FOIPA Request No.: 1355488-000
Subject: LILLY, JOHN CUNNINGHAM

Dear Mr. Greenewald:

Records responsive to your request were previously processed under the provisions of the Freedom of Information Act. Enclosed is one CD containing 23 pages of previously processed documents and a copy of the Explanation of Exemptions. This release is being provided to you at no charge.

Additional records potentially responsive to your subject may exist. Please submit a new FOIA request if you would like the FBI to conduct a search of the indices to our Central Records System.

Submit requests by mail or fax to – Work Process Unit, 170 Marcel Drive, Winchester, VA 22602, fax number (540) 868-4997.

For your information, Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA. See 5 U.S. C. § 552(c) (2006 & Supp. IV (2010)). This response is limited to those records that are subject to the requirements of the FOIA. This is a standard notification that is given to all our requesters and should not be taken as an indication that excluded records do, or do not, exist.

For questions regarding our determinations, visit the www.fbi.gov/foia website under "Contact Us." The FOIPA Request Number listed above has been assigned to your request. Please use this number in all correspondence concerning your request. Your patience is appreciated.

You may file an appeal by writing to the Director, Office of Information Policy (OIP), United States Department of Justice, Suite 11050, 1425 New York Avenue, NW, Washington, D.C. 20530-0001, or you may submit an appeal through OIP's FOIAonline portal by creating an account on the following web site: <https://foiaonline.regulations.gov/foia/action/public/home>. Your appeal must be postmarked or electronically transmitted within ninety (90) days from the date of this letter in order to be considered timely. If you submit your appeal by mail, both the letter and the envelope should be clearly marked "Freedom of Information Act Appeal." Please cite the FOIPA Request Number assigned to your request so that it may be easily identified.

You may seek dispute resolution services by contacting the Office of Government Information Services (OGIS) at 877-684-6448, or by emailing ogis@nara.gov. Alternatively, you may contact the FBI's FOIA Public Liaison by emailing foipaquestions@ic.fbi.gov. If you submit your dispute resolution correspondence by email, the subject heading should clearly state "Dispute Resolution Services." Please also cite the FOIPA Request Number assigned to your request so that it may be easily identified.

Sincerely,

SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552

- (b)(1) (A) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (B) are in fact properly classified to such Executive order;
- (b)(2) related solely to the internal personnel rules and practices of an agency;
- (b)(3) specifically exempted from disclosure by statute (other than section 552b of this title), provided that such statute (A) requires that the matters be withheld from the public in such a manner as to leave no discretion on issue, or (B) establishes particular criteria for withholding or refers to particular types of matters to be withheld;
- (b)(4) trade secrets and commercial or financial information obtained from a person and privileged or confidential;
- (b)(5) inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;
- (b)(6) personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;
- (b)(7) records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information (A) could reasonably be expected to interfere with enforcement proceedings, (B) would deprive a person of a right to a fair trial or an impartial adjudication, (C) could reasonably be expected to constitute an unwarranted invasion of personal privacy, (D) could reasonably be expected to disclose the identity of confidential source, including a State, local, or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of record or information compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source, (E) would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law, or (F) could reasonably be expected to endanger the life or physical safety of any individual;
- (b)(8) contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or
- (b)(9) geological and geophysical information and data, including maps, concerning wells.

SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552a

- (d)(5) information compiled in reasonable anticipation of a civil action proceeding;
- (j)(2) material reporting investigative efforts pertaining to the enforcement of criminal law including efforts to prevent, control, or reduce crime or apprehend criminals;
- (k)(1) information which is currently and properly classified pursuant to an Executive order in the interest of the national defense or foreign policy, for example, information involving intelligence sources or methods;
- (k)(2) investigatory material compiled for law enforcement purposes, other than criminal, which did not result in loss of a right, benefit or privilege under Federal programs, or which would identify a source who furnished information pursuant to a promise that his/her identity would be held in confidence;
- (k)(3) material maintained in connection with providing protective services to the President of the United States or any other individual pursuant to the authority of Title 18, United States Code, Section 3056;
- (k)(4) required by statute to be maintained and used solely as statistical records;
- (k)(5) investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment or for access to classified information, the disclosure of which would reveal the identity of the person who furnished information pursuant to a promise that his/her identity would be held in confidence;
- (k)(6) testing or examination material used to determine individual qualifications for appointment or promotion in Federal Government service the release of which would compromise the testing or examination process;
- (k)(7) material used to determine potential for promotion in the armed services, the disclosure of which would reveal the identity of the person who furnished the material pursuant to a promise that his/her identity would be held in confidence.

SYNOPSIS: On June 21, 1960, Dr. Lilly was interviewed by SA [redacted] Crime Research Section, upon referral from the Director's Office. Dr. Lilly presented a letter of introduction from Julian B. Baird, Under Secretary of the Treasury. Dr. Lilly is presently conducting experiments with animals and fish to determine their brain capabilities. The Department of Defense [redacted] are interested in his work in view of possible application to the minds of human beings. b6 b7C b7E

Dr. Lilly claimed that as a result of an error on the part of the FBI in May, 1959, he was refused a security clearance and was embarrassed before a gathering of professional colleagues and military officials. He stated that the FBI had incorrectly given information concerning another John Lilly, who had been convicted of a crime, to the Department of Defense. He refused to divulge the source of his allegations concerning the FBI. 6

An immediate check of our records and the records of the Defense Department reflects that Dr. Lilly is in error. We at no time furnished information of a criminal nature to the Department of Defense concerning him. A request for a "Secret" clearance for Lilly was made by the Defense Department in June, 1959. Our files reflected no derogatory information of a subversive nature. We furnished no information of a criminal nature concerning Dr. Lilly. Lilly was granted "Secret" clearance in August, 1959. Possibility exists that an error was made by someone in the Defense Department and that the blame is being placed on the FBI.

RECOMMENDATIONS:

1. That the attached airtel directing the San Juan Office to have a mature Agent contact Dr. Lilly be approved and forwarded. Lilly to be advised that the results of an exhaustive inquiry into his allegations have proven them to be completely without foundation. Lilly to be informed that at no time did we ever furnish the Defense Department with information indicating that he had a criminal record and that we unequivocally refuse to accept the blame for any error in the granting of a clearance for him if an error was made. It should be determined ~~for~~ Dr. Lilly whether or not Mr. Baird has been advised of the allegations. If Baird has been informed by Dr. Lilly of these erroneous reports, then Mr. Baird should be told by Liaison of the facts in the matter.

OK. H.

2. That Liaison inform Mr. George J. Gould, Chief, Office of the Secretary of Defense, of the allegations made and that an attempt be made to identify the person or persons responsible for spreading this false information and that these individuals be advised of the facts in this case and of our displeasure at being made the "goat" for any errors that may have been made.

Captioned individual was interviewed on June 21, 1960, by SA [] Crime Research Section, upon referral from the Director's Office. Dr. Lilly furnished the interviewing Agent with a letter from Mr. Julian B. Baird, Under Secretary of the Treasury, to Mr. Hoover. This letter is attached and introduces Dr. Lilly, a life-long friend of Mr. Baird's, who has a personal problem to discuss with the FBI.

Dr. Lilly, a medical doctor, was born in St. Paul, Minnesota, on January 6, 1915, and is a graduate of the University of Pennsylvania Medical School. Following his graduation he was employed in the field of medical research by the Johnson Foundation of the University of Pennsylvania (1942-1949). From 1949 to 1953 he was an Associate Professor of medical physics at the University of Pennsylvania. In 1953 he joined the Public Health Service and was assigned to the National Institute of Health where he conducted basic research on the testing of the intellectual capabilities of animals. He subsequently became interested in the abilities of porpoises and other types of fish to communicate among themselves and in their brain potential. In 1958 he established the Communication Research Institute in the Virgin Islands and he has done extensive work under grants from the Office of Naval Research, The National Science Foundation and The National Institute of Health.

Dr. Lilly's problem concerned a meeting held at the Pentagon in May, 1959. This meeting was called in order that ranking officers of the Office of Naval Research, the Air Force and the Army could hear a briefing by Dr. Lilly on his work on the brain of dolphins. Dr. Lilly explained that the military was interested in this field [] inasmuch as research by himself and other scientists had established that by the use of electrodes placed in the brains of animals and humans the will could be controlled by an outside force. He explained that if an electrode were placed in the brain of a subject by merely pressing a button a scientist could completely control the emotions of the subject. He could make the subject experience great extremes of joy or depression, for example. Dr. Lilly stated that the potential of this technique in "brain washing" or interrogation or in the field of controlling the actions of humans and animals is almost limitless. He stated that our officials are aware that the Soviets are intensely interested in this field and that they are conducting extensive experiments and that their progress has roughly paralleled that of ours.

b7E

At the meeting at the Pentagon in May, 1959, following Dr. Lilly's presentation of the results of his experiments, a classified film was to be shown. This film was the result of the work of a [] of the Sandia Corporation which, according to Dr. Lilly, does work [] for the military and the Atomic Energy Commission. Prior to the showing of the film, Dr. Lilly was asked to leave the meeting despite his protests, and despite the fact that he had been a speaker at an earlier portion of the meeting, he was not allowed to see the film. Dr. Lilly stated that at the time he did not have a

b6

security clearance inasmuch as he had intentionally stayed away from military and security applications of his research. As a scientist he felt he could do his best work free of the control of the military, and while he needed assistance from them, he desired to remain free of their control. The results of his work are, of course, available to the military.

Dr. Lilly stated that at the meeting were many scientists with whom he was closely associated socially and in a professional manner and that he was well acquainted with the military officials who were present. The request for him to leave during the meeting was a source of tremendous embarrassment to him. It was explained to Dr. Lilly that inasmuch as he did not have security clearance he could not remain for the classified portion of the meeting. He protested that since the film was the result of basic work done by him, he should certainly be allowed to remain. Military officials were adamant, however, and he left.

Dr. Lilly has subsequently learned from a source which he refuses to disclose that the reason he was asked to leave the meeting was that a security officer at the meeting, upon learning that Dr. Lilly had no clearance, telephoned the FBI. The security officer was informed by the FBI that Dr. Lilly was a convicted felon, and as a result it was decided that he should be asked to leave the meeting inasmuch as he could not be granted clearance. This same source has also informed Dr. Lilly that the FBI erred in the information which it furnished in that the name of a convict, one John Lilly, was switched with Dr. Lilly's name by the FBI and that the FBI had falsely attached a criminal record to his name. Inasmuch as Dr. Lilly anticipates asking for future grants from Government agencies, he desired that this matter be cleared up and that the mistake made by the Bureau be acknowledged and rectified. Despite repeated questioning, he continued to refuse to divulge his source of information concerning the FBI and our alleged mistake but indicated that it is a scientist associate with the Department of Defense and probably a personal friend of Dr. Lilly. This person was in attendance at the meeting referred to above.

It was explained to Dr. Lilly that the circumstances surrounding the alleged check with the FBI did not ring true because we would not furnish a criminal record of a person on the basis of a name and without fingerprints and without the admonition that such a check could not be accepted as conclusive without fingerprints. In addition, it was highly unlikely that our criminal records would be checked as a result of a telephone call requiring an expedite search of our indices for a security-type clearance. Dr. Lilly was informed that this matter would receive an immediate and intensive investigation and if the FBI was at fault we would certainly rectify our error; however, it was not believed that such a mistake had ever taken place and it was strongly believed that his informant in the matter had furnished him with false information. Dr. Lilly has departed Washington and left no forwarding address at his hotel, the Hay-Adams.

We investigated Under Secretary Treasurer Baird in 1957. He was a prominent banker of St. Paul, Minnesota, and the investigation was highly favorable.

Jones to DeLoach memo 6-28-60 re: Dr. John C. Lilly

ACTION TAKEN ON DR. LILLY'S COMPLAINT

An immediate check was made of the records of the Identification Division. There are some 37 criminal prints under the name John Lilly. The complainant in this matter, John Cunningham Lilly, has in our files two civil prints, one reflecting his employment by the Department of Health, Education and Welfare in 1955. The other is an elimination print taken in 1934 when Dr. Lilly's mother was the victim of an extortion case. Dr. Lilly and all members of his family were fingerprinted at that time. There is no indication in our files that the information from our Identification Division was ever furnished to a official of the Department of Defense. Bufiles reflect no derogatory information of a criminal nature concerning Dr. Lilly. Bufile 100-344452-7-39, page 78, reflects J. C. Lilly as a member of the Federation of American Scientists. This organization was opposed to military control of atomic energy and was in favor of secrecy in scientific work. A Bureau investigation, closed in 1950, did not reflect communist domination of this group. Dr. Lilly's address indicated as Johnson Foundation, Philadelphia, Pennsylvania. Bufiles contain no references pertaining to Communications Research Institute.

b6
b7C

In view of Dr. Lilly's allegations, a check of the Defense Department was made by the Name Check Section. SA [] contacted George J. Gould, Chief, Security Services, Office of the Secretary of Defense, on 6-22-60. Mr. Gould advised that the records of his office reveal that a request had been received by them on 6-26-59 from the Office of Science for a "Secret" clearance for Lilly. Mr. Gould continued that his office made the necessary checks, including a check of the FBI, and as the checks made revealed no derogatory information, a "Secret" clearance was authorized by his office on August 27, 1959.

He stated that the check of FBI records for information of a subversive derogatory nature was returned stamped "No investigation conducted pertinent to your inquiry." Mr. Gould stated further that according to his records no check of the criminal records of the Bureau had been made. All name checks from defense are ordinarily made through Mr. Gould's office, and would not be made by an individual assigned to another office. It is noted that in May, 1959, Dr. Lilly apparently had not received a "Secret" clearance and possibility exists he may have been excluded from a portion of a conference at that time if it involved "Secret" material.

OBSERVATIONS:

It is apparent that the information received by Dr. Lilly is incorrect. It could well be at the time of the meeting mentioned above an error was made by someone in the Defense Department in excluding Dr. Lilly. It may be that now in an attempt to

Jones to DeLoach memo 6-28-60 re: Dr. John C. Lilly

cover up their own error someone in the Defense Department is attempting to place the blame on the FBI. It is believed that we should take immediate action to dispell any uncertainty in Dr. Lilly's mind concerning this matter and to promptly determine, if possible, who in the Defense Department is disseminating this erroneous information in an effort to hide their blunder.

The possibility exists that an error was made by someone in the Defense Department and that the blame is being placed on the FBI. He should be informed that at no time did we ever furnish the Defense Department with information indicating that he had a criminal record, and that we unequivocally refuse to accept the blame for any error in the granting of a clearance for him if an error was made. Dr. Lilly should again be requested to furnish the name of the person or persons who made these allegations to him concerning a mistake on the part of the FBI. It is noted that Dr. Lilly refused to furnish this data when he was interviewed on 6-21-60. Dr. Lilly should also be questioned as to whether or not he has informed Mr. Baird of these allegations. If he has done so, it should be pointed out to Dr. Lilly that we intend to promptly contact Mr. Baird and advise him of the facts in this matter.

Advise the Bureau, attention Crime Research Section, of the results of your action in this matter.

As approved in Mr. Jones' attached memorandum of 6-28-60, Liaison discussed with George Gould, Security Services Branch, Office of the Secretary of Defense (OSD), the allegation that FBI had furnished erroneous information concerning Dr. Lilly. Mr. Gould rechecked his records and verified that the first request for security clearance for Dr. Lilly had been received by him on 6-26-59, a month after the meeting which Dr. Lilly was asked to leave because he had been allegedly refused a security clearance.

It was learned that the meeting in question had been arranged by Colonel Philip Mitchell of the Office of Science, OSD. Colonel Mitchell was interviewed on 7-5-60. At the first mention of Dr. Lilly's name, he flushed and was obviously embarrassed. Colonel Mitchell stated that he had invited Dr. Lilly to attend the May, 1959, meeting and assumed that Dr. Lilly possessed the necessary security clearance. Just before the meeting, he discovered that Dr. Lilly had not, in fact, received any clearance and he, therefore, asked Dr. Lilly to leave the meeting prior to discussion of any classified matters. Colonel Mitchell said that the failure to arrange for clearance was his alone and that he felt very badly about it and had subsequently applied for and received a clearance for Dr. Lilly. Colonel Mitchell was told that Dr. Lilly had been informed that his clearance had been refused because the FBI had incorrectly given information concerning another John Lilly to the Department of Defense. We told Colonel Mitchell that the FBI was very exercised at this complete falsehood; that we did not want to be made the goat for anyone else's mistakes; and that we wanted everyone involved to know the truth - that no request had been made of FBI until after the meeting had taken place, at which time clearance was promptly granted by Defense Department and the FBI furnished no inaccurate information.

RE: DR. JOHN C. LILLY

Colonel Mitchell said that he at no time made any statement to Dr. Lilly concerning the FBI or any information furnished by us; further, he has heard no such story. He said he told Dr. Lilly the truth, that through his own oversight no clearance had been secured for Dr. Lilly. From his nervous embarrassed appearance, it seemed possible that he was actually the source of the false allegation concerning us. We told him that Dr. Lilly was being given the true facts and that these were also known to the Defense officials involved in granting clearances.

ACTION:

There is no point in pursuing this further in Defense, unless Dr. Lilly actually names the person from whom he heard the rumor. It appears that this person was Colonel Mitchell and there is no doubt in Mitchell's mind concerning our vigorous protest.

Remy memo dated 6-28-60 advising of Dr. Lilly's visit to FBI Headquarters on 6-21-60. Dr. Lilly presented a letter of introduction from Julian B. Baird, Under Secretary of the Treasury. Dr. Lilly claimed the FBI had made an error in information given to the Defense Department for a security clearance for Dr. Lilly. An immediate check reflected that Dr. Lilly was in error and that possibly someone in the Defense Department put the blame on the FBI in order to cover a mistake on their part.

Liaison was directed to inform appropriate official at the Department of Defense of our displeasure at being blamed for what could have been an oversight or mistake on their part.

Attached L'Allier to Belmont memo dated 7-6-60 reflects results of interview conducted at Defense Department by SA [redacted] of the Liaison Section. The entire matter was discussed with Mr. George Gould, Security Services Branch, Office of the Secretary of Defense (OSD) and our position was explained and Gould was informed of our unequivocal refusal to accept blame for any error in the granting of a clearance for Dr. Lilly, if an error was made. Interview with Colonel Philip Mitchell, Office of Science, OSD, reflects that Colonel Mitchell may have been the person who furnished false information to Lilly. While Colonel Mitchell did not admit any misconduct on his own part, his demeanor indicated that he may have been the source of the allegations and a vigorous protest was lodged with him. Mitchell was also told that Dr. Lilly was being given the true facts and that these were also known to the Defense officials involved in granting clearances.

The Director has noted: "1. Did we do this? 2. I think we should again demand of Lilly the identity of his source which falsely accused the Bureau & if he refuses that he be told that it would appear his complaint is a complete fabrication & our files will reflect his refusal & lack of cooperation. Jones to DeLoach memo 7-8-60 re: Dr. John C. Lilly

The San Juan Office was directed by airtel dated 6-29-60 to have an Agent contact Dr. Lilly and advise him that his allegations were without foundation. Dr. Lilly was also to be questioned as to who in the Defense Department had told him that the FBI had made an error and also whether or not Mr. Baird had been advised of the allegations.

RECOMMENDATION:

That the attached radiogram reiterating instructions to San Juan concerning interview with Dr. Lilly and directing San Juan to inform Dr. Lilly that unless he furnishes the identity of his source our files will reflect his lack of cooperation, be approved and forwarded. Results of interview with Colonel Mitchell furnished for San Juan's use and not to be given to Dr. Lilly.

Previous memoranda have reported that Dr. Lilly was forced to leave a conference at the Defense Department due to the fact that he had no clearance. He was told by someone in Defense that the reason his clearance had not been granted was that the FBI had erred and had furnished information on a convict named John Lilly. Lilly has refused to disclose who told him this. He was sent to the Bureau by Mr. Julian B. Baird, Under Secretary of the Treasury for Monetary Affairs.

On 7-15-60 Mr. Baird was advised of the facts in this matter. It was pointed out to him that we had not furnished any information of a criminal nature concerning Dr. Lilly to the Defense Department, and that this appeared to be an attempt by someone in the Defense Department to cover up its error. Mr. Baird also was advised that we had told Dr. Lilly of the true facts in this matter and that Dr. Lilly had refused to name his source.

Mr. Baird stated that he was very glad that the Bureau had cleared up this matter and stated that he had no respect for anyone who would blame another agency for their own error. Mr. Baird stated that he did not know who Dr. Lilly's source was in this matter.

no loc Remy memo 7-8-60 and radiogram to San Juan to interview Dr. Lilly and determine source of his information. Dr. Lilly not be advised of the results of our interview with Colonel Philip Mitchell whose demeanor indicated he may have been the person responsible. 7-9-60 radiogram from San Juan reflected that Dr. Lilly had departed the Virgin Islands on 6-26-60 leaving a forwarding address in Miami, Florida, and requested Miami to handle.

At 9 a. m. on the morning of July 11, SA [] Crime Research Section, received a telephone call from Dr. Lilly as to the status of our inquiries. Dr. Lilly was informed that we had completed our investigation into the matter and that he would be contacted by Agents of our Miami Office.

The Director noted regarding the Jones to DeLoach memo of 7-8-60: "This I don't understand. Mitchell looks like the culprit & I see no reason for shielding him. H". Mr. Hoover's comments were received in the Crime Research Section at 12:07 p. m. on July 11.

At approximately 12 noon on 7-11-60, Dr. Lilly again called the Bureau and requested to speak to []. Later in the afternoon of July 11, Krant returned Lilly's call. Lilly advised that two Agents of the Miami Office had visited him. The Agents had informed him the FBI had thoroughly investigated his allegations and determined they were without foundation. Dr. Lilly then complained that the Agents insisted he identify the source of his information regarding the alleged mistake by the FBI. He also stated the Agents told him our files would reflect his refusal to cooperate if he failed to name his source.

Lilly was told by [] in no certain terms that at this point we were thoroughly disappointed in him. On the basis of his allegations we had conducted a thorough and exhaustive inquiry. We felt it was his duty and obligation at this point to give us the name of his informant regarding these aspersions on our name. Lilly said he could not do this as he had given his word to the person who had furnished the information that he would not disclose it. Lilly was told we could not accept this excuse inasmuch as we now were determined that the true facts be known to Defense officials involved in granting clearances. (As you know, we have informed George Gould, Office of the Secretary of Defense, of our investigation of these allegations and of our determination not to be

blamed for someone else's error, if an error was made.)

Lilly was asked whether he had informed Under Secretary of the Treasury Baird of the details of this matter. He admitted that he had. [] told Lilly that Baird would be informed by us of the truth of the matter and that we did not appreciate his spreading these allegations prior to our being given the opportunity to determine the truth. Lilly claimed he had told Baird in order that he might receive his letter of introduction to Mr. Hoover. Further, a very close relationship existed between himself and Baird as a result of a long family friendship. b6 b7C

Lilly was then told we had interviewed Colonel Mitchell and that Mitchell's demeanor indicated to us that he was the guilty party in this affair. Lilly was then asked directly whether or not Mitchell had, in fact, given him the false information. He denied it. He stated he has given SA [] name to his source of information and he has requested that person advise [] of his identity. He felt that the matter could then be properly disposed of if this person did talk to [] Lilly was informed this was certainly not the correct way to handle the situation. He should, instead, tell [] the name of his informant and [] would promptly contact him. Lilly claimed that he could not do this because his informant's position might be jeopardized by Lilly releasing his name prior to receiving permission. Lilly stated he would see the informant late this summer and would prevail upon him to contact the FBI and receive directly from us the facts in this case.

Lilly was told we refused to accept his protest regarding our handling of this matter. We felt frankly he had let us down and that the conduct of the Agents at Miami reflected our thinking completely and that their forceful action had been at our specific direction. He was also advised that unless he showed some cooperation on his part he could not expect assistance from us and we were extremely disappointed in his attitude.

Subsequent to telephonic conversation with Dr. Lilly the attached ^{teletype} airtel 7-11-60, was received from the Miami Office reflecting their interview with Dr. Lilly.

RECOMMENDATIONS:

1. That Mr. Julian B. Baird, Under Secretary of the Treasury, be advised of the facts in this matter by Liaison inasmuch as he has been informed of the rumors concerning the FBI by Lilly.

2. That no further contact be had with Lilly and that any future inquiries or requests from him be treated in the light of his refusal to cooperate.
