Your name matches your brains—The enclosed comment regarding wages—STINKS.

When you compare punks who work 17 hours per week with labor who either puts in 40 hours or is docked if he does not work—you should get off your ass— you are sitting on your BRAINS?

Then again—labor has to strike and loose time and money to get raises while the political punks (THEIVES) can rob the treasury at will.

WASHINGTON (UPI):
One lawmaker has produced figures to show that congressional pay raises since World War II are lagging behind those gained by construction workers, truckers and others compared on a percentage basis.

Last year's 4.1 per cent congressional pay hike notwithstanding, Rep. Silvio O. Conte (R., Mass.) asked Budget Director Robert P. Mayo to determine the "comparability" of congressional pay raises over the years to those of private enterprise.

The results, disclosed in private House Appropriations subcommittee testimony made public Sunday, showed post-World War II congressional salaries increasing 183 per cent—from $15,000 in 1946 to the present $42,500. But the 163 per cent increase was lower than the 211 per cent gain by building trades, 230 per cent by truckers and 195 per cent by hourly production workers.
