable:  

Your letter of April 17, 1961, with enclosures, has been received, and the interest which prompted you to write is appreciated.  

Although I would like to be of service in regard to your inquiry, information in FBI files must be maintained as confidential due to regulations of the Department of Justice. I regret that I am unable to answer your inquiry and hope you will not infer in this connection either that we do or that we do not have the specific data you requested.  

I am sending a copy of your letter and enclosures to the Director of Special Investigations, Department of the Air Force, Building Tempo E, 4th Street and Adams Drive, Southwest, Washington, D. C. The material which you forwarded with your communication is being returned, and enclosed is some information on the general subject of communism which may be of interest.

Clerical employee [redacted] of the New Orleans Division advised that he is interested in aerial phenomena and wants to become a member of captioned organization. This organization is directed by Major DONALD E. KEYHOE, U. S. Marine Corps (Retired), and is headquartered at 1536 Connecticut Avenue, N.W., Washington 6, D. C.

MC CALL stated that, to his knowledge, the objectives of this organization are to keep records of all sightings of unidentified flying objects and to make the information concerning them available to the public, as the organization feels that the U. S. Government is making an effort to suppress this type of information.

Indices of the New Orleans Division are negative concerning captioned organization. The files of this Office reflect that in early 1950 an article concerning a flying disc appeared in True Magazine, written by one DONALD KEYHOE, who is possibly identical with Major KEYHOE.

The Bureau is requested to advise this Office of any information in its files concerning captioned organization and whether or not there would be any objection to a clerical employee of the Bureau becoming an active member of same.

MISCELLANEOUS—INFORMATION CONCERNING  

Reurlet dated July 10, 1961, and captioned as above, requesting background data concerning the National Investigations Committee on Aerial Phenomena (NICAP) and inquiring whether there would be any objection if a Bureau employee became active in the NICAP.

The NICAP has not been investigated by the Bureau; however, a number of inquiries have been received concerning this organization during recent years. Information available to the Bureau reflects that the NICAP was formed in 1956. A form letter which the NICAP distributed in 1957 to solicit "associate memberships" described the NICAP as a privately-supported fact-finding body serving the national public interest. This form letter charged that "the Air Force has kept thousands of authentic UFO (Unidentified Flying Objects) reports from the public."

The NICAP reportedly has also referred critically to the Air Force in its official publication, "U. F. O. Investigator." The NICAP has been intensely interested in all matters relating to "flying saucers," interplanetary travel, and the like; and it has exhibited strong sensitivity to alleged attempts to suppress information concerning such matters.

Donald E. Keyhoe, Director of the NICAP, has been known to the Bureau since the 1950's. He has been a free-lance writer for national magazines, and a flamboyant style has characterized his articles. In the past, when he has written concerning topics of direct interest to the Bureau, we have found much of his material to be irresponsible.

A number of former United States military officers have been affiliated with the NICAP; and Keyhoe has openly attempted to capitalize upon their names and military titles. The Bureau has been most cautious in

handling correspondence from the NICAP to avoid any inference that we hold views, either favorable or unfavorable, to this organization.

As the above information regarding Donald Keyhoe and the NICAP reflects, the NICAP is not the type of organization, with which the Bureau's name should become connected--either through membership of FBI employees in the NICAP or by any other means.

Captioned individual wrote April 27th enclosing information concerning Dr. Frank E. Stranges who has implied he was associated with the FBI. Hall stated that in addition to the information he was providing, they would be glad to make other material in their files available to the FBI. A review of the enclosed material indicates that the allegations against Dr. Stranges pertain to a period in August and October, 1960. In October, 1960, the Seattle Office conducted an investigation concerning Dr. Stranges after information was received that he was implying that he was at that time or previously connected with the FBI. During the investigation no one was located who had actually heard Dr. Stranges make any such allegation although it was generally conceded that he had left a number of people with such an impression. Dr. Stranges is an evangelist. Based on his background, numerous addresses and organizations which he has had and the fact he claims to have talked to an individual from the planet Venus, it appears he may be also something of a confidence man.

The allegation submitted by Mr. Hall is of the same type developed by the Seattle Office, and there appears to be no actual violation of the Impersonation Statute.

We have had other correspondence with Richard Hall and Major Donald E. Keyhoe, Director of the National Investigations Committee on Aerial Phenomena. This organization was formed in 1956 as a privately-supported, fact-finding body to investigate unidentified flying objects. The organization claims that the Air Force has kept hundreds of authentic reports on this topic from the public. Keyhoe has been known to the Bureau since the 1930's. He has been a free lance writer and a flamboyant style has characterized his articles. Some of the material written of direct interest to the Bureau has been found to be irresponsible.

RECOMMENDATIONS:

1. That attached in-absence reply be sent to Mr. Hall.

It has come to our attention through various references in personal correspondence that the FBI has, to some extent, investigated one Dr. Frank E. Stranges.

Enclosed is a report prepared by this Committee on Dr. Stranges which may be of interest. The letters cited in our report, including two in which the writers state Dr. Stranges implied he was associated with the FBI (underlined in red), are available for inspection here.

We also have a thick file of letters from Dr. Stranges, or about him, which are not cited in the enclosed report. We would be glad to make this material available to the FBI and to furnish copies of any pertinent documents.

Dr. Strange who had appeared in Seattle, Washington. Several persons were
identified who had gained the impression that Dr. Strange was a former
lawyer for the FBI. However, after being questioned, each stated that
Dr. Strange made no actual statement that he had worked for the FBI but had
simply stated he was a former special investigator and continually referred to the FBI
in that capacity. Since Dr. Strange had made no actual allegation, the matter was
not carried further at that time.

Richard Hall, in a letter dated October 26th, furnished to the Bureau information that a former member of his organization has been accused by Mrs. Jean Coven, 170 Parkville Avenue, Brooklyn 30, New York, of swindling her out of thousands of dollars and stealing her car. Hall said Mrs. Coven informed his Committee that the matter has been turned over to the FBI. He said the purpose of his letter is to offer cooperation to the Bureau and to publicize Blair in their membership publication to assist in locating him.

Files fail to reflect any identifiable information concerning the alleged swindler, Lloyd Blair, formerly of 18 West 25th Street, New York 10, New York, or with Mrs. Jean Coven. Files reflect Hall has furnished information to the Bureau in the past, the last in April, 1962, to the effect that a Dr. Frank E. Stranges implied he was associated with the FBI. The complaint had previously been received by the Seattle Office in October, 1960, and an inquiry had been made resulting in the failure to substantiate the allegation. Dr. Stranges was an Evangelist who claimed he talked to an individual from the Planet Venus. Mr. Hall was furnished an In-Absence reply on this occasion. Dear Mr. Hoover,

I am a student at Mount Pleasant High School in Wilmington. I am concerned about Communism, especially in our schools. I have read many articles on Communism and Communist propaganda, and I have become very interested in it. I would appreciate any literature on Communism in American schools, and how to detect it.

I also have a question I would like answered. Do you think that the National Investigation Committee on Aerial Phenomenon (N.I.C.A.P.) is Communist inspired or influenced?

Thank you for your time and trouble,

Dear Mr. Fitzgerald:

Your letter postmarked November 26, 1982, has been received, and the thought prompting you to write is appreciated.

I am reassured when I read letters such as yours expressing an awareness of the problems menacing our country's future. Acknowledging the danger posed by the communist conspiracy is one great step toward protecting our national traditions.

While I would like to be of assistance to you in regard to the National Investigations Committee on Aerial Phenomena, the FBI is strictly an investigative agency of the Federal Government and neither makes evaluations nor draws conclusions as to the character or integrity of any organization, publication or individual. In addition, files of the FBI must be maintained confidential in accordance with the regulations of the Department of Justice. I regret I am unable to help you in this instance and hope you do not infer either that we do or do not have information in our files pertaining to this organization.

Enclosed is some material on the general topic of communism. Perhaps you will also wish to refer to my books, "Masters of Deceit" and "A Study of Communism." The former was written with the hope that it would help its readers gain an insight into the true nature of communist activities. The latter is a comprehensive study of the development and expansion of communism throughout the world. These books should be available at your local library.

Your letter of January 15th has been received.

With respect to your inquiries, information contained in the files of the FBI must be maintained as confidential in accordance with the regulations of the Department of Justice and is available for official use only. Further, the question of unidentified flying objects does not fall within the jurisdiction of this Bureau. If someone should bring data concerning these objects to our attention, either the individual or the information is referred to the Department of the Air Force, The Pentagon, Washington, D. C. 20330. Therefore, I trust you will understand why I am unable to be of help in this instance.

Sincerely yours,

E. Edgar Hoover
Director

NOTE: Correspondent is not identifiable in Bufiles. The National Investigations Committee on Aerial Phenomena (NICAP) has not been investigated by the Bureau; however, a number of inquiries have been received concerning this organization during recent years. Information available to the Bureau reflects that the NICAP was founded in 1956. This group reportedly has criticized the Air Force for keeping information concerning unidentified flying objects from the public. This group has corresponded with the Bureau since 1957, and its Director, Donald E. Keyhoe, has been known to the Bureau since the 1930's. He has been a free lance writer for National Magazines and a flamboyant style has characterized his articles. In the past, when he has written concerning topics of direct interest to the Bureau, we have found much of his material to be of interest, and it is with this in mind that we respond to your letter.
