FP-13-023778	Kelly	Dot	5/6/2013	Granted	I'm reading the Searsport FS/EA. I notice that EA highlights the Corps Environmental Operating Principles. I would like to see more of the win-win described in item 7 and more of the building and sharing of information on the environment that is impacted by your work and permits that is described in point 6, Understand the Environment. Within the month, I requested of Mr. Clement that I be informed if any scientific data or reports had been received on the disposal of the dredged spoils from the BIW operation that occurred this winter in the Kennebec Narrows. Instead of the response that I'd need to submit a FOIA in order to find out whether BIW, their consultants or others had submitted information or data regarding the dredging disposal that took place this winter in the Kennebec Narrows (with noticeable pollution), I would think this information would be willingly shared in order to be consistent with your Environmental Operating Principles. If you think my request is inappropriate, I'd like you to let me know. If there is a different authority that I should explain my request to for open sharing of information, please let me know. I'd appreciate meeting with them.

FP-13-024138	Sellers	Michelle	6/6/2013	Administratively Closed	Would like to request information about a complaint filed against me in 2011. "Allegations" were being made against our office (mostly myself as a timekeeper) about how we processed timekeeping. Donna Mynk and Mark Newman audited us for several months regarding these complaints, and eventually came to the office to interview about 12 people including myself--in which I was told what I already knew. Somebody from our office made serious allegations against me and the way our office was told to input time (according to Bill Gilmour's way).. This did not result in any major offenses, but I would like to request the outcome from the complaint and who were the complaintees please.

FP-13-024996	Buchanan Madeja	Jamy	6/12/2013	Granted	I write to request access to review and copy all records in the possession or control of the Army Corps of Engineers concerning the designation of Pigeon Cove in Rockport, Massachusetts as a federal anchorage area/federal navigation project. I have spoken with Ed O'Donnell and Brian Valiton, and I am aware these are quite old records likely to be in storage or even perhaps on microfiche. Respectfully, I request as speedy access as the Corps is able to provide for even a portion of the records while the others are being assembled or retrieved. I require review of all public comments and notes of consultations concerning the project designation as well as the final Congressional authorization, for example.

FP-13-024999	Fuller	Jane	6/14/2013	Granted	This is a request under the Freedom of Information Act (5 U.S.C. 552). We request that a copy of the following document(s) be provided to me. In 1988 Danversport Yacht Club and Marina was allowed to construct a footbridge across the Porter River in Danvers MA. My home is just beyond the footbridge at the point where Millet Creek and the Porter River meet. When I purchased this home in 1997 the prior owners told us that one of the conditions of the footbridge being built was that the owners of the homes with water access would be allowed to keep a boat free of charge at the marina. Since that time we have had a 22' boat a 17' boat and now own a 21' boat which at this very moment is on a dock at the marina. Last week we were told that they could no longer offer the "courtesy" of keeping our boat over there. I was hoping you could clarify the order of conditions for this site. We are individuals seeking information for personal use. We request a waiver of fees for this request because disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to the public understanding of the operations or

FP-13-031433	Patch	Tom	7/29/2013	Administratively Closed	The documents I sent to you were a PDF file that I had created of the original documents sent to me by ACOE in response to my request. The original of the documents sent to me with the ACOE seal were destroyed by accident. I am not the applicant, nor do I represent the applicant. I am the opposite party to litigation involving Mr. Perette and the 3 Otis Street, Hingham, MA property. My search of the Registry of Deeds reflects these documents are not recorded. My objective is to qualify these documents for admission into evidence under the applicable rules of evidence in effect in the Commonwealth of Massachusetts courts to qualify as an exception to the rule against hearsay (i.e., statements originally made outside of a courtroom being offered into evidence in a court proceeding other than than by the person making the out of court statement to prove the truth of that statement). My understanding of the applicable rules of evidence is the authentication - e.g., here that the documents are true copies of the original thereof maintained in care, custody, and control of ACOE - step necessary to meet this hearsay exception is accomplished

FP-13-031505	Rothofer	Eric	8/26/2013	Administratively Closed	Requesting any and all communications and reports (including, but not limited to, email, Serious Incident Reports (SIRs), Criminal Incident Reports (CIRs), emails, transcripts of telephonic reports and text messages) regarding the 04 July 13 protests outside of Camp Williams regarding the NSA and/or NSA affiliates by any and all groups including Restore the Fourth. After contacting and questioning Camp Williams Range Control and Command Staff, it appears that LTC Tyler Smith, Executive Officer for Camp Williams, was returning to the Camp and observed the protestors. He noticed that they were in an area belonging to Camp Williams, and mentioned it to the gate guard, who works for Chapman Security; an independent company contracted to maintain security for Utah Army National Guard locations. A representative from Chapman Security proceeded to ask the protestors to relocate. LTC Smith did not record the incident in the staff journal, and Range Control did not record the event because it was not reported to them. In short, the Utah Army National Guard does not have a record of the incident. If a record of it was recorded, Chapman Security would be the contact for this record.

The project is planned in an area that is owned by Mr. and Mrs. Andrew Woodrome. Mr. and Mrs. Andrew Woodrome are requesting a copy of this form because the form granted the Corps access to the Woodrome's property to verify a wetland delineation that was conducted on their property by a firm contracted by the Commissioners Office. The form was signed by the Floyd County Commissioners' Office, however, the Woodromes are the property owners and did not sign the form, nor did they grant the Corps access to the property to verify a wetland delineation on the property.

FP-14-001799	Petersen	John	10/24/2013		Any document indicating which entity ultimately received the task order that was the subject of the bid protest of JACER Corporation, addressed in the decision of the U.S. Government Accountability Office (GAO) issued on November 10, 2011, under GAO's docket number B-405859 (a copy of the GAO decision is enclosed). According to the GAO decision, the Department of the Army, Defense Health Services Systems, had awarded a task order to Irving Burton Associates, under request for task order proposals No. DLB-11-17339, for program management support services. The GAO decision states that the contracting agency advised GAO that the agency was conducting an investigation. Our FOIA request relates to the result of the Army's investigation that is, we are requesting a document from after GAO's November 10, 2011, decision, indicating whether Irving Burton Associates, JACER Corporation, or another company ultimately won the task order for the program management support services at issue. • If the solicitation was cancelled, any document indicating that. • If the award is still pending, the most recent available document indicating that.
