Gaptain Commanding Officer Naval Investigative Service Office P. O. Box 80667 San Diego, California 92110

Dear Captain

In reference to your case entitled "I/NAS Oceana, Suspected Compromise of Sectet Material, Control Number -10/27/76NOS-CE78-XXXX", the following has been determined after Field Office investigation by the Federal Bureau of Investigation Headquarters (FBIHQ):

In the past few months, copies of the documents marked (Secret) that were sent to your Naval Air Station Oceana, Virginia Beach, Virginia, have been referred to FBIHQ on numerous occasions by various individuals and businesses.

Recipents of these documents could not explain why they received the material nor did they recognize the name and address of the sender. The senders' names and addresses appeared to be valid, but when contacted these persons could shed no light upon the origin of the documents. The documents are mailed from various areas in the United States. Usually, they are not mailed from the same place as indicated by the return address.

Portions of these documents were examined for their authenticity by a representative of the Office of Defense Research and Engineering Strategic and Support Systems, Testing and Evaluation, Department of Defense (DOD). Subsequent to examination, DOD advised as follows: "This information was probably conjured up as a hoax. In any event, from a technical standpoint, the terms are not consistent with those used in a normal test report nor are they presented in language that would have been used in a flight testing business."

In view of the DOD opinion, FBIHQ has recommended that no further investigation be conducted regarding these documents.
