Re: FOIA No. FY16-50
Response Letter

VIA EMAIL AND CERTIFIED MAIL

Mr. John Greenwald
[REDACTED]
[REDACTED]

Dear Mr. Greenwald:

On April 27, 2016, you filed a request for information pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552 (2012) and the Federal Energy Regulatory Commission's (FERC or Commission) FOIA regulations, 18 C.F.R. § 388.108 (2016). Specifically, you requested copies of the Commission's CEII Logs produced during calendar years 2011, 2012, 2013 and 2014, and a copy of the Commission's FOIA log for 2015.¹ A search of the Commission's non-public files identified seven documents responsive to your request. After review of the responsive material and relevant law, the Commission has determined to grant your request in part, and deny your request in part, pursuant to FOIA Exemption 6.²

FOIA Exemption 6

The Commission's CEII and FOIA logs include the names of various private citizens and Commission employees. FOIA Exemption 6 protects files that if disclosed would constitute a clearly unwarranted invasion of privacy, including the names, personal addresses and personal information of private citizens and lower level Commission employees. However, the names, addresses, and other data of commercial entities do not implicate a privacy interest that is protected by FOIA Exemption 6 and can be released. *See, e.g., Bibles v. Oregon Natural Desert Ass'n*, 519 U.S. 355 (1997); *National Ass'n of Retired Fed. Employees v. Horner*, 879 F.2d 873 (D.C. Cir. 1989). The portions of the logs that do not implicate privacy interests protected by FOIA Exemption 6 are enclosed.

As provided by FOIA and 18 C.F.R. §388.110(a)(1) of the Commission's regulations, any appeal from this determination must be filed within 45 days of the date of this letter. The appeal must be in writing, addressed to Max Minzner, General

¹ You also requested a copy of FOIA appeal logs from 2012-2015. The Commission does not maintain FOIA appeal logs and there are accordingly no responsive documents for that portion of your request.

² 5 U.S.C. § 552(b)(6)

Counsel, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, and clearly marked "Freedom of Information Act Appeal." Please include a copy to Charles A. Beamon, Associate General Counsel, General and Administrative Law, at the same address.

Sincerely,

Leonard M. Tao
Director
Office of External Affairs

	<i>Subject</i>	CONTACT INFO: Phone: 612-790-1562 / reedkfi@gmail.com. Received via e-mail: Fri 10/1/2010 3:59 PM. Sent to GAL10/4/10. REQUEST: I am looking for the following information on the transmission lines that are in western Nebraska, Colorado, South Dakota, Montana, and Wyoming. 1. Maps of 345, 115 and 69KV line 2. The excess capacity of these lines. (Meaning)(Is there capacity to add Renewable Energy) 3. Or access to a site that contains the information that I would have approval to access. Statement explaining need and intended use of the information: As cost consultants we are asking for the information listed above for the following reasons to help us to be ready to assist potential clients in the selection of areas that are the most cost effective and will be used as follows. 1. The information obtained will be used for sole purpose of research. a. To studying potential sites for renewable energy in the requested area b. To assess the geographical locations ability to be able to be economically useable. c. The information will also be used for the identification of connect ability that is cost effective for the particular area. d. The information will be used in determining feasibility of an area and is not being used for a specific project at this time. 2. Information will not be directly shared with any current client future client. 3. Only information derived from the obtained information will be shared. Meaning only results from Item No.1 a, b, c, and d above will be shared. Payment of Fees: \$ Notify me if the amount exceeds the specified amount Specified Amount: 0.00 GAL Status: NC dated 10/26/2010; NOI dated 03/23/2011; Release ltr dated 04/05/2011. 		<p><i>Subject</i> CONTACT INFO: 630-297-1905 / ed.pfeiffer@amec.com. Additional information received via e-mail: Wednesday, October 06, 2010 2:05 PM. Received via web: Monday, October 04, 2010 10:45 AM. REQUEST: Power flow and power system maps associated with EIPC collaborative planning effort. Statement explaining need and intended use of the information: Review and perform independent power flow assessments of various plans and scenarios developed in study on behalf of the NRDC and other NGO stakeholders participating in the EIPC effort. Payment of Fees: \$ I agree to pay all applicable fees ADDITIONAL INFORMATION - I am working as a consultant to the National Resources Defense Council and other NGO stakeholders participating in the Eastern Interconnection Planning Collaborative. Part of the services the NRDC is seeking is the review of, and independent analysis of, transmission infrastructure scenarios proposed as part of this interregional effort funded by a grant from the DOE. The transmission owners and NERC Planning Authorities have determined that the power flow models, which are derivatives of the ERAG MMWG models, and accompanying transmission system maps, contain CEI and require participants to obtain FERC CEI authorization in order to obtain this data so as to provide independent stakeholder review of the proposed plans. I have been actively employed in the utility business for over 30 years and have both provided input data associated with the 715 filings as well as received ERAG MMWG models as part of my day to day work activities.</p> <p>10/14/10 NC completed (VS) 10/14/10 waiting on order (VS) 2/3/10 Order in OEA(VS)</p>

CE11-00017-000		D'Souza, Raissa	University of California Davis	10/22/2010	11/23/2010	1/14/2011	Closed			Y

Subject CONTACT INFO: 530-754-8405 / raissa@cse.ucdavis.edu. Additional information received via e-mail: Friday, October 22, 2010 2:09 PM. Received via e-mail: Sunday, October 10, 2010 1:47 PM. Description of information requested: Data on connectivity of power grids in North America. Eventually, we would like similar data for hydroelectric, oil and natural gas networks.

Statement explaining need and intended use of the information: I am an Associate Professor of Engineering and Applied Mathematics at the Univ of CA at Davis. I study the resilience and robustness of networks. The main area of focus currently is how to fortify our critical infrastructure to be resilient to attack or large-scale natural disaster. We are also analyzing the effects of increasingly distributed sources on stability of the power grid, as we well impact of a multi-model attack simultaneously affecting power grids, oil and natural gas networks. My past research can be found at <http://mae.ucdavis.edu/dsouza>

Payment of Fees: \$ Notify me if the amount exceeds the specified amount. SpecifiedAmount: 500.00. ADDITIONAL INFORMATION RECEIVED VIA E-MAIL: Friday, October 22, 2010 2:09 PM. We are very interested in this data, as we are doing theoretical research into stability and cascades on networks in general, which we believe will provide insights into fortifying the power grid. Our research is funded by the Defense Threat Reduction Agency (DTRA) under a basic research contract. Below are two items: 1) More details on the types of data we would like from the Form 715; 2) The requested information on a supervisor (I am a Professor at UC Davis and provide my Dept Head and our Administrative manager as contacts below). 1) We want to understand how the grids of different operators are interconnected with one another. Thus from the Form 715, we are most interested in "C. Part 3: Transmitting Utility Maps and Diagrams", noting item 2 e. " Interconnections with other utilities. " We would like this data for as many utilities are regions as possible, so for all areas. We also need to analyze flows, thus getting access to your data "B. Part 2: Power Flow Base Cases" is also of extreme interest to us at this time, for all regions possible. 2) Two additional points of contact: a) my Dept Chair; b) the head Administrator in our Dept. a) Case Van Dam Professor and Chair Department of Mechanical and Aerospace Engineering 2004 Bainer Hall, University of California, 1 Shields Ave Davis, CA 95616 530-752-7741 , <http://flight.engr.ucdavis.edu/~cvandam/> cpvandam@ucdavis.edu. b) Felicia Smith, Department Manager Department of Mechanical and Aerospace Engineering, 2007 Bainer Hall, University of California, 1 Shields Ave, Davis, CA 95616 530-752-0582, fasmith@ucdavis.edu.

CE11-00022-000 [Redacted] Private Citizen 10/29/2010 11/30/2010 1/13/2010 Closed
Subject CONTACT INFO. [Redacted] Received via web: Friday, October 29, 2010 2:38 PM.
Description of information requested: January 1981 exemption application, specific exhibit drawing, in North Rochester, docket #P-3985. Statement explaining need and intended use of the information: whom it may concern -10/17/10. I have been talking to Bill Atlas in FERC now for about a month on the elevated lake levels at my lake, Spaulding Pond. I have been experiencing this most of the summer. Spaulding dam Project, Dam #3985. I have talked much to the owner of the dam (Tom Cusano), New Hampshire dam safety control officer Brian Defosse, William Atlas (FERC) and my Lawyer. Also have wrote a letter to Heather Cambell and Peter Valeri, I have told them all about the erosion, and plant death I have been experiencing, with great concern. The dam has a compliance of 54" from the concrete crest, from what Bill Atlas claims is in record, which he has. This seems to make sense. As of 9/17 the boards on the dam were at 62.5", on 10/9 the boards were at 66", this is 12" over compliance. I have all pictures of this, also of the lake levels swelling and shore line destruction. I have been reading your hand book and Tom Cusano is in clear violation of section 2, paragraphs 4.2.2 Also, on your web site, you are responsible for erosion monitoring. My next step is to have my personal lawyer write to you and also contact State of Maine, Department of Enviromental Protection (DEP). With the rain we had this Friday and Saturday, October 15 and 16th, the lake has risen, the most I have ever seen, more than last winters February storm. My road is washing out, My next fear, is winter washout, you and Cusano will be held responsible for repairs. The bottom line is someone is not doing their job, I have pictures and information to support this. I can send you pictures upon request. Payment of Fees: \$ Request a waiver or reduction of fees

CE11-00023-000 [Redacted] Deen, David Connecticut River Watershed Council 11/1/2010 12/1/2010 5/11/2011 Closed
Subject CONTACT INFO: 802-869-2792 / ddeen@ctriver.org. Received via e-mail: Description of information requested: Amendment to Application of Blue Heron Hydro LLC Explanation of Corps and FERC requirements for Critical Energy Infrastructure for Townshend and Ball Mountain Dams under P-13226. Document number 20100506-5061. This is an Environmental and Recreational Compliance Report along with Applicant Correspondence and Supplemental Information including fish passage drawings.
2/3/11 waiting on order (VS)
3/10/10 waiting on order (VS)
5/5/11 waiting for additional infromation from Ann (VS)

Please provide responsive material by COB November 5, 2010.

Thanks

NEW CEII REQUEST

	<i>Subject</i>	CONTACT INFO: [REDACTED]. Received via e-mail: Tuesday, December 28, 2010 3:10:42 PM In the past I submitted CEII and received the information requested because FERC granted landowners in CP08-15 the right to receive daily injection and withdrawal records submitted by Steckman Ridge. For some reason I always have an initial problem getting only the daily injection and withdrawal from FERC and need to know this is the last stress I will go through to get what was promised via FERC to landowners who's properties taken via eminent domain made the venture possible. We own 154.3 acres, this was vital to the storage project. I do not want any financial records ...in the event they were sent with the semi annual storage report...I only want the daily injection and withdrawal report as I received in the past. I submitted the following Critical Energy Infrastructure Information (CEII) requests, along with signed non disclosure agreements and my request was granted. CE10-45, CE10-144. Toyia Johnson is on vacation...she knows I want nothing other than daily injection and withdrawal for Submittal 20101130-5252. Document Components...daily injection and withdrawal information. 11/30/2010 11/30/2010 CP08-15-000 Steckman Ridge, LP submits I AM REQUESTING THE DAILY INJECTION WITHDRAWAL STECKMAN RIDGE STORAGE REPORT AS FOLLOWS: semi-annual report for the period May 1, 2010 through October 31, 2010 under CP08-15. 20101130-5252. Statement explaining need and intended use of the information: RECEIVED TWO OTHER CEII REPORTS CE10-45, CE10-144...SINCE OUR PROPERTY MADE THE GAS FERC GRANTED THIS RIGHT TO CITIZENS WHO HAD LAND TAKEN VIA EMINENT DOMAIN..CP08-15. OUR PROPERTY HELPED MAKE THIS GAS STORAGE VENTURE POSSIBLE. FERC GAVE US THE RIGHT TO SEE DAILY INJECTION AND WITHDRAWAL REPORTS. NO FINANCIAL INFORMATION IS BEING REQUESTED. THANK YOU FOR ONCE AGAIN SUPPLYING THE DAILY INJECTION WITHDRAWAL UNDER THIS CEII REQUEST. Payment of Fees: \$ Request a waiver or reduction of fees. SpecifiedAmount: 0. Signature: [REDACTED]. Date: 12/28/2010 [REDACTED] Release letter. (Steckman Ridge, Semi Annual report – Accession number 20101130-5252)

CE11-00064-000		Goldman, Jay	Exelon Corp	1/11/2011		2/25/2011	Closed			Y
	<i>Subject</i>	<p>715 Data request. Please see my attached NDA to add to our request; I will shortly send additional NDAs from the rest of my team. To clarify our request, we are seeking to obtain access to the CEII data (nodal power flow data) in the Eastern Interconnection Reliability Assessment Group's MMWG cases. Subsidiaries of Exelon, ComEd and PECO, regularly provide information for this process to ERAG. However, this new request is on behalf of Exelon Business Services Company, a corporate unit of Exelon, to access the full Eastern Interconnect MMWG data set (see MMWG website at https://first.org/reliability/easterninterconnectionreliabilityassessmentgroup/mmwg/Pages/default.aspx). Following the procedure requested of us by our MMWG regional coordinator (John Idzior at Reliability First john.idzior@first.org, 330-247-3059), we are requesting FERC CEII authorization specifically for my team which is a new group within Exelon and has not requested this authorization in the past. Here is contact information for an additional reference at Exelon to verify my application information: Please contact Raymond Connolly, Director, Exelon, at ray.connolly@exeloncorp.com, 312-394-2116. <i>Number</i>	<i>Attorney</i>	<i>Requestor</i>	<i>Affiliation</i>	<i>Date Filed</i>	<i>Date Due</i>	<i>Date Closed</i>	<i>Status</i>	<i>1</i>	<i>567</i>	<i>715</i>
CE11-00066-000		Baker, Martin	Student - Washington State University	1/19/2011	2/16/2011	9/8/2011	Closed			Y

Subject CONTACT INFO: (509) 391-9185 / martinchrstphrbaker@gmail.com. Clarification received via e-mail: Wednesday, January 19, 2011 3:24 PM. Received via e-mail: Tuesday, January 18, 2011 11:53 PM. REQUEST: This is request for topological connectivity and directionality data from power-plant to end-user of the US power grid within any region of the US. End user may be defined as a terminating substation serving local customers whose location, loads and uses need not be known. Exact physical routes of transmission lines are not needed. Similarly, source or power-plant location, output, and name need not be known. The data requested can be limited to ordered pairs of vertex labels representing sources, branches, and sinks. Ideally, but not crucially, the information would come from the North American Eastern Interconnect (EI) data developed from a 2005 North American Electric Reliability Corporation power planning case with 40 of 136 control areas each with proximate size consisting of 336-1473 nodes together representing 29261 of 49907 buses in the EI data. This is the same dataset granted to Paul Hines, Eduardo Cotilla-Sanchez, and Seth Blusack for their April 2010 paper "Do Topological Models Provide Good Information about Infrastructure Vulnerability?" Statement explaining need and intended use of the information: Current methodologies to find network modules are based entirely upon network connectivity and topology; this however may lead to inconclusive and often inoperable units. The connectivity and directionality information requested will be used to determine base functionality (source, branch, or sink) between the nodes thus identifying functional modules that may be used for planning and design purposes elsewhere. The information will be used in the validation of current theoretical models in preparation for an American Society of Mechanical Engineers conference held in Washington DC. Further, the information will not be used for profit and is for research purposes only. Form 715 -Eastern Interconnect. Payment of Fees: \$ Request a waiver or reduction of fees

Subject: Re: Martin Baker - Request for further clarification

Good Afternoon,

The Eastern Interconnect information is the same that would be contained in the Form 715 submits. A simple method to find this information may be to search communications with Paul Hines, Eduardo Cotilla-Sanchez, or Seth Blusack. I am also aware that the information may be sensitive in nature and that a breach of the non-disclosure agreement will lead to legal action.

Thank you for your time,
Martin C. Baker

Thank you,
I'm monitoring the following application by Southern California Edison Company. I want to review the past several years filings, and be kept up to date with future disclosures/filings.

Thank you in advance for your assistance.
Greg

On 1/19/2011, the following Filing was submitted to the Federal Energy Regulatory Commission (FERC), Washington D.C.:

Filer: SOUTHERN CALIFORNIA EDISON COMPANY

- Docket(s): P-1388-000
- P-1389-000
- P-1390-000
- P-1394-000
- P-1930-000
- P-1932-000
- P-1933-000
- P-1934-000
- P-2290-000
- P-298-000
- P-344-000
- P-372-000
- P-382-000

Filing Type: Emergency Action Plan
Description: Southern California Edison Company submits Emergency Action Plan Status Report for the Borel Project et al under P-298 et al.

Dear Toyia,

Sincere thanks for very kind conversation, your time
and attention.

My reference will be a very well-known professional,
one of the best people in the power business:

Sergio Brignoni
 Deutsche Bank
 1301 FANNIN ST, STE 2450,
 HOUSTON, TX 77002-7022
 (713) 653-5100

Sergio's email and phone:
 email:sbrignone@gmail.com
 cell phone: 1-713-515-5735

I hope it will be sufficient.

Thanks,

Yours Igor.

Description of information requested: Power flow data for the Eastern Interconnection. The information is contained in the FERC Form 715 submitted to FERC by the following entities in the North American Electric Reliability Corporation: Midwest Reliability Organization, Northeast Power Coordinating Council, Southwest Power Pool, SERC Reliability Corporation, Florida Reliability Coordinating Council, and ReliabilityFirst Corporation.

Statement explaining need and intended use of the information: The information is used in Ventyx's PROMOD production cost modeling software. The software is used by Wisconsin Electric Power Company to project future fuel costs. Wisconsin Electric's fuel costs are subject to regulation by the Michigan Public Service Commission, and are at issue in MSPC Case No.

Statement explaining need and intended use of the information:

Public Service Company of New Hampshire ("PSNH"), Miller Hydro Group ("Miller"); Topsham Hydro Partners Limited Partnership ("Topsham"); Great Lakes Hydro America, LLC ("Great Lakes"); and Rumford Falls Hydro, LLC ("Rumford Falls"); operate licensed projects downstream of the Upper and Middle Dams Storage Project (FERC Project No. 11834, "Storage Project") on the Androscoggin River and are a signatories to the 1983 Androscoggin River Headwater Benefits Agreement ("Agreement") that relates to the Storage Project. FPL Energy Maine Hydro LLC ("FPLE") is the licensee of the Storage Project and a signatory to the Agreement.

FPLE has proposed reconstruction work at the Storage Project that it claims is required to meet the FERC Part 12 dam safety requirements. PSNH understands that there have been ongoing conversations between FPLE and the FERC Staff relative to that work. However, FPLE has refused to provide copies of the documents and communications between it and the FERC Staff, which documents are designated CEII (and, therefore, not otherwise publicly available).

PSNH and the other downstream project operators are directly affected by actions taken or to be taken by FPLE at the Storage Project with respect to the reconstruction work. Further, FPLE contends (in its Complaint filed in FERC Docket No. EL10-53), that PSNH and the other downstream project operators would be responsible for payment of the overwhelming majority of the costs of such work. Therefore, PSNH has a substantial interest in obtaining the CEII documents hereby requested.

Payment of Fees: \$ Notify me if the amount exceeds the specified amount
SpecifiedAmount: 600

CONTACT INFO: Phone: 202-289-8400 / Email: jpc@duncanallen.com. Sent to GAL: 5/5/11. Additional information received via e-mail: Monday, May 02, 2011 11:04 AM. Received via e-mail: April 29, 2011. Description of information requested: Parts 1 through 6, inclusive, of the three most recent Form 715 Reports filed by (1) Duke Energy Corp. (Duke Carolinas), and (2) Progress Energy Carolinas (believed to be for 2008, 2009 and 2010). Statement explaining need and intended use of the information: Requestor has been engaged by Elizabeth City, Kinston, New Bern, Rocky Mount, Smithfield and Southport, North Carolina (all of which are municipal utilities) to review Section 203 application in Docket No. EC11-60-000 – Duke Energy Corp and Progress Energy, Inc. Information requested is needed to review and verify assertions made in competition analysis provided by Applicants' witness William H. Hieronymus in Exh bits J-1 through J-11 to Application filed April 4, 2011. Information request is urgent, due to time-limited intervention deadline of June 3, 2011, established by Commission Notice of Filing. Payment of Fees: \$ I agree to pay all applicable fees SpecifiedAmount: 0. ADDITIONAL INFORMATION: Monday, May 02, 2011 11:04 AM

The specific request that I intended to convey on the electronic CEII request form I submitted on Friday was: Parts 2 through 6 of the three most recently filed Form 715 Reports covering the transmission systems operated by (i) Duke Energy Carolinas, LLC and (ii) Carolina Power & Light Company d/b/a Progress Energy Carolinas, Inc. It is my understanding that each of those companies operates its own Balancing Authority Area, and I would therefore expect that each company had filed a Form 715 Report in each of the last three years. The NERC reliability region involved is the VACAR (Virginia and Carolinas) region, but again it is my understanding that the Form 715 Reports would have been filed by the individual companies. This information is requested in connection with advising six municipal utilities in North Carolina (Elizabeth City, Kinston, New Bern, Rocky Mount, Smithfield and Southport) concerning the pending application of Duke Energy Corp. and Progress Energy, Inc. pursuant to Section 203 of the Federal Power Act for authorization to merge, currently pending in Docket No. EC11-60-000 with an intervention due date of June 3, 2011. I had originally provided the name of John P. Williams, the managing partner of Duncan & Allen, the law firm in which I am a partner, for verification of my employment. Mr. Williams will be in Africa on assignment for the World Bank for the next two weeks, however, and it may prove inconvenient to contact him. I would therefore offer the names of the following individuals, whose job titles, telephone number and address are listed below.

John P. Coyle
Duncan & Allen
Suite 300
1575 Eye Street, N.W.
Washington, D.C. 20005-1175

Case Report By Number - Summary Report

Table header with columns: Number, Attorney, Requestor, Affiliation, Date Filed, Date Due, Date Closed, Status, I, 567, 715

Table row 1: CE11-00150-000, [Redacted], Sutjandra, Yohan (GROUP), The Energy Authority, 5/31/2011, 7/1/2011, 7/11/2011, Closed, Y

Subject CONTACT INFO: Phone: 9043601386 / ysutjandra@teainc.org NOTE: Due to a power outage the FERC was closed on June 1, 2011 and June 2, 2011. Sent to GAL-6/3/11 aft 5:00pm> Additional information received via e-mail: Friday, May 27, 2011 7:56 PM. Received via e-mail: Friday, May 27, 2011 4:11 PM. Description of information requested: Renewal of CEII request to run PROMOD and Aurora XMP software. Statement explaining need and intended use of the information: Software vendors require CEII request approval for running the relevant software. We will use the software to study impact of potential changes in the MISO and SPP markets. Payment of Fees: \$ Notify me if the amount exceeds the specified amount SpecifiedAmount: 0 Signature: Yohan Sutjandra. Date: 5/27/2011. ADDITIONAL INFORMATION: Friday, May 27, 2011 7:56. I am looking to renew access to updated data for the same area. I re-applied because the agreement seems to suggest that the permission only applies for the calendar year when I got the approval. Would you please let me know if such annual renewal is not needed? *NOTE: Last year Mr. Sutjandra was approved and received Form 715 data for WECC, ERCOT and the Eastern Interconnect. (CE10-1). He is seeking to obtain the most current Form 715 data for these areas with this new request. 8/29/11-Additional requesters - 2. Tim Flanagan (Transmission Manager), 3. M ke Evans (Senior Analyst), 4. William Clarke (Executive Director, RTO Market Services), 5. Laura Mitchum (Senior Analyst).

Table row 2: CE11-00151-000, [Redacted], Hurtig, Robert, Electrical Consultants, Inc, 5/3/2011, 7/1/2011, 7/11/2011, Closed, Y

Subject CONTACT INFO: 406.259.9933 / robert.hurtig@eciblgs.com. Due to a power outage the FERC was closed on June 1, 2011 and June 2, 2011. Further clarification: Monday, May 31, 2011. Received via e-mail: Thursday, May 26, 2011 2:14 PM. Description of information requested: Requesting study cases from SPP related to queue position GEN-2010-012. Specifically, study cases from SPP definitive system impact study DISIS-2010-002, Cluster Group 7, as well as all study cases from any subsequent restudies involving GEN-2010-012. ECI will also request case studies from the NYISO. Statement explaining need and intended use of the information: Clipper Windpower has requested ECI's assistance in sizing generators and reviewing SIS study. Payment of Fees: \$ I agree to pay all applicable fees. SpecifiedAmount: 0. Signature: Robert Hurtig. Date: 5/26/2011 ADDITIONAL INFORMATION: May 31, 2011- Per telephone discussion, Mr. Hurtig confirmed that he is seeking to obtain Form 715 data for SPP and the NY ISO. If this request is approved by FERC it will enable him to work with SPP and the NY ISO to obtain additional information, as necessary.

	<i>Subject</i>	CONTACT INFO: 713-963-6295 / edwardm@pennwell.com. Received via e-mail: Thursday, July 07, 2011 2:26 PM. Description of information requested: PennWell MAPSearch respectfully requests access to transmission system maps filed by electric utilities as part of the FERC Form 715 filing requirements for the year 2010. (All) Statement explaining need and intended use of the information: MAPSearch is an established geospatial data provider that has constructed a commercially available database with transmission lines, substations and power plants. We have maintained this database for over fifteen years. In the last several years we have significantly increased size and spatial accuracy of this database using commercially available digital imagery to adjust and locate features. We wish to use the transmission system maps filed as part of the FERC 715 filing to identify and transcribe proper operating companies, feature names, and feature voltages. We will only be using the transmission map portion of the filings. The FERC previously granted PennWell MAPSearch permission for this same process to in August of 2009 with CEII No. CE09-130. We now intended to identify recently constructed features using the 2010 maps. We have a significant need for the data requested as these maps are the only source for the attribute data we seek, and many energy, engineering, and other companies rely on MAPSearch for this data. Filers of the FERC 715 are our clients We carefully scrutinize the companies we license our database to in order to protect national security. CE11-00189-000			Private citizen/Landowner	7/25/2011	8/30/2011	11/8/2011	Closed			
		<i>Subject</i>		CONTACT INFO: [REDACTED] Received via e-mail: Monday, July 25, 2011 12:12 PM *Note: This request was initially added to CEII-11-152. CEII-11-152 has been withdrawn. Description of information requested: 2011 Spring Semi-Annual Daily Injection Withdrawal Report from Steckman Ridge. I have requested this form in the past and received it but for some reason it is being withheld. An email was sent to FERC showing what the document content is which is daily injection and withdrawal. The Steckman FERC filing is non public, it does not show the public where this information is location but is has always been in the semi annual report in the past which was submitted to FERC. I have no CEII because I cannot see where the daily injection withdrawal is located other than what was filed in June of 2011 which stated it was the semi annual report which has always contained the daily injection and withdrawal. In the past, the semi annual CEII number always worked but your system has changed. Therefore, I emailed FERC a sample in pdf format which will help you match it up to what I cannot see but believe was in the Steckman Spring inventory CEII...but I cannot see where the daily injection and withdrawal report is hidden. Submittal 20110603-5228. Document Components. This is where I believed it was but it seems it is not there. Tell me what Steckman is using to file the daily injection and withdrawal for this time frame which I believed was filed 06/03/2011 06/03/2011 CP08-15-000. Spring semi-annual storage report of Steckman Ridge, LP under CP08-15. But for safety purposes, please review the PDF which was mailed showing what was received in the past from STECKMAN: date, amount injected, amount withdrawn as shown on the PDF hidden from my eyes at FERC. Statement explaining need and intended use of the information: 153.4 Acres of natural gas resources were stolen and given to a private company for profit claimed as a public need and necessity which had no gas storage lease but taken via Federal Energy Regulatory Commission to make the venture a success which polluted our water, air and soil. We deserve to know details and not be tortured. In your non public documents you have the information I sent via PDF format in emails to FERC. That is what I desire. Thank you. Payment of Fees: \$ Request a waiver or reduction of fees. SpecifiedAmount: 0. Signature: [REDACTED] 7/25/2011 NC dated 07/25/2011; NOIR in OEA for signature. BLG

CE12-00001-000		Hall, Michael	Public Service Company of New Hampshire	10/5/2011	11/7/2011	2/21/2012	Closed			
<p><i>Subject:</i> CONTACT INFO: 603-634-2273 / hallmjx@nu.com. Received via e-mail: Wednesday, October 05, 2011 3:01 PM REQUEST: All CEII filed by FPL Maine Energy Hydro LLC in FERC Docket No. P-11834 since the date of 06/01/2010. Docket regards:FPL Energy Maine Hydro LLC, Upper & Middle Dams Storage Project, FERC Project No. 11834. Statement explaining need and intended use of the information: Public Service Company of New Hampshire (PSNH) is a headwater beneficiary of Upper and Middle Dams. The owner of these dams, Florida Power & Light (FPL), is requesting that PSNH pay for its portion of the "Restoration Projects" at these facilities. PSNH desire s to know all technical and engineering work proposed by FPL in this docket, and intends to use this information to determine whether FPL's requests for payment are appropriate. The information will be used solely by myself and named client in this request. I am in-house counsel for PSNH, my client, named above, is the manager of PSNH hydro operations. Payment of Fees: \$ I agree to pay all applicable fees. Signature: Michael J. Hall. Date: 10/5/2011 10/12/2011 - NC Completed 12/8/2011 - Awaiting Order (JW) 1/11/2012 - Waiting on Order (JW) 2/07/2012 - NOIR in OEA awaiting signature (JW) 2/10/2012 - NOIR Completed (JW) 2/16/2012 - Release Letter in OEA awaiting signature (JW) 2/21/2012 - Release Mailed (JW)</p>										
CE12-00002-000		Fagan, Robert	Synapse Energy Economics	10/5/2011	11/3/2011	2/21/2012	Closed			Y
<p><i>Subject:</i> CONTACT INFO: 617-453-7040 / rfagan@synapse-energy.com. Received via e-mail: Wednesday, October 05, 2011. Description of information requested: FERC Form 715 Part 1, 3, 4, 5 and 6 for PJM, MISO, ISO-NE, NYISO, Mid-Continent Area Power Pool (MAPP) non-MISO area, SPP, Entergy, TVA and Southern Company. Power flow model data (Pt. 2 of Form 715)) are not required at this time. Statement explaining need and intended use of the information: We are technical consultants to the NGO stakeholders in the EIPC collaborative process. We review and analyze future resource and transmission planning cases. We use in particular the maps, diagrams (Pt. 3), and descriptions of system evaluation (Pt. 6) to help understand generic flow patterns, infrastructure constraints, and system capabilities that affect long-range resource planning. For other utility-sector clients, we also use this information to understand the fundamental system information to inform our technical assessment of regional and state-based resource planning. Additional company information is available at www.synapse-energy.com. Mr. Fagan of Synapse has previously been granted CEII clearance (FERC Docket CE06-213-000) for work for a different client in 2006 to access FERC 715 information.. Payment of Fees: \$ I agree to pay all applicable fees. SpecifiedAmount: 0 Signature: Robert M. Fagan. Date: 10/5/2011 10/12/2011: NC Completed (JW) Waiting on Order: 12/8/2011 (JW) Waiting on Order: 1/11/2012 (JW) NOIR in OEA awaiting signature: 2/07/2012 (JW) NOIR Completed: 2/10/2012 (JW) Release Letter in OEA awaiting signature: 2/16/2012 (JW) Release Letter mailed 2/21</p>

Per my discussion with Jeff Kaplan, a determination has been made that the each of the individual identified in your e-mail must submit an official CEII request and Non Disclosure Agreement. This is necessary because they are not employed by the Oak Ridge National Laboratory and therefore they can not be processed as a Federal Requester. Pursuant to article 3 of the general non disclosure agreement 'A Recipient may only discuss CEII with another Recipient of the identical CEII'. Therefore, each individual should indicate on their request form that they are seeking to obtain Form 715 data for all areas. *NOTE: This requester is working with Mr. Josef De Vaughn Allen, of Oak Ridge National Laboratory, a Federal requester who has already been approved for all Form 715.</p> <p>OCNR in with Attorney sent 10-27-2011 (TH) OCNR sent on 11-3-2011 (TH) waiting on order 12-5-2011 NOIR In OEA NOIR Sent on 1-5-2011</p>

<i>Subject:</i> CONTACT INFO: 3018545574 / mbogus1@umbc.edu. Received via e-mail: Tuesday, November 29, 2011 9:19 PM Description of information requested: GIS map of electric grid including generation plants, substations, transmission lines within the State of Maryland. Statement explaining need and intended use of the information: To be used for dissertation research on the effect of network externalities (congestion and interconnectivity) on critical infrastructure hazard losses. I will investigate 6 critical infrastructures: transportation, communications, energy, water and waste water, public health and public safety systems within the State of Maryland to discover the effects of network externalities on estimated disaster losses. Payment of Fees: \$ Request a waiver or reduction of fees. SpecifiedAmount: 0. Signature: Mary J. Boguslaw. Date: 11/29/2011. ADDITIONAL INFORMATION: Wednesday, November 30, 2011 12:19 PM. Yes, I believe the information described in the 715 reports is what I am requesting: generation plants, substations, and transmission lines, except I would like to have maps of existing transmission lines, not those which are planned and not built. I do understand the sensitivity of this mapping data and will safeguard the information. I plan to use it for network analysis only and will exclude it from the dissertation document. My original request went to the PJM Connector web site. GAL STATUS: NC dated 12/14/2011. (BLG)

CE12-00037-000	[REDACTED]	Franklin, Clifford	Westar Energy, Inc.	1/17/2012	2/14/2010	3/20/2012	Closed			Y

Subject: CONTACT INFO: 785-213-9722 / clifford.franklin@westarenergy.com. Additional information received: January 17, 2012 (Form 715 - ALL) Description of information requested: Most recent data suitable for Generation marketing. CEII information; specifically, Form 715 information filed with FERC in calendar year 2008 or 2007. Specifically, we would like power flow cases text files (.raw format) with all supporting files (.sub, .mon, .con) files listing super areas, monitored facilities, and contingency input files. All cross reference files listing power flow bus numbers with either long bus names and EIA Plant Codes. The requested power flow and supporting files is requested for SPP, MRO, ERCOT, FRCC, NPCC, SERC, FRCC, and WECC. A price is requested for a package containing all regions and priced by each individual region separately. The assumption is that it is easier to download all 715 data to a CD than it is to individually select and download specific regions. Statement explaining need and intended use of the information: The power flow information will be used to support generation marketing at Westar Energy. This includes but is not limited to: analyzing/understanding flowgate constraints, understand reliability standard changes, understand market risks associated with FTR/congestion/LMP/etc, understand market rule changes associated with congestion or TLRs, and gain a broader understanding of the bulk power delivery system. Payment of Fees: \$ Request a waiver or reduction of fees SpecifiedAmount: 0

Subject: Electronic CEII Request Form

I filled out an Electronic CEII Request Form last week requesting FERC 715 data. I forgot to attach the attached document pertaining to previous FERC CEII approval (CE09-30)I received in December 2008. Is there any way to attach this to my pending "Electronic CEII Request Form" or is it relevant in FERC processing my new/similar CEII request for updated information? Hope all is well at FERC!

CE12-00042-000		Munger, Edward (MEDIA)	The Daily Gazette	1/25/2012	2/22/2012	3/20/2012	Closed			

Subject: CONTACT INFO: 518-347-1908 / emunger@dailygazette.net. Received via e-mail: Wednesday, January 25, 2012 10:34 AM. *NOTE: This request is for two documents. Description of information requested:(1) Submittal 20110930-0337, New York Power Authority submits the incident report following the activation of the Emergency Action Plan Type B at the Blenheim-Gilboa Pumped Storage Power Project under P-2685. (2) Description of information requested: Submittal 20120118-0370 New York Power Authority submits Emergency Action Plan in the Event of Dam Failure for the Blenheim-Gilboa Pumped Storage Project under P-2685. Statement explaining need and intended use of the information: Residents and public officials living and/or representing residents downstream of the New York Power Authority's Blenheim-Gilboa Pumped Storage Power Project (P-2685) have been denied this document by the New York Power Authority, according to information and belief. Those requests and others relayed verbally to the Daily Gazette evince the importance of providing the public with an understanding of how NYPA reacted to the devastating flooding that overtook communities in the wake of Hurricane Irene on August 28, 2011. The New York Power Authority has already acknowledged the need to fall back on several backup power measures in order to open the Tainter Gates to relieve pressure and avoid the potentially catastrophic overtopping of the earthen dam that holds back roughly 5 billion gallons of water looming over the Schoharie Valley communities. The desire to review this information was voiced by numerous residents as well as NY State Assemblyman Peter D. Lopez, R-Schoharie, during a Jan. 19, 2012 public hearing held by NYPA and conducted by its regional manager Lynn Hait in Schoharie, NY. I do not believe information that would be revealed, and relayed in a newspaper story, would compromise the safety or security of this facility for several reasons. First, during the Jan. 19, 2012 meeting, most if not all relevant components of the dam, as well as a general description of the pumped storage power project's workings, were discussed before more than 160 members of the public. Second, the facility is clearly visible to the public. The power station itself is visible from the western side of the lower, public reservoir accessible for fishing and other recreational activities. And, the earthen dam and tainter gates are equally visible to the public from another public fishing access point directly downstream from the earthen dam. In other words, the public is already familiar with the general components of the facility and dam and its location and to my knowledge the New York Power Authority has conducted its own security and has not been the focus of any threats nor terrorist activity. The information, if provided, would be reviewed for the purpose of generating a newspaper story outlining the actions and/or inactions of staff and management at the Blenheim-Gilboa Pumped Storage Power Project. The value of reporting this information clearly fits our mission at the Daily Gazette to provide an important account of NYPA's capabilities in regards to emergency situations as well as the adequacy of the facility's emergency plans. Payment of Fees: \$ Request a waiver or reduction of fees SpecifiedAmount: 0. Signature: Edward W. Munger Jr. Date: 1/25/2012.

1/31/12 NC completed' waiting on order (VS)

3/12/12 waiting for additional information from the requester; he received most of his request from the submitter, waiting to see if he still needs the rest. Jenny will send an email to the requester. (VS)

3/20/12 Dear Mr. Munger:

This is to confirm our telephone conversation earlier today regarding your Critical Energy Infrastructure Information Request No. CEII-12-42. You told me that you received the information you needed directly from New York Power Authority, the submitter, and you agreed that the request could be closed. I told you that you if you need any additional information you can always file a new request through our web site.

If you have any questions or concerns about this matter, please feel free to get in touch with me.

Sincerely,

Jenny Knopinski

<p><i>Subject:</i> CONTACT INFO: DonD@JDSALaw.com. Received via e-mail: Thu 2/2/2012 10:56 AM. REQUEST: Records showing the design, construction and cost of the "modified habitat measures" implemented at the lower end of the Chelan River as referenced in Chapter 8, section 3.2, Lake Level OQeration-Late and High Runoff Conditions, located at page 8-5 of the October 8, 2003, Comprehensive Plan for the Lake Chelan Project No. 637. Chelan PUD has identified the material as submittals 2007 1221-0126 through 0131 (6 parts) as shown on the attached search results. TYPE OF DOCUMENT: E-library accession numbers: 20071221-0126 through 20071221-0131(Lake Chelan, P-637). Statement explaining need and intended use of the information: Save Lake Chelan, LLC is investigating the Public Utility District No.1 of Chelan County's ability to raise the lake level of Lake Chelan according to the proposed timeline contained in its lake level operation conditions. One of the factors is the volume of water that could be discharged downstream without harming the "modified habitat measures" constructed at the lower end of the Chelan River. Thus, the request for records showing the design, construction and cost of those measures. 2/9/2012: NC Completed (JW)</p>

CE12-00052-000		Askey, Charles	Pike Energy Solutions, LLC	2/17/2012	3/19/2012	3/29/2012	Closed			Y

Subject: CONTACT INFO: caskey@pike.com/ 704-510-3153 (O) 704-236-2953(M). Received via e-mail, 2012. *NOTE: Previously approved for Form 715 in CE10-63 and CE11-109. Current request: Form 715 (ALL). Description of information requested: Pike Energy Solutions performs system studies on behalf of generation developer / owners, Transmission Providers, Transmission Owners, and merchant transmission developers. PES is seeking to obtain the most recent power flow models and system information contained in the FERC 715 Submittals. We received and are currently using FERC 715 information that was submitted in 2009 and 2010.

Statement explaining need and intended use of the information: Pike Energy Solutions (PES) under contract from its various clients, performs staff augmentation services, feasibility studies, studies of alternatives, generation interconnection and system impact studies. In order to perform these studies, I need access to the power flow models and system information in the region in which the client is seeking transmission / interconnection service. I have current activities in TRE, MRO, RFC, WECC, SPP, SERC and FRCC. I have a variety of clients including wind, solar and biomass developers that are requesting feasibility studies. I would prefer not to provide contact information for my developer clients, because I've entered into non-disclosure agreements with them. However, I am under contract with a Transmission Provider - Georgia Transmission Corporation (GTC) - to perform a variety of system studies and I have signed the FERC Code of Conduct and the SERC Non-disclosure agreement. With GTC I have access to the NERC MMWG Cases in addition to the Southern internal models; however, because of the previously mentioned agreements, I am not able to use these cases/models to perform work for other clients.

A contact at GTC is:

CE12-00055-000		Isaacson, Mark (GROUP)	Miller Hydro Group	2/22/2012	3/23/2012	6/29/2012	Closed			
<p><i>Subject:</i> CONTACT INFO: (207) 772-6190 / misaacson@competitive-energy.com. (GROUP REQUEST) REQUESTERS: 1. Mark Isaacson 2. Devin McNeill dmcneill@competitive-energy.com, 3. Nancy J. Skancke njskancke@gkrse-law.com. Received via e-mail: Wednesday, February 22, 2012 3:32 PM. Description of information requested: FERC Project No. 11834: (1) 20110624-0326: "Letter to NextEra Energy Maine LLC re the 2/22/11 letter submitting documentation in response to the 12/29/10 letter requesting additional information regarding Work Packages A, B and C for the Upper Dam Renewal Project under P-11834," dated June 16, 2011; (2) 20110829-5006: "Responses to the June 16, 2011 Comment Letter from FERC for the Upper Dam Renewal Project, P-11834-ME," dated August 26, 2011; received August 29, 2011. (3) 20111017-5024: "Follow-up from October 4, 2011 Conference Call and Submittal of Updated Project Schedule for the Upper Dam Renewal Project under P-11834," dated October 14, 2011; received October 17, 2011; (4) 20111215-5111: "Construction-Phase Operating Plan for the Upper Dam Renewal Project, Spring 2012 through Fall 2013 FERC Project No. P-11834-ME," dated December 15, 2011; received December 15, 2011. (5) 20111215-5114: "Licensee's Quality Control Inspection Plan, FERC Submittal for the Upper Dam Renewal Project under P-11834," dated December 15, 2011; received December 15, 2011. (6) 20120104-0401 through 20120104-0416: "NextEra Energy Maine Operating Services, LLC submits the accompany design work packages detailing the design plans for the Upper Dam Renewal Project under P-11834." 16 Parts, dated December 15, 2011; received December 20, 2011. Statement explaining need and intended use of the information: Miller Hydro Group ("Miller"), Topsham Hydro Partners Limited Partnership, Great Lakes Hydro America, LLC, Rumford Falls Hydro, LLC, and Public Service Company of New Hampshire operate licensed projects downstream of the Upper and Middle Dams Storage Project (FERC Project No. 11834, "Storage Project") on the Androscoggin River and are signatories to the 1983 Androscoggin River Headwater Benefits Agreement ("Agreement") that relates to the Storage Project. FPL Energy Maine Hydro LLC ("FPLE") is the licensee of the Storage Project and a signatory to the Agreement. FPLE has proposed reconstruction work at the Storage Project that it claims is required to meet the FERC Part 12 dam safety requirements. Miller understands that there have been ongoing conversations between FPLE and the FERC Staff relative to that work. However, FPLE has refused to provide copies of the documents and communications between it and the FERC Staff, which documents are designated CEII (and, therefore, not otherwise publicly available). Miller and the other downstream project operators are directly affected by actions taken or to be taken by FPLE at the Storage Project with respect to the reconstruction work. Further, FPLE contends (in its Complaint filed in FERC Docket No. EL10-53), Miller and the other downstream project operators would be responsible for payment of the overwhelming majority of the costs of such work. Therefore, Miller has a substantial interest in obtaining the CEII documents hereby requested. Payment of Fees: \$ Notify me if the amount exceeds the specified amount SpecifiedAmount: 250. CE12-00062-000 [Redacted] Ottem, Thomas (GROUP) Yes Energy 3/8/2012 4/9/2012 4/19/2012 Closed Y

Subject: CONTACT INFO: 303-250-4999 / tom@yesenergy.com. From: tom@yesenergy.com [mailto:tom@yesenergy.com] (FORM 715 - ALL). Description of information requested: Yes Energy provides market analysis services to participants in the North American energy markets. Our current clients include utilities, energy traders, and investment banks. We are also in discussion with regulatory agencies who wish to analyze market participants using our products. We provide these services by collecting, storing and organizing publicly available data in order to present it in ways that make it easier analyze and understand. We also provide customized consulting services to market participants to help them understand market trends and to stay abreast and in compliance with various FERC and ISO regulations. A very important aspect of effectively working with the pricing in the energy markets is understanding the locational aspect of LMPs. Market participants need to know where prices are high or where congestion is occurring now or where congestion has occurred historically. Since the ISOs do not generally post locational data (or post incomplete or low-quality data) for their price nodes market participants (or vendors that serve market participants) need to develop their own geographical data for the markets. Our Need for CEII In order to serve our clients effectively, we need access to reliable information on where physical energy infrastructure is located to better understand and visualize current and history market trends. Resources that help illuminate these data are often classified as CEII. Based on current client requests, we have these specific needs for CEII: We have recently received requests to start providing data and consulting services related to the new markets that will be opening in the Southwest Power Pool and related to Entergy's plan to join the Midwest ISO. SPP publishes maps of their transmission system that are available if you have been granted access to CEII. We frequently receive requests related to CAISO pricing and there are very few useful resources for CAISO that are publicly available. We have also had some requests to assist clients with consulting and data services related to transmission model inputs for models like UPLAN, Aurora, PROMOD, GridView. These often require access to power flow cases - like those published by MMWG. We are aware that in each of these types of data will require us to sign additional non-disclosure agreements with the data provider, but in each of these cases CEII access is required to even have that discussion. Statement explaining need and intended use of the information: Our Intended Use for CEII We will use CEII information as a resource for identifying relationships between physical market infrastructure and market activity. We do not need, nor do we want, to publish the actual CEII data itself. We would simply be using the CEII covered information to present market views derived from that information. We may also use CEII information in consulting projects for clients. The mostly likely application for this will be detailed analysis using the data that we provide via our software products. Another possible application in the future would be taking outages reported by the ISOs and linking those outages to power flow buses in order to provide outage data in a format that can be easily read into forecasting models. We would only provide these services to clients that also have CEII access. Who Needs Access Yes Energy has offices in Colorado, Massachusetts, and Pennsylvania. The staff members that would need CEII access are located in Boulder, CO. This request is being made on behalf of Yes Energy and the company would like to receive access for all employees in its Boulder office. The requestor, Tom Ottem, is authorized to seek the CEII information on behalf of the organization and all the requesters agree to be bound by the NDA. At this time the employees of Yes Energy who would be given access once they have signed the NDA are as follows: Michael McNair, President, Isaac Velander, Product Director Gary Meisner, Data Manager. Tom Ottem, Senior Product Manager. Payment of Fees: \$ I agree to pay all applicable fees. SpecifiedAmount: 0 Signature: Thomas D. Ottem. Date: 3/5/2012. Subject: Re: REQUEST FOR CLARIFICATION/ADDITIONAL INFORMATION: Thank you for your reply. I left a message for you with FOIA-CEII Service Center, but I thought an email might be useful as well. Right now we have three specific data sources that we need to request. 1.We would like to purchase an SPP Transmission Map. 2.We would like to obtain the MMWG powerflow cases3.We would like to obtain the CAISO full network model. We have been told that we need CEII certification to obtain the first two. (We also need to sign the appropriate non-disclosure agreements with SPP and the MMWG.) I am not yet sure if CEII is required for the third or if they have different requirements. If you need additional details, I'd be happy to provide them. Here are two additional contacts that you can use to verify my request. Michael McNair, President of Yes Energy. michael@yesenergy.com. 303-993-2773. ADDITIONAL INFORMATION/CLARIFICATION RECEIVED VIA TELEPHONE: March 8, 2012. Per telephone discussion with Mr. Ottem he clarified that he is seeking to obtain Form 715 data for all areas.

Description of information requested: Natural Gas Pipeline Flow Diagrams & Associated Information
FERC Form No. 715 Annual Transmission Planning and Evaluation Report. Statement explaining need and intended use of the information: The information is needed to support electricity and gas market analyses, benefit/cost analyses, transmission planning, integrated resource planning, and other fuels and power market analyses. The results of these analyses are used by our clients, for example, to support decision making and/or support the preparation of testimony offered in regulatory and/or legal proceedings. Payment of Fees: \$ Notify me if the amount exceeds the specified amount SpecifiedAmount: 1000.
Signature: William H Babcock. Date: 3/22/2012. ADDITIONAL INFORMATION RECEIVED VIA E-MAIL: Friday, March 23, 2012 11:10 AM. I have reviewed the Form 567 data that is publicly available and, at this time, I believe the publicly available data should be sufficient to meet our needs. Hence, I am withdrawing my request to obtain the 567 data that is classified as CEII.
Regarding the 715 data, I am seeking access to data for all regions and areas. Regarding contact information for a person that can be used to verify the information on your CEII request form, my supervisor is Ron Norman and his contact information is listed below:

Ron Norman

<p><i>Subject:</i> CONTACT INFO: nsriyas@yahoo.com. (Minisink) Delayed processing due to technical difficulties: July 2, 2012. *This request for the material for same material as [REDACTED], and [REDACTED] Description of information requested: Information related to CP11-515-000. See explanatory statement - Statement explaining need and intended use of the information: I am an intervenor in the Minisink Compressor Station Docket No. CP11-515. In March and April 2012, [REDACTED] rias and [REDACTED], both intervenors, filed requests for information designated as CEII by Millennium. On June 4, 2012, [REDACTED] received a letter from FERC of intent to release CEII information but no data has been received. [REDACTED] has finally received a response but no data as of yet. Because the information is classified as CEII and only [REDACTED] has executed an NDA, he is not permitted to share the information with other residents. Because Millennium would not accommodate a prior request elsewhere to grant access pending execution of an NDA, to CEII information that is already being released, I seek to initiate the CEII process at this time to obtain the information. FERC staff relied on this information in preparing the EA in this docket, and I require access to the information to comment meaningfully on the FERC EA and any eventual decision in this case. It is unfortunate that FERC staff must spend limited staff resources processing multiple CEII requests because of Millennium's refusal to accommodate a more reasonable alternative. Please release this information as expeditiously as possible. A ruling in Docket No. CP11-515 is imminent and lack of access to this information will interfere with my due process rights to participate fully and meaningfully comment on the pipeline proposal.</p> <p>7/9/12 NC completed; waiting on order (VS) 8/2/12 NOIR in OEA (VS) 8/3/12 NOIRSENT VIA EMAIL MAILED (VS) 8/28/12 Release Letter in OEA awaiting signature (JW) 8/28/12 Release Letter mailed (JW)</p>

<p><i>Subject:</i> CONTACT INFO: 302-504-4901 / pjones@montereyllc.com. RECEIVED VIA E-MAIL: Mon, Jul 16, 2012 at 2:04 PM Description of information requested: This is an organizational request for all employees acting on behalf of Monterey MA, LLC. Monterey MA, LLC requests to be granted access to the Critical Energy Infrastructure Information contained in the most recent FERC Form 715 filings of the control areas within Reliability First Corporation, the Midwest Reliability Organization, The Northeast Power Coordinating Council, the SERC Reliability Coordinating Council, the Texas Regional Entity, the Florida Reliability Coordinating Council and the Western Electric Coordinating Council, Statement explaining need and intended use of the information: Monterey MA, LLC is an electricity marketer which provides electricity throughout the Midwest ISO, PJM Interconnection, California ISO, ERCOT and the New York ISO. The Critical Energy Infrastructure Information contained in FERC Form 715 helps Monterey MA, LLC to provide electricity to the power pools at the most economical rates. Payment of Fees: \$ I agree to pay all applicable fees. SpecifiedAmount: 0. Signature: Peter Jones Date: 7/16/2012.</p> <p>7/18/12 NC completed; waiting on order (VS) 8/20/12 NOIR in OEA (VS) 8/22/12 NOIR sent(VS) 8/22/12 Release letter in OEA (VS) 8/29/12 Release letter mailed (JW)</p>										
CE12-00146-000		(Minisink)		7/17/2012	8/17/2012	8/9/2012	Closed			
<p><i>Subject:</i> *This request for the material for same material as [REDACTED] Description of information requested: Information related to CP11-515-000. See explanatory statement - Statement explaining need and intended use of the information: I am an intervenor in the Minisink Compressor Station Docket No. CP11-515. In March and April 2012, [REDACTED] both intervenors, filed requests for information designated as CEII by Millennium. On June 4, 2012, [REDACTED] received a letter from FERC of intent to release CEII information but no data has been received. [REDACTED] has finally received a response but no data as of yet. Because the information is classified as CEII and only [REDACTED] has executed an NDA, he is not permitted to share the information with other residents. Because Millennium would not accommodate a prior request elsewhere to grant access pending execution of an NDA, to CEII information that is already being released, I seek to initiate the CEII process at this time to obtain the information. FERC staff relied on this information in preparing the EA in this docket, and I require access to the information to comment meaningfully on the FERC EA and any eventual decision in this case. It is unfortunate that FERC staff must spend limited staff resources processing multiple CEII requests because of Millennium's refusal to accommodate a more reasonable alternative. Please release this information as expeditiously as possible. A ruling in Docket No. CP11-515 is imminent and lack of access to this information will interfere with my due process rights to participate fully and meaningfully comment on the pipeline proposal. *This request is the same as: CEII-12-131, CEII-12-133, CEII-12-134, CEII-12-136, CEII-12-138, CEII-12-141, CEII-12-142.</p>

CE12-00171-000		Germer, Franz (Group)	Myersville Citizens for a Rural Community, Inc.	9/5/2012	10/3/2012	11/1/2012	Closed			
<p><i>Subject:</i> CONTACT INFO: 2404056452/ franz.m.gerner@gmail.com. Received via e-mail: 9/5/2012. Statement explaining need and intended use of the information: Group request for Myersville Citizens for a Rural Community, Inc. members Franz M. Germer, Ms. Tammy Mangan, Mr. Theodore Cady, legal representative Ms. Carolyn Elefant and Ms. Melissa Alfano (Law Offices of Carolyn Elefant). The non-disclosure agreement has been submitted by all these persons previously. On July11, 2012, FERC granted the access to CEII information under CEII 12-107, Volume II, Exhibits G, G-I, and G-II filed in FERC Docket No. CP12-72, including flow models and flow charts. On August 13, 2012, DTI submitted under Accession No. 20120814-5019 a revised Exhibit G and flow model was submitted that includes the Mullet compressor station and the DTI's downstream pipeline system up to the proposed Myersville compressor station, including the Exhibit G and flow model both with and without the proposed compressor stations. Since this is an updated version of the original CEII information, we request access to this information as well. As previously stated in the request of access to Volume II, Exhibits G, G-I, and G-II filed in FERC Docket No. CP12-72, Myersville Citizens for a Rural Community, Inc. was founded in opposition to the proposed gas compressor station in Myersville, MD. In order to be able to evaluate and submit possible alternatives, including routing of the natural gas via alternate pipelines or alternate measures like additional short pipeline segments, which were dismissed by Dominion Transmission, Inc, access to this data is critical. Payment of Fees: \$ Request a waiver or reduction of fees. SpecifiedAmount: 0 Signature: Franz Germer. Date: 9/5/2012. 1/15/13- Submitters notified of additional requester - Richard B. Kuprewicz. 1/16/13-Additional requester approved.</p>

Description of information requested: CEII Form 715 data from all reporting entities in teh North American Electric Reliability Corporation for 2011.

Statement explaining need and intended use of the information: AWS Truepower (AWST) currently holds a license agreement with Commonwealth Associates Inc. (CAI) for Transmission 2000 PFlow software, which includes annual updates to loadflow base case information. As loadflows are subject to FERC Critical Energy Infrastructure Information (CEII) regulations, in order for us to receive the data, we are required to receive approval from the appropriate entities. The data is used to complete studies that inform renewable energy clients of appropriate points of interconnection and project capacity prior to entering the generation interconnection queues. Additionally, AWST would use the data for internal development, leading to extended support for generation projects, utilities, and balancing authorities.

---------------	-----------------	------------------	--------------------	-------------------	-----------------	--------------------	---------------	----------	------------	------------

Although analysis results are supplied, no data are ever provided unless we have received proof of CEII authorization for the client by person. All electronic data is housed on a secured server, and all hardcopy material is housed in a locked cabinet; access to both is limited to those with authorization. We would continue this policy for new data and would also implement any other processes FERC requires.

----------------	--	----------------	-------------	-----------	-----------	----------	--	--	--	---

Subject: CONTACT INFO: 4159775710 / casey.roberts@sierraclub.org. Additional information received via e-mail 1/11/13 after 5Pm. Sent to GAL: 1/18/13.
REQUEST: FERC Form 715, as filed each year for 2010-2012, by the Southwest Electric Power Company, and Arkansas Electric Cooperative Corporation. Statement explaining need and intended use of the information: Sierra Club is an intervenor in an Arkansas Public Service Commission docket (12-008-U), in which the reliability of the SPP system absent the Flint Creek coal plant has become an issue. In order for Sierra Club's expert on transmission to evaluate the reliability implications of retirement of this plant, he needs the data in Form 715. Payment of Fees: \$ Request a waiver or reduction of fees
SpecifiedAmount: 0. Signature: Casey Roberts. Date:

GAL STATUS: GAL request OEA to call requester to amend/modify request. Arkansas and SWEPCO does not file Form 715. SWEPCO is within SPP and Arkansas is under 100 KV and is not required to file a Form 715.

		<p><i>Subject:</i> CONTACT INFO: ashley.shrader@aee-renewables.com. Additional information received via e-mail: Fri, Feb 15, 2013 at 4:52 PM. Received via e-mail: Wed, Feb 13, 2013 at 4:40 PM REQUEST: FERC Form 715 (map of transmission lines/substations in PJM Territory) Statement explaining need and intended use of the information: I, Ashley Shrader, am responsible for finding sites in Delaware that are near transmission and distribution lines for solar project development. The solar projects are between 1 and 10MW in size, and therefore could have an impact on the surrounding grid. I will keep the document on my laptop for use only, as I am the only US project development employee at AEE. In order to do my job effectively, I must be able to find and evaluate sites based on their proximity to transmission lines. I would use the maps to locate sites in "strategic" areas to enhance grid efficiency. Signature: Ashley Nicole Shrader. CE13-00123-000		Gerner, Franz (GROUP)	Myersville Citizens for a Rural Community	5/23/2013	6/21/2013	6/21/2013	Closed			
<p><i>Subject:</i> CONTACT INFO: franz.m.gemer@gmail.com Received via email: Thu, May 23, 2013 at 11:34 AM. REQUEST: Docket number CP13-113, CEII information of Exhibits G, G-I, G-II, including capacities and flow rates, acc no. 20130401-5047. Statement explaining need and intended use of the information: Myersville Citizens for a Rural Community (MCRC) was founded in opposition to the proposed gas compressor station in Myersville, MD. MCRC suspects that the capacity of the gas compressor station in Myersville is overbuilt and linked directly to the Cove Point Expansion Project CP13-113. In order to be able to examine a possible connection between the two projects, this information is critical. Furthermore, MCRC has been intervenor in CP12-72 and is intervenor in CP13-113. As president of MCRC, I request that besides myself, MCRC's Vice President Ann Nau, MCRC's Secretary Theodore Cady, MCRC's Treasurer Tammy Mangan, as well as MCRC's counsels Carolyn Elefant and Melissa Alfano receive access to this information. The non-disclosure agreements will be sent by email to the CEII email address. Signature: Franz Gerner. Date: 5/23/2013. CE13-00142-000		Beltz, Robert	WIXOM LAKE ASSOCIATION	6/28/2013	7/29/2013	9/30/2013	Closed			
<p><i>Subject:</i> CONTACT INFO: P10666@AOL.COM. Previous request CEII-12-177. Received via e-mail: Fri, Jun 28, 2013 at 2:44 PM Description of information requested: Accession documents for P-10808: 20130205-0481, 20130205-0482, 20130205-0483 20130205-0484, 20130205-0485. Statement explaining need and intended use of the information: PER MY LETTER TO THE SECRETARY OF JUNE 19, 2013. *Text - from 6/19/13 letter - Over 8,000 Michigan residents live on homes fronting the water of Wixom Lake. There are also three Marinas and many other businesses on the water. Boyce Hydro, by its Trustee and engineer, appeared before the annual meeting of our owners association, a Michigan non-profit corporation, last year and advised that PERC was requiring expensive improvements to the dam's spillways to provide for protection from a 10,000 year flood. The construction will cause the lake to be lowered 8' during the summer months of 2014 and 2017. FERC was presented as unreasonable and unyielding requiring unnecessary improvements at great expense for an eventuality that will never occur. Boyce also advised that it expected the lake lot owners to help with the cost of the improvements. The veiled threat of closing the dams and draining the lake was on the table. Lowering our lake level would bankrupt many businesses and prohibit the use of the lake by all residents during the two summers involved. Docks would be high and dry and property values will plummet. The likelihood of any property transactions during such draw downs is slight. We need help and "the rest of the story." If the lakes must be lowered it should occur during the off season. Boyce's Trustee said it must be during the summer because the rain fall is the lowest at those times. Is this the reason is it a ploy to force money from lake front owners to pay a private business to improve its facility? We don't know and the reason for our request. For you to understand our dilemma I'm enclosing an article from the Midland Dailey News of May 23,2013. We need the information sought to check the science ofBoyce's claims. In particular with Boyce's water management plan during drawdowns SpecifiedAmount: 0. Signature: C. ROBERT BELTZ. Date: 6/28/2013. Received NDA for additional requester: Donald Zakett - 7/3/13.</p> <p>GAL STATUS: NC dated 7/12/013. BLG/TH</p>

		<p><i>Subject:</i> CONTACT INFO: Received via e-mail: Tue, Jul 2, 2013 at 5:07 PM. REQUEST: I would like to review all documents related to SCE's recent application for approval of construction on Kern River No. 3, P-2290. The application is document 20130625-0424 in FERC's eLibrary. Statement explaining need and intended use of the information: SCE has applied to approval from FERC for a major construction project on the Kern River No. 3 hydroproject, P-2290. I would like to review the application to identify the factual and legal bases for the request in order to determine whether to object to the application as a member of the public. I am a local whitewater boater on the stretch that KR3 diverts water from. I am also a criminal appellate lawyer and have handled many cases involving sealed (confidential) information, including information regarding jurors, sex assault victims, and gangs that was withheld from public view. Frankly, I am uninterested in any engineering nitty-gritty contained in SCE's application, but I surmise that SCE must have described in its application to the Commission the nature of its proposed construction project and the practical consequences of it, as well as elucidating its legal grounds for its request with reference to the FPA, FERC regulations, and its FERC license. With that information, I could make an informed decision on whether to object or not. I would prefer a simple electronic copy of SCE's application, but I will settle for and pay for a hard copy if the Commission prefers that approach. Payment of Fees: \$ I agree to pay all applicable fees. SpecifiedAmount: 0. Signature: Brett Harding Duxbury Date: 7/2/2013. (Accession number - 20130625-0424 - 06/18/2013 - P-2290-000 - Southern California Edison Company submits a request for approval to construct for the Sandbox, Intake, and Fairview Dam Rehabilitation Project of the Kern River Project 3 under P-2290. 		<p><i>Subject:</i> CONTACT INFO: nseitanakis@cx-energy.com. Received via e-mail: Thu, Jul 11, 2013 at 2:12 PM. REQUEST: We are filing a CEI request to gain access to the Annual System Flow Diagram Report FERC Form 567 from 2010 through 2012 for the following natural gas pipeline companies: National Fuel Gas Company, Tennessee Gas Pipeline Company, and UGI Corporation. Statement explaining need and intended use of the information: CX-Energy educates and organizes landowners into groups of committed acres ready to lease and markets those acres to oil and gas companies interested in lease acquisitions. We are requesting Form 567 because it contains information regarding pipeline flow direction, capacity, and pressure. Our intent is to analyze this information and use the results as a component in our efforts to market acreage for oil and gas companies interested in leasing for oil and gas exploration. These companies find value in being provided with information detailing the capabilities of existing natural gas pipeline infrastructure. Signature: Nicholas J. Seitanakis. Date: 7/11/2013.</p> <p>7/16/13 NC in attorney office (VS) 7/16/13 NC completed (VS) 10/1/13 NOIR in OEA awaiting signature (JW)</p>

CE14-00004-000		Kwok, Gabriel	Energy and Environmental	10/10/2013	11/8/2013	3/21/2014	Closed			Y
		<p><i>Subject:</i> CONTACT INFO: gabe.kwok@ethree.com. Additional clarification received: 10/11/13. Additional information received via e-mail: Wed, Oct 9, 2013 at 6:26 PM. (Form 567 -All 2012 - 2013) Description of Information Requested: We are requesting Form 567 for gas pipeline companies located across the Western Interconnection. Example pipelines include Black Marlin Pipeline Company, Discovery Gas Transmission LLC, and El Paso Natural Gas Company. Statement explaining need and intended use of the information: Energy and Environmental Economics (E3) has been retained by the Western Interstate Energy Board (WIEB) and the State Provincial Steering Committee (SPSC) to conduct a Western Natural Gas-Electric Assessment that addresses two questions: (1) Will there be adequate natural gas infrastructure to meet the long-term needs of the electric industry in the Western Interconnection? And (2) Will the gas system have adequate short-term operational flexibility to meet electric industry requirements in the Western Interconnection? To conduct this study, E3 will need data on natural gas supply and demand, including pipeline capacities and peak demand for regions across the Western US. E3 intends to use Form 567 to characterize existing pipeline capacity and the demand placed on the system at major receipt and delivery points.</p> <p>GAL STATUS: NC dated 01/22/2014. 		<p><i>Subject:</i> CONTACT INFO: ceii@kchydro.com. Additional information received Fri, Oct 18, 2013 at 5:27 PM. Received via web: Thu, Oct 17, 2013 at 3:28 PM. I am requesting two documents visible on eLibrary for project P-6780, and the similar document for project P-606 upon its release (anticipated based on related correspondence). Issuance 20111215-5128, P-6780-000 Dam Safety/Operation Inspection Report by San Francisco Regional Office for the period 09/25/08 to 09/26/11 for Yuba County Water Agency's Deadwood and Owl Gulch Creeks Project under P-6780. Issuance 20090603-0217, P-6780-000 Dam Safety/Operation Inspection Report by San Francisco Regional Office for Yuba County Water Agency's Deadwood Creek Project for the period of June 9, 2005 to September 24, 2008 under P-6780. I have previously been provided following an earlier CEII request the two then-most-recent comparable reports for the P-606 project. Not yet visible on eLibrary, I am requesting: P-606-000 The Report by San Francisco Regional Office for Pacific Gas and Electric Company's 2013 Dam Safety/ Operation Inspection of the Kilarc-Cow Creek Project under P-606. Referenced in: Description: Letter order accepting Pacific Gas and Electric Company's 10/1/13 letter transmitting a plan and schedule for addressing the follow-up items from the 2013 Dam Safety/ Operation Inspection of the Kilarc-Cow Creek Project under P-606. (issuance at: http://elibrary.FERC.gov/dmws/file_list.asp?accession_num=20131011-0319). Statement explaining need and intended use of the information: I would like to make this a group request for disclosure of information to parties supporting the acquisition of these facilities, including insurance underwriters and potential partners, whose names will be submitted prior to the release of such information, at our earliest opportunity. 10/29/13 - Additional requester - Ian Reilly.</p> <p>12/24/13 Release letter in KA office for review (VS) 1/6/14 Release in OEA awaiting signature (JW)</p>

		<p><i>Subject:</i> CONTACT INFO: mcmahanhydro@gmail.com. Additional information received via email: Sat, Oct 19, 2013 at 1:19 PM. Received via email: Received via web: Thu, Oct 10, 2013 at 11:48 AM. REQUEST: Description of Information Requested: I respectfully request access to all CEII documents for FERC docket number P-4093. Statement explaining need and intended use of the information: I am currently in the process of creating a Pre-application document for FERC Project #4093. Subsequently I will be completing a full application for the License to FERC Project #4093. On September 30, 2013 I was authorized by FERC to use the TLP process for completion of the Licensing process. The documents I am requesting access to will be critical for me to have a full understanding of the past and present condition of the project. Andrew J. Statement explaining need and intended use of the information: Preform and process/engineering analysis for client. (Elibrary index sheet info - Accession number 20131101-5127 - 11/01/2013 CP14-17-000 - Columbia Gas Transmission, LLC Submits Application for East Side Expansion Project under CP14-17.)</p> <p>12/18/13 NC in attorneys office (VS) 1/7/14 NC completed; waiting on order (VS) 1/27/14 Letter of Release in OEA awaiting signature (JW) 2/3/14 Release mailed (JW)</p>								
CE14-00044-000		Gasbarro, John (Group)	Cogentrix Energy Power Management, LLC	12/17/2013	1/16/2014	1/31/2014				Y
		<p><i>Subject:</i> Additional information received via email: Mon, Dec 16, 2013 at 9:25 AM. FERC 715 statements for ERCOT, WECC and Eastern Interconnect. GROUP REQUEST. Requesters: 1. John Gasbarro, 2. Sherri Parra, 3. Benjamin Judy, 4. Stephen Sweeney. As an IPP that evaluates M&A and Development opportunities across the US, we are procuring market modeling software to forecast energy prices. These models contain power flow data that is considered Critical Energy Infrastructure Information (CEII) under FERC-715. Pursuant to 18 C.F.R. §388.113, we are seeking to obtain the necessary CEII Certification in order to receive this FERC-715 power flow data from the software vendors (Ventyx and Energy Exemplar). Cogentrix is currently a member of both PJM and WECC.</p>								
CE14-00045-000				12/17/2013	1/16/2014	2/3/2014	Closed			Y
		<p><i>Subject:</i> CONTACT INFO: . Additional information received via email: Dec 16, 2013 at 10:02 AM. Miles of electricity transmission line in Minnesota greater than 34.5 kV. If possible, with information to identify ownership. Data from 1970-2012. If possible, Data from 2005-2012 or most recent at the very least. I think this is available on Form 715. Intent Usage of Information: I need the miles of transmission line in the state to calculate the SF6 emissions for our state greenhouse gas inventory. *Requester was advised that this request would be processed for transmission lines included in the most recent Form 715 submittals. Per Dave Burman - Michigan entities include: Lansing Board of Water and Light, Michigan Public Power Agency Wolverine Power Supply Cooperative. (The three above in the RFC region) Plus MISO, which is in the MRO region.</p> <p>12/18/13 NC in attorneys office (VS) 12/23/13 NC completed 01/14/14 NOIR in OEA awaiting signature (JW) 1/22/14 NOIR e-mailed 1/28/14 Release in OEA awaiting signature (JW)</p>								
CE14-00046-000		Gopalakrishnan, Ashok	Electrocon *International, Inc.	12/17/2013	1/16/2014	1/31/2014				Y
		<p><i>Subject:</i> CONTACT INFO: ashok@electrocon.com. REQUEST: Eastern Interconnection Reliability Assessment Group (ERAG) Multiregional Modeling Working Group (MMWG) power flow and transient stability PSS/E models. Statement explaining need and intended use of the information: Electrocon is working on a project with Oak Ridge National Laboratory to study the impact of high penetration of renewable generation (Wind, PV, etc) on the stability of the electric grid during system disturbances. This project also evaluates protective relaying behavior and the impact relays have on the stability of the network. It will allow assessment of the effectiveness of protection algorithms like out-of-step relaying, and wide-area remedial action schemes. The ERAG model will be the basis for these studies - all protection and transient stability data will be included in this model. The project is a research project, and is funded by the US Dept. (Form 715 - Eastern Interconnection)</p> <p>Release letter - 1/31/14</p>

		<p><i>Subject:</i> ND received via email - 1/25/14. Request for certain documents that Nodal Exchange, LLC has described as Critical Energy Infrastructure Information ("CEII"). To the extent that the requested information does not in fact qualify as CEII, CME is contemporaneously filing a separate request under the Freedom of Information Act. CME Global ("CME") requests a copy of any and all documents containing information regarding any underlying cash markets and deliverable supply analysis for Nodal Exchange, LLC's ("Nodal Exchange") contracts. As background, Nodal Exchange filed its "CFTC Regulation 40.2(a) Certification: Notification of Products Offered for Trading on Nodal Exchange, LLC" with the Commodity Futures Trading Commission ("CFTC") on September 30, 2013. For your convenience, a copy of the publicly available version of Nodal Exchange's filing (without attachments) is attached to this CEII request. As relevant to this CEII request, on page 2 of its filing, Nodal Exchange stated that it was: ... separately submitting "Appendix C" [to the filing] to select DMO staff approved by FERC 1, which demonstrates compliance that the Exchange's contracts are not readily susceptible to manipulation. A description of the underlying cash markets and deliverable supply analysis for the Exchange's contracts is provided in "Appendix C." 1 Information contained in "Appendix C" contains Critical Energy Infrastructure Information ("CEII"), which may only be shared with individuals who have been approved by the FERC to receive such CEII in accordance with the provisions of 18 C.F.R. § 388.113. (Related to: FOIA-2014-37)</p>

CE14-00072-000		Stein, Steven	nFront Consulting LLC	2/4/2014	3/5/2014	3/14/2014	Closed			Y
		<p><i>Subject:</i> Accepted: 2/4/14. Requested: Form 715 All Areas. Intent Usage of Information: nFront desires the Part 2 to 6 FERC 715 data for the purpose of assisting clients with transmission planning and generation strategies and decisions. Our staff is proficient with GE PSLF, PowerWorld, Siemens PTI PSS/E, and Ventyx ProMOD with the transmission access module, all of which use the underlying power flow cases of Part 2 as data sources. We use the data to assess impacts of transmission upgrades (such as those proposed in annual transmission expansion plans, as a result of FERC Order 1000 or as a result of a participant funded upgrade), to identify potential points of interconnection for new generation (e.g., a client is looking at new interconnection points in SPP for connecting a gas fired combined cycle plant), impacts of congestion on transactions (e.g., we are working with other clients to make strategic resource decision based on Entergy joining MISO). In addition to the power flow case models, the Part 3 Maps, Part 4 Planning Criteria, Part 5 Planning Assessment Practices, and Part 6 Evaluation of Transmission System Performance are all necessary to provide the client support – especially at the pivotal point in the energy industry as many Attachment C and FERC Order 1000 compliance filings are underway. We desire the data for all regions as we are currently working with clients in WECC, SPP, Entergy, MISO, PJM and the southeast (SERC/FRCC). While we are not currently working for clients in New York or New England, we have clients who are active in those regions. 3-7-14 - NOIR emailed (JW)</p>

CE14-00098-000		Tan, Xiaohuan (GROUP)	Quanta Technology	3/21/2014	4/18/2014	6/2/2014	Closed			Y
		<p><i>Subject:</i> I am requesting access to CEII under the FERC CEII regulations at 18 C.F.R. § 388.113(d)(4) (2008). Specially I am requesting the access to transmission maps filed as FERC Form No. 715 data by ISO-NE, NYISO, PJM, MISO, SPP, ERCOT, SERC, FRCC, and WECC. I work for Quanta Technology Inc, a fully owned subsidiary of Quanta Services. Quanta Technology regularly conducts transmission planning analysis for TO, ISO, and RTOs. We also occasionally perform transmission analysis for generation companies and developers. My request today is on behalf of prospective clients and existing clients of ISO-NE, NYISO, PJM, MISO, SPP, ERCOT, SERC, FRCC, and WECC that are planning generator developments and transmission upgrades nationwide. (GROUP). Additional requester: Thomas J Gentile - 3/22/14. 5/22/14: NOIR e-mailed (JW) 5/30/14: Release letter in OEA awaiting signature (JW) 01/20/15: Additional Requester Approved Letter mailed (JW)</p>								
CE14-00099-000		Burns, Williard	Sustainable FERC Project/NRDC	3/21/2014	4/18/2014	5/30/2014	Closed			Y
		<p><i>Subject:</i> The information requested was copy of the current Form No. 715 Power Flow Cases for Western North Carolina to study and analyze the power flow under constrained conditions. 4/8/14 NC completed, waiting on order</p>								
CE14-00100-000		Eggemeyer, Joel (Group)	Dynegy Inc	3/25/2014	4/22/2014	5/12/2014	Closed			Y
		<p><i>Subject:</i> CONTACT INFO - joel.eggemeyer@dynegy.com. (Group) FERC No 715 Annual Transmission Plan and Evaluation Report for 2014. The FERC No 715 data for all member companies is data that I use to aid in analysis of the North American electrical grid. This updated information allows for completion of long/short term analysis/studies to determine economical impacts, potential system incremental upgrades, line limitations, and system reliability issues. Additional ND - 1. George Schwager - received 3/26/14. 4/17/14: NOIR with reviewing attorney, K Allen (JW) 4/22/14: NOIR in OEA awaiting signature (JW) 4/24/14: NOIR e-mailed (JW) 5/12/14: Release letter mailed (JW)</p>								
CE14-00101-000		Hausman, Ezra	Ezra Hausman Consulting	3/26/2014	4/23/2014	7/31/2014	Closed			Y
		<p><i>Subject:</i> CONTACT INFO ezra@ezrahausman.com. Additional information received via email: Mon, Mar 24, 2014 at 3:12 PM. FERC 715 filings for various regions; immediate need is for NEPOOL region. As a consultant to state agencies and NGOs, I use PowerWorld software to model the feasibility of alternative electric resource scenarios. This supports my participation as an expert in planning processes. 4/9/14 NC completed; waiting on order</p>

CE14-00107-000 [Redacted] Sackheim, Kelly (Group) KC Pittsfield LLC 3/31/2014 4/28/2014 9/15/2014 Closed
Subject: CONTACT INFO: kelly@kchydro.com. (Group) Received via email: Mon, Mar 31, 2014 at 12:18 AM. Exhibits F, G & K, plus Dam Safety information pertaining to P-2310 facilities & operations at the proposed 3 sites of new small hydro developments (Lake Valley Canal Drop to Drum Spaulding Canal, Bear Canal Drop to Halsey Forebay, Alta Powerhouse). Given that PG&E asserts that copies of documents already provided to FERC could only be provided at considerable expense, the applicant requests permission to personally access SFRO & FERC-DC files to review all potentially relevant information that cannot be identified by FERC Accession No. At a minimum, the following classes of documents are sought: Submittals 20131204-0152 & 20140203-5181 inter alia, Part 12 IC Inspection Report & updated STI package, for Halsey Forebay, et al. Issuance 20140124-5007 SFRO Dam Safety Inspection Report Submittal 20131206-5026 - PG&E Topographic Survey Submittal 20131126-5100 - PG&E Drum Canal Flow Regulation Procedure, and Submittal 20121120-4008 - Pacific Gas and Electric Company's CD containing their approved Exhibit G and K drawings for the Drum Spaulding Project under P-2310 - resumably "Availability: Public" but when an attempt was made to download the .pdf files, a message was returned that the files were not for public viewing. *Note: classification for 20121120-4008 was changed to CEII in elibrary on 3/31/14. The applicant is the Manager of the company that proposes to obtain a 10-MW Exemption to develop and operate small hydroelectric facilities at the 3 sites specified. Additional ND received 3/31/14 - Nino Spagnuolo 4/10/14 NC completed; waiting on order

CE14-00108-000 [Redacted] Szydluk, Shawn Leidos Engineering 3/31/2014 4/28/2014 6/26/2014 Closed Y
Subject: CONTACT INFO: shawn.m.szydluk@leidos.com. Additional information received via email: Mon, Mar 31, 2014 at 9:17 AM. Request for latest annual FERC 715 filed power flow, short circuit, and dynamic stability database cases and associated files. I have requested this information in previous years. We request information for all areas and regions. These databases and files are necessary to prosecute work for clients across the country. Types of work (e.g. generation Feasibility, System Impact & Facility Studies) include the need to perform steady-state and stability analyses. 6/19/14: NOIR e-mailed (JW)

Powerflow data, constraints, available transmission capacity and power system maps. The FERC 715 Submittals are requested for Xcel Energy to use in the design, simulation, and analysis of the power system for our business needs. Additional NDs received 4/15 & 4/16.</p> <p>8/15/14: NOIR being reviewed by K. Allen 8/22/14: NOIR e-mailed (JW) 8/25/14: Release letter in OEA awaiting (JW)</p>								
CE14-00123-000		Preston, Eugene	Transmission Adequacy Consulting	4/14/2014	5/12/2014	11/20/2014				Y
		<p><i>Subject:</i> Contact info: g.preston@ieee.org. Additional information received via email: Fri, Apr 11, 2014 at 10:50 PM. FERC Form 715 power flow data in ascii format for all regions and also the corresponding maps in the April 1, 2014 filings to FERC. I perform power flow transmission adequacy studies for wind and solar clients (ATC) such as JP Morgan and others listed on the first page of my resume posted at http://egpreston.com/resume.doc Note that I am also an IMM member of ERCOT and a consultant member of WECC.</p>								

Federal Energy Regulatory Commission CEII / FOIA Case Tracking Case Report By Number - Summary Report

Number	Attorney	Requestor	Affiliation	Date Filed	Date Due	Date Closed	Status	I	567	715
CE14-00124-000		Vu, JohnBinh (Group)	NextEra Energy Transmission	4/15/2014	5/13/2014	9/17/2014	Closed		Y	
		<p><i>Subject:</i> Contact info: johnbinh.vu@nexteraenergy.com. Additional information received via email: Mon, Apr 14, 2014 at 10:15 AM. Transmission Powerflow Data for PJM. Need to become a PJM Member and have access to powerflow data in order to participate in solicitation of competitive transmission projects resulting from FERC Order 1000. Additional requester: John Deese.</p>								
CE14-00125-000		Ziegler, Andrew	Five Way Partners, L.P.	4/15/2014	5/13/2014	6/7/2014	Closed			
		<p><i>Subject:</i> Contact info: The Prior Notice Application to construct Line 1655 North of Columbia Gas Transmission, LLC filed in Docket No. CP14-99-000 on 3/6/2014 that is identified as Critical Energy Infrastructure Information. Columbia Gas Transmission, LLC plans to expand its Locust Point facility in Cumberland County, PA. The details of this expansion, including project drawings and location maps were filed as CEII. As part of the expansion project, Columbia Gas Transmission, LLC is seeking a 0.36 acre permanent easement from Five Way Partners, L.P., which owns the property adjacent to the Locust Point Facility. Columbia Gas Transmission further seeks to use 0.29 acres of Five Way Partners, L.P.'s property as a temporary workspace. With the information given to Five Way Partners, L.P. by Columbia Gas Transmission, LLC and the publicly available documents filed with the Commission, Five Way Partners, L.P. is unable to identify the property that Columbia Gas Transmission, LLC plans to burden. Five Way Partners, L.P. has concerns regarding their farming operations, security, and the affect that Columbia Gas Transmission, LLC's expansion will have on certain trees planted by Five Way Partners, L.P. Repeated attempts to contact Columbia Gas Transmission, LLC to gather the necessary information have been unsuccessful. Without the detailed information related to the Locust Point facility that was filed as CEII, Five Way Partners, L.P. is unable to negotiate with Columbia Gas Transmission, LLC to reach a mutually agreeable solution to the burdens that will be placed on Five Way Partners, L.P.'s property.</p>								
CE14-00126-000		Carter, Duane (Group)	PowerGrid Engineering, LLC	4/17/2014	5/15/2014	4/27/2015	Closed		Y	
		<p><i>Subject:</i> Contact info: dcarter@powergridmail.com. (Group) Additional information received via email: Tue, Apr 15, 2014 at 9:15 AM. (Form 715 (All). Multiregional Modeling Working Group (MMWG) Power Flow Models. We are an Engineering Firm supporting both Transmission Service Providers and Independent Power Producers looking to Interconnect. We need these models in order to perform analysis on the feasibility of generator interconnections. Additional requester: 1. William Wesley Baker 4-18-14 4/20/15: Release letter in OEA awaiting signature (JW)</p>								
CE14-00127-000		Obessis, Manos (GROUP)	PowerGEM, LLC	4/18/2014	5/16/2014	9/18/2014	Closed		Y	
		<p><i>Subject:</i> Contact info: mobessis@power-gem.com. (Group Request) PowerGEM requests a copy of the FERC Form 715 filings for 2014, Parts 2 (load flow cases). 3 (maps and diagrams) and 6 (evaluation of system performance), for all regions. GROUP REQUEST: James Mitsche, Boris Gisin, Johnny Willis, Scott Gass John Condren, Nathaniel Halladay, James David, Qun Gu, Seungwon An Julia Gilkina, Judith Brodeur. PowerGEM is an engineering consulting firm specializing in power systems reliability and market analysis throughout the United States. The requested data will allow PowerGEM to have the most up-to-date and accurate models and performance evaluation criteria in order to provide advisory and consulting services to our clients. The information requested with this form is sought on behalf of PowerGEM, LLC. The requester, Manos Obessis, is an officer of the Company and is authorized to request data and models on behalf of the company. All company employees agree to be bound by non-disclosure agreements that are individually executed and are attached to this request.</p>

CEII / FOIA Case Tracking
Case Report By Number - Summary Report

Number	Attorney	Requestor	Affiliation	Date Filed	Date Due	Date Closed	Status	1	567	715
CE14-00128-000		Rothman, Leslie David (Group)	Wixom Lake Association	4/18/2014	5/16/2014	10/10/2014	Closed			
		<p><i>Subject:</i> Contact info: 1. Accession # 20140410-0235 2. Accession # 20140331-4025 3. Accession # 20140414-0181</p> <p>Please be advised that I wish to add Dr. Donald Zakett as an authorized recipient of this information. Both I and Dr. Zakett have already signed NDA agreements in 2014, for FOIA CEII 14-76. I understand only one NDA must be signed in a given calendar year. 1. This document contains information related to annual peak flows necessary to calculate an accurate Flood Frequency Analysis, an interest that has been the cause of my previous FOIA-CEII request CEII 14-76. This information should not be CEII, it is data on the behavior of a natural system, similar to public data shared by USGS on stream flows. 2. This document contains information related to annual peak flows necessary to calculate an accurate Flood Frequency Analysis, an interest that has been the cause of my previous FOIA-CEII request CEII 14-76. This information should not be CEII, it is data on the behavior of a natural system. 3. This document contains information related to construction proposals for the Edenville Dam spillways. This information will indicate the possibility that the lake will be drawn down during the summer recreation season, a topic that was of relevance to my interests in documents requested in FOIA CEII 14-76. 8/22/14: NOIR e-mailed (JW) 8/25/14: Letter of Release in OEA awaiting signature (JW)</p>								
CE14-00129-000		Kade, Elizabeth / Beach], Andrew	East Tennessee Natural Gas, LLC	4/18/2014	5/16/2014	1/13/2015	Closed			
		<p><i>Subject:</i> Contact info: Volume I of the Final Environmental Impact Statement for East Tennessee Patriot Project, dated September 2002 under CP01-415. Accession #s 20020930-0497, 20020930-0498, 20020926-0382, 20020926-0604, 20020926-0605, 20020926-0606. (Note, Volume I, Part 4 of 5 is listed as CEII but lets me download it--this may need to be corrected in the system. Accession #20020926-0383.) We keep hard copy records of our clients' applications that we have worked on, including files for ETNG's applications, but discarded our hard copy of this FEIS because we assumed it was publicly available on FERC's eLibrary. We would like a copy for our files since it is not publicly available in the eLibrary. It seems like Volume I should only contain public information, perhaps the eLibrary CEII designation is in error? 12/12/14 - Requester is longer with lawfirm and Andrew Beach is new contact regarding this matter. 1/13/15 - Mr. Beach was advised that the classification for accession numbers 20020930-0498 and 20020930-0497 have been changed from CEII to privileged. He will need to submit a FOIA request for this material. He was also advised that the remaining four documents (accession numbers 20020926-0382, 20020926-0604, 20020926-0605 and 20020926-0606) have been changed from CEII to public and are now available in the FERC elibrary. Record closed/ withdrawn - 1/13/15.</p>								
CE14-00130-000		Kobza, Lawrie	Susan Feith and George Mead	4/18/2014	5/16/2014	7/25/2014	Closed			
		<p><i>Subject:</i> Contact info: lkobza@boardmanclark.com. Letter to Consolidated Water Power Company discussing the Inflow Design Flood review report on the proposed land exchange - license amendment application for the Biron Project under P-2192 (20140416-0160)</p>								
CE14-00131-000		Stemplewicz, Aaron (GROUP)	Delaware Riverkeeper Network	4/25/2014	5/23/2014	3/24/2015	Closed			
		<p><i>Subject:</i> Contact info: aaron@delawareriverkeeper.org. Was notified via letter by FERC (accession number 20140422-3061 for docket number CP13-551) that documents responsive to our organization's review of Transco's application is contained in accession numbers 20130930-5056 and 20130930-5026 (Docket No CP13-551). We therefore request all CEII documents contained within those accession numbers. The CEII information that we request will help determine whether Transco has improperly segmented its projects, and to help determine whether the project meets safety standards. Additional requester - Richard Kuprewicz - 4/28/14.</p>

----------------	--	---------------------------	--------------------	-----------	-----------	-----------	--------	--	--	--

Subject: CONTACT INFO: caskey@ucseng.com. (Group) Accepted: 5/30/14. Additional information received via email: 5/28/14. Received via 5/23/14. Form 715 (All) Formerly known as Pike Energy Solutions, LLC changed its name to UC Synergetic, LLC. In 2014, UC Synergetic hired three employees to provide consulting services in addition to myself. A Consultant NDA is attached for myself and these three gentlemen. No other individuals will need to submit an NDA from our organization at this time. The data is only on our individual hard drives and backup-drive. It is not accessible through any corporate computer or server. We are also the only one currently running system studies using these models in our organization. If we should add any additional personnel to our company to run studies or if we need to have others access the data, then I will submit an NDA for that individual(s) at that time. (Form 715 - All areas) REQUESTERS: Charles Askey, Mike Powell, System Planning Engineer, Phoenix, AZ Srijib Mukherjee, Senior Consultant, Raleigh, NC; Sasan Salem, Senior Consultant, Raleigh, NC. Intent Usage of Information: UC Synergetic, LLC (UCS) under contract from its various clients, performs staff augmentation services, feasibility studies, studies of alternatives, generation interconnection and system impact studies. In order to perform these studies, UCS needs access to the power flow, short circuit and dynamic models in the region in which the client is seeking transmission / interconnection service. UCS has current activities in TRE, MRO, RFC, WECC, SPP, SERC, and FRCC. UCS has a variety of clients including wind, solar, gas, and biomass developers that are requesting feasibility studies. UCS prefers not to provide contact information for all developer clients, because we have entered into non-discloser agreements with them. We are under contract with a Transmission Provider – Georgia Transmission Corporation (GTC) - to perform a variety of system studies and I have signed the FERC Code of Conduct and SERC Non-discloser agreement. With GTC I have access to the NERC MMWG Cases in addition to the Southern internal models; however, because of the previously mentioned agreements, I am not able to use these cases/models to perform work for other clients. A contact at GTC is: Mr. Rob Wiley Group Lead, Bulk System Planning Georgia Transmission Corporation 770-270-7832 rob.wiley@gatrans.com
