Details: The U.S. Courts implemented a pilot project offering free access to federal court records through the PACER system at seventeen federal depository libraries. Library personnel maintain login and password security and provide access to users from computers within the library. PACER normally carries an eight cents per page fee, however, by accessing from one of the seventeen libraries, users may search and download data for free.

Between September 4, 2008 and September 22, 2008, PACER was accessed by computers from outside the library utilizing login information from two libraries participating in the pilot project. The Administrative Office of the U.S. Courts reported that the PACER system was being inundated with requests. One request was being made every three seconds.

The login information was compromised at the Sacramento County Public Law Library (SPLL) and the Seventh Circuit Court of Appeals Library (SCCA). The two accounts were responsible for downloading more than eighteen million pages with an approximate value of \$1.5 million.

Successfully located drivers license photo for SWARTZ. Drove by address in an attempt to locate SWARTZ or vehicles related to the residence, but was unsuccessful. House is set on a deep lot, behind other houses on Marshman Avenue. This is a heavily wooded, dead-end street, with no other cars parked on the road making continued surveillance difficult to conduct without severely increasing the risk of discovery. However, drivers license and [REDACTED] information lists address above. Other family members are listed as current residence and four vehicles are currently registered to [REDACTED] who resides at above address. Illinois database checks for SWARTZ yielded negative results. SWARTZ has no arrests, no registered vehicles or property.

On March 10, 2009, [REDACTED] of THE ADMINISTRATIVE OFFICE OF THE US COURTS (US COURTS) provided the following information:

US COURTS was relying on the Notice written on the login page of the PACER webpage, pacer.uscourts.gov, to advise users that unauthorized access to the PACER system is not allowed. When a user goes to the webpage and navigates to the login page, a Notice is shown at the bottom of the page that states "NOTICE: This is a Restricted Government web Site for official PACER use only. Unauthorized entry is prohibited and subject to prosecution under Title 18 of the U.S. Code. All activities and access attempts are logged."

When asked to clarify how a user knows what constitutes unauthorized access and how a user would have known that they had to be in one of the seventeen libraries to access PACER, [REDACTED] had [REDACTED] prepare a response.

[REDACTED] provided the following information:

AARON SWARTZ would have known his access was unauthorized because it was with a password that did not belong to him.

Library patrons did not sign up for accounts. One login and password were provided to each Federal Depository Library. Each library agreed to not share the password with any organization or individual user. Verification forms were signed by Depository Coordinators at each library and included statements regarding login and password security.

The Seventh Circuit Court of Appeals in Chicago had a one hour time limit on their public access computer and the computer was completely logged off after each session by a staff member.
