had come into the California Commerce Bank at San Jose as a customer about March or April, 1986. At that time he wished to borrow approximately \$250,000 through a line of credit. He completed a loan application and attached to it tax returns, financial statement and other documents required by the bank. These items were reviewed by who recommended approval of the line of credit and passed it on to his superiors. He believes that at least two other bank officials also passed on the line of credit because of its size before the loan was actually funded.	ь6 ь7С
had indicated in his application that the California Commerce Bank loan was to be used to payoff an existing loan at the Crocker National Bank (CNB). Additionally, agreed that he would bring in additional banking business from his own business entities and through referrals to the bank. recalled that never did bring in or generate any additional business for California Commerce Bank.	ь6 ь70
recalled thatimmediately drew down the entire line of credit but was very slow in making interest payments as required. Finally, because of delinquencies, in about December, 1986, that the note would be called by the bank when It became due in April, 1987. As recalled the line of credit had been a one year term with the potential for renewal. As noted.	ь6 ь7С

Stanley Hexom . . . , Face: 13-year sentence

Ex-broker pleads guilty to bank fraud

By Ann W. O'Neill Mercury News Staff Writer

A former Los Gatos real estate broker pleaded guilty Monday to two federal bank fraud charges under a plea bargain that involves his cooperation in "spinoff" investigations.

Stanley Hexom, 41, also pleaded guilty before U.S. District Court Judge Robert F. Peckham to a single count of helping prepare a false 1984 tax return for spiritualist and television personality Sylvia Brown and her husband.

Details of the plea agreement were contained in a five-page sealed document submitted to Peckham. The nature of the other investigations, as well as the extent of Hexom's cooperation, could not be immediately determined.

Attorneys told Peckham the initial agreement had been worked out about a year ago. Assistant U.S. Attorney Lee Altschuler declined comment on Hexom's role in any ongoing investigations. He did not say whether other criminal charges might follow.

"We are not privy to the potential timing of the results of the other pending investigations," said Hexom's attorney, Frank M. Man-

The three counts to which Hexom pleaded guilty carry maximum penalties of 13 years in jail and \$650,000 in fines. Sentencing was scheduled for June 7.

Dozens of homeowners, financial institutions, real estate title companies and investors have accused Hexom of bilking millions from them during the 1980s through a string of phony financial deals. More than 20 lawsuits had been filed against him in Santa Clara County Superior Court.

Standing before Peckham on Monday, Hexom admitted obtaining approval for two loans by submitting false information about his worth and income. He estimated he received \$150,000 from the now defunct Bank of Northern California and \$200,000 from Eureka Federal Savings. He said he has not repaid either loan.

And Hexom admitted helping Brown and her husband prepare a false tax return to obtain other loans.

San Francisco Giants Vice President Corey Busch said Thursday that the team is not locked into the

stadium proposal it made Tuesday night — and that there was room for negotiations with the city of Santa Clara and the county's joint powers authority.

Sparacino However, Busch said that he thought the proposal could work the way it is now.

His statement offers hope to those who fear that the team and the city could end up at an impasse over Santa Clara's demand to receive payment for the 120 acres of land that would house the stadium. Under the Giants' proposal, the city would be paid only by the indirect economic benefits of having a team in Santa Clara. Santa Clara City Manager Jennifer Spar-

Stadium details

If a stadium is built, here is what you can expect.

- Opening date: April 1994.
- Location: At Highway 237 and Great America Parkway.
- Number of seats: 45,000 to 50,000.
- Number of home games: 81.
- Turf: natural grass.
- Ticket prices: average of \$10 for games.
- Name of team: Undecided as yet, but with the volume of jackets and caps marketed with the San Francisco name, it is unlikely it would change, officials hinted.

acino has maintained that the city should be paid rent for the land, which she has valued at \$1 million per acre.

Busch has asked to build the \$134 million ballpark on the site at Great America Parkway and Highway 237, while letting the city keep the land and the ballpark. The team would sign a 30-year lease to

play on the site and, Busch said, "would want to play there for another 30 years after that."

Busch talked briefly about the proposal after a lunchtime speech before the Rotary Club of Santa Clara.

"We're willing to sit down and discuss anything," said Busch. "There is always room for give

Blue Angels swoop to other regions

The Bay Area can expect to see less of the Blue Angels' aerial maneuvers because of a new Navy policy calling for the flying team to take its act to more parts of the nation. The policy prompted Moffett Field Naval Air Station to tentatively postpone the annual summer air show until Oct. 16 and 17.

"We still have 200 job openings," she said. "We are having a really hard time getting people to even take the tests."

And the turnover rate has been discouragingly high among new recruits unaccustomed to pounding the pavement and getting doors slammed in their faces, Takei said.

In raising pay rates, the census is hoping not only to recruit new workers, but also to entice current workers to beef up the number of hours they work from part time to full time.

HEXOM, from Page 1B money because of their dealings with me." Hexom told the court in a quavering voice. "My intent was never to cause anybody to lose any money, but I failed in that ... "

Dozens of homeowners, financial institutions, real estate title companies and investors have accused Hexom of bilking millions from them during the 1980s through a string of phony financial deals. More than 20 lawsuits were filed against him in Santa Clara County Superior Court.

Hexom's attorney, Frank M. Mangan, asked Peckham to sentence his client to 18 months of house arrest and two years of community service for the frauds. Mangan argued that, as a result of his actions, Hexom already had been bankrupted, lost his wife and family and his standing in the community.

But Peckham made clear that he saw things differently.

"We're faced with a defendant who over a period of time perpetrated frauds of great enormity,"

Peckham said. "He speaks of inadvertence but his were very well thought out frauds."

In passing the sentence, the judge also made clear that he hoped it would be a deterrent to others in the business community.

"There is an extraordinary amount of fraud and illicit business practices engaged in and people are very cynical," he said. "There iust hasn't been sufficient deterrence."

Hexom pleaded guilty in April to the two federal bank fraud charges under a plea bargain that involves his cooperation in "spinoff" investigations.

Even so, rents are still considerably higher than those offered in older federally subsidized projects.

BANK FRAUD AND EMBEZZLEMENT MATTER

The Federal Bureau of Investigation (FBI) at San Jose, California had received various complaints from federally insured lending institutions and TICOR Title Insurance Company that captioned individual and his businesses had engaged in fraudulent activities, including the submission of bogus financial statements and loan applications to federally insured institutions for the purpose of obtaining real estate and unsecured loans from those institutions.

Numerous loans obtained by in connection with the acquisition of real property were covered by title insurance issued by a variety of title insurance companies in the San Jose area. These title companies, including TICOR Title Insurance Company, relied upon information provided by business entities concerning the title to pieces of real property and issued title insurance in connection with acquisition of the properties. These acquisitions were financed by both federally insured and private lenders. When it was determined that the information provided by business entities was fraudulent, TICOR and the other title insurance companies involved had to pay off on the title policies. The properties have subsequently been foreclosed upon and some of the losses
