Dear Mr. Greenewald:

This letter is in reference to your Freedom of Information Act (FOIA) request, in which you requested copies of the Federal Highway Administration's (FHWA) FOIA log for calendar year 2016.

Attached is a copy of the FHWA FOIA log you requested. This record is being released to you in full, except that we are withholding certain personal information, as release of this information would constitute a clearly unwarranted invasion of personal privacy under 5 U.S.C. 552(b)(6) and 49 CFR 7.13 (c)(6). Be advised that no fees have been assessed in connection with this request.

After careful consideration of your request, and based on the above reasons, your request is denied in full. Pursuant to U.S. Department of Transportation regulations (49 C.F.R. § 7.32), you have the right to appeal this decision in writing to Ms. Sarah Shores, Associate Administrator for Administration, Federal Highway Administration. Your appeal may be mailed to 1200 New Jersey Avenue, S.E., E66-322, Washington, D.C. 20590-9898, or sent via e-mail at FHWA.foia.appeals@dot.gov or via fax at (202) 366-7499. Should you wish to exercise this right, the Agency decision on the appeal will be the final administrative action. Your appeal must be postmarked or, in the case of electronic or facsimile transmission, submitted within ninety (90) calendar days from the date the initial determination is signed. The appeal should include the FHWA file or reference number assigned to the request and all information and arguments relied upon in making the appeal.

You also have the right to seek dispute resolution services from the FHWA FOIA Public Liaison, Christopher Richardson, FOIA.PublicLiaison@dot.gov, via phone (202) 366-0740; or the Office of Government Information Services (<https://ogis.archives.gov>) via phone (202) 741-5470/toll free 1(877)684-6448; fax (202) 741-5769 or e-mail ogis@nara.gov.

2016-0154	CLOSE	3/10/2016	Siudara		This introduction will allow you to put my FOIA into perspective. Interstate Hwy 75 (I-75) connects Michigan to Florida. Construction began in the 60's. My home in Troy, Oakland County was constructed in 1970 and is located approximately 200 yds. from the 3 lanes of southbound I-75. Due to the significant increase in volume, truck and car noise over the past 20 years has progressively worsened to unbearable levels. Traffic noise at all hours can be

A week ago, construction began to widen I-75 to four lanes north and south. Citizens had no advance warning. The new lanes will make more intolerable what is already intolerable. Tall barrier walls have been erected in past years at various locations along I-75 and other Interstates to block traffic noise from nearby residences. I want to approach Mich DOT (which is managing the I-75 project with presumed federal money) advancing a request that a tall barrier wall be erected along the length of the new construction. 2017-0028	CLOSE	10/27/2016	Cabrera	R. E. Cabrera & Associates	In reviewing the Department's response to my FOIA request, I don't believe that the Department was fully responsive to that request. My original request was as follows: I'm interested in materials submitted by TTI / Trinity Highway Products in support of their Split Rail Terminal (SRT). The SRT evaluations begin with approval letters CC-31, CC-31A, CC-51, CC-51A, and most recently CC-101. In addition to digital copies of all materials for the noted approvals, I am also requesting copies of the testing videos. Clearly, approval letters HSSD/CC-101, which was not provided to us, mentions materials submitted by the applicant which were not provided to us. How many of the other approvals CC-72, CC-100, CC-100a and their supporting documentation were left out of the Department's response. I would appreciate a more thorough response to my request.

2016-0153	CLOSE	3/8/2016	Ash	Flynn Wirkus Young, PC	It is my understanding that someone in the special collections division spoke with our office about a railroad centric research question. More specifically, I am inquiring about whether your archives have any records of the Federal Highway Grade Crossing Program that upgraded passive crossing signs with federal funds circa the early 1970s. Mr. Ron Tofani was Vermonts Rail Highway Crossing Program Coordinator at this time. Specifically, I am looking for any sign traffic control device upgrades completed at the Slaughterhouse Road Crossing in Northfield Falls, Vermont MP 69.11. Most likely, the Federal Highway Administration would have administered funds to the state for these railroad grade crossing upgrades . Any evidence or documentation that federal funds were used would be helpful, including: Contracts Invoices Accounting Records Engineering Plans Bids Federal Registrar Listings Communications between the State of Vermont at the FHWA It is our understanding that diagnostic reviews team made up of state, federal, towncity and railroad representatives evaluated crossings throughout Vermont and made the appropriate recommendations. Also, we believe that Lafayette Sheldon was awarded the contract for the sign work in and around the early 1970s, perhaps 1973.
